Note A - Description of Plan

The following description of the All Tile, Inc. Employees' Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General

   The Plan is a discretionary contribution plan with compensation deferral features covering all employees of All Tile, Inc. (Company) who have completed three months of service and are age eighteen or older. These employees may contribute pre-tax contributions to the Plan and are eligible for the discretionary matching contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). For purposes of being eligible to receive profit sharing contributions, the minimum age requirement is age eighteen and the minimum service requirement is one year of service.

2. Contributions

   Participants may contribute up to 100% of pre-tax annual compensation (maximum limit of $16,500 in 2010), as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions (maximum limit of $5,500 in 2010). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

   The Company may, at its sole discretion, make matching contributions each pay period in an amount equal to 25% of the first 3% of compensation deferrals the employee makes to the Plan, if the employee is employed on the last day of such pay period and is eligible to participate in the Plan.

   The Company may also make a discretionary profit sharing contribution to the Plan at year-end on behalf of all eligible employees. To be eligible an employee must be an active participant on the last day of the plan year.

3. Participant Accounts and Administration

   Under the terms of the plan agreement, the trustee invests participant contributions and employer matching contributions in several investment funds as specified by the participants. Employer discretionary profit sharing contributions are invested in several investments as specified by the Plan sponsor. Each participant's account is credited with the participant's contribution and allocation of the Company's matching and discretionary contributions and plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeitures may be used to pay administrative expenses of the Plan and to reduce future employer contributions. The plan administrator authorizes all withdrawals of Plan assets and is responsible for the general administration of the Plan and compliance with its provisions. The costs of administering the Plan are borne by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Note A - Description of Plan (Cont'd)

4. Vesting
   Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service, as defined. A participant is 100% vested in the matching and discretionary contributions after five years of credited service.

5. Forfeited Accounts
   At December 31, 2010 and 2009, forfeited nonvested accounts totaled $2,951 and $1,789, respectively. This amount will be used to reduce future employer contributions or administrative expenses.

6. Payment of Benefits
   On termination of service, if the amount exceeds $1,000, a participant may elect to receive one of the following: a lump-sum amount equal to his or her vested account or annual installments over a period which does not exceed the life of the participant or the designated beneficiary. If the amount is $1,000 or less the Plan will make a lump-sum distribution.

7. Notes Receivable From Participants
   Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years or longer for the purchase of a primary residence. The loans bear interest at a rate of 1% above prime rate.

8. Termination
   The Company intends to continue the Plan indefinitely but reserves the right to amend or terminate it. Upon termination, all account balances are nonforfeitable and would be distributed to participants within a reasonable time following termination.

Note B - Summary of Accounting Policies

Basis of Accounting
The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments are reported at fair value except for the life insurance policies which are valued at cash surrender value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B - Summary of Accounting Policies (Cont'd)

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the Plan.

Federal Income Taxes

The plan obtained its latest determination letter in July 2010, in which the Internal Revenue Service (IRS) stated that the plan is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 14, 2011, the date which the financial statements were available to be issued.

Note C - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

Quoted prices for similar assets or liabilities in active markets.

Quoted prices for identical or similar assets or liabilities in inactive markets.

Inputs other than quoted prices that are observable for the asset or liability.

Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value of the shares held by the Plan at year end.

Common stock: Valued at the closing price reported in the active market in which the individual security is traded.

Corporate bonds: Valued at the closing price reported in the active market in which the bond is traded.

U.S. government securities: Valued at the closing price reported in the active market in which the individual security is traded.

Note C - Fair Value Measurements (Cont'd)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010

Note F - Summary of Information Certified by the Custodian

The following is a summary of the unaudited information included in the Plan's financial statements, prepared by the Plan's custodian and furnished to the Plan administrator. The Plan administrator has obtained certification from the custodian that such information is complete and accurate.

	2010	2009
Investments, at fair value:		
Mutual funds	$ 3,002,974	$ 2,578,039
Cash	5,214	3,882
Interest and dividends	38,278	
Net appreciation in fair value of investments	320,327	

Note G - Party-In-Interest Transactions

Morgan Stanley Smith Barney is a custodian to the Plan for the non-participant directed investments. Therefore, any fees paid to them are party-in-interest transactions. Fees of $27,607 were paid to Morgan Stanley Smith Barney for the year ended December 31, 2010.

Counsel Trust Company is a custodian to the Plan for the participant directed investments. Therefore, any fees paid to them are party-in-interest transactions. Fees of $2,392 were paid to Counsel Trust Company for the year ended December 31, 2010.

The Weiss Group, Inc. provides administrative services to the Plan. Therefore, these are party-in-interest transactions. Fees of $27,502 were paid to The Weiss Group, Inc. for the year ended December 31, 2010.

Shepard Schwartz & Harris, L.L.P. is the auditor of the Plan. Therefore, any fees paid to them are party-in-interest transactions. Fees of $14,475 were paid for the year ended December 31, 2010.

Certain employees of the Company act as a fiduciary of the Plan and are responsible for the administration of the Plan. The employees are compensated by the Company and do not receive any compensation from the Plan.

Note H - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values or investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
