INDEPENDENT AUDITORS' REPORT

To the Plan Administrators
Graco Fishing & Rental Tools Employee Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Graco Fishing & Rental Tools Employee Savings Plan (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrators instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 9, which was certified by AXA Equitable, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrators that the trustee holds all of the Plan's investment assets and executes investment transactions. The Plan Administrators have obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan Administrators by the trustee is complete and accurate. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Graco Fishing & Rental Tools Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers employees who have completed at least three months of service and are age 21 or older. The Plan became effective January 1, 1998, was most recently amended January 1, 2009, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Contributions are made to the Plan by both employees and Graco Fishing & Rental Tools, Inc. (the Employer or Plan Sponsor). Participating employees may contribute up to 100% of their annual eligible compensation not to exceed the dollar limit set by the Internal Revenue Code (IRC). Eligible compensation is defined as wages, tips, and other compensation as reported in the employee's Form W-2, less quarterly bonuses and the value of personal use of Employer vehicles. Participants may also make contributions by rollover of distributions from other qualified retirement plans. Participants who attained age 50 or older before the end of the Plan year were eligible to make catch-up contributions of $5,500 for 2010. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer contributes to the Plan an amount equal to $.50 for each dollar of employee contribution, up to a defined percentage of eligible compensation.

Forfeitures

Forfeitures of non-vested participant account balances may be used to reduce those administrative expenses of the Plan paid by the Employer and to reduce future Employer contributions to the Plan. Forfeitures utilized for these purposes during the year ended December 31, 2010 totaled $31,824. Forfeitures for the year ended December 31, 2010 were $19,150. As of December 31, 2010 and 2009, the balance of the forfeiture account was $11,482 and $24,156, respectively.

1. Description of the Plan

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Employer contributions plus the earnings thereon is based on years of service. Participants vest in Employer contributions as follows:

Years of Service	Vested Interest
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits

Upon a participant's death, permanent disability, retirement, or separation of service, a participant or his/her beneficiaries may receive (1) a lump-sum amount equal to the vested benefits in his/her account, (2) annual installments over the expected life of the participant or the participant's surviving spouse or other beneficiaries, or (3) any combination of (1) and (2). Under certain circumstances, including financial hardship, participants may withdraw their contributions prior to the occurrence of these events. The Plan Administrators make determinations related to hardship withdrawals.

Notes Receivable From Participants

Participants may borrow from their Plan accounts up to an amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 1% above the prime interest rate at the date of issuance. Participants are limited to one outstanding loan at a time. The interest rates on the loans ranged from 4.25% to 7.00%, and maturities ranged from 2011 to 2016. As of December 31, 2010 and 2009, notes receivable from participants totaled $275,259 and $191,570, respectively.

In accordance with the applicable accounting standards, loans to participants have been retrospectively classified separate of investments as a receivable. Notes receivable from participants represent unpaid principal balance plus any accrued but unpaid interest.

1. Description of the Plan
Continued

Administrative Expenses
Loan processing fees and fees associated with additional participant services are paid from the accounts of the participants benefiting from the services. Certain other administrative expenses may be paid by the Plan Sponsor. Administrative expenses paid by the Plan were $21,164 for the year ended December 31, 2010.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates
The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan holds investments in pooled separate accounts of AXA Equitable (AXA). The pooled separate accounts are stated at fair value, based upon the quoted redemption value of the underlying assets on the last day of the Plan year. AXA determines unit values by dividing the funds' net assets at fair value by their units outstanding at the valuation date. Investments in the guaranteed interest account are reported at fair value based on a daily valuation formula described in the annuity contract.

Net appreciation (depreciation) in the fair value of investments includes realized and unrealized gains (losses) on investments, and is recognized in income currently. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Dividends and interest are reinvested as earned.

Risks and Uncertainties
In general, securities held by the Plan are exposed to various risks, such as interest rate, credit, liquidity, overall market volatility and changes in economic conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payments of Benefits
Benefits are recorded when paid by the Plan.

2. Summary of Significant Accounting Policies ***Continued***

Recent Accounting Pronouncements and Reclassifications

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Fair Value Measurements and Disclosures* (Topic 820): *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 amended Accounting Standards Codification 820-10 to clarify certain existing fair value disclosures, to add new disclosure requirements for Levels 1 and 2, and to separate disclosures for purchases, sales, issuances, and settlements relating to Level 3 measurements. ASU 2010-06 was effective for fiscal years beginning after December 15, 2009, except for the requirement to provide Level 3 purchases, sales, issuances, and settlements on a gross basis, which is effective for fiscal years beginning after December 15, 2010. Other than requiring additional disclosures, the adoption of ASU 2010-06 did not have a material effect on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting – Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants in the statement of assets available for benefits. Previously, loans to participants were required to be measured at their fair values and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. The adoption of ASU 2010-25 did not change the reported amounts of participant loans from the amounts previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009. Other than the reclassification requirements, the adoption of ASU 2010-25 did not have a material effect on the Plan's financial statements.

Subsequent Events

The Plan's management has evaluated events occurring subsequent to December 31, 2010 through July 18, 2011 (the date the financial statements were available to be issued.)

3. Investments

Reclassifications

Certain 2009 financial statement amounts have been reclassified to conform to the 2010 presentation.

3. Investments ***Continued***

The following table identifies the Plan's investments at fair value. Investments that represent five percent or more of the Plan's net assets as of December 31, 2010 and 2009 are separately identified. All investments are participant directed.

	2010	2009
Pooled separate accounts:		
Target 2025 Allocation	$ 1,244,930	$ 940,544
Target 2015 Allocation	877,754	658,039
Target 2035 Allocation	665,950	531,041
Other	586,978	418,040
Total pooled separate accounts	3,375,612	2,547,664
Guaranteed interest option	182,374	148,249
Total investments	$ 3,557,986	$ 2,695,913

The Plan's investments (including investments bought, sold and held during the year) appreciated in value by $397,266 during the year ended December 31, 2010 as follows:

Pooled separate accounts	$ 392,203
Guaranteed interest option	5,063
	$ 397,266

The fair values of the Plan's investments in pooled separate accounts managed by AXA, the trustee of the Plan, have been estimated using the net asset value per share of the investments. Major categories of pooled separate accounts in which the fund holds investments are as follows:

Large Cap Separate Accounts

These accounts invest primarily in equity securities of large, established corporations located within the United States, and to a limited extent, similar foreign companies. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AXA.

3. Investments
Continued

Mid Cap Separate Accounts
These accounts invest primarily in equity securities of companies with medium market capitalizations, and mutual funds invested in common stocks of such companies. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AXA.

Small Cap Separate Accounts
These accounts invest primarily in equity securities of companies with small market capitalizations. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AXA.

International Equity Separate Accounts
These accounts invest in stocks or other securities of corporations located outside of the United States, and mutual funds invested in common stocks of foreign corporations. Investments in these accounts may be made in either United States or foreign currency equivalents.

Fixed Income Separate Accounts
These accounts invest in bond and mortgage-type investments, mutual funds invested primarily in foreign and domestic fixed income investments, and real estate such as office buildings, industrial buildings, shopping centers, retail stores, and similar properties.

Short-term Fixed Income Separate Accounts
These accounts invest primarily in money market instruments such as the obligations of the United States government and its agencies, commercial paper, bank certificates of deposit, and similar short-term instruments.

3. Investments
Continued

Target Date Allocation Separate Accounts

These accounts invest primarily in other funds managed by AXA which represent a variety of asset classes and investment styles. The accounts are managed to target various years as retirement dates. The asset mix in the accounts becomes more conservative each year until reaching the year approximately ten years after the targeted retirement date. The asset classes in which the accounts may invest include domestic equity, international equity, and fixed income investments.

Balanced Asset Allocation Separate Accounts

These accounts invest in portfolios managed by AXA, with the intent to give the accounts broad exposure to the domestic and foreign equity and fixed-income markets.

In general, transfers and payments from a pooled separate investment account will be made within seven business days after the first valuation date following receipt of a written request. However, AXA reserves the right, under certain circumstances, to defer such transfers and payments up to 30 days. Such limitations on redemption do not apply to the payments to a beneficiary of a participant due to the participant's death or payments to a participant due to disability or retirement under the Plan.

4. Investment Account with Insurance Company

The Plan provides an investment option to invest in a non fully benefit-responsive guaranteed interest account with AXA. AXA maintains the contributions in a general account. The account is credited with a guaranteed and fixed rate of return. The guaranteed interest account is contractually obligated to repay the principal and a specified interest return that is guaranteed to the Plan by AXA.

The guaranteed interest account is non fully benefit-responsive, and therefore, fair value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed interest account.

The interest crediting rate is determined quarterly and credited to participants daily. The minimum crediting rate as of December 31, 2010 was 2.5%. The methodology for calculating the interest crediting rate is based on earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions.

5. Fair Value Measurement

The Plan follows the provisions of Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosure*, for assets that are measured at fair value on a recurring basis. ASC 820 establishes a framework for measuring fair value in the form of a fair value hierarchy which prioritizes inputs into valuation techniques used to measure fair value into three broad levels. This hierarchy requires assets to be classified by level in the entirety based upon the lowest level of input that was significant to the fair value measurement. The three levels of the fair value hierarchy per ASC 820 are as follows:

Level 1	Quoted prices in active markets for identical assets or liabilities.
Level 2	Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.
Level 3	Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The following tables set forth, by level of the valuation hierarchy, a summary of the Plan's investments measured at fair value.

December 31, 2010	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 3,375,612	$ -	$ 3,375,612
Guaranteed Interest option	-	182,374	-	182,374
Total	$ -	$ 3,557,986	$ -	$ 3,557,986

December 31, 2009	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 2,547,664	$ -	$ 2,547,664
Guaranteed Interest option	-	148,249	-	148,249
Total	$ -	$ 2,695,913	$ -	$ 2,695,913

The fair values of pooled separate accounts and the guaranteed interest option are determined under Level 2 based upon the publicly quoted pricing inputs for the investments that determine the net asset value of each investment.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants become 100% vested in their accounts.

During the year ended December 31, 2009, approximately 20% of the Plan's participants were terminated because of layoffs due to the significant downturn in the economy, which caused a partial plan termination. The Plan fully vested each terminated participant's Employer contributions as of the date of termination. Unpaid vested balances to terminated Plan participants totaled $0 and $23,852 as of December 31, 2010 and 2009, respectively.

7. Plan Income Tax Status

The Plan has adopted a non-standardized prototype plan which has obtained a favorable tax opinion letter from the Internal Revenue Service dated April 18, 2008, stating that the non-standardized prototype plan is qualified under the appropriate sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrators believe the Plan continues to operate in accordance with the requirements to qualify for tax-exempt status. Accordingly, no provision for income taxes is included in the accompanying financial statements.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by taxing authorities. The Plan Administrators analyzed the tax positions taken by the Plan and have concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress. The Plan Administrators believe the Plan is no longer subject to income tax examinations for years prior to 2007.

8. Party-in-Interest Transactions

The Plan's investments, which totaled $3,557,986 and $2,695,913 as of December 31, 2010 and 2009, respectively, consisted of pooled separate accounts and a guaranteed interest option. The pooled separate accounts and guaranteed interest option are managed by AXA Equitable, the trustee, and therefore, qualify as party-in-interest transactions. The notes receivable from participants, which totaled $275,259 and $191,570 as of December 31, 2010 and 2009, respectively, are also party-in-interest transactions.

9. Certification of Information Provided

The Plan Administrators have elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under that election, the Plan Administrators instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by AXE Equitable, the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

- The investment assets of the Plan.
- The recording of Plan investment transactions, including investment income.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrators
Graco Fishing & Rental Tools Employee Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Graco Fishing & Rental Tools Employee Savings Plan (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrators instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 9, which was certified by AXA Equitable, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrators that the trustee holds all of the Plan's investment assets and executes investment transactions. The Plan Administrators have obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan Administrators by the trustee is complete and accurate. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Graco Fishing & Rental Tools Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers employees who have completed at least three months of service and are age 21 or older. The Plan became effective January 1, 1998, was most recently amended January 1, 2009, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Contributions are made to the Plan by both employees and Graco Fishing & Rental Tools, Inc. (the Employer or Plan Sponsor). Participating employees may contribute up to 100% of their annual eligible compensation not to exceed the dollar limit set by the Internal Revenue Code (IRC). Eligible compensation is defined as wages, tips, and other compensation as reported in the employee's Form W-2, less quarterly bonuses and the value of personal use of Employer vehicles. Participants may also make contributions by rollover of distributions from other qualified retirement plans. Participants who attained age 50 or older before the end of the Plan year were eligible to make catch-up contributions of $5,500 for 2010. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer contributes to the Plan an amount equal to $.50 for each dollar of employee contribution, up to a defined percentage of eligible compensation.

Forfeitures

Forfeitures of non-vested participant account balances may be used to reduce those administrative expenses of the Plan paid by the Employer and to reduce future Employer contributions to the Plan. Forfeitures utilized for these purposes during the year ended December 31, 2010 totaled $31,824. Forfeitures for the year ended December 31, 2010 were $19,150. As of December 31, 2010 and 2009, the balance of the forfeiture account was $11,482 and $24,156, respectively.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Employer contributions plus the earnings thereon is based on years of service. Participants vest in Employer contributions as follows:

Years of Service	Vested Interest
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits

Upon a participant's death, permanent disability, retirement, or separation of service, a participant or his/her beneficiaries may receive (1) a lump-sum amount equal to the vested benefits in his/her account, (2) annual installments over the expected life of the participant or the participant's surviving spouse or other beneficiaries, or (3) any combination of (1) and (2). Under certain circumstances, including financial hardship, participants may withdraw their contributions prior to the occurrence of these events. The Plan Administrators make determinations related to hardship withdrawals.

Notes Receivable From Participants

Participants may borrow from their Plan accounts up to an amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 1% above the prime interest rate at the date of issuance. Participants are limited to one outstanding loan at a time. The interest rates on the loans ranged from 4.25% to 7.00%, and maturities ranged from 2011 to 2016. As of December 31, 2010 and 2009, notes receivable from participants totaled $275,259 and $191,570, respectively.

In accordance with the applicable accounting standards, loans to participants have been retrospectively classified separate of investments as a receivable. Notes receivable from participants represent unpaid principal balance plus any accrued but unpaid interest.

Administrative Expenses
Loan processing fees and fees associated with additional participant services are paid from the accounts of the participants benefiting from the services. Certain other administrative expenses may be paid by the Plan Sponsor. Administrative expenses paid by the Plan were $21,164 for the year ended December 31, 2010.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates
The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan holds investments in pooled separate accounts of AXA Equitable (AXA). The pooled separate accounts are stated at fair value, based upon the quoted redemption value of the underlying assets on the last day of the Plan year. AXA determines unit values by dividing the funds' net assets at fair value by their units outstanding at the valuation date. Investments in the guaranteed interest account are reported at fair value based on a daily valuation formula described in the annuity contract.

Net appreciation (depreciation) in the fair value of investments includes realized and unrealized gains (losses) on investments, and is recognized in income currently. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Dividends and interest are reinvested as earned.

Risks and Uncertainties
In general, securities held by the Plan are exposed to various risks, such as interest rate, credit, liquidity, overall market volatility and changes in economic conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payments of Benefits
Benefits are recorded when paid by the Plan.

Recent Accounting Pronouncements and Reclassifications

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Fair Value Measurements and Disclosures* (Topic 820): *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 amended Accounting Standards Codification 820-10 to clarify certain existing fair value disclosures, to add new disclosure requirements for Levels 1 and 2, and to separate disclosures for purchases, sales, issuances, and settlements relating to Level 3 measurements. ASU 2010-06 was effective for fiscal years beginning after December 15, 2009, except for the requirement to provide Level 3 purchases, sales, issuances, and settlements on a gross basis, which is effective for fiscal years beginning after December 15, 2010. Other than requiring additional disclosures, the adoption of ASU 2010-06 did not have a material effect on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting – Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants in the statement of assets available for benefits. Previously, loans to participants were required to be measured at their fair values and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. The adoption of ASU 2010-25 did not change the reported amounts of participant loans from the amounts previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009. Other than the reclassification requirements, the adoption of ASU 2010-25 did not have a material effect on the Plan's financial statements.

Subsequent Events

The Plan's management has evaluated events occurring subsequent to December 31, 2010 through July 18, 2011 (the date the financial statements were available to be issued.)

3. Investments

Reclassifications

Certain 2009 financial statement amounts have been reclassified to conform to the 2010 presentation.

3. Investments ***Continued***

The following table identifies the Plan's investments at fair value. Investments that represent five percent or more of the Plan's net assets as of December 31, 2010 and 2009 are separately identified. All investments are participant directed.

	2010	2009
Pooled separate accounts:		
Target 2025 Allocation	$ 1,244,930	$ 940,544
Target 2015 Allocation	877,754	658,039
Target 2035 Allocation	665,950	531,041
Other	586,978	418,040
Total pooled separate accounts	3,375,612	2,547,664
Guaranteed interest option	182,374	148,249
Total investments	$ 3,557,986	$ 2,695,913

The Plan's investments (including investments bought, sold and held during the year) appreciated in value by $397,266 during the year ended December 31, 2010 as follows:

Pooled separate accounts	$ 392,203
Guaranteed interest option	5,063
	$ 397,266

The fair values of the Plan's investments in pooled separate accounts managed by AXA, the trustee of the Plan, have been estimated using the net asset value per share of the investments. Major categories of pooled separate accounts in which the fund holds investments are as follows:

Large Cap Separate Accounts

These accounts invest primarily in equity securities of large, established corporations located within the United States, and to a limited extent, similar foreign companies. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AXA.

3. Investments
Continued

Mid Cap Separate Accounts
These accounts invest primarily in equity securities of companies with medium market capitalizations, and mutual funds invested in common stocks of such companies. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AXA.

Small Cap Separate Accounts
These accounts invest primarily in equity securities of companies with small market capitalizations. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AXA.

International Equity Separate Accounts
These accounts invest in stocks or other securities of corporations located outside of the United States, and mutual funds invested in common stocks of foreign corporations. Investments in these accounts may be made in either United States or foreign currency equivalents.

Fixed Income Separate Accounts
These accounts invest in bond and mortgage-type investments, mutual funds invested primarily in foreign and domestic fixed income investments, and real estate such as office buildings, industrial buildings, shopping centers, retail stores, and similar properties.

Short-term Fixed Income Separate Accounts
These accounts invest primarily in money market instruments such as the obligations of the United States government and its agencies, commercial paper, bank certificates of deposit, and similar short-term instruments.

3. Investments
Continued

Target Date Allocation Separate Accounts

These accounts invest primarily in other funds managed by AXA which represent a variety of asset classes and investment styles. The accounts are managed to target various years as retirement dates. The asset mix in the accounts becomes more conservative each year until reaching the year approximately ten years after the targeted retirement date. The asset classes in which the accounts may invest include domestic equity, international equity, and fixed income investments.

Balanced Asset Allocation Separate Accounts

These accounts invest in portfolios managed by AXA, with the intent to give the accounts broad exposure to the domestic and foreign equity and fixed-income markets.

In general, transfers and payments from a pooled separate investment account will be made within seven business days after the first valuation date following receipt of a written request. However, AXA reserves the right, under certain circumstances, to defer such transfers and payments up to 30 days. Such limitations on redemption do not apply to the payments to a beneficiary of a participant due to the participant's death or payments to a participant due to disability or retirement under the Plan.

4. Investment Account with Insurance Company

The Plan provides an investment option to invest in a non fully benefit-responsive guaranteed interest account with AXA. AXA maintains the contributions in a general account. The account is credited with a guaranteed and fixed rate of return. The guaranteed interest account is contractually obligated to repay the principal and a specified interest return that is guaranteed to the Plan by AXA.

The guaranteed interest account is non fully benefit-responsive, and therefore, fair value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed interest account.

The interest crediting rate is determined quarterly and credited to participants daily. The minimum crediting rate as of December 31, 2010 was 2.5%. The methodology for calculating the interest crediting rate is based on earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions.

5. Fair Value Measurement

The Plan follows the provisions of Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosure*, for assets that are measured at fair value on a recurring basis. ASC 820 establishes a framework for measuring fair value in the form of a fair value hierarchy which prioritizes inputs into valuation techniques used to measure fair value into three broad levels. This hierarchy requires assets to be classified by level in the entirety based upon the lowest level of input that was significant to the fair value measurement. The three levels of the fair value hierarchy per ASC 820 are as follows:

Level 1	Quoted prices in active markets for identical assets or liabilities.
Level 2	Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.
Level 3	Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The following tables set forth, by level of the valuation hierarchy, a summary of the Plan's investments measured at fair value.

December 31, 2010	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 3,375,612	$ -	$ 3,375,612
Guaranteed Interest option	-	182,374	-	182,374
Total	$ -	$ 3,557,986	$ -	$ 3,557,986

December 31, 2009	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 2,547,664	$ -	$ 2,547,664
Guaranteed Interest option	-	148,249	-	148,249
Total	$ -	$ 2,695,913	$ -	$ 2,695,913

The fair values of pooled separate accounts and the guaranteed interest option are determined under Level 2 based upon the publicly quoted pricing inputs for the investments that determine the net asset value of each investment.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants become 100% vested in their accounts.

During the year ended December 31, 2009, approximately 20% of the Plan's participants were terminated because of layoffs due to the significant downturn in the economy, which caused a partial plan termination. The Plan fully vested each terminated participant's Employer contributions as of the date of termination. Unpaid vested balances to terminated Plan participants totaled $0 and $23,852 as of December 31, 2010 and 2009, respectively.

7. Plan Income Tax Status

The Plan has adopted a non-standardized prototype plan which has obtained a favorable tax opinion letter from the Internal Revenue Service dated April 18, 2008, stating that the non-standardized prototype plan is qualified under the appropriate sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrators believe the Plan continues to operate in accordance with the requirements to qualify for tax-exempt status. Accordingly, no provision for income taxes is included in the accompanying financial statements.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by taxing authorities. The Plan Administrators analyzed the tax positions taken by the Plan and have concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress. The Plan Administrators believe the Plan is no longer subject to income tax examinations for years prior to 2007.

8. Party-in-Interest Transactions

The Plan's investments, which totaled $3,557,986 and $2,695,913 as of December 31, 2010 and 2009, respectively, consisted of pooled separate accounts and a guaranteed interest option. The pooled separate accounts and guaranteed interest option are managed by AXA Equitable, the trustee, and therefore, qualify as party-in-interest transactions. The notes receivable from participants, which totaled $275,259 and $191,570 as of December 31, 2010 and 2009, respectively, are also party-in-interest transactions.

9. Certification of Information Provided

The Plan Administrators have elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under that election, the Plan Administrators instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by AXE Equitable, the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

- The investment assets of the Plan.
- The recording of Plan investment transactions, including investment income.
