INDEPENDENT AUDITOR'S REPORT

To the Management and the Trustee of
Automatic Fire Protection, Inc.
401(k) PROFIT SHARING PLAN
San Angelo, Texas

We were engaged to audit the financial statements of Automatic Fire Protection, Inc. 401(k) Profit Sharing Plan, (the Plan), as of December 31, 2010 and 2009, and for the years then ended, and the supplemental schedule as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Hartford Retirement Plan Solutions, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

AUTOMATIC FIRE PROTECTION, INC.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1 - Description of Plan

The following description of the Automatic Fire Protection, Inc. (Company) 401(k) Profit Sharing Plan (the Plan) provides only the general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to all employees of the Company who have 180 days of service and have attained age eighteen or older. Participation of the Plan is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute to the Plan up to 100% of annual eligible compensation, as defined by the Plan, on a pre-tax basis subject to the Internal Revenue Code Contribution limitations. The IRS dollar limitation was $16,500 in 2010 and 2009. Participants 50 years of age or older are eligible to make catch up contributions. Catch up contributions were an additional $5,500 in 2010 and 2009. The Employer matching contributions are made at 100% of the amount deferred by the participant up to 4% of the participant's eligible compensation. Additionally, the Company may contribute a discretionary profit sharing contribution. For the year ended December 31, 2010, the Company contributed $130,653 in matching contributions and $-0- of profit sharing contributions. For the year ended December 31, 2009, the Company contributed $146,862 in matching contributions and $-0- of profit sharing contributions.

Eligible participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The amount of any rollover contributions will be invested along with other assets of the Plan, but will be held for the participant in a special rollover account and will be at all times 100% vested.

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's matching contribution and an allocation of the Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in contributions plus actual earnings thereon, and are also immediately vested in the Company's contribution portion of their accounts.

Note 1 - Description of Plan - Continued

Payment of Benefits

The full value of a participant's account becomes available upon retirement, permanent disability or death. Termination of employment for any other reason entitles the participant to only the vested portion of the account. Distributions are paid in lump sums or partial withdrawals.

Participant Loans

Participants are not allowed to borrow from their accounts.

Plan Administration

Plan assets are held by The Hartford Retirement Solutions for the years ended December 31, 2010 and 2009. Certain Plan administrative duties such as Form 5500 preparation, compliance testing, preparation of participant statements, and enrollment and transaction processing are performed by Pentec Pension Management.

Certain other administrative functions are performed by employees of the Company. However, such employees receive no compensation from the Plan.

Forfeitures

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $7,713 and $11,908, respectively. Forfeitures of nonvested accounts are used to reduce employer matching or profit sharing contributions, and to pay Plan expenses. In 2010, administrative expenses of the Plan totaling $4,500 were paid from forfeitured nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies - Continued

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

Expenses of the Plan, to the extent not paid by the Company, may be paid from the assets of the Plan. For the year ending December 31, 2010 and 2009, administrative expenses of $6,850 and $2,388 respectively, were paid by the Plan.

Investment Valuation and Investment Income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation or depreciation in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments.

Date of Management's Review

Subsequent events were evaluated through June 13, 2011, which is the date the financial statements were available to be issued.

Reclassification

Certain reclassifications have been made to the 2009 presentation to conform to the 2010 presentation.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (*ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Note 3 - Fair Value Measurements – Continued

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 -Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.
Guaranteed Investment Contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value Measurements – Continued

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

Note 5 - Investment Contract with Insurance Company

As of December 31, 2010 and 2009, the Plan was entered into a benefit-responsive investment contract with The Hartford Life Insurance Company (Hartford). Hartford maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Hartford. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $260,325 and $229,972, respectively. The crediting interest rate is determined by Hartford and may be changed periodically but may not be less than 3%.

Note 5 - Investment Contract with Insurance Company - Continued

Certain events limit the Plan's ability to transact at contract value with Hartford. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition in competing investment options , (c) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

	2010	2009
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities in the form of mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the IRC and are exempt from the tax under Section 401(a) of the IRC. The Company believes that the Plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 8 - Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 9 - Reconciliation to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$ 1,847,709	$ 1,523,649
Net assets available for benefits per Schedule H to the Form 5500	$ 1,847,709	$ 1,523,649

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2009 to Schedule H of Form 5500:

Benefits paid to participants per the financial statements	$ 175,715
Benefits paid to participants per Schedule H of Form 5500	$ 175,715

Note 10 - Related Party Transactions

Plan investments were invested in mutual funds through a group annuity contract with The Hartford Retirement Solutions, which is the custodian of the Plan assets. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian amounted to $2,350 for the year ended December 31, 2010.
