INDEPENDENT AUDITORS' REPORT

Plan Administrator and Committee
P2ES Holdings 401(k) Plan
Denver, Colorado

REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of P2ES Holdings 401(k) Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedule as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan and Significant Accounting Policies

P2ES Holdings 401(k) Plan (the "Plan") is sponsored by P2ES Holdings, LLC (the "Company"). Various subsidiaries of the Company are participating employers of the Plan.

The following description of the Plan provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company and its wholly owned subsidiaries. The Company adopted the Plan effective January 1, 2001, with its latest amendment effective November 5, 2014. Employees of the Company become eligible to participate in the Plan upon the attainment of age 21. Employees may enroll in the Plan on the first day of the month following attainment of eligibility requirements. Fidelity Management Trust Company ("Fidelity") serves as trustee, manages Plan assets, and maintains the Plan's records. Individual accounts are invested in the various investment options at the direction of the participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Participant Contributions

Participants may contribute on a pre-tax basis from 1% to 60% of their eligible compensation, as defined in the Plan, not to exceed $18,000 in 2015 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. The Plan also permits rollover contributions from other qualified retirement plans. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contributions for the year. Employee contributions to the Plan are made through regular payroll deductions. Participants may change their tax deferred contribution percentage on of the first day of any month and may discontinue their election to contribute at any time. Once discontinued, the participant may re-elect to make contributions at any time. At any time, participants may redesignate the investment options in which their allocated shares of the total Plan are invested. Employees are eligible to contribute on an after-tax basis through payroll deductions from 1% to 60% of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of Roth contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Company Contributions

The Company makes a matching contribution to the Plan equal to 50% of the first 8% of eligible compensation contributed per pay period by participants. Participants are eligible for matching contributions upon attainment of age 21 and completing three months of eligible service. The Company made $1,237,400 of matching contributions, net of forfeitures applied, for the year ended December 31, 2015.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Company Contributions (continued)

The Company may also make a discretionary or profit-sharing contribution in addition to the basic matching contributions to the Plan. Participants receiving discretionary or profit-sharing employer contributions must complete at least 501 hours of service during the Plan year or be employed as of the last day of the Plan year to which the contribution relates. No discretionary or profit-sharing contributions were made to the Plan for the year ended December 31, 2015.

Participants' Accounts

Participant accounts are credited or charged with (1) participant-elective contributions; (2) employer matching contributions; (3) Company discretionary or profit-sharing contributions, if any; (4) employee rollover contributions; (5) forfeitures; and (6) allocations of Plan earnings (losses) as defined in the Plan agreement. Participant-elective contributions are deposited into the investment options selected by the participants.

Vesting

Participants are fully vested in their elective contributions, rollover contributions, and earnings or losses thereon. Company matching, discretionary, and profit-sharing contributions vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the later of age 55 or the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be forfeited. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $175,717 and $95,727, respectively. These accounts will be used to offset future employer contributions or Plan administrative expenses. For the year ended December 31, 2015, employer contributions were reduced through forfeitures of $30,300.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payments of Benefits

A participant's entire vested interest in the Plan is payable in the event of termination of service, death, disability, or retirement, as defined by the Plan agreement. Participant benefits are payable in a lump-sum payment or periodic cash installments. If a participant's vested account balance is equal to or less than $1,000, a lump-sum distribution equal to the participant's vested account balance will occur automatically. In addition, hardship distributions are permitted if specified criteria are met. Benefit distributions are recorded when paid.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The maximum loan repayment period is five years, with the exception of loans for a principal residence, which may be paid over a longer repayment period as determined by the Plan administrator. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 9.25%, which are commensurate with local prevailing rates at loan origination as determined weekly by the Plan administrator, and mature at various dates through April 2022. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

Investment Valuations and Income Recognition

The investments of the Plan are reported at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. See Note 2 for a discussion of fair value measurements.

The net appreciation or depreciation in the fair value of investments (net realized and unrealized gains and losses) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment transactions are recorded on the date of purchase or sale (trade date).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ significantly from these estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan invests in various mutual funds that may in turn invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of those securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practice, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)* practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 31, 2015. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07 the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); and Health and Welfare Benefit Plans (Topic 965): Part I: Fully Benefit-Responsive Investment Contracts, Part II: Plan Investment Disclosures, Part III: Measurement Date Practical Expedient.* The amendment is effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts. Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendment in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Company did not early adopt these pronouncements.

Administrative Fees

The Company discretionarily provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan. Administrative fees of the Plan are paid by the Company and the Plan. During 2015, the third-party administrator applied certain credits to the Plan that offset the total Plan expenses. The balance is reflected as a net administrative fee expense on the accompanying statement of changes in net assets available for benefits.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Subsequent Events

The Company has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. The Company amended the Plan effective April 1, 2016 to remove the three months service requirement for matching contributions, include leased employees in the definition of eligible employees, add Merrick Systems Inc. as predecessory employee, and dates for employee changes to salary reductions were amended. There were no additional material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Fair Value Accounting

Accounting principles generally accepted the United States of America require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis.

Note 2 - Fair Value Accounting (continued)

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Large-cap stock investments	$ 17,296,602	$ -	$ -	$ 17,296,602
Blended stock investments	15,937,975	-	-	15,937,975

Total	$ 50,162,826	$ -	$ -	$ 50,162,826

Fair value of the mutual funds was measured by obtaining the quoted market value from the New York Stock Exchange for each of the funds (market approach). Investments in mutual funds are valued at the last reported sales price at the end of the reporting period.

There were no changes to the valuation techniques used during the period.

Note 3 - Investment Concentrations

The fair value of investments greater than 5% of net assets available for benefits was the following:

Note 4 - Income Taxes

The Plan has adopted a defined contribution plan sponsored by Fidelity, which Plan management believes is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The volume submitter plan obtained its latest opinion letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Summary of Financial Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and schedule of assets (held at end of year) is complete and accurate:

- Investments and loans to participants of $53,407,986 and $50,685,568 as shown in the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, respectively;
- Investment and loan interest income of $3,054,134 and net realized/unrealized depreciation in the fair value of investments of $(3,166,424) as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015;
- Investment information in Notes 2 and 3; and
- The supplemental schedule of assets (held at end of year) as of December 31, 2015 as shown on the accompanying supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule of assets (held at end of year).

Note 6 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and a money market fund managed by Fidelity. Fidelity is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest, which are exempt from prohibited transaction rules. In addition, the Plan provides for loans to participants who are parties-in-interest. These transactions are also exempt from prohibited transaction rules.

Note 7 - Reconciliation to Form 5500

Net assets available for benefits, employer and employee contributions for financial reporting purposes differ from the amounts shown on the Plan's Form 5500 for the year ended December 31, 2015, due to Form 5500 not recognizing employer and employee contributions receivable of $32,614 and $87,626, respectively.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

INDEPENDENT AUDITORS' REPORT

Plan Administrator and Committee
P2ES Holdings 401(k) Plan
Denver, Colorado

REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of P2ES Holdings 401(k) Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedule as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan and Significant Accounting Policies

P2ES Holdings 401(k) Plan (the "Plan") is sponsored by P2ES Holdings, LLC (the "Company"). Various subsidiaries of the Company are participating employers of the Plan.

The following description of the Plan provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company and its wholly owned subsidiaries. The Company adopted the Plan effective January 1, 2001, with its latest amendment effective November 5, 2014. Employees of the Company become eligible to participate in the Plan upon the attainment of age 21. Employees may enroll in the Plan on the first day of the month following attainment of eligibility requirements. Fidelity Management Trust Company ("Fidelity") serves as trustee, manages Plan assets, and maintains the Plan's records. Individual accounts are invested in the various investment options at the direction of the participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Participant Contributions

Participants may contribute on a pre-tax basis from 1% to 60% of their eligible compensation, as defined in the Plan, not to exceed $18,000 in 2015 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. The Plan also permits rollover contributions from other qualified retirement plans. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contributions for the year. Employee contributions to the Plan are made through regular payroll deductions. Participants may change their tax deferred contribution percentage on of the first day of any month and may discontinue their election to contribute at any time. Once discontinued, the participant may re-elect to make contributions at any time. At any time, participants may redesignate the investment options in which their allocated shares of the total Plan are invested. Employees are eligible to contribute on an after-tax basis through payroll deductions from 1% to 60% of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of Roth contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Company Contributions

The Company makes a matching contribution to the Plan equal to 50% of the first 8% of eligible compensation contributed per pay period by participants. Participants are eligible for matching contributions upon attainment of age 21 and completing three months of eligible service. The Company made $1,237,400 of matching contributions, net of forfeitures applied, for the year ended December 31, 2015.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Company Contributions (continued)

The Company may also make a discretionary or profit-sharing contribution in addition to the basic matching contributions to the Plan. Participants receiving discretionary or profit-sharing employer contributions must complete at least 501 hours of service during the Plan year or be employed as of the last day of the Plan year to which the contribution relates. No discretionary or profit-sharing contributions were made to the Plan for the year ended December 31, 2015.

Participants' Accounts

Participant accounts are credited or charged with (1) participant-elective contributions; (2) employer matching contributions; (3) Company discretionary or profit-sharing contributions, if any; (4) employee rollover contributions; (5) forfeitures; and (6) allocations of Plan earnings (losses) as defined in the Plan agreement. Participant-elective contributions are deposited into the investment options selected by the participants.

Vesting

Participants are fully vested in their elective contributions, rollover contributions, and earnings or losses thereon. Company matching, discretionary, and profit-sharing contributions vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the later of age 55 or the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be forfeited. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $175,717 and $95,727, respectively. These accounts will be used to offset future employer contributions or Plan administrative expenses. For the year ended December 31, 2015, employer contributions were reduced through forfeitures of $30,300.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payments of Benefits

A participant's entire vested interest in the Plan is payable in the event of termination of service, death, disability, or retirement, as defined by the Plan agreement. Participant benefits are payable in a lump-sum payment or periodic cash installments. If a participant's vested account balance is equal to or less than $1,000, a lump-sum distribution equal to the participant's vested account balance will occur automatically. In addition, hardship distributions are permitted if specified criteria are met. Benefit distributions are recorded when paid.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The maximum loan repayment period is five years, with the exception of loans for a principal residence, which may be paid over a longer repayment period as determined by the Plan administrator. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 9.25%, which are commensurate with local prevailing rates at loan origination as determined weekly by the Plan administrator, and mature at various dates through April 2022. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

Investment Valuations and Income Recognition

The investments of the Plan are reported at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. See Note 2 for a discussion of fair value measurements.

The net appreciation or depreciation in the fair value of investments (net realized and unrealized gains and losses) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment transactions are recorded on the date of purchase or sale (trade date).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ significantly from these estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan invests in various mutual funds that may in turn invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of those securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practice, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)* practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 31, 2015. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07 the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

Recent Accounting Pronouncements (continued)

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); and Health and Welfare Benefit Plans (Topic 965): Part I: Fully Benefit-Responsive Investment Contracts, Part II: Plan Investment Disclosures, Part III: Measurement Date Practical Expedient.* The amendment is effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts. Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendment in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Company did not early adopt these pronouncements.

Administrative Fees

The Company discretionarily provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan. Administrative fees of the Plan are paid by the Company and the Plan. During 2015, the third-party administrator applied certain credits to the Plan that offset the total Plan expenses. The balance is reflected as a net administrative fee expense on the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. The Company amended the Plan effective April 1, 2016 to remove the three months service requirement for matching contributions, include leased employees in the definition of eligible employees, add Merrick Systems Inc. as predecessory employee, and dates for employee changes to salary reductions were amended. There were no additional material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Fair Value Accounting

Accounting principles generally accepted the United States of America require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis.

Note 2 - Fair Value Accounting (continued)

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Large-cap stock investments	$ 17,296,602	$ -	$ -	$ 17,296,602

Total	$ 50,162,826	$ -	$ -	$ 50,162,826

Fair value of the mutual funds was measured by obtaining the quoted market value from the New York Stock Exchange for each of the funds (market approach). Investments in mutual funds are valued at the last reported sales price at the end of the reporting period.

There were no changes to the valuation techniques used during the period.

Note 3 - Investment Concentrations

The fair value of investments greater than 5% of net assets available for benefits was the following:

	December 31, 2015		December 31, 2014	
Fidelity Contrafund Fund	$ 5,374,988		$ 4,805,951	
Fidelity Capital Appreciation Fund	$ 5,124,063		$ 5,300,233

PIMCO Total Return Institutional Fund	$ -	*	$ 2,574,901	

* Indicates investments less than 5% of net assets available for benefits at the respective dates.

Note 4 - Income Taxes

The Plan has adopted a defined contribution plan sponsored by Fidelity, which Plan management believes is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The volume submitter plan obtained its latest opinion letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Summary of Financial Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and schedule of assets (held at end of year) is complete and accurate:

- Investments and loans to participants of $53,407,986 and $50,685,568 as shown in the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, respectively;
- Investment and loan interest income of $3,054,134 and net realized/unrealized depreciation in the fair value of investments of $(3,166,424) as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015;
- Investment information in Notes 2 and 3; and
- The supplemental schedule of assets (held at end of year) as of December 31, 2015 as shown on the accompanying supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule of assets (held at end of year).

Note 6 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and a money market fund managed by Fidelity. Fidelity is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest, which are exempt from prohibited transaction rules. In addition, the Plan provides for loans to participants who are parties-in-interest. These transactions are also exempt from prohibited transaction rules.

Note 7 - Reconciliation to Form 5500

Net assets available for benefits, employer and employee contributions for financial reporting purposes differ from the amounts shown on the Plan's Form 5500 for the year ended December 31, 2015, due to Form 5500 not recognizing employer and employee contributions receivable of $32,614 and $87,626, respectively.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.
