Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Watermill Express Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established by Watermill Express, LLC (the "Company") on January 1, 1997 and subsequently amended. The Plan is a defined contribution plan with a profit-sharing arrangement covering all non-union, non-resident alien eligible employees of the Company who are 21 years of age or older. Plan entry is the first day of the month coinciding with or following hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Watermill Express, LLC (the "Company") administers the Plan. Ascensus, Inc. ("Ascensus"), and its wholly owned subsidiary Frontier Trust Company ("Frontier"), acts as the trustee, custodian, and third-party administrator; manages Plan assets; and maintains the Plan's records. Plan participants are offered a variety of investment options through various money market and mutual funds. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted the United States of America ("U.S. GAAP").

Contributions

Participants may make before-tax contributions ranging from 1% to 15% of their annual compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. All participants who have reached the age of 50 by the end of the Plan year are eligible to make a catch-up contribution, as limited by the IRS, and likewise adjusted annually by the Secretary of the Treasury for inflation. The Plan also permits rollover contributions from other qualified retirement plans or annuity contracts. Employee contributions to the Plan are made through regular payroll deductions.

The Company may make discretionary matching contributions on a payroll basis of elective deferrals and discretionary profit-sharing contributions. To qualify for discretionary matching contributions, participants must have completed one year of service. The Company made a discretionary matching contribution, up to 2% of compensation, of $50,374 for 2013. The Company chose not to make a discretionary profit-sharing contribution in 2013. The Company has the right to designate all or a portion of the discretionary matching contributions as qualified. To the extent discretionary matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan participant earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are immediately 100% vested in their voluntary contributions, rollovers, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A year of vested service is defined as a year in which the participant worked 1,000 hours. A participant's account becomes 100% vested upon death, disability, attaining normal retirement age (the age of 65), or if the Plan is terminated.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. The loans are secured by the balance in each participant's account and bear interest at a rate of 8%, as determined quarterly by the Plan administrator, with maturities ranging from January 2014 through September 2018. The term of any loan may not exceed five years, unless the loan is made for the purpose of acquiring a primary residence, in which case the term may be extended over a longer period, as established by the Plan administrator at the time of the loan. Principal and interest is paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a period not to exceed the life expectancy of the participant. Accounts with balances less than $5,000 may be immediately distributed as a rollover upon a distribution event unless otherwise directed by the participant. Accounts with balances less than $1,000 will be paid out in a cash lump-sum distribution. The Plan allows in-service distributions once the participant has reached the age of 59½ or in the case of financial hardship. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to reduce employer contributions or pay Plan expenses. The balance of this account at December 31, 2013 and 2012 was $34,886 and $25,899, respectively. For the year ended December 31, 2013, employer contributions were reduced by $16,123 from forfeited accounts.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by Ascensus. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties (continued)

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 2 - Assets Certified by Ascensus

Ascensus, as an agent for Frontier, has certified in writing to the Plan administrator that the fair value of investments and loans at amortized cost as of December 31, 2013 and 2012 and the income earned or lost thereon for the year ended December 31, 2013, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Ascensus, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The fair value of investments greater than 5% of net assets available for benefits was the following:

	December 31,			
	2013		2012	
BlackRock Large Cap Growth Investor A	$ 744,813		$ 599,134	
BlackRock S&P 500 Index Institutional	$ 555,648		$ 429,351	
BlackRock Mid Cap Value Opportunities Investor A	$ 451,919		$ 374,711	
Thornburg International Value R4	$ 416,504		$ 404,090

BlackRock Global Allocation Investor A	$ 305,293		$ 346,269	
PIMCO GM Total Return A	$ 230,112		$ 175,914	*
Eaton Vance Large Cap Value A	$ -	*	$ 328,034	

* Indicates investments less than 5% of net assets available for benefits at the respective date.

Note 3 - Fair Value Accounting

U.S. GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2013 and 2012.

Assets at fair value as of December 31, 2013 are as follows:

Description	Level 1	Level 2	Level 3	Total
Money market funds	$ 67,166	$ -	$ -	$ 67,166
Mutual funds				
Value	954,456	-	-	954,456
International	835,897	-	-	835,897
Growth	806,003	-	-	806,003
Blend	785,063	-	-	785,063

Total mutual funds	4,082,438	-	-	4,082,438
Total	$ 4,149,604	$ -	$ -	$ 4,149,604

Note 3 - Fair Value Accounting (continued)

Assets at fair value as of December 31, 2012 are as follows:

Description	Level 1	Level 2	Level 3	Total
Money market funds	$ 101,994	$ -	$ -	$ 101,994
Mutual funds				
International	837,508	-	-	837,508

Total mutual funds	3,522,419	-	-	3,522,419
Total	$ 3,624,413	$ -	$ -	$ 3,624,413

The valuation technique used to measure fair value of the money market funds and the mutual funds was based upon quoted market prices for the investments at the last reported sales price prior to the measurement date.

There was no change to the valuation technique used during the years ended December 31, 2013 and 2012.

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates with the Ascensus' opinion letter dated March 31, 2008, which was issued on the basic plan document, as adopted by the Plan. The Plan administrator believes that the Plan, as originally adopted and subsequently amended, continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Certain administrative errors have been identified in the operation of the Plan, and the Company is in the process of correcting these errors through the Voluntary Correction Program with the IRS. Management believes that the Plan continues to be tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 5 - Administration of the Plan

During 2013, the Company provided, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan. Although, from time to time, the Plan may pay these costs.

Note 6 - Excess Contributions Payable

Contributions received from participants for 2013 are net of payments of $26,821 made in February 2014 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant non-discrimination provisions of the Plan. Those amounts are also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2013.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Party-in-Interest Transactions

The Plan provides for loans to participants who are parties-in-interest. These transactions are exempt from the prohibited transaction rules.

Note 9 - Plan Corrections

During 2013, the Plan made corrections in the non-discrimination testing related to an administrative error. ACP and ADP testing has been corrected, and the Plan has recorded a cumulative employer contribution receivable in the amount of $55,343 as of December 31, 2013 and 2012, which includes corrections for the years ended December 31, 2011 and 2010. During 2014, the Company contributed these funds to the Plan.

Note 10 - Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. Except for the item below and item discussed in Note 9, there were no material subsequent events that required recognition or disclosure in the financial statements.

On January 1, 2014, the Plan was amended to clarify certain eligibility requirements.

Note 11 - Reconciliation to Form 5500

Participant loans and benefits paid to participants for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2013 due to a deemed participant loan.
