Independent Auditors' Report

To the Administrative Committee of
Roscoe Moss Company Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Roscoe Moss Company (the "Sponsor") Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 6, which was certified by Wells Fargo Bank, N.A., the custodian of the Plan, except for comparing the information with related information included in the financial statements and supplementary schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Roscoe Moss Company Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering eligible employees of Roscoe Moss Company (the "Company" or "Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments. The Plan has two funds: Fund A and Fund B. Fund A holds employer discretionary contributions. Fund B consists of all amounts contributed for salary deferral contributions and employer matching contributions.

Participation - An employee is eligible for participation in the Plan on the January 1 or July 1 which occurs after the hire date. An employee is eligible for a share of the employer discretionary contributions upon completion of 1,000 hours of consecutive service and is employed on the last day of the Plan year.

Tax status - The Plan is a volume submitter profit sharing 401(k) plan offered by Shardlow & Vick, the Plan's legal counsel. The Internal Revenue Service ("IRS") has determined and informed the Plan Administrator by letter, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan has been amended since adoption. However, the Plan's legal counsel and Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

During 2010, the Board of Directors of the Sponsor voted unanimously to restate the Plan Document. The restated Plan Document was submitted to the IRS for approval, and the Sponsor received a favorable determination letter regarding the restated Plan Document from the IRS dated July 8, 2010.

Participant contributions - Participants may elect to contribute up to 100% of eligible compensation. Participants age 50 or older may elect to defer additional amounts ("catch-up" contributions). However, the total of these salary deferral contributions may not, in any calendar year, exceed limitations set by the Code.

Sponsor contributions - The Sponsor may, at its discretion, match up to fifty cents of each dollar of participant contributions not to exceed 6% of the participant's regular compensation. The Sponsor, at its discretion, may also make additional profit sharing contributions. Contributions are subject to certain limitations. Included in Sponsor contributions in the accompanying Statement of Changes in Net Assets Available for Benefits is $500,000 of profit sharing contributions made to the Plan for the year ended December 31, 2010.

NOTE 1 - DESCRIPTION OF PLAN, Continued

Participants accounts - Separate accounts are maintained for each participant's deferred compensation, rollover contributions, and an allocation of the Sponsor's contributions. All gains, income, or losses are allocated separately to each participant's account, based on the performance of the investments within that account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant contributions are directed into investment accounts with the Custodian at the discretion of the Sponsor. Each December participants have the option of electing to transfer assets from Fund A to Fund B or vice versa.

Vesting - Participants are immediately vested in their contributions and Sponsor matching and profit sharing contributions, plus actual earnings thereon. Under the Plan, each participant is 100% vested in the participant's accounts at all times.

Payment of benefits - Upon termination of service, a participant may elect to receive either a lump-sum distribution or direct transfer to either an Individual Retirement Account or a qualified retirement plan. Other withdrawals and loans from the Plan can be made under certain circumstances, as defined in the Plan agreement. Participants who are 100% vested and 59 ½ years of age may take an in-service withdrawal of all or a portion of the value of their vested accounts once each plan year.

Notes receivable from participants - The Plan does not permit originations of notes receivable from participants.

Forfeitures - Non-vested Sponsor contributions forfeited by participants upon termination are available to reduce future payments of the Sponsor's matching contributions or Plan administration fees. During 2010 and 2009, there were no forfeited non-vested accounts available to reduce Sponsor contributions.

Plan termination - Although it has not expressed an intent to do so, the Sponsor reserves the right under the Plan, to cease contributions and terminate the Plan, subject to action by the Sponsor's Board of Directors and subject to the provisions of ERISA and the Internal Revenue Code. Upon termination of the Plan, all participants become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation - The accompanying financial statements have been prepared on the accrual basis of accounting, consistent with the reporting in the Form 5500.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Valuation of investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investment in various combinations of common stocks, interest-bearing money market accounts, registered investment company funds, and an investment in a portfolio entity (Note 3). The investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of the investments, it is at least reasonably possible that changes in risks in the near term would materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Fair value measurements - The Plan measures fair value under a framework that utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs which prioritize the inputs used in measuring fair value are:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

When the Plan changes its valuation inputs for measuring financial assets and liabilities at fair value, either due to changes in current market conditions or other factors, it may need to transfer those assets or liabilities to another level in the hierarchy based on the new inputs used. The Plan recognizes these transfers at the end of the reporting period that the transfers occur. For the years ended December 31, 2010 and 2009, there were no significant transfers of financial assets or liabilities between the hierarchy levels.

Participant distributions - Benefits paid to participants are recorded when paid.

Realized and unrealized appreciation (depreciation) - Realized and unrealized appreciation (depreciation) is based on the contract and market values of the assets at the end of the Plan year compared to the contract and market values of the assets at the beginning of the Plan year, or at the time of purchase for assets purchased/exchanged during the Plan year. In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net appreciation or decline in the fair value of investments, which consists of realized gains or losses and unrealized market value appreciation or decline of investments.

Plan expenses - Non-investment costs and most administrative expenses of the Plan are paid by the Sponsor, which is a party-in-interest. These expenses are not reflected in the accompanying financial statements and constitute exempt transactions under ERISA. Investment service fees are paid by the Plan and are netted against the related investment income. Certain administrative expenses are paid by the Plan.

Operating expenses - Certain expense of maintaining the Plan are paid for by the Sponsor, a party-in-interest, or through the use of Plan forfeitures.

Income taxes - Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2007.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Reclassifications - Certain prior year amounts have been reclassified to conform to current presentation.

Subsequent events - Subsequent events have been evaluated by the Sponsor through September 21, 2011, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Interest bearing cash - The carrying value approximates fair value and is classified as a Level 1 financial instrument.

Common stock - Shares of common stock are stated at fair value based upon quoted prices on a recognized securities exchange and are valued at the last reported sales price on the last business day of the Plan year. Investments in common stock are classified as Level 1 investments.

Registered investment companies - The shares in registered investment companies are valued at quoted market prices in an exchange and active market, which represent the net asset values of shares held by the Plan at year end and are classified as Level 1 investments.

Investment in portfolio entity - The assets and liabilities of the portfolio entity consist principally of investments in marketable securities owned, marketable securities sold but not yet purchased, and funds held either by brokers or by custodians. These investments are stated at quoted market values or at estimated fair value for certain other positions for which there is a limited market. The fair values assigned by the portfolio entity's general partner are determined in good faith and are based on available information including, quotations provided by outside brokers and counterparties, and pricing models using quoted inputs (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
