NOTE A – DESCRIPTION OF THE PLAN

The following description of the BSN Medical, Inc. Savings and Investment Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted effective April 1, 2001 and is a defined contribution plan that includes a Section 401(k) provision. The Plan covers salaried and hourly nonunion employees of BSN Medical, Inc. and participating affiliates (the "Company"), who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan allows participants to elect salary deferral contributions ranging from 1% to 50% of annual salary, not to exceed $16,500 and $15,500 during 2009 and 2008, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. A discretionary safe harbor match contribution has been made by the Company for each payroll period. The safe harbor match contribution is equal to 100% of the first 1% of the participant's salary deferral plus 50% of the participant's salary deferral that exceeds 1%, but not to exceed 6%. The Company also makes a retirement contribution in which a participant must be employed by the Company for one year to be eligible for the retirement contribution. The retirement contribution is equal to a percentage of the participant's annual salary. This percentage is determined based on the sum of the participant's age and years of service, as well as the participant's annual salary compared to the Social Security Taxable Wage Base ("SSTWB"). The retirement contribution percentage will be based on the table below.

Sum of Age and Service	Wages Under SSTWB	Wages Over SSTWB
Less than 35	5.5%	9.5%
36 to 50	6.5%	11.5%
51 to 65	7.5%	13.5%
66 or more	7.5%	15.5%

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a common/collective trust fund as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, and (b) plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A – DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon and are entitled to a distribution of such accounts upon termination of employment, retirement, total and permanent disability, or death. Vesting in the employer matching contribution account occurs on a graduated scale with full vesting after five years of service, in accordance with the Plan or upon participant's death, disability, or attainment of age 65.

Employer matching contributions are vested to the participants based on the following:

Years of Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Safe harbor match contributions are vested to the participants based on the following:

Years of Service	Vested Percentage
Less than 1	0%
1	50%
2 or more	100%

Retirement contributions are vested to the participants based on the following:

Years of Service	Vested Percentage
Less than 1	0%
1	0%
2	0%
3	100%

Participant Loans

Participants are allowed two general purpose loans ranging from one to five years and on primary residence loan ranging from one to ten years. All loans are in a minimum amount of $1,000, not to exceed the lesser of 50% of the participant’s vested balance or $50,000. The loans are secured by the balance in the participant’s account. The loan interest rates and terms of repayment vary. Loan interest rates are set at the prime lending rate as posted in the Wall Street Journal on the last business day of the month before the date on which the loan is requested. All loans, except residential mortgage loans, must be repaid by regular periodic payments for a period not greater than five years. For active employees of the Company, loan repayments will be paid by payroll withholding each pay period. For applicants who are not employees, loan repayments must be paid by check payable to the Plan. Loan application fees are paid by the participants.

NOTE A – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

Participants may request withdrawals from their accounts for their full or a portion of the vested amounts in the event of retirement, death, disability, reaching age 59½, or other termination of employment.

Hardship withdrawals may be made on account of an immediate and heavy financial need as defined by the Plan.

Forfeited Accounts

Upon termination of a participant's employment for any reason other than retirement, death, or disability, the unvested portion of the employer matching contribution account, safe harbor match contributions account, discretionary contribution account, and retirement contribution account will be forfeited and may be used by the Company to reduce employer contributions to the Plan. At December 31, 2009 and 2008, forfeited non-vested accounts totaled $5,234 and $968, respectively. During 2009 and 2008, forfeitures of $70,121 and $110,097, respectively, were used to offset employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment to fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of income and expenses during the reporting period. Actual results could differ from these estimates and assumptions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

Certain administrative expenses are paid by the Plan and all others are paid by the Company.

NOTE C – INVESTMENTS

The following presents investments that are five percent or more of the Plan's net assets available for benefits:

	2009	2008
Mutual funds:		
Harbor International Fund	$ 2,084,251	$ 1,540,191
Prime Reserve Fund	2,376,694	2,076,655
Mid-Cap Growth Fund	4,523,183	3,230,116
Equity Income Fund	1,878,548	1,471,983
TRP Stable Value Fund	*	1,519,931
Retirement 2030 Fund	2,559,086	1,351,376

* Investment represents less than 5% of Plan net assets.

NOTE C – INVESTMENTS (Continued)

During 2009 and 2008, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2009	2008
Mutual funds	$ 7,061,627	$ (11,474,769)

NOTE D – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") issued a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liabilities has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at 2008.

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

NOTE D – FAIR VALUE MEASUREMENTS (Continued)

Common/Collective Trust Fund

These investments are public investment vehicles using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Participant Loans

Participant loans are valued at amortized cost, which approximates fair value and are classified within Level 3 on the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	As of December 31, 2009

All information on the supplemental schedule of assets (held at end of year) included on pages 12-13.

NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts will become fully vested and nonforfeitable.

NOTE G – TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated September 19, 2002 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE I – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.
