CHICAGO TUBE AND IRON CO. EMPLOYEES'
PROFIT SHARING & 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and November 30, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of Chicago Tube and Iron Co. Employees' Profit Sharing & 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan sponsored by Chicago Tube and Iron Company (the "Company") and covers substantially all full-time employees who have attained age 21 and completed three months of continuous service. Employees become eligible for matching contributions and profit sharing discretionary contributions after they have attained age 21 and completed one year of continuous service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective December 1, 2013, the Company amended the Plan to change the year from December 1 to November 30 to January 1 to December 31. Included in the financial statements is the short Plan year December 1, 2013 through December 31, 2013.

(b) Contributions

Contributions to the Plan are made by the participants in the Plan and by the Company and are subject to the provisions of Section 401(k) of the Internal Revenue Code.

Participants may elect to defer a percentage of their eligible compensation, as defined, to the Plan, subject to limits set forth by the Internal Revenue Code. Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. The Company may match the participant's elective contribution at its discretion. For the period ended December 31, 2013 and for the years ended November 30, 2013 and 2012, the match was equal to 50 percent of the first 3 percent plus 20 percent of the next 3 percent of eligible compensation that a participant contributes to the Plan. Additional profit sharing contributions may be made at the discretion of the Company's Board of Directors subject to certain limitations set forth in the Plan. The Company made discretionary contributions of $200,000 and $420,000 for the years ended November 30, 2013 and 2012, respectively. The Company made no discretionary contributions during the period ended December 31, 2013.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective trust fund as investment options for participants.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contributions, and allocations of the Company's discretionary contributions, forfeitures, and Plan earnings. Allocations of the Company's discretionary contributions and forfeitures are based on the participant's eligible compensation. Allocation of fund earnings are based on the participant's relative percentage of the account balance within each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan does not allow loans to participants.

(d) Vesting

Participants are fully vested in their voluntary contributions and the Company's matching contributions, plus actual earnings thereon upon entry to the Plan. Vesting of the Company's discretionary profit sharing contributions portion of a participant's account is determined in accordance with the following schedule:

Years of Service	Vested Interest
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%

A participant is 100 percent vested in the event of death or total and permanent disability.

(e) Forfeitures

Forfeited nonvested accounts will be used to restore previously forfeited participant account balances, offset plan expenses, or be reallocated to participants in the same manner as employer discretionary profit sharing contributions. At December 31, 2013, November 30, 2013 and 2012, there were no forfeited nonvested accounts available to restore participant account balances, offset plan expenses, or to be reallocated to participants. For the years ended November 30, 2013 and 2012, respectively, $5,236 and $9,319 of forfeitures were allocated to participant accounts.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(f) Payment of Benefits

In the event of the participant's termination of employment by reason of his voluntary or involuntary severance of employment, death, disability, or retirement, he shall be entitled to his benefit under the Plan, determined at the next anniversary date subsequent to his employment termination. If the vested benefit exceeds $1,000, the participant must consent to the distribution before it is made and may elect to delay the distribution unless one is required to be made. Participants may be able to receive an in-service distribution if they are age 65 but continue to work as defined in the Plan. The Plan allows for hardship withdrawals subject to certain restrictions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Investment Valuation (Continued)

Investments in the collective fund are valued based on the net asset value (NAV) of units, which is based on the observable prices of underlying assets, held by the Plan at year-end. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. Investments in the mutual funds are valued at the NAV of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Expenses

Certain administrative and operating expenses are paid by the Plan sponsor and excluded from these financial statements. The Plan sponsor does not expect to be repaid for these expenses. Fees related to the recordkeeping and custodial services are charged to participant accounts on a pro rata basis. Fees related to the administration of benefit payments are charged directly to the participant's account. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 - INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, other than the TD Ameritrade Self-Directed Brokerage Accounts, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments and cash equivalents as shown in the accompanying statements of net assets available for benefits at contract value were $36,929,587, $36,249,669 and $29,257,671 as of December 31, 2013, November 30, 2013 and 2012, respectively. The TD Ameritrade Self-Directed Brokerage Account of $2,244,356 and cash of $40 at November 30, 2012 was not certified by the custodian.

NOTE 3 - INVESTMENTS (CONTINUED)

b. Investment income as shown in the accompanying statements of changes in net assets available for benefits was $600,631, $5,555,627 and $2,870,885 for the period and years ended December 31, 2013, November 30, 2013 and 2012, respectively. Investment income for the TD Ameritrade Self-Directed Brokerage Account was $13,801 for the year ended November 30, 2012.

Other than during 2012 for the TD Ameritrade Self-Directed Brokerage Account, the Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The Plan's investments that represent 5 percent or more of the net assets available for benefits as of December 31, 2013 and November 30, 2013 and 2012 are as follows:

	December 31, 2013	November 30, 2013	November 30, 2012

Net investment appreciation in self-directed brokerage account	-	-	13,801
Total	$ 46,840	$ 4,951,939	$ 2,448,863

NOTE 4 - FAIR VALUE MEASUREMENTS

In determining fair value, the Plan uses various valuation approaches within the required fair value measurement framework. Fair value measurements are determined based upon the assumptions that market participants would use in pricing an asset or liability.

The Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a brief description of the nature and investment strategy of the collective trust fund.

Wells Fargo Stable Return Fund J (Galliard): The fund seeks to provide a moderate level of stable income without principal volatility while seeking to maintain adequate liquidity and returns. The fund invests in a variety of investment contracts and instruments issued by selected high-quality insurance companies and financial institutions.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 6 - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and November 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

The investments are currently managed by T.D. Ameritrade Trust Company, the trustee of the Plan. Therefore, all transactions qualify as party-in-interest. Fees incurred by the Plan for the trustee and custodial services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to a third party administrator of $30,788 and $19,967 which was not covered by revenue sharing for the years ended November 30, 2013 and 2012, respectively. The Plan sponsor pays directly any other fees related to the Plan's operations.

NOTE 9 - SUBSEQUENT EVENTS

Management evaluated subsequent events through July 9, 2014, the date the financial statements were available to be issued.
