SOUTH CENTRAL COMMUNICATIONS CORPORATION 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

Note 1 – Plan Description

The following brief description of the South Central Communications Corporation (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, which covers all full-time employees of the Company who have completed one year and 1,000 hours of service and attained 21 years of age. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state laws. The Plan is subject to the provisions of ERISA.

Contributions

Participants may contribute up to 100 percent of their eligible compensation, as defined in the Plan, subject to Internal Revenue Service (IRS) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes a discretionary matching amount equal to 25 percent of the first two percent of compensation that a participant contributes to the Plan, which was suspended effective April 1, 2009. The Company may contribute additional amounts at the option of the Company's Board of Directors.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the rate of prime plus one percent. At December 31, 2009, the effective interest rates range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

December 31, 2009 and 2008

Note 1 – Plan Description (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments as requested by the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may request a hardship withdrawal of a portion of their account balance attributable to participant deferrals. Any hardship withdrawal is limited to the amount needed to meet the financial need.

Investment Options

Participants may direct the investment of their contributions into various investment options offered by the Plan. Investment options available through Mercer Trust Company include various mutual funds. Each participant has the option of directing their contributions into any of the investment accounts. Participants may change their investment options daily.

Forfeited Accounts

There were no forfeited nonvested accounts at December 31, 2009. At December 31, 2008, forfeited nonvested accounts totaled \$2,393. These accounts will be used to reduce future employer contributions or pay administrative expenses of the Plan.

Note 2 – Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Subsequent Events

The Plan has evaluated subsequent events through June 14, 2010, the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Note 2 – Significant Accounting Policies (Continued)

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

In general, participant notes receivable are valued at cost which approximates fair value.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Company or the Plan at the discretion of the Plan Sponsor.

Recently Issued Accounting Standards

Uncertain Tax Positions

The Financial Accounting Standards Board (FASB) issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Net Asset Value Per Share

In September 2009, FASB issued an amendment "Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)" which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosures of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ended after December 15, 2009, with early adoption permitted. The adoption of this guidance had no significant impact in the financial statements.

Improving Disclosures about Fair Value Measurements

In January 2010, FASB issued an amendment “Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements”, which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes.

With respect to matters other than Level 3 measurements, the amendment was effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 31, 2010 and has not yet been adopted. Management is currently evaluating the impact of the guidance related to Level 3 measurements on its disclosures.

Note 4 – Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the frame-work for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the NAV of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value, based on current yields available.

Note 4 – Fair Value Measurements (Continued)

The methods described on the previous page may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008. The following tables present separately those assets that represent five percent or more of the Plan's net assets:

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Tax Status

Effective January 1, 2003, the Plan adopted a nonstandardized form of a prototype plan sponsored by Mercer Trust Company. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status; however, for adopters of the nonstandardized version of the Plan, such opinion letter cannot be relied upon by the adopting Plan. The Plan has been amended since receiving the opinion letter. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Plan Amendment

Certain amendments were made to the Plan effective January 1, 2009 covering the Pension Protection Act, the Heroes Earning Assistance and Relief Tax Act of 2008, and certain other legal changes.
