Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

1. Description of Plan

General

The following description of the Catalina Channel Express, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan was established effective January 1, 1988, for all eligible employees of Catalina Channel Express, Inc. (the "Company") excluding independent contractors. The Plan is a defined contribution profit sharing and 401(k) plan. The Plan is voluntary and is available to all regular employees of the Company who are at least eighteen years of age, have completed six months of service and have worked at least 1,000 hours. Entry dates are the first date of each calendar quarter. Effective January 1, 2008 the Plan was amended and restated to adopt a Volume Submitter Profit Sharing/401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA".)

Plan Administration

The Company acts as the Plan Administrator. The Plan also has an Investment Committee comprised of the Company's President (and Plan Trustee), the Company's Vice President Finance and the Company's Human Resource Manager and outside investment manager. John Hancock Life Insurance Company ("John Hancock" or "Custodian") is the custodian and Actuarial Consultants Inc. ("ACI") is the Plan's third party administrator. The Trustee has nondiscretionary power to only invest Plan assets as directed by the Plan Administrator, an investment manager or to the extent authorized under the Plan.

Contributions

Participants are allowed to contribute up to 75 percent of eligible compensation, on a pre-tax basis, up to the Internal Revenue Code maximum prescribed amount, which is $17,500 for 2014. The Plan allows for "catch-up" contributions if a participant is age 50 or older, up to the annual limit of $5,500 in 2014. Participants may also make rollover contributions of amounts received from other tax qualified retirement plans.

The Company matches a fixed 100% of the first 2% of annual compensation that a participant contributes to the plan. The Company made fixed matching contributions of $166,288 for the year ended December 31, 2014. In addition, the Company may make an additional discretionary matching and/or profit sharing contribution at the end of the plan year to those participants with a minimum of 1,000 hours of service and who are employed as of the end of the year. The Company made a discretionary match of $77,902 for the year ended December 31, 2014, which was recorded as a receivable in the accompanying financial statements.

1. Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, the Company's fixed matching contribution and allocations of (a) the Company's discretionary matching and/or profit sharing contributions, if any, and (b) Plan's investment income or losses, net of certain investment management fees. Daily allocations of Plan earnings are based on account balances, as defined.

Vesting

Participants are immediately vested in their voluntary contributions and any employer fixed and discretionary matching plus actual earnings thereon. Vesting in the Company's profit sharing contributions is at a rate of twenty percent after two years of continuous service and each year after that with full vesting after six years of continuous service. Full vesting may also occur if, as an employee, the participant attains early retirement age, becomes disabled or dies.

Forfeitures

A participant's non-vested balance is forfeited at the time of termination of employment. Forfeitures can be used to pay administrative expenses and any remaining amounts are reallocated to participants during the plan year. At December 31, 2014 and 2013, there were no forfeited non-vested accounts nor were any used during the year.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the investment options managed by John Hancock offered by the Plan.

Notes Receivable from Participants

In limited circumstances, the Plan allows loans to participants. The loan cannot exceed the lesser of 50% of the participant's vested account or $50,000. All loans are to be paid back over a period not to exceed five years, excluding loans to acquire the participant's principal residence, which may be paid back over a reasonable period of time not to exceed twenty years. Loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan administrator to be prime rate on the first day of each quarter plus one-percent. A participant may have no more than one loan outstanding at any time.

1. Description of Plan (Continued)

Payment of Benefits

Upon death, disability or termination of employment, a participant may elect to receive a lump-sum cash payment in an amount equal to the vested value of his or her account, to defer receiving their vested benefit or to receive payment in other forms as may be available under the Plan. Mandatory cash out provisions will apply for account balances between $1,000 and $5,000, with the default form of distribution being automatic rollover for account balances less than $1,000.

As defined by the Plan, participants may take in-service disbursements from their account upon reaching age 59 ½ or normal retirement at age 65. In addition, a participant can withdraw all or any portion of his/her vested account balance for immediate and financial hardships as allowed in the Plan document.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared under the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting periods. Actual results could differ from those estimates.

Concentration of Credit

The Plan's investments include registered investment company mutual funds that represent obligations by the counterparties to meet the terms of the financial instruments. Should one or more of the counterparties default, the Plan might lose amounts up to the recorded carrying value of the related instruments. See Note 3 for a listing of investments representing greater than 5% of net Plan assets.

2. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

All Plan investments are held by the Custodian. The Plan provides for various investment options in mutual funds and other securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets and the statement of changes in net assets available for benefits.

Valuation of Investments and Income Recognition

All Plan assets are part of a group annuity contract with John Hancock Life Insurance Company (U.S.A.). This group annuity contract includes a portfolio of mutual funds, which are referred to as sub-accounts or pooled separate accounts, in addition to guaranteed interest accounts.

The pooled separate account assets are reported at fair value based on the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund in an active market, as calculated by the Custodian. Net asset value is the fair market value of the securities on the last business day of the Plan year. The guaranteed interest accounts are not considered fully-benefit-responsive and are stated at fair value. Fair value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations, as reported by the Custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal amount plus any accrued but unpaid interest. Delinquent participant loans are reclassified as deemed distributions in accordance with provisions of the Plan.

Contributions

Participant contributions are recorded in the year withheld from participant's earnings. Company contributions are recorded in the year they become obligations of the Company.

Benefit Payments

Benefits to participants are recorded when paid.

2. Summary of Significant Accounting Policies (Continued)

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds of the group annuity contract are deducted from the income earned and are reflected as a component of net appreciation/(depreciation) in the fair value of investments.

Administrative Expenses

The Company pays certain administrative expenses of the Plan (see Note 6), while other expenses including loan and withdrawal related fees are paid out of the Plan. Other management fees and transaction costs associated with the investment options are included by the custodian in net appreciation (depreciation) in fair value of investments.

4. Fair Value Measurements

Authoritative guidance establishes a framework for measuring fair value and defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The guidance also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Under the guidance, the three levels of inputs that may be used to measure fair value are:

Level 1: Quoted prices for identical assets or liabilities in active markets

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3: Unobservable inputs that are supported by little or no market activity requiring significant judgment or estimation and that are significant to the fair value measurement

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at the net asset value ("NAV") which is calculated based on the value of the underlying shares held by the Plan at year-end, net of investment management fees

Guaranteed interest accounts: Valued at fair value by calculating the related cash flows, discounted based on current yields of similar instruments with comparable durations

4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value on a recurring basis as of December 31, 2014 and 2013:

	Investments at Fair Value at December 31, 2014			
	Level 1	Level 2	Level 3	Total

Total investments at fair value	$ -	$15,298,858	$ -	$15,298,858

	Investments at Fair Value at December 31, 2013

Total investments at fair value	$13,815,078	$ 508,746	$ -	$14,323,824

During the year ended December 31, 2014, the Plan transferred the balance in its pooled separate accounts from level 1 to level 2. The transfer between the levels was due to a more comprehensive understanding of the valuation methodologies underlying these accounts. The fair value of pooled separate accounts is generally calculated based on the value of underlying shares and not directly traceable to an active market. The Plan's policy regarding the time at which transfers are recognized is at the end of the reporting period.

5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan will be allocated among the participants in accordance with the terms of the Plan and ERISA.

6. Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of mutual funds managed by the Custodian. The Plan issues loans to participants, which are secured by the vested balances in the participant's accounts. The Company paid certain administrative costs on behalf of the Plan, primarily third party administrator and audit fees, which totaled approximately $17,000 during the year ended December 31, 2014. Such transactions are party-in-interest transactions for which a statutory exemption exists.

7. Tax Status of the Plan

The volume submitter profit sharing 401(k) plan upon which the Plan is based was restated for regulatory updates and has received an opinion letter from the IRS dated March 31, 2008 stating that the written form of the prototype plan document is qualified under Section 401(a) of the Internal Revenue Code ("Code"). The Plan has been amended since that date and the Plan administrator believes the Plan continues to be designed and is being operated in compliance with the applicable requirements of the Code and is therefore exempt from income taxes. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Subsequent Events

In providing the disclosure contained in this Note, the Plan evaluated events occurring between the end of its most recent plan year end and October 8, 2015, the date the accompanying financial statements became available to be issued.
