INDEPENDENT AUDITOR'S REPORT

Administrative Committee
SIMCO Profit Sharing 401(k) Plan
Santa Clara, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of SIMCO Profit Sharing 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with U.S. generally accepted auditing standards. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company, the trustee and custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

SIMCO PROFIT SHARING 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Note 1 - Description of the Plan

The following description of the SIMCO Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established in 1981 by SIMCO Electronics (the "Company", "Plan Administrator") to provide retirement benefits for its employees. The Plan is a defined contribution plan covering all eligible employees who are not members of a union subject to a collective bargaining agreement or leased employees or employees who are paid cash in lieu of benefits in accordance with a United States Department of Labor Wage Determination which has been issued as a requirement of the Service Contract Act of 1965, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has appointed an Administrative Committee (the "Committee") to manage the operations and administration of the Plan. The Plan Administrator has contracted with Automatic Data Processing (or "ADP"), who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law. The Plan Administrator has also contracted with State Street Bank and Trust Company ("State Street") to act as the Plan trustee and custodian.

Participant contributions

Participants may voluntarily contribute up to 90% of pretax compensation limited to the maximum allowable under the provisions of the Internal Revenue Code (IRC). Participants who are age 50 and over may make additional catch-up contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled at a 6% salary deferral contribution (which they may affirmatively rescind at any time thereafter). A participant may increase or decrease the amount of contributions at any time. Contributions withheld are invested in accordance with the participant's directions.

Participants may also make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions

The Plan allows for discretionary employer matching contributions. The Plan also allows for an additional annual employer discretionary profit sharing contribution, in an amount determined by the Company, to participants who are eligible to share in the contributions for the Plan year. Effective January 2013, the Company's discretionary matching contribution is calculated at 50% of participant deferral contributions up to a total of 2% of compensation. Such contributions amounted to $134,608 and $125,447 for the years ended December 31, 2014 and 2013, respectively.

Note 1 - Description of the Plan (continued)

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, if any, and (b) Plan investment earnings or losses. Allocations of the Company's contributions are based on participant contributions or eligible participants' compensation, as defined in the Plan agreement. Allocations of Plan investment earnings are based on participant account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the vested balance of the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's matching contributions and discretionary profit sharing contributions is based on the participant's years of vesting service. Participants who complete 1,000 hours of service for each Plan year receive one year of vesting service. Participants are vested 100% in discretionary profit sharing contributions after completing two years of service. The vesting schedule for the Company's matching contributions is as follows:

Years of Vesting Service	Vesting Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Investment options

Upon enrollment in the Plan, a participant may direct the investment of his or her account balance into the various mutual funds available through State Street Bank and Trust Company (“State Street”) or into a self-directed brokerage account. As of December 31, 2014 and 2013, there were no participants that held investments in self-directed brokerage accounts.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions of $8,230 to the applicable participants prior to March 15, 2014.

Note 1 - Description of the Plan (continued)

Payment of benefits

Upon termination of service, death, disability or retirement, a participant may receive a lump-sum distribution or a direct rollover distribution into a qualified plan. Upon termination of service, if a participant's account balance is in excess of $5,000, the participant may delay receipt of the distributions. Additionally, if a terminated participant's account does not exceed $1,000, it will be distributed by means of a lump-sum amount only, without the participant's consent. If a terminated participant's account balance is between $1,000 and $5,000 and the Plan does not receive distribution instructions, the account will be rolled over into an individual retirement plan account, as determined by the Plan administrator, on behalf of the participant. However, for all participants, minimum required distributions must be made by April 1st following the year in which the participant retires or reaches the age of 70½. A participant may also elect to receive a pre-retirement distribution if the participant is 100% vested in the amount being distributed and has reached 59½ years of age.

Forfeited accounts

The non-vested portion of a terminated participant's account balance is forfeited. Forfeited accounts may first be used to pay Plan expenses and then are applied to reduce employer contributions. For the years ended December 31, 2014 and 2013, respectively, forfeited non-vested accounts amounted to $13,640 and $14,637, and forfeitures used to reduce employer matching contributions were $13,642 and $14,639, respectively. Total Plan forfeitures remaining in the Plan, including earnings, are insignificant at December 31, 2014 and 2013.

Administrative expenses

Fees related to the processing of benefit payments and the administration of self-directed brokerage accounts are charged directly to the participants' accounts and are reflected in Plan administrative expenses. Fees incurred by the Plan for professional services are paid through revenue sharing, and are also included in Plan administrative expenses (see Note 6). Investment-related expenses are included in net appreciation in fair value or contract value of investments.

Plan termination

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund, which will remain in existence until the Company requests the discontinuance of the trust agreement.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Note 2 - Summary of significant accounting policies (continued)

Use of estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Significant estimates used in preparing these financial statements include the fair value of investments in mutual funds and common/collective trust funds. Actual results could differ from these estimates.

Income taxes

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under the IRC. A favorable opinion letter from the Internal Revenue Service was issued on March 31, 2008 regarding the qualified status of the prototype plan on which the terms of the Plan are based. The Plan has been amended since adoption of the prototype plan; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the various taxing authorities and government agencies. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, no uncertain positions have been taken or are expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, currently no audits are in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

Investment valuation and income recognition

Investments, except for fully benefit-responsive investment contracts, are stated at fair value as determined by quoted market prices as reported by the trustee (see Note 3), and for mutual funds represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net unrealized appreciation or depreciation in the fair value of investments for each year is reflected in the Statements of Net Assets Available for Benefits and in the Statements of Changes in Net Assets Available for Benefits.

Investments in common/collective trust funds are valued at their last reported net asset value. The underlying investments in the common/collective trust funds consist of common stocks, fixed income securities, short-term investments and shares of a combination of underlying funds, which are stated at fair market value. Investments in underlying funds are valued at the net asset value per share of each underlying fund. Investments in common stocks for which market quotations are available are valued at the last sale price on the stock's principal exchange or closing bid price if no sale has occurred. Fixed income securities are valued on the basis of the closing bid price. Short-term investments are valued at amortized cost, which approximates fair value. All other underlying investments in the common/collective trust funds are stated at fair value as determined pursuant to procedures established by the Board of Trustees of the funds.

Note 2 - Summary of significant accounting policies (continued)

Investment valuation and income recognition (continued)

The Plan's investment in the Invesco Stable Asset Trust represents investments in fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As such, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Contract value represents contributions made to the Stable Value Funds, plus interest at specified rates under the underlying investment contracts, less participant distributions and administrative expenses.

The average yields earned by the Stable Value Funds are as follows:

	2014	2013
Based on actual earnings	1.55%	1.30%
Based on interest rate credited to participants	0.65%	0.74%

The funds are managed such that it is unlikely that the interest crediting rate would ever be below zero.

Certain "non-qualified withdrawals", including termination of the Invesco Stable Asset Trust as an investment option or termination of the Plan, may require up to 12 months to effect the distribution at contract value. The Plan administrator does not believe that the occurrence of any such valuation event, which would limit the Plan's ability to transact at contract value with participants, is probable.

If the market value of the Stable Asset Trust is less than the book value, this will result in future interest crediting rates that are lower than current market yields. Conversely, if the market value is more than the book value, this generally results in a deduction from market value to contract value and future crediting rates that are higher than current market yields.

The key factors that influence future interest crediting rates for the Stable Asset Trust include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the contract
- The investment returns generated by the fixed income investments that back the contract
- The duration of the underlying fixed income investments backing the contract

Note 2 - Summary of significant accounting policies (continued)

Payments of benefits

Plan benefits are recorded when paid.

Subsequent events

In preparing its financial statements, the Plan has evaluated subsequent events through October 13, 2015, which is the date the financial statements were available to be issued.

Note 3 - Certified Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was prepared and certified as complete and accurate by State Street as of and for the years ended December 31, 2014 and 2013, and was not subjected to any auditing procedures performed by the independent public accountants:

a. Total investments as shown in the accompanying Statements of Net Assets Available for Benefits of $15,328,609 and $14,549,543 (adjusted by $45,738 and $30,826 to contract value for the Stable Value Funds) as of December 31, 2014 and 2013, respectively.

b. Total investment income as shown in the accompanying Statements of Changes in Net Assets Available for Benefits of $959,075 and $2,386,730 for the years ended December 31, 2014 and 2013, respectively.

c. Investment balances as shown in the Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014.

Note 3 - Investments - Information certified by trustee (continued)

Note 3 - Investments - Information certified by trustee (continued)

Accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority, consisting of significant unobservable inputs. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements - The fair values of short-term money market, mutual funds and corporate common stocks are based on quoted market prices, when available.

Level 2 Fair Value Measurements - The fair values of common/collective trust funds are based on the investment's net asset value per unit, considering quoted market prices for similar securities, interest rates, foreign exchange rates, prepayments speeds, credit risk and other inputs.

Level 3 Fair Value Measurements - There were no assets at this level.

The fair values of individual investments that represent five percent or more of the Plan's net assets as of December 31 are as follows:

	December 31,	
	2014	2013
Invesco Stable Asset Trust	$ 3,178,489	$ 3,144,582
T. Rowe Price Mid-Cap Value Fund	1,736,981	1,724,286
Franklin Rising Dividends Fund	1,206,437	1,232,287
SSGA S&P 500 Index Securities Lending Fund	1,124,441	991,014
Prudential Jennison Mid-Cap Growth Fund	1,100,450	979,521
SSGA S&P Mid-Cap Index Non-Lending Fund	1,016,584	970,046
Prudential High Yield Fund	971,470	881,453
T. Rowe Price Retirement 2040 Fund	926,957	778,156
SSGA Moderate Strategic Balanced SLS Fund	-	878,180

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value as follows:

	December 31,	
	2014	2013
Mutual funds	$ (71,927)	$ 1,419,321
Common/collective trust funds	294,011	617,320
Net appreciation in fair value or contract value of investments	$ 222,084	$ 2,036,641

Note 4 - Terminated employee accounts

At December 31, 2014 and 2013, 150 and 94 participants, respectively, had terminated employment. Their vested account balances included in net assets available for benefits were $4,115,485 and $3,632,717, respectively, as of those dates. None of the terminated participants remaining in the Plan at December 31, 2014 and 2013, respectively, had requested to withdraw from the Plan as of those dates.

Note 5 - Risks and uncertainties

The Plan provides for investment options in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Through August 31, 2015, individual fund returns ranged from a loss of 8.7% to a gain of 7.3% and averaged a net loss of 1.7% since December 31, 2014.

Note 6 - Related party transactions and party-in-interest transactions

Certain plan investments are shares of mutual funds managed by State Street. State Street is the trustee and custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. ADP receives asset-based fees as compensation for some of the Plan's investments with State Street. On an annual basis, ADP transfers to the Plan a portion of such compensation pursuant to a revenue sharing agreement with the Plan, calculated at 16 basis points of the assets invested with State Street. Such amounts, calculated at $23,840 and $20,786 for 2014 and 2013, respectively, were transferred on a quarterly basis and used to pay Plan expenses (see Note 1 - Administrative Expenses). Any remaining balance is reallocated among Plan participants. The unallocated balance at December 31, 2014 was $18,146, of which $14,272 was allocated to Plan participants in March 2015 based on their account balances.
