1. DESCRIPTION OF THE PLAN

The following description of the Mediaocean LLC 401(k) (the "Plan") provides only general information. Participants should refer to the Plan document, which is available from the Plan Administrator, for a more complete description of the Plan's provisions. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

General

The Plan, which was originally established effective July 1, 1972, and subsequently amended, is a defined contribution plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective March 1, 2012, Donovan Data Systems, Inc. ("DDS") and MBXG Holdings, Inc. (MediaBank) merged to form Mediaocean LLC ("Mediaocean") ("Plan Sponsor"). In connection with the merger, DDS transferred and Mediaocean assumed, sponsorship of the Plan, and the Plan was renamed the Mediaocean LLC 401(k) Plan.

Effective September 4, 2012, the MediaBank, LLC 401(k) Plan was merged into the Plan, resulting in a transfer of assets into the plan of $7,824,106. In addition, as of such date, the participants of the MediaBank, LLC 401(k) Plan became eligible to participate in the Plan. The merger had no effect on the provisions governing the participant accounts .

Contributions

A participant is eligible to contribute a portion of his/her gross compensation beginning with the first day of the month following his/her first day of work. Each year, participants are allowed to contribute from 1% to 75% of their gross annual compensation to the Plan. Participants who have reached age 50 before the end of the calendar year are eligible to make catch-up contributions. The participant's annual contribution is limited to the maximum contribution allowable under Section 402(g) of the Internal Revenue Code ("IRC"). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides that for each plan year, the Plan Sponsor may contribute a profit sharing amount as determined by its Board of Directors. Such amount, if any, may be either a specific dollar amount or a percentage of compensation, as defined. Participants will be eligible for profit sharing contributions provided they worked 1,000 hours in that year and remain an employee on the last day of the Company's and the Plan's fiscal year. No profit sharing contribution was approved for the Plan years ended June 30, 2014 and 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's profit sharing contribution (if applicable) and (b) Plan earnings, and charged with an allocation of any administrative expenses charged to the Plan. Allocations are based on participant earnings on account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in the value of their contributions plus actual earnings thereon. With respect to Company contributions and earnings thereon, participants become vested based on the following schedule:

Years of Service	Vested Percentage
Less than 2 years	0%
At least 2 years, but less than 3	32%
At least 3 years, but less than 4	48%
At least 4 years, but less than 5	64%
At least 5 years, but less than 6	80%
6 years or more	100%

Notes Receivable From Participants

The Plan includes provisions that entitle a participant to request a loan not to exceed the lesser of 50% of the total value of the participant's vested account balance or $50,000, minus the highest outstanding balance of plan loans outstanding during the twelve months prior to the request. A participant may not have more than one loan outstanding at a time. The maximum term for repayment is five years with a fixed interest rate determined by the Plan Administrator, provided that such rate shall not exceed the maximum rate permitted by law. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%. Principal and interest is generally paid semi-monthly through after-tax payroll deductions.

Payment of Benefits

On termination of service, due to death, disability, retirement or termination, benefits are payable in a lump sum (either in the form of a direct rollover, or direct cash payout), except for participants who may elect to receive their benefits in installments or by the purchase and distribution of nontransferable annuities. Terminated participants also have the option to keep their vested balance in the Plan, provided that their vested balance is greater than the de minimis threshold, which is $1,000.

Employees that satisfy the conditions for Hardship Withdrawals may withdraw the portion of their vested account necessary to cover the hardships. Hardships Withdrawals, as defined in the Plan document, include medical expenses not covered by insurance, the payment of post-secondary tuition, purchase of a primary residence, prevention of eviction from a primary residence, or other events in the IRC. Any amount withdrawn will be subject to income taxes and may be subject to an additional tax due to early withdrawal. Participants may not contribute to the Plan for six months following a hardship withdrawal.

Life Insurance

Plan assets include the cash surrender value of life insurance contracts held by the Plan. These contracts are in the name of the Plan.

Forfeitures

As of June 30, 2014 and 2013, forfeited nonvested accounts totaled $198,817 and $91,430, respectively. These accounts will be used to reduce future employee contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein, and, when applicable, disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Insurance policies held by the Plan are stated at their cash surrender value.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan Sponsor. Loan processing fees and distribution fees are paid by the participants.

3. CERTIFICATION BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of June 30, 2014 and 2013, excluding cash surrender value of life insurance contracts.

- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended June 30, 2014, excluding income from change in cash surrender value of life insurance contracts.

- Schedule H, Item 4i - Schedule of Assets (Held at End of Year) as of June 30, 2014, excluding cash surrender value of life insurance contracts.

The Plan's independent accountants did not perform auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets.

	Fair Value as of June 30,	
	2014	**2013**
Fidelity Retirement Money Market Fund	$ 7,566,040	$ 5,498,388

During the Plan year ended June 30, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $8,495,706, as follows:

	Year Ended June 30, 2014
Net appreciation in value	
Mutual funds	$ 8,414,456
Self directed brokerage account	81,250
	$ 8,495,706

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- Also included in Level 2 are investments measured using a net asset value ("NAV") per share, or its equivalent, that may be redeemed at that NAV at the period end date or in the near term, which is generally considered to be 90 days.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2014 and 2013.

Mutual funds: These instruments are public investment vehicles valued using the net asset value provided by the administrator of the fund. The net asset value price is quoted on an active market and is classified within Level 1 of the valuation hierarchy.

Money market fund: Valued at the net asset value of shares held by the Plan at year end and is classified within Level 2 of the fair value hierarchy.

Cash surrender value of life insurance contracts: Valued at cash surrender value, which approximates fair value, by discounting the cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014.

(a) This fund invests in high-quality, short-term instruments to achieve high current income and capital preservation. This fund primarily invests in commercial paper, bank obligations, and U.S. Government-issued securities that are classified as first-tier securities.

6. INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated April 18, 2008, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is currently being operated in accordance, in all material respects, with the IRC.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of June 30, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. RELATED PARTY TRANSACTIONS

Certain plan investments are managed by Fidelity. Fidelity is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participant account balances and the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated through April 14, 2015, which is the date the financial statements were available to be issued. There are no events or transactions that have occurred subsequent to the date of the financial statements that require disclosure.
