NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED OCTOBER 31, 2015 AND 2014

NOTE 1: PLAN DESCRIPTION

The following brief description of the Meier Supply Co., Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for complete information.

Plan Sponsor: Meier Supply Co., Inc. (the Sponsor)
Plan name: Meier Supply Co., Inc. 401(k) Profit Sharing Plan
Three digit plan number: 001
Employer identification number: 15-0616623

General

The Plan is a defined contribution plan covering substantially all employees of Meier Supply Co. Inc., who have met certain requirements as to length of service and age. The Plan was effective as of January 1, 2002. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to defer compensation once they attain age 21. In general, employees are eligible for employer contributions based on: (1) twelve months of service, (2) age 21 or older, and (3) employed on the entry date (November 1 or May 1).

Contributions

Employees can defer their salary up to the statutory amounts allowed by the Internal Revenue Code of $18,000 and $17,500 for 2015 and 2014, respectively, or 100% of the employees eligible compensation. In addition, employees who will be at least 50 years of age by the end of the calendar year are permitted a "catch-up" contribution. The maximum "catch-up" contribution allowed is $6,000 and $5,500 for 2015 and 2014, respectively.

All employees meeting the eligibility requirements to make salary deferrals to the Plan are automatically enrolled in the Plan and 3% of the employee's eligible compensation will be automatically withheld and deposited into the Plan as a salary deferral. Participants will then have the ability to terminate or modify the automatic deferral election within 90 days of the date the automatic deferral election is first effective.

The Sponsor contributes to the Plan as follows: (1) by a discretionary matching contribution, and (2) additional discretionary profit sharing contribution to employees with 1 year (1,000 hours) of service during that plan year. All investments are participant directed.

The funding policy of the Plan is to remit participant salary deferrals and loan payments withheld as soon as administratively feasible. The Sponsor evaluates discretionary contributions in conjunction with overall corporate tax and employee benefit planning at fiscal year end, and remits funding by the due date of the corporate tax return, including extensions.

NOTE 1: PLAN DESCRIPTION (Continued)

Contributions (Continued)

Total contributions to the plan include amounts payable to participants totaling $3,735 at October 31, 2015, for ineligibility based on age requirement and for contributions in excess of amounts allowed by the IRS. The plan distributed the 2015 excess contributions to the applicable participants subsequent to the plan year-end.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Sponsor contribution and the Plan earnings. Allocations of Plan earnings are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Vesting

Participants are vested immediately in their contributions and employer matching contributions to the Plan and earnings thereon. Vesting in the Sponsor's discretionary contributions is based on 6-year vesting schedule as follows:

Years of Service	**Vested %**
Less than 2 years	0
2 years	20
3 years	40
4 years	60
5 years	80
6 years or more	100

Notes Receivable From Participants

Participants may borrow from the Plan a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested portion of the participant's account balance. The loans are collateralized by the vested balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is repaid over a maximum five year period through payroll deductions.

Payment of Benefits

Upon normal retirement, disability or death, or other means of termination of service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account either as a cash distribution or rolled over to an individual retirement plan.

NOTE 1: PLAN DESCRIPTION (Continued)

Payment of Benefits (Continued)

In-service distributions are permitted by the Plan for participants who have reached the age 59 ½ in an amount equal to the entire available amount then credited to the participant's accounts.

Beginning in the Plan year ending October 31, 2015, hardship withdrawals are permitted by the Plan to satisfy an immediate and heavy financial need that cannot be satisfied from other financial resources. The allowed withdrawal is limited to that amount needed to meet the need. Amounts withdrawn for hardship may not be re-deposited to this or any other Plan maintained by the Sponsor, and they may not be rolled over to either an IRA or other qualified retirement plan.

Forfeited Accounts

Forfeited participant accounts are used to reduce the Sponsor's contributions to the Plan. No forfeited account balances were used to reduce the sponsor's contributions for the plan years 2015 or 2014.

Administrative Expenses

The Sponsor has absorbed all the administrative costs of the Plan, except for fees associated with plan loans and distributions to participants. A loan origination fee of $150 and a distribution fee of $35 will be charged for these applicable transactions.

Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Terminated Participants

The aggregate vested value of terminated participant accounts at October 31, 2015 and 2014 was $551,085 and $609,245, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

In July 2015, the FASB (Financial Accounting Standards Board) issued ASU (Auditing Standards Update) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*. The ASU affects fully benefit-responsive investment contracts and certain plan investment disclosures. The ASU designates contract value as the only required measure for fully benefit-responsive investment contracts. Contract value is considered relevant because that is the amount at which participants would transact. The ASU eliminates the measurement and presentation of fair value disclosures for fully benefit responsive investment contracts. The ASU also eliminates the requirement for an entity to disclose: (i) individual investments that represent five percent or more of net assets available for benefits; (ii) net appreciation or depreciation of investments by general type and (iii) disaggregation of investments by nature, risks and characteristics under Topic 820. Under the ASU, Net appreciation or depreciation for investments for the period is now required to be presented only in the aggregate. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. Management has elected to early adopt the provisions of ASU 2015-12 as of October 31, 2015 and prior disclosures have been updated to conform to the new guidance.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of October 31, 2015 and 2014. Delinquent participant loans are classified as distributions based upon the terms of the Plan Document.

Valuation of Investments and Income Recognition

Investments are stated at fair value. Quoted market prices are used to determine fair value of security investments. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make significant estimates and assumptions that affect the reported amounts of changes in net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets available for benefits during the reporting period. Accordingly, actual results could differ from those estimates.

Reclassifications

Certain prior year financial statement presentations have been reclassified to conform to the current year presentation.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan invests in various debt and equity securities. These investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits. Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of cash, cash equivalents and investments. The Plan places its cash and cash equivalents with what it believes to be quality financial institutions.

Events Occurring After Reporting Date

The Sponsor has evaluated events and transactions that occurred between October 31, 2015 and the date of the auditor's report, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

Subsequent Events

On March 1, 2016, the Sponsor amended certain Plan provisions effective for the Plan year ending October 31, 2016. In addition to other minor modifications, the amendment allows participants to change deferral amounts on a continuing basis. Participants should refer to the amended Plan document for a more complete description of changes made to the Plan's provisions.

NOTE 3: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets;

NOTE 3: FAIR VALUE MEASUREMENTS (Continued)

- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Observable inputs other than quoted prices that are observable; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Unobservable inputs for the asset or liability (namely supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Valued at the aggregate value of the investments held. Money market accounts are valued at cost plus accrued interest. Mutual funds are valued at the daily closing price as reported by the fund. Corporate stocks are valued at closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be consistent with the fair value calculation from methods used by other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Investment levels by investment category for October 31, 2015 are:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 3,957,830	$ 3,957,830	$ -	$ -
Self-directed brokerage accounts	1,277,274	1,277,274	-	-
Total investments at fair value	$ 5,235,104	$ 5,235,104	$ -	$ -

NOTE 3: FAIR VALUE MEASUREMENTS (Continued)

Investment levels by investment category for October 31, 2014 are:

	Total	Level 1	Level 2	Level 3
Mutual funds	$ 3,141,369	$ 3,050,818	$ 90,551	$ -
Self-directed brokerage accounts	2,295,534	2,295,534	-	-
Total investments at fair value	$ 5,436,903	$ 5,346,352	$ 90,551	$ -

NOTE 4: FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan invests in the Federated Capital Preservation Fund (the Fund), which invests in traditional guaranteed investment contracts (GICs), separate account guaranteed investment contracts (SGICs), synthetic guaranteed investment contracts (SICs), money market mutual funds and other stable value products. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the disaggregation of contract value between types of investment contracts held by the Plan at October 31, 2015.

Separate account guaranteed investment contracts	$ 57,483
Synthetic guaranteed investment contracts	50,220
Traditional guaranteed investment contracts	30,441
Money market mutual funds	16,379
Total investments at contract value	$ 154,523

A SGIC and a SIC differs from a GIC in that the Plan owns the assets underlying the investment of a SGIC and a SIC, and the bank, insurance company, or other financial institution issues a contract, referred to as a “wrapper,” that maintains the contract value of the underlying investment for the duration of the SGIC.

The Fund’s Net Asset Value (NAV) is normally expected to be calculated using the contract value of the Fund's contracts, regardless of the fluctuations in the market value of the underlying fixed income portfolios, which is intended to allow the fund to maintain a stable NAV. The terms of each Fund provide for certain qualified withdrawals allowed under the Plan, such as exchanges, withdrawals, distributions and benefits to be paid at contract value, although terms vary from contract to contract and certain withdrawals may not be permitted at contract value.

NOTE 4: FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (Continued)

Investing in the Fund involves certain risks, however the Fund may be subject to additional risks other than those described below. The value of the Fund's investments may fluctuate, sometimes rapidly or unpredictably, due to a number of factors including changes in interest rates or inflation, adverse economic conditions, reduced market liquidity, poor manager performance, or other factors affecting the securities markets.

The creditworthiness of the contract issuer or guarantor of fixed income securities may deteriorate, or the issuer may default or become unable or unwilling to make timely principal payments, interest payments, or to otherwise honor its obligations, which may impact the Fund's performance or cause a reduction in the Fund's NAV.

There are certain risks associated with investing in these contracts. These contracts contain terms including events of default and termination provisions, which if triggered could obligate the Fund's managers to alter their investment strategy and wind down the contracts over a period of several years, or could potentially cause loss of coverage under the contracts. Certain events or conditions, including but not limited to, changes to the Plan's other investment funds, changes to the rules or administration of the Plan or the Fund, employer restructuring or layoffs, corporate mergers or divestitures, employer bankruptcy, partial or complete Plan termination, changes in law, accounting procedures or regulatory changes, may result in withdrawals from the contracts being made at market value instead of book value, which could result in a reduction of the Fund's NAV. The Trustee is responsible for determining the Fund's NAV and the amount of any participant's redemption from the Fund.

NOTE 6: TAX STATUS

The Sponsor adopted a non-standardized prototype plan, which received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The opinion letter stated that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7: RELATED-PARTY INFORMATION

The Plan currently has three named trustees who are also employees/officers of the Sponsor. The trustees, administrators, and employees of the plan, the officers of the Sponsor, and relatives of these various individuals are included in a category referred to as “parties-in-interest” (PII). In addition, service providers to the plan, as well as participants who obtain loans from the plan are considered PII.
