CTE INCORPORATED 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2013 AND 2012 (compiled)
AND FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE A - Description of Plan

The following description of CTE Incorporated 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. On January 1, 2000, CTE, Incorporated (the "Company") established the CTE Incorporated 401(k) Plan. The Plan was amended and restated in its entirety for EGTRRA effective January 1, 2009.

General - The Plan is a defined contribution plan covering substantially all employees of the Company upon attaining age 21 and completing six months of service. Employees who are (i) members of a collective bargaining unit where retirement benefits were the subject of good faith bargaining; (ii) non-resident aliens; and (iii) leased employees are not eligible to participate under the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Company has appointed Nationwide Trust Company as custodian of all assets held under the Plan. On December 31, 2013, the assets of the Plan are held by Nationwide Trust Company.

Contributions - The Plan allows each participant to contribute up to 100% of the participant's annual compensation to the Plan. However, a participant's total deferrals in any taxable year may not exceed a dollar limit which is set by law. Participants are also able to rollover money from a previous qualified plan, excluding after-tax employee contributions and in-kind rollovers, into this Plan. The Company, at its discretion, may choose to make a matching contribution, safe harbor matching contribution, and a discretionary profit sharing contribution to the Plan. For the 2013 Plan year, the Company elected to make a profit sharing contribution of $97,428 allocated to group 1 (employees) at a rate of 1.94% of participants' eligible compensation and group 2 (owners) at a rate of 11.52% of participants' eligible compensation unless the group 2 member waives such allocation. During the 2013 Plan year, the Company provided a 3% safe harbor contribution of $97,581 based on compensation.

Participant Accounts - Each participant's account is credited with the participant's contributions, the Company contributions and earnings or losses thereon, and an allocation of expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant's are immediately vested in their voluntary contributions, employer safe harbor contributions, and any rollover contributions and earnings thereon. Vesting in employer matching contributions and profit sharing contributions and earnings thereon is based on years of service. The method of defining a year of service is if an employee is credited with at least 1,000 hours of service during the Plan year. A participant is 100% vested, under a graduated vesting schedule, after six years of credited service.

Investment Options - Upon enrollment in the Plan, participants may direct employee contributions and related employer contributions into a range of mutual funds or guaranteed return contract. In addition, participants have the option to allocate a portion of their contributions to purchase life insurance. As of December 31, 2013, such policies have a cash surrender value of $35,103. The policies are purchased through Guardian Life Insurance Company of America. All investments are participant directed and investment options can be changed daily.

CTE INCORPORATED 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2013 AND 2012 (compiled)
AND FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE A - Description of Plan - continued

Forfeitures - Under the Plan, forfeited nonvested employer contributions attributable to employer matching and profit sharing contributions may first be used to pay plan administrative expenses and then to reduce the Company contributions. At December 31, 2013 and 2012, forfeited nonvested accounts amounted to $13,271 and $396, respectively. The Plan used $14,238 to reduce employer discretionary contributions for the 2013 Plan year.

Payment of Benefits - Benefit payments are permitted in the event of death, disability, termination of employment, a proven hardship, or retirement. Participants may receive in-service distributions of their accounts upon attaining age 59 and a half and becoming 100% vested in the accounts. Benefits are payable in the form of lump-sum distributions.

Notes Receivable from Participants - The Plan provides for loans to participants which are repaid through payroll deductions. Loans (i) bear a reasonable rate of interest, (ii) are secured by the participant's account, (iii) are available to all participants on a uniform and nondiscriminatory basis, (iv) are limited to 50% of the participant's vested account balance, (v) provide for repayment over a period not to exceed five years unless such a loan is used to purchase a primary residence and (vi) are limited to an amount not to exceed $50,000. Loans will not be issued for amounts less than $1,000 nor will loans be made to participants with existing outstanding balances.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE B - Summary of Significant Accounting Policies

The summary of significant accounting policies of the Plan is presented to assist in the understanding of the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are recorded at fair value. Net realized and unrealized gains and losses are reported in the Statement of Changes in Net Assets Available for Benefits as net appreciation in the fair value of investments. Interest income is recorded as earned.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned, based on the terms of the investments and the periods during which the investments are owned.

NOTE D - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting standards provide the framework for measuring fair value that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Fixed return product - The fair market value for the indexed fund contract is equal to the book value less any contingent deferred sales charge (zero at December 31, 2013 and 2012). Additional quantitative information about the significant unobservable inputs is not available.

NOTE E - Information Certified by the Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Nationwide Trust Company, the Plan's Trustee, has certified the following information, which has not been subjected to audit by independent accountants, to be accurate and complete:

- Investments as reported in the Statements of Net Assets Available for Benefits, and related notes;

- Interest income and net appreciation in fair value of investments, reported in the Statement of Changes in Net Assets Available for Benefits, and related notes; and

- The Schedule of Assets (Held at End of Year), as reported in the supplemental schedule.

NOTE F - Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the Plan's net investment income is exempt from income taxes. On May 12, 2009, the Plan received a determination letter with respect to the new restatement. The Plan sponsor believes that the Plan continues to qualify and operate as designed.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by a government authority. The Plan administration has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taking jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

NOTE G - Party-In-Interest Transactions

Fees paid by the Plan to Sentinel Benefits Group, the Plan's recordkeeper, for investment advisory services and management services amounted to $1,100 for the year ended December 31, 2013. Fees paid by the Plan to Nationwide, the Plan's Trustee, amounted to $25,211 for the year ended December 31, 2013.

The Plan invests in certain investment securities managed by Nationwide, the Plan's Trustee. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transactions rules of ERISA.

NOTE H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate its participation in the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their share of employer contributions and earnings thereon.

NOTE J - Prohibited Transactions

During 2012 and 2013, the Company failed to remit to the Plan's Trustee certain employee contributions totaling $16,276 within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the Trustee were due to administrative errors, and the Company corrected by making contributions to the affected participants' accounts in the 2014 Plan year to compensate those participants for potential lost interest.
