Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the 401(k) investment assets held by John Hancock USA, the custodian of the 401(k) assets of the Plan, and transactions in those assets were excluded from the scope of our audit of the Plan's financial statements, except for comparing the information with related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the years ended September 30, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Except as discussed in the following paragraph, and because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have audited the statements of net assets available for benefits pertaining to the Profit Sharing assets of Park Cycle & Marine, Inc. as of September 30, 2010 and 2009, and in this report dated July 6, 2011, we expressed our opinion that such financial statements present fairly, in all material respects, the financial status of Park Cycle & Marine, Inc. Park Cycle & Marine, Inc.
Amended and Restated Profit Sharing Plan and Trust
Notes to the Financial Statements
September 30, 2010 and 2009

A. PLAN DESCRIPTION

The following description of the Park Cycle & Marine, Inc. (the "Company") Amended and Restated Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General **-** The Plan is a defined contribution plan with both a Profit Sharing feature and a 401(k) arrangement, which allows plan participants to defer current taxation on a portion of their salaries by electing a percentage of their salary to be contributed to the Plan.

The Profit Sharing portion of the Plan covers all employees of the company who have completed one year of service, based on one thousand hours of service as defined in the Plan, attained age 19, and who are not statutorily excluded. Plan entry dates are October 1 and April 1 after such requirements are first fulfilled.

Eligibility requirements for the 401(k) plan are the same as the eligibility requirements for the Profit Sharing portion of the Plan. Plan entry dates are October 1 and April 1 after the requirements are fulfilled. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

All employees who become eligible to participate in the Plan, who have not completed a Salary Deferral Agreement, will be automatically enrolled in the Plan. The sponsor will automatically withhold 4% of the employees' compensation.

Contributions **-** Participants may contribute up to 50%, in increments of 1%, of such participant's annual pretax compensation, as defined in the Plan and subject to the annual maximum amount permissible under the Internal Revenue Code. 401(k) deferrals are participant directed. John Hancock provides recordkeeping and investment custodial services.

The Plan allows for Roth elective deferral contributions.

The Plan allows for participants to receive an employer matching contribution equal to 25% of each dollar of pre-tax contributions up to 4% of each participant's compensation. Matching contributions to the Plan, net of forfeitures reclassified as a matching contribution, totaled $35,657 for the year ended September 30, 2010.

Employer discretionary Profit Sharing contributions are determined annually by the Board of Directors of the Company. Eligible employees must be actively employed on the last day of the Plan year to receive a contribution. The contribution is allocated according to the proportion of each eligible employee's compensation to the total compensation of all eligible employees. At September 30, 2010, there were unallocated employer Profit Sharing contributions receivable of $110,332.

As of January 31, 2010, the Profit Sharing assets are participant directed. Meeder Asset Management provides investment advisory services. The assets are held by various institutional custodians. Annual contributions from all sources are subject to limitations as set forth in the regulations relating to defined contribution plans.

Participant Accounts - Separate participant accounts are maintained by the administrator for each participant and include the amount and type of the participant's deferrals, rollovers and the amount and type of the employer's contribution. Contributions, investment earnings and Plan expenses are allocated based on participant earnings or account balances, as defined, and are allocated as received by the trust. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - The Plan provides for establishment of investment funds in which the Plan's assets are invested. Participants are permitted to direct the investment of assets of their 401(k) accounts. As of January 31, 2010, participants are also permitted to direct the investments of assets of their profit sharing accounts. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are fully vested in their contributions to the 401(k) account at all times.

The vested portion of the participants' 401(k) account attributable to the employer matching contribution and the employer Profit Sharing contribution is determined according to the following schedule:

Completed Years of Service	Vested Amount
2	20%
3	40%
4	60%
5	80%
6 or more	100%

A year of vested service is a year in which a participant has at least 1,000 hours of service. If employed by the Company at the time of death, disability, or retirement, participants become fully vested.

Notes receivable from participants - Participants may borrow, from their 401(k) account only, an amount of at least $1,000 and not to exceed the lesser of (1) $50,000, reduced by the highest outstanding loan balance during the prior twelve month period, or (2) 50% of the vested portion of their account balance. The loan repayment schedule must provide for substantially level payments of principal and interest not less frequently than quarterly, and must not extend over a period longer than 60 months, except where the loan proceeds are used to acquire a principal residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest, determined by taking into consideration current rates being charged by lending institutions in the geographical area at the time the loan is made. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan Agreement.

Payment of Benefits - The Plan provides for payment of the participant's account value either in one lump sum or in periodic payments upon normal retirement, disability retirement, death or termination of employment. Participants with an account balance in excess of $1,000 may receive payment in the form of an annuity contract.

Unless otherwise instructed by the participant, the Plan makes mandatory distributions for all terminated participants with account balances less than $1,000 in a single lump sum.

Forfeitures - Forfeitures attributable to employer Profit Sharing contributions are allocated at the earlier of the distribution of the terminated participant or five consecutive one-year breaks in service to active Profit Sharing participants based on the same basis as the employer's contribution. Forfeitures attributable to matching contributions are used to reduce subsequent employer matching contributions at the earlier of the distribution of the terminated participant or five consecutive one-year breaks in service.

For the year ending September 30, 2010, the amount of forfeited non-vested accounts which were applied to reduce employer contributions was $3,069.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies followed by the Plan:

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Recording of Contributions - Both employee and employer contributions to the Plan are included in income in the year in which they are accrued by the Company. The Company and the Plan have the same fiscal year ending September 30.

Investment Valuation and Income Recognition

401(k) Plan – Investments are held in a group variable contract offered by John Hancock and, accordingly, has both a general account and a separate account. Assets are at stated aggregate fair value, which is determined based on the closing price reported on the last business day of the Plan year as follows:

Pooled Separate Accounts - Market values of units held in pooled separate accounts are determined daily by John Hancock based upon the initial value assignment, the net asset value of the mutual fund investments and the applicable investment management and administrative charges, as set forth in the group annuity contract.

Profit Sharing Plan – Assets are at stated aggregate value, which is determined based on the closing price reported on the last business day of the Plan year as follows.

Mutual Funds/Common Stocks
The shares of mutual funds and common stocks are valued at quoted market prices which represent the net asset values of shares held by the Plan at year-end.

Investment Transactions
Purchases and sales of securities are recorded on a trade-date basis.

Investment Income
Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses - The Plan allows administrative expenses to be paid either by the Trust or the Company. 401(k) plan administrative expenses of $2,011 were paid by the Trust in 2010. Profit Sharing administrative expenses of $22,497 were paid by the Trust in 2010. Amounts paid by the Trust are allocated to participant accounts quarterly based on individual account balances.

Reclassifications - Certain September 30, 2009 financial statement balances have been reclassified to conform to September 30, 2010 financial statement presentation. Such reclassifications had no effect on previously reported changes in net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through July 6, 2011, the date that the Plan's annual financial statements were available to be issued.

D. CERTIFICATION AND INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan administrator has elected to restrict the scope of the auditors' examination with regard to statements or information prepared by John Hancock ("Hancock"), the custodian of the 401(k) assets. Hancock has certified as to the completeness and accuracy of the investments it holds, changes in net assets arising from said investment activity, and the schedule of assets (held at end of year) as of September 30, 2010 and 2009, and for the years then ended.

The Plan maintains an investment contract with Hancock for the 401(k) investments. Hancock maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Hancock. The contract is included in the financial statements at fair value, which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

E. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") issued guidance on fair value measurements that defines fair value and provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in inactive markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2010.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate account and mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2010.

F. RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by John Hancock USA, the custodian of the 401(k) assets of the Plan. The transactions involving these investments are allowable party-in-interest transactions under ERISA.

G. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will immediately become 100% vested in their accounts.

H. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter on March 20, 2000, in which the IRS stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2006.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

J. PLAN AMENDMENTS

On February 23, 2010, the Plan was amended to allow participants to self direct their Profit Sharing account and to have all Profit Sharing investments valued on each business day.

On November 18, 2009, the Plan was amended to reflect the provisions of the Pension Protection Act of 2006 (the "PPA"), the Worker, Retiree and Employer Recovery Act (the "WRERA") and certain other provisions of applicable law and the applicable regulations that are generally effective after December 31, 2006 ("Applicable Law").

The Plan was amended and restated as of October 1, 2009.
