BDO USA, LLP RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

The following description of the BDO USA, LLP Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan (401(k) profit sharing) covering all eligible partners, client service and administrative employees of BDO USA, LLP and certain affiliates (the Firm). Partners and employees are eligible to participate upon initial employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

A participant's elective deferrals to the Plan may not exceed 75% of compensation or the limitations provided in the Internal Revenue Code regulations. The Plan has an automatic or passive enrollment feature with a 3% 401(k) pre-tax deferral for all eligible new hires and rehired employees excluding partners. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Upon enrollment in the Plan, a participant may direct employer and employee contributions in any of various mutual fund investment options. Participants may change their investment options daily.

For partners, client service professionals and certain administrative employees, the Firm matches 50% of each participant's elective deferral up to 4% of compensation for those with three years of employment and 25% of each participant's elective deferral up to 2% of compensation for those with less than three years of employment after eligibility is reached. Any rollovers from other qualified plans are held in a participant's rollover account.

Partners and certain administrative employees are allocated a profit sharing contribution based on a percentage of the participant's earnings.

During 2011, the Plan was amended to change the Firm match and profit sharing contribution for certain administrative employees. The match calculation post amendment is identical to that used previously and to that indicated above, except that the 4% was reduced to 3% and the 2% was reduced to 1.5%. In conjunction with the change in the match for this group of employees, the profit sharing contribution was increased from 4% to 5% of the participant's compensation.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of (a) the Firm's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. PLAN DESCRIPTION - Continued

VESTING

A participant's interest in his/her elective deferrals, Firm matching contributions and rollovers are fully vested at all times and not subject to forfeiture for any reason. A participant's interest in his/her profit sharing contribution is vested after five years of employment for contributions made for plan years prior to 2007 and three years for subsequent plan years.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are limited to the lesser of $50,000 or 50% of a participant's vested account balance. On notes generated within the Plan, terms may not exceed five years, unless the note is used to acquire a participant's principal residence, in which case the note may not exceed ten years, and notes bear interest equal to the prime rate at loan origination plus 1%. Certain notes, rolled into the Plan from acquired firms, may differ in maturity terms and interest rates. Notes receivable are secured by the vested balance in the participant's account. Principal and interest are paid in equal installments through payroll deductions.

PAYMENT OF BENEFITS

A participant receives benefits upon retirement, termination, disability or death. Hardship distributions are permitted under certain conditions.

FORFEITED ACCOUNTS

Forfeitures are not allocated to any participant's investment account, but are applied to reduce the Firm's next succeeding contribution on behalf of the participants. The forfeiture account was $0 at December 31, 2013 and 2012, after using forfeitures to reduce employer contributions. In 2013, the Firm's profit sharing contributions were reduced by approximately $32,400 from forfeited accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements have been prepared using the accrual basis of accounting.

USE OF ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES - Continued

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

PAYMENT OF BENEFITS

Benefits are recorded when paid. At December 31, 2013 and 2012, Plan distributions requested by participants prior to the end of the plan year but paid in the following plan year were approximately $29,700 and $30,800 respectively.

PLAN EXPENSES

The costs of the administration of the Plan, such as recordkeeping fees and broker fees, are absorbed by the Plan. The Firm pays all other administrative fees.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events for potential recognition and/or disclosures through September 26, 2014, the date the financial statements were available to be issued.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Investment in Registered Investment Companies: Shares of mutual funds are valued at quoted market prices.

The following tables set forth by level, within the fair value hierarchy, the Plan investment assets at fair value as of December 31, 2013 and 2012.

6. RELATED-PARTY TRANSACTIONS

Certain investments are managed by the Trustee. Therefore, the Plan's investments in these funds qualify as party-in-interest transactions under ERISA. Personnel and facilities of the Firm have been used to perform administrative functions for the Plan at no charge to the Plan. Notes receivable from participants also qualify as party-in-interest transactions.

7. PLAN AMENDMENTS AND TERMINATION

The Firm may, at its discretion, amend or discontinue the Plan. In the event of complete termination of the Plan, each participant will become fully vested in their accounts.

8. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Firm by a letter dated February 18, 2004, and most recently March 19, 2012, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since the date of the letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of funds offered by the Plan. These funds are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

BDO USA, LLP RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

The following description of the BDO USA, LLP Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan (401(k) profit sharing) covering all eligible partners, client service and administrative employees of BDO USA, LLP and certain affiliates (the Firm). Partners and employees are eligible to participate upon initial employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

A participant's elective deferrals to the Plan may not exceed 75% of compensation or the limitations provided in the Internal Revenue Code regulations. The Plan has an automatic or passive enrollment feature with a 3% 401(k) pre-tax deferral for all eligible new hires and rehired employees excluding partners. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Upon enrollment in the Plan, a participant may direct employer and employee contributions in any of various mutual fund investment options. Participants may change their investment options daily.

For partners, client service professionals and certain administrative employees, the Firm matches 50% of each participant's elective deferral up to 4% of compensation for those with three years of employment and 25% of each participant's elective deferral up to 2% of compensation for those with less than three years of employment after eligibility is reached. Any rollovers from other qualified plans are held in a participant's rollover account.

Partners and certain administrative employees are allocated a profit sharing contribution based on a percentage of the participant's earnings.

During 2011, the Plan was amended to change the Firm match and profit sharing contribution for certain administrative employees. The match calculation post amendment is identical to that used previously and to that indicated above, except that the 4% was reduced to 3% and the 2% was reduced to 1.5%. In conjunction with the change in the match for this group of employees, the profit sharing contribution was increased from 4% to 5% of the participant's compensation.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of (a) the Firm's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. PLAN DESCRIPTION - Continued

VESTING

A participant's interest in his/her elective deferrals, Firm matching contributions and rollovers are fully vested at all times and not subject to forfeiture for any reason. A participant's interest in his/her profit sharing contribution is vested after five years of employment for contributions made for plan years prior to 2007 and three years for subsequent plan years.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are limited to the lesser of $50,000 or 50% of a participant's vested account balance. On notes generated within the Plan, terms may not exceed five years, unless the note is used to acquire a participant's principal residence, in which case the note may not exceed ten years, and notes bear interest equal to the prime rate at loan origination plus 1%. Certain notes, rolled into the Plan from acquired firms, may differ in maturity terms and interest rates. Notes receivable are secured by the vested balance in the participant's account. Principal and interest are paid in equal installments through payroll deductions.

PAYMENT OF BENEFITS

A participant receives benefits upon retirement, termination, disability or death. Hardship distributions are permitted under certain conditions.

FORFEITED ACCOUNTS

Forfeitures are not allocated to any participant's investment account, but are applied to reduce the Firm's next succeeding contribution on behalf of the participants. The forfeiture account was $0 at December 31, 2013 and 2012, after using forfeitures to reduce employer contributions. In 2013, the Firm's profit sharing contributions were reduced by approximately $32,400 from forfeited accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements have been prepared using the accrual basis of accounting.

USE OF ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES - Continued

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

PAYMENT OF BENEFITS

Benefits are recorded when paid. At December 31, 2013 and 2012, Plan distributions requested by participants prior to the end of the plan year but paid in the following plan year were approximately $29,700 and $30,800 respectively.

PLAN EXPENSES

The costs of the administration of the Plan, such as recordkeeping fees and broker fees, are absorbed by the Plan. The Firm pays all other administrative fees.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events for potential recognition and/or disclosures through September 26, 2014, the date the financial statements were available to be issued.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Investment in Registered Investment Companies: Shares of mutual funds are valued at quoted market prices.

The following tables set forth by level, within the fair value hierarchy, the Plan investment assets at fair value as of December 31, 2013 and 2012.

6. RELATED-PARTY TRANSACTIONS

Certain investments are managed by the Trustee. Therefore, the Plan's investments in these funds qualify as party-in-interest transactions under ERISA. Personnel and facilities of the Firm have been used to perform administrative functions for the Plan at no charge to the Plan. Notes receivable from participants also qualify as party-in-interest transactions.

7. PLAN AMENDMENTS AND TERMINATION

The Firm may, at its discretion, amend or discontinue the Plan. In the event of complete termination of the Plan, each participant will become fully vested in their accounts.

8. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Firm by a letter dated February 18, 2004, and most recently March 19, 2012, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since the date of the letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of funds offered by the Plan. These funds are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
