NOTE A – PLAN DESCRIPTION

The following description of the Foundation Health Care Services Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

GENERAL
The Plan is a Principal Financial Group Prototype defined contribution plan sponsored by Foundation Health Care Services (the "Company") with a plan year end of December 31st. The original Plan became effective January 1, 1995 with the most recent amendment/restatement effective February 25, 2011. The provisions of the Plan are included in the official Plan document, which legally governs the operations of the Plan and is available for more detailed information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY
All nonunion employees of Foundation Health Care Services, Good Samaritan Health Group and Ontario Commons who have 60 days of service and are at least twenty-one years of age are eligible to join the Plan. An employee who has met the eligibility requirements may enter the Plan on the first day of the month following the date the requirements were met.

PARTICIPANT AND COMPANY CONTRIBUTIONS
Each year, participants may elect to make contributions to the Plan as a percentage of their eligible compensation, up to 100%, in pre-tax contributions, subject to the maximum allowed under the Internal Revenue Code ("IRC"). After-tax Roth contributions are not permitte. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover funds from other qualified plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. They may change their investment elections monthly.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at two percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Plan allows for a discretionary employer match based on a percentage of the participant's elective deferrals. Matching contributions, if any, will be determined as of the end of the plan year and shall be made to all persons who were active participants at any time during the Plan year quarter. The Company may also make a discretionary qualified non-elective contribution to the Plan. The discretionary qualified non-elective contribution is allocated to all non-highly compensated employees who were active participants at any time during the Plan year. The Company made no matching or non-elective contributions for the plan year ended December 31, 2013.

PARTICIPANT ACCOUNTS
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, and (b) Plan earnings or losses and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A – PLAN DESCRIPTION – Cont.

VESTING AND FORFEITURES
Participants are immediately vested in their elective (voluntary) contributions and income or loss thereon. Participants vest in employer contributions in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 3 years	0%
3 or more years	100%

Forfeitures of nonvested accounts are retained in the Plan and can be used to offset the first contribution made after the forfeiture is determined. Forfeited accounts amounted to $458 at December 31, 2013 and $456 at December 31, 2012.

NOTES RECEIVABLE FROM PARTICIPANTS
Participants could borrow funds from the voluntary contributions to their accounts as well as the vested balance of employer contributions. The minimum loan amount was $1000 up to the lesser of 50 percent of the participant's vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at fixed rates equal to the published prime rate, plus two percent. The term of the loan cannot exceed five years, except for loans used to finance the purchase of the participant's primary residence. Principal and interest is paid ratably through payroll deductions. As of November 1, 2007, the Plan no longer permits loans to participants. As of December 31, 2013 there were no remaining outstanding loan balances.

PAYMENT OF BENEFITS
Distribution of benefits are defined in the Plan document. Generally, upon termination of employment, death, disability, or normal retirement, a participant (or designated beneficiary) may elect to receive 100% of his or her vested account balance in either a lump sum cash payment or a direct rollover into another qualified plan. Early retirement distribution of vested benefits is permitted provided the participant has reached age 55 and has three years of vested service. Hardship withdrawals are permitted, as defined in the Plan document.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

USE OF ESTIMATES
The Plan Administrator uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States. Those estimates and assumptions affect the reported amounts of net assets available for benefits, the disclosure of contingencies, and the reported additions to and deductions from net assets available for benefits. Actual results could vary from the estimates that were used.

INVESTMENT VALUATION AND INCOME RECOGNITION
The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES – Cont.

NOTES RECEIVABLE FROM PARTICIPANTS
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the loan balance is reduced and a benefit payment is recorded. As of December 31, 2013 there were no remaining outstanding loan balances.

PAYMENT OF BENEFITS
Benefit payments to participants are recorded when paid.

OPERATING EXPENSES
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

DATE OF MANAGEMENT REVIEW
Subsequent events were evaluated through October 13, 2014, which is the date the financial statements were available to be issued. Management is not required to and has not evaluated events or transactions that occurred after October 13, 2014.

NOTE C – UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE
The Plan administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor Rules and Regulations and disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the trustee, Principal Trust Company, and was not subjected to any auditing procedures performed by the independent public accountants.

a. All investments shown in the accompanying statements of net assets available for benefits.
b. Net investment income from the investments, as shown in the accompanying statement of changes in net assets available for benefits, including dividends and interest income and net realized and unrealized appreciation (depreciation) in fair value of assets.

NOTE D – SIGNIFICANT INVESTMENTS

The market value of investments that represent 5% or more of the plan's net assets are summarized below:

As of December 31	2013	2012
Principal Lifetime 2020 – R	$ 159,321	$ 144,322
Principal Lifetime 2030 – R	92,656	78,389
Principal Lifetime 2040 – R	33,800	42,662
Principal Lifetime Strategic Income	54,093	48,026

At December 31, 2013 the Plan's investments, (including investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

	2013
Pooled Separate Accounts	$ 70,382
Guaranteed Interest Account	3

NOTE E – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation method include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset and liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement of the assets and liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan for investment assets measured at fair value on a recurring basis.

Pooled Separate Accounts: Contract value is equal to the number of participation units owned under the contract in each pooled separate account times the unit value of the participation units. The unit values are estimated by Principal based on the value of the underlying assets minus the funds liabilities, divided by the number of participation units outstanding. This value is also referred to as the net asset value (NAV).

Guaranteed Investment Contract: Valued at fair value by the insurance company by discounting the related cash flows based on the current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at the contract value, fair value is determined annually for financial statement reporting purposes only.

Notes Receivable to Participants: Valued at amortized cost, which approximates fair value.

NOTE E – FAIR VALUE MEASUREMENTS – Cont.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013.

Investment Assets at Fair Value as of December 31, 2013

The following table is a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013. Changes in the Guaranteed Account are recorded on a contract value basis.

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	$ 411,080	n/a	Daily	30 days

NOTE F – TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan's assets are invested in Pooled Separate Accounts and a guaranteed interest account managed by Principal Financial Group, the trustee of the Plan as of December 31, 2013; therefore, these transactions qualify as exempt party-in-interest transactions.

Certain administrative expenses for legal, accounting and other services are rendered by parties-in-interest and are paid by the Company. The Company provides certain accounting and administrative services to the Plan for which it receives no compensation.

NOTE G – TAX STATUS

The Plan, which is a prototype plan sponsored by Principal Financial Group. has received a favorable opinion letter dated March 31, 2008 in which the Internal Revenue Service has stated that the Plan document is acceptable under Section 401 of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the opinion letter; however; the plan sponsor is not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for the years prior to 2010.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts including employer contributions.

NOTE J – SUBSEQUENT EVENTS

Subsequent to December 31, 2013, the plan sponsor amended the plan document to include the Larchwood Health Group, LLC, effective February 28, 2014.
