CENTRAL VALLEY EMPLOYEES 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1: Description of Plan

The following description of the Central Valley Employees 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) pension plan covering all full-time employees of the Company who have ninety days of service and are age 21 or older. Prior to February 1, 2008, employees needed one year of service and age 21 or older to be covered. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For each Plan year, the Company contributes a discretionary amount to the Plan up to 2% of each participant's compensation for such year. In 2010, the Company did not make any matching contributions to the Plan. Participants may contribute up to 20% of their annual compensation, subject to maximum annual contributions of $ 16,500. Participants who have attained age 50 before the end of the plan year are eligible to make an additional catch-up contribution.

Participant Accounts

Each participant's account is increased by the participant's contribution and an allocation of the Company's contribution and Plan earnings. Allocations are based on participants' earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits that can be provided from his or her account. Forfeitures of non-vested accounts of terminated employees are used to cover administrative expenses.

Vesting

Participants are immediately vested in their voluntary contributions plus their contributions' earnings. Vesting in the remainder of their accounts is based on years of continuous service. An employee is fully vested after seven years of continuous service.

Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and used to cover administrative expenses. For the years ended December 31, 2010 and 2009 there were $ 548 and $ 1,109 in forfeitures, respectively.

Payment of Benefits

On termination of services, a participant, depending on the amount of vested benefits, may elect to receive either a lump sum amount equal to his or her account, or periodic installment payments over a number of years.

NOTE 2: Summary of Significant Accounting Policies

A. The books and records of Central Valley Employees 401(k) Plan are maintained and these statements have been prepared on the accrual basis of accounting.

NOTE 2: Summary of Significant Accounting Policies (Continued)

B. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3: Contracts with Insurance Company

In 1988 the Plan entered into a deposit contract with Massachusetts Mutual Life Insurance Company (MassMutual). The agreement is an unallocated insurance contract in which Plan contributions are invested by MassMutual. These funds are utilized to pay benefits to Plan participants. Available investment options include the Guaranteed Interest Fund and the Pooled Bond and Equity Separate Investment Funds. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the full benefit-responsive investment contract is based on the contract value as reported to the Plan by MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with MassMutual. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Investments are included in the financial statements at contract value and fair value as reported to the Plan by MassMutual as follows:

As of December 31	2010	2009
Guaranteed Interest Fund (At Fair Value)	$ 1,711,486	$ 1,661,632
Pooled Bond and Equity Separate Investment Funds (At Fair Value)	2,839,849	2,386,820
Total	$ 4,551,335	$ 4,048,452

The Pooled Bond and Equity Separate Investment Funds appreciated in value by $ 407,208 in 2010 and $ 564,950 in 2009.

NOTE 3: Contracts with Insurance Company (Continued)

Following is the applicable interest rate information for the Guaranteed Interest Funds:

Years Ended December 31	2010	2009
Guaranteed Interest Fund 1		
Average Yield	3.0%	3.3%
Crediting Interest Rate (Determined Annually)	3.0%	3.0%
Guaranteed Interest Fund 2		
Average Yield	1.2%	.6%
Crediting Interest Rate (Determined Annually)	3.0%	3.0%

NOTE 4: Fair Value Measurement

FASB Statement No. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The Plan uses appropriate evaluation techniques based on the available inputs to measure the fair value of its investments.

NOTE 4: Fair Value Measurement (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Level 3 Fair Value Measurement

The guaranteed investment contract is not actively traded and significant other observable inputs are not available. Thus, the fair value of the Guaranteed Investment Contract is determined by estimated liquidation value determined within contract specifications. The following table provides further details of the Level 3 fair value measurements. The fair value of Pooled Bond and Equity Separate Investment Funds is determined by unit values calculated based on the net assets of underlying pool of securities.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010, are reported as net appreciation (depreciation) in fair value of investments.

Fair Value Measurements at Reporting Date Using:

As of December 31, 2010	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Guaranteed Interest Fund	$ 1,711,486	$ -0-	$ -0-	$ 1,711,486
Pooled Bond and Equity Separate Investment Funds	2,839,849	-0-	2,839,849	-0-

NOTE 10: Tax Status

The Plan was adopted as of February 1, 1988. The plan obtained its latest determination letter on April 23, 2002, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 11: Parties in Interest

Plan investments include shares of registered investment company funds managed by MassMutual. MassMutual is the custodian of the Plan and, therefore, transactions with this entity qualify as exempt party-in interest transactions. Other known parties in interest include Central Valley Builders Supply, Inc, plan sponsor, and Marybeth Sizelove and Lonnie Reichstein, plan administrators.

NOTE 12: Subsequent Events

The Organization has evaluated subsequent events through September 27, 2011, which is the date these financial statements were issued. All subsequent events requiring recognition as of December 31, 2010 have been incorporated into these financial statements.
