INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the
Engineered Glass Products, LLC Savings Plan
Chicago, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of ENGINEERED GLASS PRODUCTS, LLC SAVINGS PLAN as of December 31, 2009 and 2008, the related statement of changes in net assets available for benefits for the years then ended, and the supplemental schedules as of and for the year ended December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Minnesota Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ENGINEERED GLASS PRODUCTS, LLC SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following brief description of Engineered Glass Products, LLC Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering eligible employees of Engineered Glass Products, LLC (the Company). Employees are eligible to participate upon completing three months of service and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation. The Company is the plan administrator.

Contributions – Participants may make contributions to the Plan from 1% to 40% of their compensation through pretax salary deferrals, subject to Internal Revenue Service tax limitations. The Company matches 100% of non-union employees' contributions up to $700 per year. The Company matches 50% of union employees' contributions up to $700 per year. The Company at its discretion may make an additional profit sharing contribution to the Plan during the plan year. In 2009 and 2008, the Company made discretionary contributions in the amounts of $160,047 and $112,346, respectively. Forfeitures were used to reduce such company contributions.

A participant who terminates before the end of the period for which contributions are allocated shall share in the allocation of employer-matching contributions if the termination of employment was the result of retirement, disability, death, or involuntary termination as determined by the Company.

Participant Accounts and Allocations – Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) the Plan's earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account to any of the investment options available under the Plan.

Vesting – Participants are 100% vested at all times in the value of their contributions and 100% vested in the Company's matching contribution upon enrollment. Participants become 100% vested in profit sharing contributions after six years of continuous service. Any forfeitures of nonvested profit sharing contributions are used to reduce future employer contributions.

Payment of Benefits – Under the terms of the Plan, participants are eligible for benefits upon reaching their early retirement date (the age of 55 and 5 years of continuous service) or normal retirement date (the age of 65). Upon the retirement, death, or total and permanent disability of a participant, the total value in that participant's accounts will be paid.

The value of the participant's accounts can be paid as a single lump sum or in monthly, quarterly, semiannual, or annual installments over a period not exceeding ten years. If a participant's employment with the Company terminates for any reason other than as stated above, the participant is entitled to the value of his or her Member 401(k) Account and the vested portion of his or her Employer Contribution Account.

1. Description of Plan (Cont.)

Loans to Participants – The Plan allows for loans to participants. Loans are contingent upon approval by the administrative committee and are subject to minimum and maximum amounts and certain repayment conditions. All loans shall bear interest, based on the interest rates charged by lending institutions made under similar circumstances at the time of the loan. The interest rate will remain fixed throughout the duration of the loan.

Forfeitures – Forfeitures represent the nonvested portion of the Company's profit sharing and nonelective contributions plus earnings thereon, which are not distributable to participants who terminate employment before they are 100% vested. There were $17,262 and $39,837 in forfeitures utilized to reduce Company contributions in 2009 and 2008, respectively.

Investment Programs – Contributions are invested by the trustee, as directed by the participant, in one or more of the investment options offered by the Plan. Participants may elect to change investment options on future contributions once during each business day that the trustee and the New York Stock Exchange are open and may transfer past contributions from one fund to another fund once each business day.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Fully Benefit-Responsive Investment Contract – Generally accepted accounting principles require investment contracts held by a defined-contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Management and the trustee have determined that the estimated fair value of the Plan's direct investment in a fully benefit-responsive contract approximates the contract value. Accordingly, the statements of net assets available for benefits reflect no adjustment for the difference between net assets with all investments at fair value and net assets available for benefits.

Investment Valuation and Income Recognition – The Plan's investments in pooled separate accounts are stated at fair value. The fair value of participation units held by the Plan in pooled separate accounts are based on the net asset values of the separate accounts, as reported by the insurance company that manages the separate account. The Plan's guaranteed investment contract provides a guaranteed interest rate for a specified period of time, as determined by the trustee. The investment contract is reported at estimated fair value, which approximates contract value. The estimated fair value is based on a discounted cash flows methodology, utilizing current rates of return available for similar contracts, with comparable credit risks, as of the respective financial statement dates. Participant loans are stated at principal amounts, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (Cont.)

Administrative Expenses – Substantially all administrative expenses of the Plan, including trust, management and legal fees were paid by the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

3. Investments

The plan administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008, and the schedule of assets (held at end of year) as of December 31, 2009, and the investment income (loss) and related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2009 and 2008.

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
Minnesota Life Insurance Company Pooled Separate Accounts:		
Money Market Fund	$ 590,907	$ 903,097
Large Equity Index I Fund	241,456	175,586
Large Growth Equity VIII Fund	246,361	
Lifestrategy III Fund	270,032	315,250
International Core II Fund	353,346	209,771
Intermediate Term Bond Index I Fund	215,418	192,468
Large Growth Equity VII Fund	231,605	*
Minnesota Life Insurance Company Investment Contract: Guaranteed Investment Contract:		
Guaranteed Return Account	840,139	592,585

*Investment does not exceed 5%.

3. Investments (Cont.)

During 2009 and 2008, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value as follows:

	2009	2008
Pooled separate accounts	$ 463,552	$ (914,792)

4. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair value of participation units held by the Plan in pooled separate accounts is based on their net asset values, as reported by Minnesota Life Insurance Company and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date.

The pooled separate accounts invest mainly in domestic stocks and mutual funds. The fair value of the mutual funds is obtained from quoted market pricing (Level 1 inputs), and the majority of the underlying securities have observable Level 1 quoted pricing inputs. While the underlying asset values are quoted prices, the NAV of a separate account is not publicly quoted and therefore contain other observable Level 2 inputs.

The Guaranteed Return Account is a variable group annuity contract. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. These underlying investments have unobservable Level 3 pricing inputs.

4. Fair Value Measurements (Cont.)

The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance.

		Fair Value Measurements Using Reporting Date		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2009:				
Pooled separate accounts	$ 3,075,137	$ -	$ 3,075,137	$ -
Guaranteed return account	840,139	-	-	840,139
Participant loans	17,377	-	-	17,377
	$ 3,932,653	$ -	$ 3,075,137	$ 857,516
December 31, 2008:				
Pooled separate accounts	$ 2,614,535	$ -	$ 2,614,535	$ -
Guaranteed return account	592,585	-	-	592,585
Participant loans	6,590	-	-	6,590
	$ 3,213,710	$ -	$ 2,614,535	$ 599,175

Changes in fair value of assets measured on a recurring basis using significant unobservable inputs (Level 3) for the years ended December 31, 2009 and 2008, are as follows:

	Guaranteed Return Account	Participant Loans
January 1, 2008	$ 762,668	$ 3,290
Purchases, sales, issuances and settlements (net)	(193,206)	3,300
Investment income	23,123	-
December 31, 2008	592,585	6,590
Purchases, sales, issuances and settlements (net)	221,525	10,787
Investment income	26,029	-
December 31, 2009	$ 840,139	$ 17,377

5. Guaranteed Investment Contract with Insurance Company

In 2006, the Plan entered into a fully benefit-responsive guaranteed investment contract with Minnesota Life Insurance Company (the Issuer). The Issuer maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances that would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than 1.5%. Such interest rates are reviewed on a quarterly basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, should be reflected in the statement of net assets available for benefits as "adjustment from fair value to contract value for fully benefit-responsive investment contracts." No adjustment is reflected in the Plan's 2009 or 2008 statement of net assets available for benefits, as the fair values of the investment contracts have been estimated to approximate their contract values. The average yields based upon interest rates credited to participants were 3.38% and 3.73% for the years ended December 31, 2009 and 2008, respectively.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

7. Tax Status

Effective January 15, 2004, the plan document was restated for recent law changes. The plan sponsor adopted the restated version of the Standardized Prototype Plan Document. The Plan obtained a determination letter for the Standardized Prototype dated November 29, 2001, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The party-in-interest investments consist of pooled separate accounts and a guaranteed investment contract issued by Minnesota Life Insurance Company, the plan trustee. Transactions in these investments are allowable party-in-interest transactions under Section 408 of ERISA.

Plan loans to participants also qualify as party-in-interest investments. Fees paid by the Plan during the year were based on customary and reasonable rates for such services.

9. Risks and Uncertainties

The Plan provides for various investment options including any combination of certain pooled separate accounts and a guaranteed investment contract. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 at December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$ 4,125,911	$ 3,333,421
Employer contribution receivable	(188,273)	(116,931)
Participant contribution receivable	(4,985)	(2,780)
Net assets available for benefits per the Form 5500	$ 3,932,653	$ 3,213,710

The following is a reconciliation of the net increase (decrease) in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2009 and 2008:

	2009	2008
Net increase (decrease) in net assets available for benefits per the financial statements	$ 792,490	$ (1,301,449)
Less current year employer contribution receivable	(188,273)	(116,931)
Plus prior year employer contribution receivable	116,931	311,174
Less current year participant contribution receivable	(4,958)	(2,780)
Plus prior year participant contribution receivable	2,780	6,305
Net increase (decrease) in net assets available for benefits per the Form 5500	$ 718,970	$ (1,103,681)

11. Late Deposit

During the Plan year ended December 31, 2009, salary deferrals of $4,792 were not timely made. These deferrals were subsequently deposited upon discovery.
