Note A - Plan Description

The Car Group 401(k) Plan, Employer Identification Number 95-2276602, is filed with the Internal Revenue Service as required under the Employee Retirement Income Security Act of 1974 (ERISA). The Trust's Employer Identification Number is 33-0311942. The Plan, effective August 1, 1988, was amended and restated in its entirety and was replaced by the existing effective August 1, 2009. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A total of 942 and 833 persons were participants in the Plan at the end of the plan years ended July 31, 2014 and 2013, respectively.

Date of management's review

Management has evaluated subsequent events through May 13, 2015, the date which the financial statements were available to be issued.

Note B - Eligibility Requirements

The Plan covers all non-union employees of Norm Reeves, Inc.; Coastal Auto Sales, Inc.; Conant Automotive Resources, LLC; Cerritos Ford, Inc.; Cerritos Infiniti, Inc.; Conant Auto Retail, San Diego, Inc.; Gold Coast Auto Retail, Inc.; Parkway Premium Motorcars, Inc.; Port Charlotte Auto Retail, Inc. (effective August 1, 2013); and West Covina Auto Retail, Inc. (plan sponsors) who have completed a six month waiting period after obtaining a minimum age of 21 years. Participants become vested as follows:

Years of Service	Vested Percentage
Less than one (1) year	0%
One (1) year	20%
Each additional year	20%
Five (5) or more years	100%

All participants shall be 100% vested, if prior to termination of employment, the participant attains normal retirement age.

Note C - Contributions

Each participant may elect to defer a specified portion of compensation, which would have been received in the plan year. Such a reduction shall be that participant's deferred compensation and is allocated to that participant's elective account. The employers may elect to make a discretionary non-elective contribution and/or a discretionary matching contribution. Effective February 2012, the plan sponsors approved a matching contribution of 25% of the participant's deferred compensation, not to exceed a maximum of $1,000 per participant.

Note D - Participant Accounts

Each participant's account is credited with (a) the participant's elective contribution, (b) the employers' discretionary matching contribution, (c) the employers' discretionary non-elective contribution, and (d) Plan earnings. The participant's elective contribution and the employers' discretionary matching contribution are applied directly to each participant's account. The employers' discretionary contribution is allocated based on participants' relative compensation. Plan earnings are allocated directly to each participant's account as specified by each insurance contract.

Forfeitures of the non-vested employers' contribution accounts reduce administrative expenses of the Plan, then future employers' contributions. Forfeitures were approximately $17,000 and $6,000 at July 31, 2014 and 2013, respectively. In 2014 and 2013, forfeitures totaling approximately $1,000 and $2,000, respectively, reduced administrative expenses and employers' contributions.

Note E - Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of the vested interest. Loan terms range from 1 to 5 years, however loans to acquire a principal residence may be longer than 5 years for a reasonable period of time. The loans are secured by the balance in the participant's account and bear interest ranging from 5.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

Note F - Investment Options

Currently, contributions may be allocated to the following funds as the participant directs:

1. ING Fixed Account - invested in ING's general account obligations.

2. Pooled Separate Accounts - Funds are invested by ING in various debt and equity securities of the accounts listed below.

    a) American Funds EuroPacific Growth Fund - invests at least 80% of its assets in securities of issuers located in Europe and the Pacific Basin.

1. National Western Life Insurance Company - fixed annuity contracts with a 6% rate of interest for the years ended July 31, 2014 and 2013.

2. Mass Mutual Life Insurance Company - variable annuity contracts.

Participants may change their investment options at any time.

Note G - Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Note H - Summary of Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value, except for the fixed income account and the allocated fixed annuity contracts that are valued at contract values. In addition, the whole life insurance contracts are valued at their July 31, 2014 and 2013 cash surrender values. Quoted market prices are used to value the pooled separate accounts.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

Administrative fees

The plan sponsors absorb the record keeping fees. Officers or employees of the plan sponsors perform administrative functions. No officer or employee receives compensation from the Plan. The independent auditors' fees are paid directly by the plan sponsors. Participant loans and withdrawal processing fees paid to the record keeper by the Plan are shown as administrative fees, net of any forfeitures applied.

Payment of benefits

Benefits are recorded when paid.

Management estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of Plan income and expenses during the reporting period. Actual results could differ from those estimates.

Note I - Information Certified by the Plan's Custodian

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by ING Life Insurance and Annuity Company, the custodian of the Plan's assets, for the years ended July 31.

Note J - Allocated Insurance Contracts and Deposits with Insurance Company

In April 2014, ING U.S., Inc. began it's rebranding to Voya Financial, Inc. All ING U.S. businesses will begin using the Voya Financial Brand and all ING U.S. legal entities that currently incorporate the ING name will be changed to Voya by September 2014.

In August 1997, the Plan entered into an investment contract with ING Life Insurance and Annuity Company (ING). In May 2003, the Plan entered into a ING Map Plus contract changing the investment options. ING maintains a fixed income account and pooled separate accounts. Contributions to the fixed income account are guaranteed against loss of principal and earn a minimum 3.00% rate of return. The actual rates of interest were 3.00% at July 31, 2014 and 2013.

In August 1997, the Plan ceased contributions to the National Western Life Insurance Company fixed annuity contracts and the Mass Mutual Life Insurance Company variable annuity contracts. Participants have these options: 1) transfer nothing, 2) transfer the full (or 10% each year) cash surrender value or annuitize the account and transfer 20% a year of their National Western Fixed Annuity, or 3) transfer 10% a year of their Mass Mutual Variable Annuity.

Note J - Allocated Insurance Contracts and Deposits with Insurance Company (Continued)

The accounts maintained by the insurance companies are credited with the earnings as specified by each contract and charged for plan withdrawals and any premiums or fees charged by each insurance company.

The cash surrender value of the National Western Life Insurance Company fixed annuity contracts was approximately $295,000 at July 31, 2014.

Note K - Participant Directed Funds

Note L - Fair Value Measurements

FASB ASC 820-10, *Fair Value Measurement*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology are observable other than level 1 prices, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs to the valuation measurement are unobservable, supported by little or no market data, and are significant to the fair value of the assets and liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2014 and 2013.

Pooled separate accounts: Valued at the number of shares of the underlying fund multiplied by the closing net asset value (NAV) per share quoted by that fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note L - Fair Value Measurements (Continued)

Fair value of assets measured on a recurring basis at July 31, 2014:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 13,359,478	$ -	$ 13,359,478
	$ -	$ 13,359,478	$ -	$ 13,359,478

Fair value of assets measured on a recurring basis at July 31, 2013:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 11,310,150	$ -	$ 11,310,150
	$ -	$ 11,310,150	$ -	$ 11,310,150

As of July 31, 2014 and 2013, the Plan had no assets measured at fair value on a non-recurring basis and no liabilities measured at fair value on a recurring or non-recurring basis.

Note M - Related-Party Transactions

Certain Plan investments are shares of pooled separate accounts and deposits in guaranteed funds managed by ING Life Insurance and Annuity Company. ING is a custodian of the Plan's assets as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services and administration fees, which are netted against investment income, amounted to approximately $34,000 and $36,000 for the years ended July 31, 2014 and 2013, respectively.

Note N - Plan Termination

Although it has not expressed any intent to do so, the plan sponsors have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note O - Taxes

The Plan adopted the DATAIR mass-submitter prototype non-standardized cash or deferred profit sharing plan 01-031 that received its initial determination letter on March 31, 2008. The Plan obtained its latest determination letter from the Internal Revenue Service (IRS) on September 3, 2010 which stated that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of July 31, 2014. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator has determined that the Plan does not have any uncertain tax positions and associated unrecognized benefits that materially impact the financial statements or related disclosures. As tax matters are subject to some degree of uncertainty, there can be no assurance that the Plan's returns will not be challenged by the taxing authorities and that the Plan will not be subject to additional tax, penalties, and interest as a result of such challenge.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations by the Department of Labor or by the Internal Revenue Service for the years prior to 2010.

Note P - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note Q - Subsequent Events

Distributions totaling approximately $438,000 were made after July 31, 2014 to participants who terminated service in prior plan years.
