NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Gray Line of Tennessee Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) pension plan funded by discretionary employer and participant contributions and covering all qualified employees of RLCL Acquisition, LLC (dba Gray Line of Tennessee) (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan Administrator is responsible for the oversight of the Plan and determines the appropriateness of the Plan's investment offerings. The original effective date of the Plan was January 1, 2012.

Eligibility

Qualified employees are eligible to participate in the Plan on the first of the month after reaching 21 years of age and completing a year of eligibility service, as defined in the plan document.

Investment options

The participant may direct employer, employee, and rollover contributions into various investment options offered by the Plan. Participants may change their investment options at any time.

Contributions

Each participant may contribute from 1% to 90% of before-tax compensation during a plan year. Participants may change their salary deferral percentage at any time. Participants may also contribute amounts representing distributions from other qualified plans.

Employer contributions are discretionary. They are determined annually and may consist of matching and nonelective contributions.

Matching employer contributions are equal to a percentage as determined by the Employer at the end of the plan year and are allocated to each eligible participant who is eligible on the last day of the plan year. Employer nonelective contributions are allocated under the social security integration rules to each eligible participant who is eligible on the last day of the plan year. There were no employer matching or nonelective contributions made in 2013.

Contributions are subject to certain limitations in accordance with applicable regulatory requirements.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of employer contributions, earnings, and reduced by an allocation of administrative expenses, any distributions and losses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contribution, plus actual earnings thereon. Vesting in Employer contributions is based on years of service and vest 20% after two years of service, and 20% per year thereafter, resulting in 100% vesting after six years. A year of service for vesting purposes is based on an employment year, which is the 12-month period beginning on the date of hire. The method for crediting vesting service is based on the hours of service with 190 hours of service credited for each month in which at least one hour of service is paid or credited.

Notes receivable from participants

Notes receivable from participants are not permitted.

Payment of benefits

Benefit distributions equal to vested benefits are payable to participants or their beneficiaries upon retirement (age 65), death, disability, or termination of employment. The method of distribution shall be determined by the Plan Administrator in accordance with the provisions of the Plan.

In-service withdrawals

In-service withdrawals are permitted in the event of a hardship as defined in the plan document. Participant deferrals must cease for six months following a hardship withdrawal.

Forfeitures

Forfeitures result from termination of employment under circumstances which do not entitle the participant to be fully vested in his Employer contributions. As of December 31, 2013, no amounts within the Plan had been forfeited.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are presented on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines the valuation policies utilizing information provided by the investment advisors and Trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess contributions refund payable

In accordance with applicable discrimination testing rules, certain participants exceeded the maximum allowable elective deferral contributions for the years ended December 31, 2013 and 2012. Accordingly, excess contributions resulting from discrimination testing amounted to $2,197 and $3,327 respectively and were accrued and recognized as a liability in the accompanying statement of net assets available for benefits. The Plan reimbursed participants for these excess contributions and earnings in 2013 and 2014. In addition, $280 of excess contributions resulting from plan errors was accrued for the year ended December 31, 2012 and remains accrued at December 31, 2013 as these funds have yet to be reimbursed to the participant.

Payment of benefits

Benefit payments are recognized in the year paid.

Expenses

Substantially all expenses of maintaining the Plan are paid by the Employer. Investment related expenses are included in net appreciation in fair value of investments.

Events occurring after reporting date

The Plan has evaluated events and transactions that occurred between December 31, 2013 and October 6, 2014, the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

NOTE 3 - INFORMATION CERTIFIED BY THE TRUSTEE

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator has elected that information certified by the Trustee, State Street Bank and Trust Company, not be subjected to any auditing procedures, except for comparing such information to the related information contained in the financial statements.

The Trustee has certified to all investments (individually and in summary) as of December 31, 2013 and 2012, and all investment transactions for the year ended 2013, including investment income and realized and unrealized gains and losses, and all supplementary information.

NOTE 4 - INVESTMENTS

Investments that represent 5% or more of total Plan net assets as of December 31, 2013 and 2012, are as follows:

	2013	2012
Mutual funds:		
T. Rowe Price Retirement 2030 Fund - Class R	$ 3,700	$ 953
Franklin Rising Dividends Fund - Class A	**	744
Victory Small Company Opportunity Fund - Class A	**	762
T. Rowe Price Retirement 2020 - Class R	5,720	1,464
BlackRock Equity Dividend Fund - Investor A Class	**	1,296
T. Rowe Price Retirement 2025 Fund - Class R	5,979	2,011
PIMCO Investment Grade Corporate Bond Fund - Class A	**	601
Goldman Sachs Growth Opportunities Fund - Class A	1,413	932
Alger Capital Appreciation Institutional Fund - Class I	1,657	**
Common/collective trust funds:		
SSgA S&P 500 Index Fund - Class IX	2,191	1,156
SSgA Cash Series U.S. Government Fund - Class L	**	1,545

***Investment did not represent 5% or more of the Plan's net assets at the respective year end.*

During 2013, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Mutual funds	$ 2,425
Common/collective trust funds	616
Net appreciation in fair value of investments	$ 3,041

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan classifies its investments based on a hierarchy consisting of: Level 1 (valued using quoted prices from active markets for identical assets), Level 2 (not traded on an active market but for which observable market inputs are readily available) and Level 3 (valued based on significant unobservable inputs). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds: Valued at the NAV of the units of participation in the fund. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is deemed to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

There have been no changes in the valuation methodologies used at December 31, 2013 and 2012.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Employer believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31 2013 and 2012:

2013	Level 1	Level 2	Level 3	Total
Mutual funds:

*Information noted in these columns is the same for each investment type for 2013 and 2012.

(a) The fund seeks to maximize current income while preserving capital and liquidity. It primarily invests in U.S. Government securities and repurchase agreements collateralized by U.S. government securities.

(b) These funds seek to approximate the performance, before expenses, of the Standard & Poor's 500 Index over the long term.

(c) This fund seeks to replicate the returns and characteristics of the Russell 2000 Index.

NOTE 6 - RISK AND UNCERTAINTIES

The Plan invests in investment securities which are exposed to various risks, such as interest rate, credit and overall market risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

NOTE 7 - INCOME TAX STATUS

Effective January 1, 2012, the Plan adopted the Automatic Data Processing Prototype 401(k) and Profit Sharing Plan. This prototype plan ("Prototype") received its latest opinion letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has not applied for a separate determination letter.

The Prototype has been amended since receiving the opinion letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan and Prototype are designed and have been operated in compliance with the applicable requirements of the IRC, except as noted below. No provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan was adopted in 2012; therefore, all plan years are subject to income tax examinations.

For the year ended December 31, 2012, the Plan did not timely obtain an audit and file the required Form 5500. During 2014, the Employer filed under the United States Department of Labor Delinquent Filer Voluntary Compliance Program.

NOTE 8 - PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Parties-in-interest are defined under United States Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others. Plan investments are held by the Trustee; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, rather than as direct payments. Expenses related to the administration of the Plan totaled approximately $50 for the year ended December 31, 2013 and were paid by the Plan. Other Plan administrative expenses were paid by the Employer and not charged to the Plan.

These party-in-interest transactions are exempt from the prohibited transaction provisions of ERISA and the IRC.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of the financial statements to the Form 5500 for 2013 and 2012 follows:

	2013	2012
