Note 1 - Description of Plan

The following description of the Townley Manufacturing Company, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more detailed description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Townley Manufacturing Company, Inc. (the Company) who have completed six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is administered by the trustees appointed by the Board of Directors of the Company. The Plan was established effective January 1, 1998, and was amended and restated since it was established, with the most recent restatement effective January 1, 2014.

Eligibility

All employees not excluded by class are eligible to enter on the entry date coincident with or next following completion of six months of service.

Contributions

Each year, participants may contribute a percentage of their compensation, up to a maximum of $17,500 for participants under age 50 and $23,000 for participants age 50 and older for 2014. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may also make contributions at its discretion. In 2014, the Company contributed an amount equal to 25.5% of the employees' elective deferrals.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and may be charged with an allocation of administration expenses. Allocations are based on participant compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions as well as the Company's contributions plus actual earnings thereon.

Investment Power

The participants are able to direct the investment of their entire interest in the Plan. The Plan administrator provides the participants with information regarding the investment choices and options available to them. An investment advisor who works for the record-keeper is available to assist all of the participants with their investment decisions on an individual basis, as requested by the participants. To the extent the participants do not direct the investments of their Plan benefits, the trustee or another designated person is responsible for the investments of all assets held by the Plan.

Note 1 - Description of Plan, (Continued)

Forfeitures

Since the participants are 100% vested in the Plan upon entry, there are no forfeitures.

Note 2 - Summary of Significant Accounting Policies

The accompanying financial statements are presented on the accrual basis of accounting. The following is a summary of the more significant accounting principles and practices used in the preparation of the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation

The Plan's investment portfolio at December 31, 2014 consists of guaranteed investment accounts and pooled separate accounts available only through John Hancock Life Insurance Company (U.S.A.) (John Hancock USA). The various funds offered through John Hancock USA are invested in underlying mutual funds that are publicly traded and adjusted for re-invested dividends and administrative maintenance and sales and service fees. Plan investments are stated at fair market value at year end, as determined by John Hancock USA.

Payment of Benefits

On termination due to death, disability, or regular retirement, a participant is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, semiannual, or annual cash installments. Benefits are recorded when paid.

Plan Expenses

The Company pays most of the general expenses of the administration of the Plan.

Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies, (Continued)

Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through the date the financial statements were issued, or October 13, 2015. No subsequent events have been recognized or disclosed.

Note 3 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 4 - Information Prepared and Certified by Custodian (Unaudited)

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified by the custodian of the Plan as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $6,249,238 and $5,850,561 at December 31, 2014 and 2013, respectively, and related gains of $309,392, which consists of appreciation in the fair value of investments of $307,907 and interest income of $1,485, for the year ending December 31, 2014.

The following presents investments at December 31, 2014 and 2013 that represent 5% or more of the Plan's net assets.

	2014	2013
Lifestyle Conservative	$ 698,686	$ 1,078,109
Lifestyle Moderate	408,556	368,105
Lifestyle Balanced	749,828	662,863
Lifestyle Growth	*	367,682
Money Market Fund	*	411,695
500 Index Fund	335,266	*
Utilities Fund	640,079	355,842

* Amount of investment not listed, as it does not exceed 5% or more of the Plan's net assets at December 31, 2014 or 2013.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the fair market value of shares held by the plan at year end based on the value of underlying mutual funds, adjusted for re-invested dividends and administrative charges and sales and service fees.

Guaranteed interest accounts: Valued at fair value based on the return of principal plus a guaranteed compound interest rate earned over a defined term, less applicable contract or recordkeeping charges, provided the contributions remain in the account until the end of the guarantee period.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements, (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

The Plan's policy is to recognize transfers into and out of levels as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2014, there were no significant transfers into or out of levels 1, 2, or 3. For the year ended December 31, 2013, the guaranteed interest accounts were restated from a level 3 to a level 2 based upon the inputs to value the investment option.

Note 6 - Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan is in compliance with the applicable requirements of the Internal Revenue code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 - Parties-In-Interest Transactions

Parties-in-interest include fiduciaries of the Plan, any person who provides services to the Plan, the employer, and certain other parties. Transactions during the year with parties-in-interest included the following:

The employer, Townley Manufacturing Company, Inc. provided certain accounting, administrative, and investment management services to the Plan for which no fees are charged. John Hancock USA holds the Plan investments and provides investment advisory and recordkeeping services to the Plan.

Note 8 - Distributions Payable

At December 31, 2014 and 2013, net assets available for plan benefits included $0 and $3,000, respectively, for distributions to participants who have requested a distribution from the Plan prior to the end of the Plan year.
