Note 1 – Description of Plan

The following description of the Flagler System, Inc. Employees' Savings Plan (formerly Flagler System, Inc. Employees' Savings and Retirement Plan) (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on September 1, 1989 as a defined contribution plan covering all employees of Flagler System, Inc. and its subsidiaries (the Company), who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants in the Plan may contribute an amount not to exceed 50% of their pretax annual compensation within the limits prescribed by the Internal Revenue Service (the IRS). Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans. For the years ended December 31, 2014 and 2013, individual participants' contributions were limited to $17,500 each year. Participants who are age 50 and older may also contribute an additional $5,500 on an annual basis. The Company's matching contributions for the years ended December 31, 2014 and 2013 were up to a maximum of 4% of the participant's salary each year.

Participant accounts

Each participant account is credited with the participant's contribution and allocations of: (a) the Company's contribution and (b) Plan earnings or losses. Allocations of fund net earnings or losses are based on the participants' account balances. All participant contributions are participant-directed and may be invested in one fund or allocated among different funds. Participants may change the allocation of contributions among funds pursuant to Plan provisions.

Investment options

A participant may direct employee contributions into any of the following investment options:

- *T. Rowe Price Stable Value Fund* – This fund consists of a guaranteed principal fund with the objective of returning a fixed rate of income over a stated period of time.
- *T. Rowe Price Equity Income Fund* – This fund consists of investments with the primary objective of providing high current income while conserving capital and seeking long-term capital growth.
- *T. Rowe Price Growth Stock Fund* – This fund consists of investments with the primary objective of long-term capital growth.

- *T. Rowe Price Mid-Cap Growth Fund* – This fund consists of investments with the primary objective of capital appreciation by investing in common stocks of mid-size companies.

Note 1 – Description of Plan, Continued

Investment options, continued

- *T. Rowe Price Equity Index 500 Fund* – This fund seeks to match the performance of the Standard & Poor's 500 Stock Index®.
- *T. Rowe Price Retirement Date Funds* – Each of these funds consists of a diversified portfolio of stocks, bonds and cash for investors who have a specific target date identified for retirement. These funds seek to provide investors with optimal returns based upon a target retirement date and include target retirement dates ranging from 2005-2055.
- *T. Rowe Price Retirement Income Fund* – This fund consists of a specifically diversified portfolio of T. Rowe Price mutual funds with the primary objective of providing capital growth and income.

Participants may change their investment options at any time.

Allocation and vesting of benefits

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts, plus any earnings thereon, is based upon the number of years of continuous service. Participant accounts vest at a rate of 20% per year of service and become 100% vested after five years of credited service.

Forfeitures

Nonvested employer contributions forfeited by participants are used to reduce future employer contributions. Total forfeitures utilized to reduce employer contributions for the years ended December 31, 2014 and 2013 approximated $59,000 and $70,000, respectively.

Payments of benefits

Upon termination of service for any reason or resulting from death, disability, or retirement, a participant may elect one of the following forms of distribution if the total value of the participant's vested account is greater than $5,000 (excluding the balance of the participant's rollover contribution subaccount, if any): (a) an amount equal to the value of the participant's vested interest in his or her account in a single lump-sum payment, (b) in the form of a paid-up nontransferable annuity contract for the participant's life expectancy or the joint and survivor life expectancies of the participant and participant's beneficiary, or (c) roll-over to another qualified plan. If the total value of a participant's vested account is $5,000 or less, the entire vested account balance will be distributed to the participant in a single payment within a reasonable period of time.

Plan administration

The Plan is administered by the Company. The Plan's assets are maintained by T. Rowe Price Trust Company (T. Rowe Price) who also functions as the Plan Trustee.

Note 1 – Description of Plan, Continued

Participant notes receivable

Plan participants may borrow from their fund accounts a minimum of $1,000 and up to the lesser of 50% of the value of the participant's vested interest in his or her account or $50,000. Loan originations and repayments are treated as transfers between investment funds and the participant's loan fund. Loan terms may not exceed five years, except in the case of loans for the purchase of a primary residence which may have terms of up to 15 years. The loans are secured by the balance in a participant's account and bear interest at the prevailing interest rate, as determined by the Plan Administrator. Interest rates range from 4.0% to 6.0%. Principal and interest are collected ratably through monthly payroll deductions.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments valuation and income recognition

The Plan's investments in registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value of shares held by the fund at year-end.

Investments in Common Collective Trusts (CCT) are reported at fair value based on the unit value as determined by T. Rowe Price at year-end except when holding fully benefit-responsive investment contracts representing the fair value of the underlying investments.

In accordance with the policy of stating investments at market value, unrealized appreciation or depreciation for the year is reflected in the statement of changes in net assets available for plan benefits.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Participant notes receivable

Participant notes receivable are valued at their unpaid principal balance plus accrued interest which approximates fair value.

Administrative expenses

The Company has elected to pay certain administrative expenses of the Plan.

Management estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and changes in net assets and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and such differences could be material.

Note 2 – Summary of Significant Accounting Policies, Continued

Risks and uncertainties

The Plan provides for various investment options. Investment securities are exposed to interest rate, market and credit risks. Due to the high level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Payment of benefits to withdrawing participants

The Plan records benefit payments to withdrawing participants when paid.

Note 3 – Investments

Investment information was obtained from data prepared and certified to as complete and accurate by the Plan Trustee as of December 31, 2014 and 2013 and for the years then ended. With exceptions as noted, the following are investments that represent five percent or more of the Plan's net assets available for plan benefits as of December 31, 2014 and 2013:

	2014	2013
Common Collective Trust:		
T. Rowe Price Stable Value Fund, at fair value**	$ 10,384,216	$ 11,148,280

Total investments	$ 70,714,703	$ 65,594,920

*Represents an individual investment of less than 5% of net assets.

**T. Rowe Price certified to the contract value of this investment as $10,233,679 and $10,992,482 at December 31, 2014 and 2013, respectively.

For the years ended December 31, 2014 and 2013, investment advisory and administration fees charged by the Plan Trustee approximated $469,000 and $428,000, respectively. Such costs are included in net realized gains and appreciation in fair value of investments in the accompanying statements of changes in net assets available for plan benefits.

Note 4 – Investment Contract

The Plan has a benefit-responsive investment contract with the Plan Trustee who maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract value of the CCT is the relevant measurement of net assets available for plan benefits in a defined contribution plan that holds fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for plan benefits present fair value of the fully benefit-responsive investment contracts with an appropriate adjustment to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis. Contract value, as reported by T. Rowe Price Stable Value Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yields based on actual earnings for the CCT for the years ended December 31, 2014 and 2013 were 2.3% and 2.0%, respectively. As of December 31, 2014 and 2013, there are no reserves recorded against contract value for credit risk of the contract issuer.

Note 5 – Fair Value Measurements and Disclosures

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), ASC 820, *Fair Value Measurement,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following table summarizes the Plan's investments based on the valuation methodology applied by the Plan as of December 31, 2014 and 2013:

	December 31, 2014			
	Level 1:	Level 2:	Level 3:	Total
Description	Quoted prices in markets for identical assets	Significant other observable inputs	Significant unobservable inputs	
Registered investment companies	$ 60,330,487	$ -	$ -	$ 60,330,487
Common collective trust	-	10,384,216	-	10,384,216
	$ 60,330,487	$ 10,384,216	$ -	$ 70,714,703

Note 5 – Fair Value Measurements and Disclosures, Continued

	December 31, 2013			
	Level 1:	Level 2:	Level 3:	Total
Description	Quoted prices in markets for identical assets	Significant other observable inputs	Significant unobservable inputs

	$ 54,446,640	$ 11,148,280	$ -	$ 65,594,920

Note 6 – Refunds Payable for Excess Contributions

During 2014 and 2013, the Plan received contributions from participants in excess of Plan and IRS limitations. Such amounts were refunded to participants in each subsequent year.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 – Tax Status

The Company has established, and intends to maintain, the Plan as a qualified plan under Section 401 of the Internal Revenue Code which provides for exemptions from federal income taxation. The Plan obtained its latest determination letter on January 25, 2005, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 9 – Party-In-Interest Transactions

The Plan's investments principally consist of an interest in a common collective trust and shares of mutual funds administered by T. Rowe Price, therefore, these transactions qualify as party-in-interest.

Note 10 – Subsequent Events

The Plan evaluated events occurring subsequent to December 31, 2014 through April 15, 2015, the date the financial statements were available to be issued, for matters that should be recorded in the financial statements or disclosed in the footnotes thereto.
