REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Plan Administrator
MainSource Financial Group, Inc. 401(k)
and Employee Stock Ownership Plan
Greensburg, Indiana

We have audited the accompanying statements of net assets available for benefits of the MainSource Financial Group, Inc. 401(k) and Employee Stock Ownership Plan ("the Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations of Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2009 financial statements taken as a whole.

MAINSOURCE FINANCIAL GROUP, INC.
401(k) AND EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the MainSource Financial Group, Inc. 401(k) and Employee Stock Ownership Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the MainSource Financial Group, MainSource Bank, MainSource Insurance Group, Inc., and Insurance Services Marketing, LLC (collectively, "the Company") who are age 18 or older. In the second quarter of 2009, the Company established Insurance Services Marketing, LLC ("ISM"), an Indiana limited liability company. ISM is an insurance brokerage agency that sells insurance products to customers and non-customers of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute up to 60% of their pretax eligible compensation to the Plan. Participants may also roll over amounts representing distributions from other qualified defined benefit or defined contribution plans. Effective July 1, 2008, new participants are automatically enrolled to defer 1% of eligible compensation unless the participant changes the percentage of compensation to defer or elects not to participate in the Plan. Effective January 1, 2010, new participants will be automatically enrolled to defer 3% of eligible compensation. The contributions will be invested in a Life Cycle Fund that corresponds to their estimated time of retirement, unless the participant changes the allocation. The Company may, at the discretion of the Board of Directors, make a matching contribution to the Plan to participants who have provided at least one year of service. For 2009, the Company matched the employee contributions at a rate of 80% up to 8% of the participant's compensation. The Company may also, at the discretion of the Board of Directors, make an additional employer contribution to the Plan to these participants. No such payment was authorized for 2009. All contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's own contribution and their share of the Company's contributions. The allocation of the Company's matching contribution is based on participant deferrals. The allocation of any additional discretionary Company contribution is based on compensation. Allocation of earnings is based on participants' account balances. The benefit to which a participant is entitled is that provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Participants are immediately vested in their own contributions and rollovers plus earnings thereon. All employer contributions in the Plan as of April 30, 1998 are fully vested as of that date. Participants who have balances transferred from the PTC Employees' Retirement Plan are 100% vested in those amounts. Participants who have balances transferred from one of the acquired affiliates in 2006 (MainSource Bank - Crawfordsville, MainSource Bank - Hobart, and MainSource Bank - Ohio) are vested the same percentage in the MainSource Plan as they were in their former plan. For amounts contributed after April 30, 1998, vesting in the Company's matching contribution and additional employer contribution portion of their accounts plus earnings thereon is based on years of service, as defined in the Plan, based on the following schedule:

Years of Service	Vesting Percentage
1	0
2	20
3	40
4	60
5	80
6	100

A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts may be used to offset future employer matching contributions or administrative expenses of the Plan. At December 31, 2009 and 2008, forfeited accounts totaled $115,885 and $101,276, respectively. During 2009, $35,853 of the forfeiture account was used for these purposes.

Payment of Benefits: Upon termination of service, a participant may elect to receive an amount equal to the value of his or her vested interest in their account in the form of a lump sum or installment payments. Balances are generally paid as a single lump-sum distribution.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Participant Loans: Participants may borrow from the Plan. The amount that can be borrowed is a maximum generally equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms generally range from 1 to 5 years; however, they may be as long as 30 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with prevailing rates as determined by the plan administrator. Principal and interest payments are made through payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting based on U.S. generally accepted accounting principles.

Adoption of New Accounting Standards: In June 2009, the FASB replaced *The Hierarchy of Generally Accepted Accounting Principles*, with the *FASB Accounting Standards Codification* ™ ("The Codification" or "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification is effective for financial statements issued for periods ending after September 15, 2009.

In April 2009, the FASB issued guidance that emphasizes that the objective of a fair value measurement does not change even when market activity for the asset or liability has decreased significantly. Fair value is the price that would be received for an asset sold or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. When observable transactions or quoted prices are not considered orderly, then little, if any, weight should be assigned to the indication of the asset or liability's fair value. Adjustments to those transactions or prices should be applied to determine the appropriate fair value. The standard also requires increased disclosures. The guidance was applied prospectively in 2009, and the impact of adoption of this standard was not material to the Plan's net assets available for benefits.

In September 2009, the FASB issued guidance which provides a practical expedient for measuring the fair values of Plan investments in a limited number of entities that calculate a net asset value per share (such as hedge funds, private equity funds, funds of funds, and certain collective trusts, common trusts and pooled separate accounts). This guidance also provides

enhanced disclosure requirements, and it became effective for Plan reporting periods ending after December 15, 2009. Early application is permitted in financial statements that have not yet been issued. The Plan's adoption of this standard in 2009 had no material effect upon the Plan's net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Company common stock: The fair value of MainSource Financial Group, Inc. common stock is determined by obtaining quoted prices from a nationally recognized exchange (level 1 inputs).

Stable value fund: The fair value of participation units in the Federated Capital Preservation Fund, a stable value collective trust, is based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (level 2 inputs). The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification requirement for the purpose of funding a bona fide benefit payment, making a Participant loan, honoring an employee-directed transfer of the employee's interest in the plan to another investment election, or paying trust fees. Withdrawals from the Fund for any other purpose generally require 12 months advance written notice.

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mutual funds	11,777,245	—	—
Stable value fund	—	4,813,822	—

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in a fully benefit-responsive contract through its investment in a stable value fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates.

Risks and Uncertainties: The Plan provides for various investment options. The underlying investment securities are exposed to various risks such as interest rate, market, liquidity and credit risk. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

Concentration of Credit Risk: At December 31, 2009 and 2008, approximately 17% and 41%, respectively, of the Plan's assets were invested in MainSource Financial Group, Inc. common stock. This stock has full voting rights.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, subject to the provisions of ERISA and its related regulations. In the event of the Plan's termination, participants will become 100% vested in their accounts.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain professional fees related to the administration of the Plan were paid by the Company. Fees paid by the Plan in 2009 to Crowe Horwath LLP, the auditors, of $17,000 qualify as party-in-interest transactions.

The Plan's investments in MainSource Financial Group, Inc. common stock at December 31, 2009 and 2008 qualify as party in interest investments. Fees paid by the Plan in 2009 to Benefit Plan Administrators, Inc., the recordkeeper, of $40,231 qualify as party-in-interest transactions.

The Plan received dividend income from investments in MainSource Financial Group, Inc. common stock. These dividends qualify as party in interest transactions. The total dividends received from the MainSource Financial Group, Inc. common stock was $207,587.

Additionally, the Plan held party in interest investments in the form of participant loans at December 31, 2009 and 2008.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated November 29, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and continues to be operated in compliance with applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.
