INDEPENDENT AUDITORS' REPORT

Plan Administrator
Thomas Reprographics, Inc.
Profit Sharing Plan and Trust
Richardson, Texas

We were engaged to audit the financial statements of Thomas Reprographics, Inc., Profit Sharing Plan and Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental information as of and for the year ended December 31, 2010 as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental information. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the plan years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental information taken as a whole. The form and content of the information included in the financial statements and supplemental information, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Thomas Reprographics, Inc. Profit Sharing Plan and Trust (the "Plan") is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the Plan documents.

General

The Plan is a defined contribution plan and was established in October 1984 to provide pension, death, and disability benefits to the employees of Thomas Reprographics, Inc. (the "Company"), under the provisions of section 401(a) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. Fidelity Management Trust Company ("Fidelity") is the trustee for the Plan.

Plan Amendments

Effective September 8, 2009, the Plan changed from a safe-harbor employer contribution arrangement to a discretionary matching contribution arrangement.

Participation

The Plan covers substantially all employees of Thomas Reprographics, Inc. Employees of the Company are eligible to participate in the Plan on the first day of the next month following completion of thirty days of service and attaining twenty-one years of age, as long as they are not covered by a collective bargaining agreement or considered a leased employee, as defined by the Plan document. Employees are eligible for the company match on the first day of the first and the seventh month of the Plan year.

Contributions

Eligible participants can contribute an amount of up to 20% of compensation through salary deductions as defined by the Plan, limited by requirements of the IRC. The Plan also allows participants to make additional deferral contributions in the amount up to 100% of compensation and the same deferral percentage for bonus compensation subject to IRC limitations. On an annual basis, the Company may make a discretionary matching contribution based on a certain percentage of eligible contributions made by each eligible participant during the contribution period as determined by the Plan administrator.

Vesting

Employees are automatically 100% vested in all employee deferral and employer matching contributions to their account. However, employer matching contributions may only be distributed due to death, disability, separation from service, age 59 ½, or termination of the Plan without the establishment of a successor plan.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Investment Options

Participants allocate contributions, including employer matching contributions, into several investment options, including mutual funds and common and collective trusts. These investment options are selected to provide diversification and variety in investment objectives such as income, growth, and preservation of capital.

Funding Policy

It is the policy of the Plan sponsor to remit employee contributions to Fidelity within seven business days of when they are withheld and employer contributions annually. Effective September 8, 2009, the Plan changed from a safe-harbor employer contribution arrangement to a discretionary matching contribution arrangement.

Benefits

If a participant separates from service prior to reaching age 65, or becomes disabled, a participant may elect to receive his or her benefit as a lump-sum amount equal to the vested account balance of his or her account, which can be paid to the participant or rolled over to another qualified plan. Upon attainment of the normal retirement age (age 65), a participant may elect to receive his or her benefit as a lump-sum amount or under a systematic withdrawal plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts, through a loan transaction, a minimum of $1,000 or up to a maximum of $50,000 not to exceed 50% of their account balance. The balance in the participant's account is used to secure the loans. These loan transactions are treated as a transfer between the investment fund and the participant notes fund. The loan terms range from one to five years or within a reasonable time if the purpose of the loan is to acquire a primary residence. The interest rate on loan transactions is a reasonable rate commensurate with current rates. As of December 31, 2010 and 2009, interest rates on outstanding loan balances ranged from 4.00% to 4.25%. Principal and interest are paid ratably through payroll deductions on a monthly or quarterly basis. Participant loans are classified as notes receivable from participants, which are separate from plan investments and are measured at their unpaid principal balance (see Note 2 – Adoption of New Accounting Pronouncements).

Administrative Fees

All costs and expenses related to loan set-up fees and fees related to the delivery of distribution and loan checks are paid directly by the Plan. The Company has elected to pay the expenses of administering the Plan, including auditing fees. The Plan itself is responsible for custodial and transaction fees incurred, however, these fees were waived May 5, 2008.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Termination of the Plan

Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time, and terminate the Plan, subject to the provisions of ERISA. Upon Plan termination, participants will become 100% vested in their account.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting. Current year contributions, investment income and expenses, which are not received or paid until the subsequent year, are accrued.

In accordance with current authoritative guidance, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that position of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the current authoritative guidance, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from the fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Fidelity holds the Plan's investments. The fair value per unit/share is stated at quoted market prices as determined by Fidelity. Purchases and sales of securities are recorded on a trade-date basis.

Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation in the fair value of its investments, which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncements

The Plan adopted Accounting Standards Update ("ASU") 2010-06, *Improving Disclosure about Fair Value Measurements*, which when adopted did not have any impact on the Plan's financial statements. The adoption of this statement did not change the underlying accounting; rather, it requires new fair value measurement classification disclosures and clarifies existing disclosures, which are effective for reporting periods beginning after December 15, 2010. The disclosures required by this new guidance are provided in the accompanying Note 6.

The Plan adopted ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which when adopted did not have any impact on the Plan's financial statements. The adoption of this statement did not change the underlying accounting; rather, it requires a reclassification of participant loans on the Statements of Net Assets Available for Plan Benefits. The Plan adopted this guidance effective December 31, 2010, with retrospective application. Participant loans of $269,116 have been reclassified for the year ended December 31, 2009 from investments to notes receivables from participants.

NOTE 3. FORFEITED ACCOUNTS

The historical merger of plans with graduated vesting schedules resulted in prior period employer contributions subject to forfeiture in the current Plan. Forfeitures are used to reduce employer profit sharing contributions or plan administrative expenses. Forfeited non-vested balances were $8,536 and $7,938 for the years ended December 31, 2010 and 2009, respectively.

NOTE 4. INVESTMENTS

For the years ended December 31, 2010 and 2009, the investment assets of the Plan were maintained under a trust agreement with the trustee, Fidelity Management Trust Company. The trustee invested the Plan assets through its investment advisors and distributed the monies in accordance with the trust agreement. The December 31, 2010 and 2009 Statements of Net Assets Available for Benefits, the investment activities

NOTE 4. INVESTMENTS (CONTINUED)

included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified total investments of $10,257,765 and $9,889,526 for December 31, 2010 and 2009, respectively, and related net investment gain of $1,249,036 at December 31, 2010.

The Plan held the following investments at fair value as of December 31, 2010 and 2009, which individually represent 5% or more of the net assets available for plan benefits:

	2010	2009
Janus Advisor Balanced	$ 967,807	$ 1,089,568
Fidelity Advisor Mid-Cap	876,543	687,709
Fidelity Advisor Equity Income	851,441	877,137
Fidelity Advisor Dynamic Capital Appreciation	815,579	790,482
Fidelity Advisor Stable Value	783,766	914,196
Fidelity Advisor Diversified International	766,389	748,106
Fidelity Advisor Value Strategies	749,392	594,551
Fidelity Advisor Intermediate Bond	568,163	538,658
Fidelity Advisor Dividend Growth	554,149	N/A
Fidelity Prime	N/A	568,201
Total Investments Greater than 5% Each	$ 6,933,229	$ 6,808,608
Total Investments Less than 5% Each	$ 3,339,472	$ 3,079,722

During the year ended December 31, 2010, the reported value of the Plan's investments appreciated as follows:

Appreciation of Investments at Fair Value as Determined by Quoted Market Price:	
Mutual Funds - Fidelity Investments	$ 1,074,383
Mutual Funds - Other	165,031
Net Change in Fair Value	$ 1,239,414

NOTE 4. INVESTMENTS (CONTINUED)

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 5. INVESTMENT CONTRACTS

In 2010 and 2009, the Plan offered the Fidelity Advisor Stable Value Portfolio as an investment alternative. Generally, there are two types of stable value investments: guaranteed investment contracts ("GICs") and synthetic wrap contracts.

Guaranteed Investment Contracts

A GIC is an investment contract issued by an insurance company or bank that provides for the payment of a specified rate of interest to the fund and for the repayment of principal when the contract matures.

Synthetic Wrap Contracts

A synthetic wrap contract unbundles the investment and insurance components of a traditional GIC. The plan invests in and retains ownership of a pool of fixed income securities (e.g., government securities, private and public mortgage backed securities, other asset-backed securities and investment grade corporate obligations, etc.). These securities are "wrapped" by a synthetic investment contract issued by a bank or insurance company that insures that participant-initiated withdrawals from the stable value fund will be paid at book value. There is no immediate recognition of gains and losses on the pool of securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the synthetic wrap.

A wrap contract (or wrapper or synthetic wrap) is an agreement by another party, such as a bank or insurer, to make payments to the fund in certain circumstances. Wrap contracts are designed to allow a stable value fund to maintain a constant NAV and to protect the fund in extreme circumstances.

In a typical wrap contract, the wrap issuer agrees to pay the fund the difference between the book value and the market value of the covered assets (i.e., the fixed income assets purchased by the stable value fund) once the fund's market value has been totally exhausted. Though relatively unlikely, this could happen if the fund experiences significant redemptions (redemption of most of the fund's shares) during a time when the market value is ultimately reduced to zero. If that occurs, the wrap issuer agrees to pay the fund an amount sufficient to cover shareholder redemptions and certain other

NOTE 5. INVESTMENT CONTRACTS (CONTINUED)

Synthetic Wrap Contracts (Continued)
payments (such as fund expenses), provided all the terms of the wrap contract have been met.

Purchasing wrap contracts is similar to buying insurance, in that the fund pays a relatively small amount to protect against a relatively unlikely event (the redemption of most of the shares of the fund). The wrap contracts are revalued annually based on each plan's fiscal year end.

Stable value investment contracts carry a "benefit responsiveness" feature that allows plan participants to make exchanges or request benefit payments at contract value. Only "fully benefit-responsive" investment contracts are eligible for contract value accounting treatment.

"Fully benefit responsive" is a term used within the stable value industry to describe a contract that satisfies the requirements for contract value accounting described in the Accounting Standards. Generally, the term "fully benefit responsive" describes the contract's guarantee that (i) the crediting rate provided under the contract will not fall below zero and (ii) participant-initiated withdrawals from the fund (i.e., withdrawals as the result of death, disability, retirement, termination of employment, hardship withdrawal, loan, and transfers to a non-competing fund) will be covered at contract value.

A fully benefit-responsive investment contract must meet the following requirements:

a. The investment contract must be negotiated directly between the fund and the issuer and must prohibit the fund from assigning or selling the contract or its proceeds to another party without the consent of the issuer.

b. Either (1) the repayment of principal and interest credited to participants in the fund must be guaranteed by the issuer of the investment contract or (2) prospective interest crediting rate adjustments must be provided to participants in the fund on a designated pool of investments held by the fund or the contract issuer whereby a financially responsible third party, through a synthetic wrap, must provide assurance that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero. If an event has occurred that may affect the realization of full contract value for a particular investment contract (for example, a decline in creditworthiness of the contract issuer or wrap provider), the investment contract shall no longer be considered fully benefit-responsive.

NOTE 5. INVESTMENT CONTRACTS (CONTINUED)

Synthetic Wrap Contracts (Continued)

c. The terms of the investment contract must require all permitted participant-initiated transactions with the fund to occur at contract value with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those transactions allowed by the underlying defined-contribution plan, such as withdrawals for benefits, loans, or transfers to other funds within the plan.

d. An event that limits the ability for the fund to transact at contract value with the issuer (for example, premature termination of the contracts by the plan, plant closing, layoffs, plan termination, bankruptcy, mergers, and early retirement incentives) must be probable of not occurring.

e. The fund itself must allow participants reasonable access to their funds.

For a stable value fund, fair value is equal to the sum of the market value of all of the fund's investments (i.e., fixed income investments, synthetic wraps, traditional GICs, cash). The fair value of the Fidelity Advisor Stable Value Portfolio of Fidelity Management Trust Company at December 31, 2010 and 2009 was $798,702 and $914,196, respectively. The average yield and crediting interest rate was approximately 2.4% and 1.5% respectively for 2010, and 2.7% and 1.3%, respectively for 2009.

NOTE 6. FAIR VALUE MEASUREMENT

Current authoritative guidance established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under current authoritative guidance are described as follows:

Level 1 Observable inputs such as quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

NOTE 6. FAIR VALUE MEASUREMENT (CONTINUED)

Level 3 Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The fair value measurement level of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value:

Level 1 Fair Value Measurements: The fair value of mutual funds is based on the net asset value (NAV) of shares held by the Plan at year end.

Level 2 Fair Value Measurements: The fair values of guaranteed investment contracts are determined by discounting the related cash flows based on the current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Level 3 Fair Value Measurements: No Level 3 inputs were available to the Plan.

These valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6. FAIR VALUE MEASUREMENT (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Assets at Fair Value
As of December 31, 2010

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,106,556	$ -	$ -	$ 9,106,556
Interest bearing cash	367,443	-	-	367,443
Common and collective trust	-	798,702	-	798,702
Total Assets at Fair Value	$ 9,473,999	$ 798,702	$ -	$ 10,272,701

Assets at Fair Value
As of December 31, 2009

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,405,933	$ -	$ -	$ 8,405,933
Interest bearing cash	568,201	-	-	568,201
Common and collective trust	-	914,196	-	914,196
Total Assets at Fair Value	$ 8,974,134	$ 914,196	$ -	$ 9,888,330

NOTE 7. RELATED PARTY TRANSACTIONS

Certain investments are shares of mutual funds managed by Fidelity, which is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Chapman, Hext & Company, P.C. provides audit services to the Plan. These services qualify as party-in-interest transactions. However, these transactions are exempt from the prohibited transaction rules.

The Plan allows for participant loans. These loans qualify as party-in-interest transactions. However, these transactions are exempt from the prohibited transaction rules.

NOTE 8. INCOME TAX STATUS

The Fidelity plan prototype obtained its latest determination letter on October 9, 2003, in which the Internal Revenue Service stated that the plan prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9. RECONCILIATION OF FORM 5500 TO FINANCIAL STATEMENTS

Certain items within the Statements of Net Assets Available for Benefits and Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010 are classified differently on the Form 5500. Differences are as follows:

Statements of Net Assets Available for Benefits:

	Form 5500	Financial Statements	Difference
Receivables:			
Participant contributions	$ -	$ 3,549	$ 3,549
Net assets available for benefits	$ 10,486,510	$ 10,490,059	$ 3,549

Statement of Changes in Net Assets Available for Benefits:

	Form 5500	Financial Statements	Difference
Contributions:			
Participants	$ 587,427	$ 585,725	$ (1,702)

NOTE 10. PARTICIPANTS WITH DEFERRED VESTED BENEFITS

There were 171 and 219 terminated participants with vested benefits of $2,558,346 and $2,681,795 as of December 31, 2010 and 2009, respectively.

NOTE 11. UNCERTAIN TAX POSITIONS

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Service Revenue. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 12. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through June 30, 2011, the date which the financial statements were available to be issued.
