Carmines 401(k) Plan
Notes to Financial Statements
December 31, 2010 and 2009

Note 1 - Plan Description

The following description of Carmines 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The plan is a defined contribution plan covering all employees of Mercado 2401, Inc. and Affiliates (the "Company") who have completed one year of service and are at least 21 years of age. Employees enter the Plan on the earlier of the first day of the seventh month or the first day of the Plan Year coinciding with or next following the date on which such requirements are satisfied. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The original effective date of this Plan is October 1, 2003.

Contributions

Each year, participants may contribute up to 80% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan Year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. For those employees making salary deferrals, the Company makes a safe harbor match contribution and contributes 100% of the first 3% of compensation plus 50% of salary deferrals up to the next 2% of compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution and investment earnings and losses. Allocations are based on the participant earnings or account balances, as defined. Employer contributions are allocated and credited to the participants' accounts on a per payroll basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Carmines 401(k) Plan
Notes to Financial Statements
December 31, 2010 and 2009

Note 1 - Plan Description (con't)

Vesting

A participant shall have a nonforfeitable interest in a portion of his Employer derived Accrued Benefit as determined in accordance with the following schedule:

Completed Years of Service	Percentage of Account Balance Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Payment of Benefit

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or may elect to receive substantially equal installments for a period elected by the participant, not to exceed life expectancy.

Loans

Loans to participants are permitted. The loan balances were $44,757 and $0 as of December 31, 2010, and 2009, respectively.

Note 2 - Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements
December 31, 2010 and 2009

Note 2 - Summary of Accounting Policies (con't)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans, if any, are valued at their outstanding balances, which approximate fair value.

Net Appreciation/ (Depreciation) in Fair value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Administrative expenses, including administrator and audit fees, relating to the Plan are paid by the Company.

Forfeited Accounts

Per the plan, forfeitures of matching contributions will be used to reduce Employer Contribution in the Plan Year in which the forfeiture occurs or the next following Plan Year. At December 31, 2010, there is no balance in the forfeited non-vested account. The Company used all forfeited amounts to reduce employer contributions during 2010.

Risks and Uncertainties

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
