Report on the Financial Statements

We have audited the accompanying financial statements of the **PARAMOUNT EQUITY MORTGAGE 401(K) PLAN (the Plan)**, which comprise the statement of net assets available for plan benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Transamerica Financial Life Insurance Company, the Trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certification from the Trustee as of and December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Paramount Equity Mortgage 401(k) Plan

Notes to Financial Statements

Note 1 - Description of the Plan:

The following description of the Paramount Equity Mortgage 401(k) Plan, (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a profit sharing plan with a 401(k) arrangement that was established effective June 21, 2004 by Paramount Equity Mortgage, LLC (the Company) to provide benefits to eligible employees, as defined in the Plan document. In accordance with IRS Code Section 414 (b), all employees of all companies which are members of a controlled group shall be treated as employed by a single member. Starting in 2010, the plan documents were amended to allow related companies (controlled group of companies) to participate in the Paramount Equity Mortgage 401(k) Plan. The controlled group of companies includes: Paramount Equity Mortgage, LLC, Value 360 LLC, Paramount Energy Solutions, LLC, and Ironstone Insurance, LLC. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013, the Plan was amended to allow Paramount GR Holdings, LLC to become a participating employer in the Plan.

Effective June 1, 2013 (effective date), the Plan was amended to automatically defer 3% of compensation for each payroll period from all employees (except those with an existing salary reduction agreement) who become participants of the Plan, on or after the effective date.

b. Eligibility

The Plan covers substantially all employees not covered by a collective bargaining agreement or who are non-resident aliens and have attained the age of 18 and have been employed for a minimum of three months. Eligible employees can enter the Plan on the first day of the month following the completion of the eligibility requirements.

c. Contributions

Participants may elect to have part of their compensation contributed to the Plan as salary deferral 401(k) contributions, not to exceed the amount allowable under current income tax regulations. The 401(k) salary deferral contributions consist of two categories: Pre-tax Elective Deferrals or Roth Elective Deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan provides that the Company may make matching contributions equal to a discretionary percentage of participant contributions. The contribution is determined annually by the Board of Directors of the Company after the end of each Plan year. The matching contribution is determined based on the entire Plan year. The Company may also elect to make a discretionary profit sharing contribution, which is allocated to each eligible participant according to the employee grouping method specified in the Plan documents. The portion of a participant's accounts attributable to the Company's matching and discretionary profit sharing contributions has a five-year graded vesting schedule. There were no matching or discretionary contributions in 2013.

d. Payment of Benefits

Upon termination of service due to death, disability, retirement, or termination of employment, a participant may elect to receive the value of the participant’s vested interest in his or her account. Financial hardship, and in-service distributions upon the age of 59 ½ are also allowed under the Plan. Each participant is fully vested in the event of his or her death, permanent disability, or normal retirement at 65 years of age. Upon termination of service, the participants or their designated beneficiaries may elect to leave their account balances in the Plan or may elect to receive an amount equal to the value of the participant’s vested interest in his or her account in either a lump-sum amount or in installments. The Plan provides that if interest in the Plan is $1,000 or less, regardless of consent, a lump sum distribution will be made to the participant.

Eligible rollover distributions exceeding $1,000, but less than $5,000 are to be directly rolled over into a traditional individual retirement account (IRA) or, if specified by the participant, as a direct payment to him/her in a single lump sum payment.

e. Participant Accounts

Each participant’s account is credited with the participant’s contribution; the participant’s qualified rollover contributions, the Company’s contributions, Plan earnings, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

f. Participant Investment Options

Under the auto enrollment provisions of the Plan, participant deferral contributions are automatically allocated to a Target Retirement Account based on the participant's age/ expected retirement date. A participant may also elect to direct their contributions and the Company's contributions, if any, in any of the selected investments offered by the Plan. Participants may change their investment options any time throughout the year (subject to specific limitations placed by certain investment funds) via the Transamerica Retirement Solutions website.

g. Vesting

Participants are immediately vested in their contributions, rollover and matching amounts plus actual earnings thereon. To vest in Company matching and profit sharing contributions, participants must complete one year of service (1,000 hours) during the plan year and must be employed on the last day of the plan year. A participant receives 20% vesting per year of service and is fully vested after five years of credited service.

h. Forfeited Amounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $0 and $2,621, respectively. Forfeitures may be used to offset employer contributions to the Plan or pay any administrative expenses of the Plan. Employer contributions were reduced by $2,382 of forfeited non-vested accounts in 2013.

i. Notes Receivable from Participants

The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance and to have only one loan outstanding at any time. The loans are secured by the participants' balances. The interest rate is determined quarterly by the Plan Administrator based on local prevailing rates. As of December 31, 2013, the interest rates on outstanding loans ranged from 4.25% to 8.5%. Principal and interest are paid ratably through payroll deductions. The loans require repayment on a fully amortized basis within five years or less. A longer repayment period may be granted only if the loan is used to purchase or repair a primary residence.

j. Plan Trustee

The Company has appointed Transamerica Financial Life Insurance Company as the Trustee of the Plan. Substantially, all of the Plan's assets are held by the Trustee.

Note 2 - Summary of Significant Accounting Policies:

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Generally accepted accounting principles require the Statement of Net Assets Available for Plan Benefits to present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis. The investment contract is reported at contract value as the contract value approximates fair value for this investment.

b. Investment Valuation and Income Recognition

Investments of the Plan are held by the Trustee and invested based solely upon instructions received from the participants. The Plan's investment in pooled separate accounts are valued at fair value. Investments contracts held under the stable value account are valued at contract value as described in Notes 4 and 5. Fair value is the prices that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments in pooled separate accounts and stable value accounts are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date.

The net appreciation (depreciation) of investments in the statement of changes in net assets available for plan benefits includes both the unrealized appreciation (depreciation) in the aggregate current value of investments and realized gains and losses on sale of investments.

The market volatility of equity-based investments could substantially impact the value of such investments at any given time.

It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2013.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair value of investments.

c. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

d. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

e. Benefit Payments

Benefits to participants are recorded when paid. At December 31, 2013 and 2012, there were no benefits processed and approved for payment, but not paid.

f. Reclassifications

Certain reclassifications have been made to the 2012 financial statement to conform to the 2013 financial statement presentation.

g. Recent Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements.* The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to the fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

h. Subsequent Events

The Plan Administrator evaluated subsequent events through October 14, 2014, the date these financial statements were available to be issued, and has determined that, except for matters identified in Notes 7 and 9, there are no other material subsequent events that require recognition or additional disclosure in these financial statements.

Note 3 - Information Certified or Provided by Transamerica Financial Life Insurance Company:

The following is a summary of the asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Transamerica Financial Life Insurance Company (TFLIC), the Trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee, that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

December 31,	2013	2012
Investments:		
Stable value account, at contract value, which approximates fair value	$ 481,268	$ 453,267
Pooled separate accounts, at fair value	3,445,433	2,548,827

Transamerica Financial Life Insurance Company also certified to the completeness and accuracy of $584,526 of net appreciation in fair value of the Plan's aforementioned assets and $7,522 of interest earned for the year ended December 31, 2013.

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. For the year ended December 31, 2013, there were significant transfers of Level 1 and 2 assets based on additional management review of the underlying assets. The classification of the December 31, 2012 assets was reclassified to conform to the 2013 presentation.

Pooled Separate Accounts: The pooled separate accounts are investment accounts established with TFLIC. The funds in these accounts are placed in underlying investment vehicles; mutual funds, collective trusts or portfolios of investments managed by affiliated and unaffiliated investment managers. The separate accounts are stated at fair value as reported to the Plan by TLFIC, based on the quoted market prices of the underlying funds. The unit value of the separate account is calculated by dividing the total value of the assets of the separate account by the number of units in the account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares.

Stable Value Accounts: This investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and there is no set maturity. It is reported at contract value, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

December 31, 2013	Level 1	Level 2	Level 3	Total
Stable Value Account		$ 481,268		$ 481,268
Pooled Separate Accounts:				
Hybrid	$1,806,041			1,806,041
Large/Mid Growth Equity	293,371	155,510		448,881
Small Company Equity	219,628	70,254		289,882

The following table and description provide further information on significant Level 2 investments held by the Plan. Participants should refer to plan investment documentation and the respective investment prospectus for a more detailed explanation of these investments. The Plan uses net asset value (NAV) as a basis for determining the fair value of the pooled separate account's underlying investments (mutual funds).

Investment	2013 Fair Value	2012 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Stable value account:					
Transamerica Stable Value (a)	$ 481,268	$ 453,267	$ -	Daily	None
Pooled separate account:					
Global Equity (b)	165,232	105,568	-	Daily	None
Large/Mid Growth Equity (c)	155,510	105,114	-	Daily	None
Large/Mid Value Equity (d)	90,867	40,375	-	Daily	None
Small Company Equity (e)	70,254	33,727	-	Daily	None

Specialty	47,099	60,677	-	Daily	None

(a) Stable value fund seeks a stable return and safety of principal. The investment seeks to protect against any loss of principal while generally providing returns in excess of money market funds and one-year treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and there is no set maturity. The effective credited interest rate is set semi-annually and effective on the first day of the first day of the semi-annual period. Contract charges may reduce this return.

(b) This category is comprised of the Oppenheimer Global Retirement Account, which seeks capital growth over the long-term. It focuses primarily on developed international and US markets along with emerging and developing counties. It may also invest in other equity securities, such as preferred stocks, warrants and convertible securities.

(c) This category is primarily comprised of the Morgan Stanley Growth Opportunities Retirement Account, which seeks long-term capital appreciation by investing in companies within the market capitalization range of the Russell Mid Cap Growth Index. The overall investment portfolio will generally hold 50-70 securities that primarily invest 80% in US stocks.

(d) This category is comprised of the Transamerica Partners Mid Value Retirement Account, which invests primarily in stocks of medium sized companies which the Fund's subadvisors believe have below market valuations and present an opportunity for earnings improvement. Under normal circumstances, the fund invests at least 80% of its net assets in securities of medium sized (or mid-cap) companies and related investments.

(e) This category is comprised of the SSgA Russell Small Cap Index Retirement Account, which seeks an investment return that approximates as practicable, before expenses, the performance of the Russell 2000® Index over the long term. The account will typically attempt to invest in the securities comprising the index in the same proportions as they are represented in the index. From time to time the account may purchase securities that are not yet represented in the index or sell securities that have not yet been removed from the index.

Note 5 - Investment Contract:

The Plan has a benefit-responsive contract with Transamerica Financial Life Insurance Company (TFLIC). TFLIC maintains the contributions in a general account of TFLIC. The investment's contract or proceeds cannot nor are to be assigned or sold to another party without consent of TFLIC. The repayment of principal and interest credited to participants holding the investment is a non-tradable financial obligation of TFLIC.

The terms of the contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan agreement such as withdrawals for benefits, loans or transfers to other investment choices within the Plan. Since the Stable Value Account is an obligation of TFLIC, the occurrence of an event that limits the ability of the investment to transact at contract value is not probable.

The Stable Value Account has no stated maturity. Interest rates are reset monthly as of the beginning of each month. The interest rate is applied daily to the total outstanding balance of the investment. For deposit liabilities with no defined maturities, the fair value is equal to the amount payable on demand at the reporting date. Accordingly, the contract value is also the fair market value. Shares of the fund are not bank deposits and are not guaranteed or insured by the FDIC or any other government agency. The two year performance history of the Stable Value Account is as follows:

	2013	2012
Minimum interest rate	1.45%	1.65%
Average interest rate	1.45%	1.75%
Closing interest rate	1.45%	1.65%

Note 6 - Investments:

The following table presents the fair value of the participant directed single investments representing 5% or more of the Plan's net assets as of December 31, 2013 and 2012:

	2013	2012
Transamerica Stable Value Fund	$ 481,268	$ 453,267
Vanguard Target Ret. 2035	300,801	268,342
Vanguard Target Ret. 2040	381,450	253,877
Vanguard Target Ret. 2045	239,138	*
Transamerica AA – Moderate Growth	209,297	241,924
Transamerica AA – Growth	*	176,410

* Investment balance less than 5% of net assets in the particular year end.

During 2013, the Plan's investment in pooled separate accounts (including investments bought, sold, and held during the year) appreciated in value by $584,526.

Note 7 - Plan Termination/ Partial Termination:

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

The Plan Administrator, based on advice of outside counsel, has determined that the Plan has suffered a partial termination with respect to the 2013 plan year. Following Internal Revenue Service guidance, the Plan Administrator has identified the participants who terminated during the plan year and have become fully vested in their accounts as a result of the partial termination. These participants are to be paid out on this basis after calculations have been finalized.

Note 8 - Tax Status:

The Plan has adopted a standardized prototype plan sponsored by Transamerica Financial Life Insurance Company (TFLIC). TFLIC has received a favorable opinion letter from the Internal Revenue Service dated May 30, 2008 as to the form of the Plan being acceptable under Section 401 of the Internal Revenue Code. This opinion on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualified under Code section 401(a). The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal or state tax authorities before year 2010.

Note 9 - Risks and Uncertainties:

The Plan provides for various investment options in any combination of the investments offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the nature of risk associated with investment securities, it is at least reasonably possible that changes in the level of risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

The Plan obtained fidelity bond coverage effective March 2014. Due to a lapse in coverage the Plan is potentially exposed to losses resulting from noncovered activity. However, management is not aware of any such activity and in its opinion does not expect a material adverse effect on the Plan's net assets and activities.

Note 10 - Related Party Transactions:

The Plan contracts with Transamerica Retirement services and Transamerica Financial Life Insurance Company. Transamerica Financial Life Insurance Company is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. As of December 31, 2013, all assets in the pooled separate accounts and stable asset account were managed by Transamerica Financial Life Insurance Company. Fees paid by the Plan to Transamerica Financial Life Insurance Company for recordkeeping and administrative services amounted to $21,971 for the year ended December 31, 2013.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Note 11 - Excess Contributions Payable:

During 2013 and 2012 contributions withheld or contributed to certain highly compensated employees' accounts exceeded an allowable limit under the Internal Revenue Code. As a result, the Plan was required to have a corrective distribution of $23,399 and $58,374 which have been reflected in the statement of net assets available for plan benefits as of December 31, 2013 and 2012.

Note 12 - Reconciliation of Financial Statements to the Form 5500:

The following is a reconciliation of net assets available for plan benefits per these financial statements as of December 31, 2013 and 2012 to the Form 5500.
