Independent Auditor's Report

To the Plan Administrator
UVMC Self Directed Retirement Plan

We were engaged to audit the accompanying modified cash basis financial statements and supplemental schedule of UVMC Self Directed Retirement Plan (the "Plan") as of December 31, 2010 and 2009 and for the years then ended, as listed in the accompanying table of contents. These modified cash basis financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by ING National Trust, the trustee of the Plan, except for comparing such information with the related information included in the modified cash basis financial statements and supplemental schedule. We have been informed by the plan administrator that ING National Trust holds the Plan's investments assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee at December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

As described in Note 2, the financial statements and supplemental schedule referred to above were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying modified cash basis financial statements and supplemental schedule taken as a whole. The form and content of the information included in the modified cash basis financial statements and supplemental schedule, other than that derived from the investment information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As explained in Note 3, the financial statements include investments valued at approximately $3,200,000 (26 percent of net assets) at December 31, 2010 and $3,000,000 (28 percent of net assets) at December 31, 2009 whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by the Trustee.

Note 1 – Plan Description

The following brief description of the UVMC Self Directed Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering substantially all full-time and part-time employees of Upper Valley Medical Center, Miami County Mental Health Center, and UVMC Management Corporation. These entities are member corporations of UVMC (the "Plan Sponsor"). The Plan provides retirement benefits for eligible participants. Participants become eligible to participate in the Plan at their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Contributions to the Plan consist of employer contributions and employee rollovers from qualified plans or Individual Retirement Accounts (IRAs). Contributions are invested, at the discretion of the participants, in any of the fund options offered under the Plan. Employer contributions are generally based on a percentage of participant compensation as follows:

Completed Years of Service	Percentage
Less than 5 years	3
5 to 9 years	4
10 years or more	5

Participant Accounts – Each participant's account is credited/debited with the employer's contributions, plan earnings, and plan expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting – Vesting is based on years of benefit service, which is defined as any year in which a participant works at least 1,000 hours. A participant is 20 percent vested after one year of service and is vested an additional 20 percent each successive year through five years, at which time the participant is fully vested. A participant is automatically fully vested in any amount that the participant rolls into the Plan from another qualified plan or IRA. Forfeited balances of terminated participants' nonvested accounts are used to reduce future plan expenses and contributions of the Plan Sponsor. As of December 31, 2010 and 2009, there was $58,436 and $26,901, respectively, of unallocated cumulative forfeited funds in nonvested accounts. During the year ended December 31, 2010, $243,219 of forfeitures were allocated to participants' accounts and employer contributions were reduced by the same amount ($57,132 in 2009).

Payment of Benefits – Upon termination of service, death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested value of his or her account. Additional payment options consist of life annuities, term annuities, and joint and survivor annuities.

Plan Termination – As permitted by the Plan, the Plan Sponsor has approved the merger of the Plan into the UVMC 401(k) Savings Plan, effective in October 2011. At that time, the Plan will cease to exist as a separate retirement plan. See Note 8 for further discussion.

Note 1 – Plan Description (continued)

Party-in-interest Transactions – Certain plan assets are in investment funds managed by ING National Trust or its affiliates. ING National Trust is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 – Significant Accounting Policies

Basis of Presentation – The Plan presents its financial statements and supplemental schedule on the modified cash basis of accounting as permitted under the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Income and related receivables are recognized when received rather than when earned; expenses and related liabilities are recognized when paid rather than when the obligation is incurred. Additionally, these statements differ from the cash basis of accounting in that investments are recorded at fair value.

Investment Valuation – Investments are stated at fair value. Investments in pooled separate accounts are stated at fair value, based on the fair market value of the underlying assets. The fair value of the guaranteed investment contract, which approximates contract value, is based on discounting the related cash flows of the underlying guaranteed investment contract based on current yields of similar instruments with comparable durations. The fair value of the guaranteed investment contract is then adjusted to contract value, which represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 3 for additional details.

Benefit Payments – Benefits are recorded when paid.

Administrative Expenses – Certain administrative expenses are paid by both the Plan and the Plan Sponsor.

Use of Estimates – The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Fair Value of Assets and Liabilities

Topic 820, *Fair Value Measurements of the Financial Accounting Standards Board Accounting Standards Codification*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. To measure fair value, the Plan Sponsor incorporates assumptions that market participants would use in pricing the asset or liability, and utilizes market data to the maximum extent possible. The measurement of fair value incorporates nonperformance risk (i.e., the risk that an obligation will not be fulfilled). In measuring fair value, the Plan Sponsor reflects the impact of its own credit risk on its liabilities, as well as any collateral. The Plan Sponsor also considers the credit standing of its counterparties in measuring the fair value of its assets.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 inputs are defined as quoted prices in active markets for identical assets or liabilities.

Level 2 inputs are observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Significant Level 2 inputs include comparable U.S. government, foreign, and corporate obligations that are traded on the open market.

Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Significant inputs for the guaranteed investment contract include specific terms and contractual provisions in the contracts including the effective interest rate.

Note 3 – Fair Value of Assets and Liabilities (continued)

The fair value of financial assets measured on a recurring basis was determined as follows:

	Fair Value Measurements at Reporting Date Using			
	Fair Value December 31, 2010	(Level 1) Quoted Prices In Active Markets	(Level 2) Other Observable Inputs	(Level 3) Unobservable Inputs
Assets				
Pooled separate accounts:				
Equity investments (a)	$ 3,116,142	$ -	$ 3,116,142	$ -
Fixed-income investments (b)	390,050	-	390,050	-
Balanced investments (c)	5,841,636	-	5,841,636	-
Guaranteed investment contract	3,251,930	-	-	3,251,930
Total assets at fair value	$12,599,758	$ -	$ 9,347,828	$ 3,251,930

	Fair Value Measurements at Reporting Date Using			
	Fair Value December 31, 2009	(Level 1) Quoted Prices In Active Markets	(Level 2) Other Observable Inputs	(Level 3) Unobservable Inputs
Assets				
Pooled separate accounts:				
Equity investments (a)	$ 2,545,426	$ -	$ 2,545,426	$ -
Fixed-income investments (b)	331,533	-	331,533	-
Balanced investments (c)	4,848,782	-	4,848,782	-
Guaranteed investment contract	3,036,447	-	-	3,036,447
Total assets at fair value	$10,762,188	$ -	$ 7,725,741	$ 3,036,447

Note 3 – Fair Value of Assets and Liabilities (continued)

The following classes describe the investment categories:

(a) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities which may include common stocks, options, and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

(b) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

(c) This class represents investments in actively managed pooled separate accounts that invest in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

The following table sets forth a summary of the changes in the fair value of the Plan's Level 3 investment assets for the years ended December 31, 2010 and 2009:

	Guaranteed Investment Contract	
	2010	**2009**
Balance at beginning of year	$ 3,036,447	$ 2,349,097
Purchases and issuances	596,403	791,145
Sales and settlements	(380,920)	(103,795)
Balance at end of year	$ 3,251,930	$ 3,036,447

The Plan's procedure is to recognize transfers between levels of the fair value hierarchy as of the actual date the transfer occurred. There were no significant transfers between levels of the fair value hierarchy during 2010 and 2009.

Note 4 – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 10, 2010 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Note 5 – Unaudited Information

The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by ING National Trust (the "Trustee"). The Trustee holds the Plan's investments and executes all investment transactions.

Investments that exceed 5 percent of end of year net assets are as follows:

	2010	2009
Pooled separate accounts at fair value:		
American Funds Growth Fund	$ 646,572	$ 545,709
ING Solution 2015 Portfolio	1,280,853	1,196,877
ING Solution 2025 Portfolio	1,714,569	1,366,928
ING Solution 2035 Portfolio	2,251,027	1,850,534
Investment contract at contract value:		
ING Fixed Plus Account	3,251,930	3,036,447

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 – Guaranteed Investment Contract

The Plan has a benefit-responsive investment contract with ING National Trust (the "contract issuer"). The contract issuer maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the contract issuer, but may not be less than 3.00 percent. Such interest rates are reviewed on a periodic basis for resetting.

Note 7 – Guaranteed Investment Contract (continued)

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options, (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the trust to quality for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the contract issuer to terminate the contract prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan agreement. The contract issuer may be in default if it breaches a material obligation under the guaranteed investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in contract; or is acquired or reorganized and the successor contract issuer does not satisfy the investment or credit guidelines applicable to the contract issuer. If, in the event of default of the contract issuer, the Plan were unable to obtain a replacement guaranteed investment contract, withdrawing plans may experience losses if that value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional contract issuers over time to diversify the Plan's exposure to such risk, but there is no assurance that the Plan may be able to do so. The combination of the default of the contract issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of the guaranteed investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each contract issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to the contract issuer's default (other than a default occurring because of a decline in its rating), the contract issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the contract issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the guaranteed investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 7 – Guaranteed Investment Contract (continued)

The average yield for the guaranteed investment contract, based on actual earnings and on interest rates credited to participants, was 3.00 percent for 2010 and 2009.

Note 8 – Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 24, 2011, which is the date the financial statements were available to be issued.

In July 2011, the UVMC Board of Directors approved a plan to merge the UVMC Self Directed Retirement Plan into the UVMC 401(k) Savings Plan. The merger is scheduled to take effect October 2011. All benefits, rights and features of the UVMC Self Directed Retirement Plan and the UVMC 401(k) Savings Plan will be preserved under the merger. The merger will not affect the overall fair value of the combination of these two Plans.
