INDEPENDENT AUDITORS' REPORT

Johnson Engineering, Inc. Employee
401(k) Profit Sharing Plan and Trust
Fort Myers, Florida

We were engaged to audit the financial statements of Johnson Engineering, Inc. Employee 401(k) Profit Sharing Plan and Trust (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, and the supplemental schedules as of December 31, 2010 and 2009, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3, 4 and 5, which was certified by Nationwide Trust Company, FSB, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Johnson Engineering, Inc. (the "Company") Employee 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was originally established by the Company in 1971. Effective January 1, 2010, the Plan was amended and restated in accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001.

The Plan is a defined contribution plan covering all employees who have completed two months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). An employee will become a participant on the plan entry date (if employed on that date) immediately following the date the employee completes the eligibility conditions. Plan entry dates are the first day of the month coinciding with, or after, the satisfaction of eligibility requirements. An employee may, subject to the approval of the Company, elect voluntarily not to participate in the Plan. The election not to participate must be communicated to the Company, in writing, at least thirty days before the beginning of the plan year.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan subject to the limitations set forth under Internal Revenue Code (IRC) 415. Participants who have attained age 50 by year-end may also make catch-up contributions of $5,500 in 2010 and 2009. At the discretion of the plan administrator, participants may also contribute amounts representing "rollover contributions" from other qualified plans.

For each plan year, the employer may contribute (1), (2), and/or (3) below, on behalf of each participant:

(1) Matching contribution: The employer may make matching contributions equal to a discretionary percentage, to be determined by the employer, of each tier, to be determined by the employer, of the participant's elective deferrals.

(2) Nonelective safe harbor contribution: The employer may make a safe harbor nonelective contribution to the account of each eligible participant in an amount equal to 3% of the employee's compensation for the plan year. Effective January 1, 2010, the Plan was amended to permit the employer to elect to make a safe harbor nonelective contribution after a plan year has begun. The safe harbor nonelective contribution will only be required for a plan year for which the Plan is amended to provide for such contribution and the appropriate supplemental notice is provided to the participants.

Note 1. Description of Plan (Continued)

Contributions (continued)

(3) Profit sharing contribution: The employer may make profit sharing contributions equal to a discretionary amount, to be determined by the employer, not limited to current or accumulated net profits. A participant must complete a year of service (1,000 hours) in order to be eligible for an employer discretionary profit sharing contribution.

The Board of Directors of the employer may elect annually to make a discretionary contribution. Additionally, to the extent necessary, the employer shall contribute to the Plan the amount necessary to provide the top-heavy minimum contribution.

Employer contributions made to the Plan are intended to comply with the safe harbor methods permitted by Code Sections 401(k)(12) and 401(m)(11). All employer contributions must be in cash.

The Company's Board of Directors elected to make employer contributions of $-0- and $284,625 in 2010 and 2009, respectively.

Participant directed accounts

Each participant's account is credited with the participant's contribution and the allocated portion of the Company's contribution and charged with an allocation of administrative expenses. Allocations of administrative expenses are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their compensation deferral and safe harbor employer contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contribution portions of their account plus actual earnings thereon is based on years of continuous service. A participant is 100% vested upon six years of credited service. Regardless of the vesting schedule, participants shall become fully vested upon death or total and permanent disability.

Participant loans

Participants may borrow from their fund accounts a maximum of $50,000 or 50% of their non-forfeitable account balance, whichever is less. The loans are secured by the balance in the participant's account and shall bear a reasonable rate of interest. Loans shall provide for repayment by biweekly payroll deductions or by check over a reasonable period of time, not to exceed five years unless the purpose of the loan is to acquire or construct the participant's primary residence.

Note 1. Description of Plan (Continued)

Participant loans (continued)

There were $195,273 and $142,070 in outstanding participant loans at December 31, 2010 and 2009, respectively. Interest rates range from 4.25% to 9.25% at December 31, 2010.

Payment of benefits

On separation from service, a former participant or the designated beneficiary may elect to receive the value of the vested interest of the account as a lump-sum distribution, in periodic installments as permitted under Code Section 401(a)(9) for required minimum distributions, or to rollover the vested account balance to another qualified retirement plan.

The Plan has provided, prior to March 28, 2005, that if a participant's employment is terminated and the participant's vested interest in the Plan does not exceed $5,000, a lump sum distribution may be made to the participant as soon as administratively practicable. Effective with respect to distributions made on or after March 28, 2005, the Plan has lowered this threshold to $1,000. In the event of a mandatory distribution greater than $1,000, but less than $5,000, that is made in accordance with the provisions of the Plan providing for an automatic distribution to a participant without the participant's consent, if the participant does not elect to have such distribution paid directly to an "eligible retirement plan" specified by the participant in a direct rollover (in accordance with the direct rollover provisions of the Plan) or to receive the distribution directly, then the plan administrator shall pay the distribution in a direct rollover to an individual retirement plan designated by the plan administrator.

In-service distributions are also permitted on a limited basis for hardship reasons and to comply with qualified domestic relations orders. Participants may also take a distribution from their rollover accounts at any time.

Forfeited accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $93 and $-0-, respectively. As of each anniversary date, any amounts that became forfeitures since the last anniversary date shall first be made available to pay any administrative expenses. The remaining forfeitures, if any, shall be used to reduce the contribution of the employer for the plan year following the plan year in which such forfeitures occur.

During 2010 and 2009, employer contributions were reduced by forfeited non-vested accounts of $-0- and $50, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The trustee of the Plan, Nationwide Trust Company FSB, holds the Plan's investments. The Plan's investments are stated at fair value (see Note 5). Investments in money market and mutual funds are stated at their fair market value as determined by quoted market prices on the last business day of the Plan year. Such quoted market prices are based on the net asset value of the shares held by the Plan at year end.

Purchases and sales of securities are recognized on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the investments at the beginning of the year, or at the time of purchase for investments purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation). All realized and unrealized appreciation (depreciation) in the fair value of investments is shown in the accompanying statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of mutual funds.

Receivables

Contribution receivables are recorded at cost, net of an estimated allowance for doubtful accounts (i.e. net realizable value). Generally, the Plan does not require collateral to support these receivables. The Plan records an allowance for doubtful accounts in an amount approximating anticipated losses from estimated uncollectible amounts. Receivables are periodically evaluated for collectability based on past credit history and its aging. Individual amounts are written off against the allowance when deemed uncollectible and all collection efforts have been exhausted. The allowance for doubtful accounts was $-0- at December 31, 2010 and 2009.

Note 2. Summary of Significant Accounting Policies (Continued)

Receivables (continued)

Effective for fiscal years ending after December 15, 2010, Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, requires that loans to participants be classified as notes receivable from participants and be measured at their unpaid principal balances plus any accrued, but unpaid, interest. Previously, participant loans were classified as investments and measured at their estimated fair values. The new accounting standard has been adopted and applied retrospectively to all prior periods presented. There was no material impact on the Plan's results of operations or financial condition upon adoption of the new standard.

Interest income on notes receivable is recognized over the terms of the notes and is calculated using the simple-interest method on principal amounts outstanding. Notes receivable from participants are considered delinquent if a participant fails to repay a participant loan according to the loan's terms. A deemed distribution occurs when the participant defaults on the loan. If a repayment violation occurs, the amount of the deemed distribution is the entire outstanding balance of the loan, including principal and interest accrued, at the time of the violation. Deemed distributions are recorded as benefits paid to participants in the accompanying statements of changes in net assets available for benefits. The notes receivable are collateralized by the balances in the participants' accounts.

Payments of benefits

Benefits are recorded when paid.

Reclassifications

Certain amounts in 2009 have been reclassified to conform with the 2010 presentation.

Note 3. Information Certified by the Plan's Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Trust Company, FSB, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009 and the schedules of assets held at end of year as of December 31, 2010 and 2009, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.

Note 4. Investments (Unaudited)

The following presents investments, as reported by the trustee, that represent 5% or more of the Plan's net assets at December 31, 2010 and/or 2009:

	2010	2009
Money market and mutual funds:

Other mutual funds	2,983,435	4,147,751
	$ 8,566,597	$ 8,958,186

* Amount represents less than 5% of Plan's net assets at December 31, 2010 or 2009, but is included for comparative purposes.

All investments are in participant directed accounts managed and held by Nationwide Trust Company, FSB.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $975,194 and $1,993,009 during 2010 and 2009, respectively.

Note 5. Fair Value Measurements (Unaudited)

FASB ASC Section 820, *Fair Value Measurements and Disclosures*, became effective for the Plan during 2008 and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 5. Fair Value Measurements (Unaudited) (Continued)

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs were not available. The three levels of the fair value hierarchy under ASC Section 820, along with the valuation methodologies used for assets measured at fair value in the accompanying statements of net asses available for benefits, are described below:

Level 1 measurements – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan's investments in marketable securities, such as money market and mutual funds, are stated at fair market value determined by quoted market prices. These quoted market prices represent the net asset value ("NAV") of the shares held by the Plan at year end.

Level 2 measurements – Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 measurements – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Realized and unrealized gains (losses) on Level 3 assets, if any, are reported in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Unaudited) (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Note 6. Related Party and Party-in-Interest Transactions

Expenses absorbed by the plan sponsor amounted to $24,821 and $31,346 during the years ended December 31, 2010 and 2009, respectively.

Certain plan investments are shares of mutual funds managed by affiliates of Nationwide Trust Company, FSB. Nationwide Trust Company, FSB is the trustee as defined by the Plan and, therefore, transactions with Nationwide Trust Company, FSB and its affiliates qualify as party-in-interest transactions. Total fees paid to Nationwide Trust Company, FSB were $8,596 and $20,713 for the years ended December 31, 2010 and 2009, respectively.

Certain plan investments are shares of mutual funds managed by CLS Investment Firm, LLC and/or its affiliates. CLS Investment Firm, LLC provides investment management and advisory services to the Plan and its participants and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $45,180 and $38,934 for the years ended December 31, 2010 and 2009, respectively.

Pension Financial Services, Inc. is a pension consulting firm that provides administrative services to the Plan and is considered a party-in-interest. Administrative fees paid by the Plan totaled $11,268 and $15,436 for the years ended December 31, 2010 and 2009, respectively.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination or partial-plan termination, participants will become 100% vested in their accounts.

Note 8. Risks and Uncertainties

At December 31, 2010, thirty-eight percent of total notes receivable from participants were due from three participants. Each participant owed 13%, 14% and 11% of total notes receivable from participants, respectively.

The Plan invests in various investment securities, mainly mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Risks and Uncertainties (Continued)

The Plan also invests in various investment options that invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in domestic companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable domestic companies.

Note 9. Tax Status

The Company adopted a Volume Submitter Cross-Tested Profit Sharing 401(k) Plan with a cash or deferral arrangement that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan and related Trust were designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended and restated since receiving the determination letter, the Company and plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the United States' federal taxing authority. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010 and 2009, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 10. Subsequent Events

Management has evaluated subsequent events through September 19, 2011, the date the 2010 financial statements were available to be issued. For the reissued 2009 financial statements, management has evaluated subsequent events through October 7, 2010, the date the 2009 financial statements were originally available to be issued.

The net appreciation in fair value of the Plan's money market and mutual funds was $303,189 for the six months ended June 30, 2011, the last date such information was available and reported to the Plan.
