To the Administrators of the
Fisher Ranch 401(k) Profit Sharing Plan
Blythe, California

We have conducted a DOL limited-scope audit of the financial statements of the Fisher Ranch 401(k) Profit Sharing Plan for the year ended December 31, 2010 and have issued our report thereon dated June 17, 2011. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedules taken as a whole.

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated January 11, 2011. Professional standards also required that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Fisher Ranch 401(k) Profit Sharing Plan are described in Note 2 to the financial statements. In the current year, the FASB Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans,* was adopted and applied retrospectively. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates, such as the valuation of investments and notes receivable from participants, are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. These include the disclosures for investments and fair market measurements.

Difficulties Encountered in Performing the Audit
We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements
Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements With Management
For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations
We have requested certain representations from management that are included in the management representation letter dated June 17, 2011.

Management Consultation With Other Independent Accountants
In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to our retention as auditors for Fisher Ranch 401(k) Profit Sharing Plan. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the administrators and management of Fisher Ranch 401(k) Profit Sharing Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Eadie and Payne LLP

June 17, 2011

To the Administrators of the
Fisher Ranch 401(k) Profit Sharing Plan
Blythe, California

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Fisher Ranch 401(k) Profit Sharing Plan as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses; therefore, there can be no assurance that all significant deficiencies or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the following deficiencies in the Plan's internal control to be material weaknesses.

Timeliness of Contribution Remittance

During our audit, several instances of late contributions were found that meet the DOL criteria of prohibited transactions. The total amount of late contributions for the current year was reported in Schedule H, Line 4a of the Form 5500. Management indicated that efforts are underway to restore to the Plan any lost earnings and to make supplemental distributions when appropriate to former employees, beneficiaries, or alternate payees.

We recommend that future employee contributions be remitted electronically to the Plan's service provider, ING Institutional Plan Services, LLC (ING), to ensure timely remittance. We also recommend establishing procedures to detect potential late remittances. In the event of such occurrences, corrective action should be taken immediately.

Financial Reporting Process

Management does not maintain a general ledger for the Plan. While the Plan's service provider, ING, generates reports of the transactions in participants' accounts, these records are on a cash basis. Accounting principles generally accepted in the United States of America require the use of the accrual method of accounting. Management should establish controls over procedures used to enter transaction totals into the general ledger; initiate, authorize, record, and process journal entries into the general ledger; and record recurring and nonrecurring adjustments to the financial statements.

Financial Statement Preparation

The Plan does not have effective internal control over the preparation of the financial statements, including the related footnotes.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Plan's internal control to be significant deficiencies.

Design and Documentation of Internal Control

The Plan lacks sufficient written documentation of its internal control. In addition, there is no system for monitoring the operating effectiveness of the Plan's internal control over time or a process for reporting deficiencies in internal control to management on a timely basis.

Document Retention

During our testing of participant accounts, we noted that the authorization by one participant to withhold a portion of his/her salary was missing. Such documentation is required to comply with the Plan's provisions. We recommend that management obtain current payroll withholding authorization for all current active participants in the Plan.

Hardship Withdrawals

Current tax rules impose a six-month suspension of an employee's salary deferral or voluntary contribution to the Plan following a hardship withdrawal. During our audit, we noted one instance where this was not applied. We recommend that procedures be put in place to prevent future violations of this nature.

Nondiscrimination Testing

We noted that the nondiscrimination tests as performed by ING indicated that the Plan qualified as a Safe Harbor plan. Per the current design of the Plan, it does not qualify as a Safe Harbor plan. We recommend that the Plan administrator thoroughly review nondiscrimination testing performed by ING to ensure its accuracy. If errors are discovered, ING should be informed to make necessary corrections.

Employee Census Detail

We noted that the information provided to ING for the annual census report listed a current employee that is actively participating in the Plan as terminated from the Company. We recommend that the census data be reviewed for errors to ensure that an accurate participant count of the Plan is reported to ING.

This communication is intended solely for the information and use of the administrators of the Fisher Ranch 401(k) Profit Sharing Plan, management, and Plan participants and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Eadie and Payne LLP

INDEPENDENT AUDITORS' REPORT

The Administrators of the
Fisher Ranch 401(k) Profit Sharing Plan
Blythe, California

We were engaged to audit the accompanying statements of net assets available for benefits of Fisher Ranch 401(k) Profit Sharing Plan as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrators instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING Institutional Plan Services, LLC, as an agent of the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrators that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrators have obtained a certification from the agent of the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrators by the agent of the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the agent of the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. **DESCRIPTION OF PLAN**

The following description of the Fisher Ranch 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. **General**

The Plan is a defined contribution plan sponsored by Fisher Ranch, LLC (Company) and adopted by Fisher Ranch Corporation; River Packing, LLC; and Fisher Wireless Services as affiliated Companies for the purpose of providing retirement benefits to all eligible employees. The Plan became effective April 1, 1998 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's operations and investment options are directed by the Administrators of the Plan.

B. **Contributions**

Each year, participants may contribute up to 92 percent of pretax annual compensation, as defined in the Plan, up to the limit set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The employer match is to be determined by the Companies each year. For the current year, Fisher Ranch, LLC; Fisher Ranch Corporation; and River Packing, LLC contributed an amount equal to the first 3% that a participant contributes to the Plan plus 50% of the next 2% up to a total match of 4% that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of each Company (profit sharing contribution).

C. **Participant Accounts**

Each participant's account is credited with (a) the participant's contributions, (b) the Company's matching contributions, (c) an allocation of the Company's profit sharing contributions, and (d) earnings or losses on the participant's account. The Company's profit sharing contributions will be allocated on participant compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. **Eligibility and Vesting**

Employees become eligible to participate in the Plan on the first day of the quarter following the employee's date of hire after completing 12 months of service, provided the employment is at the rate of 1,000 hours per year. For eligibility purposes, all years of service with any of the Companies will be counted.

Participants are immediately vested in their contributions and the Company's matching and discretionary contributions plus actual earnings thereon.

E. **Investments**

Plan assets are invested with ING Institutional Plan Services, LLC (ING). A participant may direct contributions in any of 19 investment options offered.

F. **Notes Receivable From Participants**

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. In addition, participants are limited to only two outstanding loans at any given time. Participant's promissory notes are for fixed terms, require regular periodic repayment, and bear interest at rates comparable to rates currently charged by local institutional lenders for similar loans. The loans are secured by the balance in the participant's account. Principal and interest is paid ratably through regular payroll deductions.

G. **Payment of Benefits**

On termination of service due to death, disability, or retirement, a participant will receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum distribution.

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

A. **Basis of Presentation**

The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and the changes in those net assets.

B. **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

C. **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

D. **Notes Receivable From Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

E. **Payment of Benefits**

Benefits are recorded when paid.

F. **Operating Expenses**

All expenses of maintaining the Plan are paid by the Company.

G. **Subsequent Events**

The Plan has evaluated subsequent events through June 17, 2011, which is the date the financial statements were available to be issued.

3. **INFORMATION PREPARED AND CERTIFIED ON BEHALF OF THE TRUSTEE**

The following information, included in the accompanying financial statements and supplemental schedules, was obtained from data that was prepared and certified to as complete and accurate by ING on behalf of Reliance Trust Company for the years ended December 31, 2010 and 2009. Investments that represent 5% or more of the Plan's net assets are separately disclosed as follows:

	2010	2009
Investments at Fair Value		
Mutual Funds		
Western Asset Money Fund	$ 328,407	$ 275,383
MFS Total Return Fund	734,998	664,061
Legg Mason Aggressive Growth Fund	384,694	227,455
Other mutual funds	578,696	566,088
	2,026,795	1,732,987
Common/Collective Trust		
MCM Stable Asset Fund	57,219	73,013
TOTALS	$2,084,014	$1,806,000
Investment Income		
Net appreciation in fair value of investments	$ 151,201	
Dividends	26,427	
TOTAL	$ 177,628	
Notes receivable from participants	$ 78,597	$ 61,226
Interest income on notes receivable from participants	$ 4,101	

During the year ended 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $151,201 as follows:

	AMOUNT
Net Appreciation in Fair Value of Investments	
Mutual funds	$ 149,732
Common/collective trust	1,469
TOTAL	$ 151,201

4. **FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of units held by the Plan at year-end.

Common collective trusts: Valued at the net asset value (NAV) of units held by the Plan at year-end. Individual participants may redeem units held for benefit payments or transfer to noncompeting funds without restriction. Participant-directed transfers to competing investment options must be held in a noncompeting investment option for a minimum of 90 days before a transfer to a competing option may occur. Stable value funds, money market funds, and other fixed-income investment options with a duration of less than three years are considered competing options. A twelve-month (one year) advance written notice is required for plan sponsor-directed withdrawals or liquidation.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	ASSETS AT FAIR VALUE AS OF DECEMBER 31, 2010

TOTAL ASSETS AT FAIR VALUE	$1,732,987	$73,013	$ -	$1,806,000

5. **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

6. **NET ASSETS AVAILABLE FOR BENEFITS**

The net assets available for benefits, amounting to $2,150,119 at December 31, 2010, included benefits payable of $134,418 to individuals who terminated from the Plan as of December 31, 2010 but who had not yet received their benefits.

7. **TAX STATUS**

The Company does not have a determination letter from the Internal Revenue Service (IRS) stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. However, the IRS has issued an opinion letter for the ING Standardized 401(k) Profit Sharing Plan, which the Company has adopted. The Plan administrator and Plan management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain positions taken or expected to be taken by the Plan that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2007.

8. **PLAN ADMINISTRATION**

Certain administrative functions are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan. The Company absorbs significant costs of the Plan.

9. **RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. **RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Schedule H of Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$2,150,119	$1,864,148
Excess contributions payable	17,143	13,094
Participants' loans deemed in default	(4,389)	-
NET ASSETS PER SCHEDULE H OF FORM 5500	$2,162,873	$1,877,242

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2010 to Schedule H of Form 5500:

	AMOUNT
Net increase per the financial statements	$285,971
Excess participant contributions	17,142
Participants' loans deemed distributed	(4,389)
Return of prior-year excess participant contributions	(13,093)
NET INCREASE IN NET ASSETS PER SCHEDULE H OF FORM 5500	$285,631

11. **RECLASSIFICATIONS**

Certain reclassifications have been made to the 2009 financial statement presentation to correspond to the current-year format. Total net assets available for benefits are unchanged due to these reclassifications.
