Note A. Description of the Plan

The following description of the Wantman Group, Inc. 401(k) Plan (the "Plan") provides general information of the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Wantman Group, Inc. (the "Company") who have one year of service and are age twenty-one or older. In August 2014, the plan's Adoption Agreement was amended; specifically, eligible employees, entry dates, and service with predecessor employers. Effective August 2014, all collectively bargained employees, non-resident aliens, and residents of Puerto Rico are excluded from participation. Entry dates for eligible employees shall be quarterly for deferral and match contributions and semi-annually for employer contributions. Employees employed by Land Design South Florida, Inc. ("LDSF") as of July 31, 2014, were eligible for enrollment on August 1, 2014. Service with LDSF will be automatically counted for eligibility, vesting, and allocation conditions.

John Hancock Life Insurance Company U.S.A. ("John Hancock") is the trustee and custodian of the Plan. John Hancock is also the record keeper of the Plan. Ascensus Consulting (formerly known as Suncoast Pension and Benefits Group, Inc.) is the Third Party Administrator ("TPA"). The Trustee of the Plan controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is also intended to be a profit-sharing plan as described in Section 401(k) of ERISA.

Contributions

For plan years 2014 and 2013, participants may contribute up to $17,500 of their annual compensation, subject to Internal Revenue Service ("IRS") limitations. Participants who have attained age fifty (50) before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. The Plan currently offers twenty-four (24) mutual funds and one (1) money market fund as investment options for participants. The profit sharing contribution is discretionary. During the years ended December 31, 2014 and 2013, the Company matched fifty cents ($0.50) for each dollar contributed by an eligible participant up to the first six percent (6%) deferred at each pay date, not to exceed an overall maximum of 4% of annual compensation.

Participant Account

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) Plan earnings (losses), and (c) forfeitures of terminated participants' nonvested balances, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and employer contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Prior to the six years of service,

Note A. Description of the Plan - continued

Vesting – continued

a participant is entitled only to the Company's matching contribution in accordance with the following schedule:

Years of Vesting Service	Vested percentage
One year or less of service	0%
Two years of service	20%
Three years of service	40%
Four years of service	60%
Five years of service	80%
Six or more years of service	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to fifty percent (50%) of their vested account balance. To receive a participant loan, a participant must sign a promissory note along with a pledge or assignment of the portion of their account balance to be used as security for the loan. The loans bear interest at the prime interest rate, which was commensurate with local prevailing rates at the time the loans were initiated. Periodic repayments are required for the participant loans and must be payable generally within five years. Principal and interest loan repayments are made through payroll withholdings for current employees.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions into one or more fund options through John Hancock and may change investment options by submitting a new allocation instructions form, which is normally completed through the internet.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reason, a participant, or beneficiary in case of death, may elect to receive a lump-sum distribution equal to the vested value of the participant's account. All amounts allocated to participants who elected to withdraw from the Plan as of December 31, 2014 and 2013 were paid prior to year-end.

Forfeited Accounts

If a participant terminates employment prior to becoming fully vested, the non-vested portion of the participant's account, as defined by the Plan, is forfeited. Forfeitures are processed at the earlier of distribution of vested benefits to a terminated participant or after a terminated participant has incurred five consecutive breaks-in-service, but has not yet been paid their vested benefits.

Forfeitures can be used to pay plan administration expenses or allocated as additional employer contribution. The typical use of forfeitures in the Plan is to allocate as additional contributions. Participant forfeitures for the years ended December 31, 2014 and 2013 totaled $13,601 and $25,850, respectively. For the years ending December 31, 2014 and 2013, the net contribution paid to the Plan were $200,230 and $171,755, respectively. At December 31, 2014, the profit sharing contribution due from the Company was $213,831, of which $13,601 in forfeited non-vested accounts was used to reduce the employer contribution. At December 31, 2013, the profit sharing contribution due from the Company was $197,605, of which $25,850 in forfeited non-vested accounts was used to reduce the employer contribution.

Note A. Description of the Plan - continued

Correction Distribution

If the Plan fails the Actual Deferral Percentage ("ADP") Test for a Plan Year, the plan administrator may, in its discretion, distribute Excess Contributions (including any allocable income or loss) no later than 12 months following the end of the Plan Year to correct the ADP Test violation, except to the extent such Excess Contributions are recharacterized as Catch-Up Contributions. If the Excess Contributions are distributed more than 2½ months after the last day of the Plan Year in which such excess amounts arose, a 10% excise tax will be imposed on the Employer with respect to such amounts. At December 31, 2014 and 2013, the total amount of excess contributions plus allocable income refundable to participants were $15,774 and $13,323, respectively. These amounts were subsequently paid in 2014 and 2015, respectively.

Note B. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Cash

Cash represents the unallocated amounts on deposit in the Plan's interest bearing cash account. The amounts on deposit are not insured by the Federal Deposit Insurance Corporation. At December 31, 2014 and 2013, the balance of the Plan's cash account was $13,601 and $17,475, respectively.

Risks and Uncertainties

The Plan utilizes various investment instruments, including money market and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. During the years ended December 31, 2014 and 2013, the fair value of investments appreciated by $563,257 and $1,193,456, due to expected market changes and economic conditions. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the financial statements.

The Plan provides investment options that hold securities of foreign companies, which may involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Note B. Summary of Accounting Policies - continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of shares of the investments are valued at the closing net asset value of shares held by the Plan. The participant loans are secured by vested account balances of borrowing participants and valued at amortized cost, which approximates fair value. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses to the Plan for investments in money market and mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payments of Benefits

Benefits are recorded when payment is made to the participant or beneficiary.

Administrative Expenses

Administrative expenses assessed by the Trustee to the Plan consist primarily of fees charged for loan transactions and other miscellaneous transaction fees. The Company has elected to pay substantially all other administrative costs.

Reclassifications

Certain amounts in the 2013 financial statements have been reclassified for comparative purposes to conform to the 2014 presentation. Such reclassifications had no effect on net increase.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2015, the date the financial statements were available to be issued. There have been no material subsequent events that would require recognition in these financial statements or disclosure in the notes to financial statements.

Note C. Investment Contract with Insurance Company

The Plan has entered into a group annuity contract with John Hancock. John Hancock maintains certain of the Plan assets as follows:

Pooled Separate Accounts

These accounts hold assets allocated to each separate investment account. The value of each separate investment account (25 accounts as of December 31, 2014 and 2013) is determined at the close of each business day based on fair value. These accounts are separate investment accounts (not part of John Hancock's general account (i.e., segregated)). Income, gains, or losses from the assets in each account are credited to and charged against that account without regard to other income, gains, or losses of John Hancock or any separate account.

Note C. Investment Contract with Insurance Company - continued

All investment contracts and fixed income securities purchased for the pools must satisfy the credit quality standards of John Hancock and the Plan.

Note D. Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the Trustee for the Plan, has certified as to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014 and 2013, and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2014 and 2013.

During 2014 and 2013, the Plan's investments in money market and mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $553,768 and $1,187,307, respectively.

The following participant directed investments represent five percent (5%) or more of the Plan's net assets available for benefits at December 31:

	2014	2013

Fair Value Measurements

Financial Accounting Standard Board Accounting Standards Codification Topic 820 – Fair Value Measurement and Disclosure ("ASC 820") provides a three-tier hierarchy as a framework for measuring fair value and expands disclosure requirements about fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; that is, an exit value. An exit value is not a forced liquidation or distressed sale.

The hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (*Level 1* measurements) and the lowest priority to unobservable inputs (*Level 3* measurements).

The three levels of the fair value hierarchy are described as follows:

Level l

Fair value measurements that reflect unadjusted, quoted prices in active markets for identical assets and liabilities that can be accessed at the measurement date. An active market for the assets or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

Note D. Investments – continued

Fair Value Measurements – continued

Level 2

Fair value measurements using inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Fair value measurements using significant non market observable inputs.

When available, the Plan measures fair value using *Level 1* inputs because they generally provide the most reliable evidence of fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of assets and liabilities and their placement with the fair value hierarchy levels.

The following is a description of the valuation methodologies used in measuring the Plan's assets at fair value. There have been no changes in methodologies used at December 31, 2014.

Money Market and Mutual Funds: Valued at the reported net asset value (NAV), which represent the values at which each sub-account can redeem its investments.

Notes receivable from participants: Valued at unpaid balances, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit as of December 31, 2014. The following table sets forth by input levels, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Money Market Fund	$ 264,680	$ -	$ -	$ 264,680
Mutual Funds	8,867,643	-	-	8,867,643
Notes Receivable from participants	-	-	219,889	219,889
Total assets at fair value	$ 9,132,323	$ -	$ 219,889	$ 9,352,212

Note D. Investments – continued

Fair Value Measurements – continued

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit as of December 31, 2013. The following table sets forth by input levels, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Money Market Fund	$ 254,534	$ -	$ -	$ 254,534
Mutual Funds	7,586,480	-	-	7,586,480
Notes Receivable from participants	-	-	150,522	150,522
Total assets at fair value	$ 7,841,014	$ -	$ 150,522	$ 7,991,536

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31:

	2014	2013
Balance, beginning of year	$ 150,522	$ 174,973
Purchases, issuances, and settlements (net)	69,367	(24,451)
Balance, end of year	$ 219,889	$ 150,522

Note E. Related Party Transactions

Certain plan investment options include mutual funds managed by John Hancock. John Hancock is the trustee/custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping and information management services amounted to $350 and $272 for the years ended December 31, 2014 and 2013, respectively.

Note F. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a full or partial termination of the Plan, plan participants become one hundred percent (100%) vested in their accounts.

Note G. Tax Status

The Company adopted a Prototype Standardized 401(k) Plan, which received a favorable opinion letter from the IRS. The IRS has determined and informed the plan sponsor by a letter dated January 23, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Note H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:
