401(K) RETIREMENT PLAN
F/K/A/ TEAM ENTERPRISES, INC. 401K PLAN
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2015 and 2014

A. DESCRIPTION OF PLAN

The following description of the 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

1) History and General. The Plan is a defined contribution plan, effective as of January 1, 1996, covering substantially all full-time employees of the former Team Enterprises, Inc. and its successors, The Arsenal LLC and its consolidated subsidiary, New Team LLC (d/b/a Team Enterprises), (collectively referred to as the Company), who have completed 12 months of service, work at least 1,000 hours per year and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In March 2010, a majority interest in Team Enterprises, Inc. was purchased by MDC Partners, Inc. a public company. Subsequent to the acquisition, the employees of the former Team Enterprises, Inc. were transferred to The Arsenal LLC or its consolidated subsidiary. As a result of the changes noted above, the Plan changed its name during 2010 from Team Enterprises, Inc. 401K Plan to 401(k) Retirement Plan. In November 2014 and effective January 1, 2015 all employees of The Arsenal LLC became employees of New Team LLC and the plan sponsor's name was changed to New Team LLC. The Company intends to maintain the current human resource management system, including the employee benefit plan structure. Therefore, at this time there are no plans to discontinue or significantly modify the Plan.

2) Contributions.
   a) **Profit sharing contributions-** Each plan year, the Company may make discretionary contributions to the Plan as the board of directors of the Company may deem advisable. An employee must have performed 1 year of service to be eligible for a profit sharing contribution. The Company need not have net profits to make its annual discretionary contribution. The Company did not make any profit sharing contributions for the year ended December 31, 2015.
   b) **Participants' contributions**- Participants who have 12 months of service and work at least 1,000 hours per year may contribute up to $18,000 for 2015 ($18,000 for 2016) of their compensation, as limited under Internal Revenue Code (IRC) section 402(g), plus an additional $6,000 ($6,000 for 2016) in catch up contributions for those participants over 50 years old. Compensation includes discretionary contributions made by the Company on the employees' behalf. There is no requirement for non-elective contributions.
   c) **Matching contributions**- Each plan year, the Company may make discretionary matching contributions as the board of directors may deem advisable. An employee must have performed 1 year of service to be eligible for a matching contribution. The matching contribution is computed using a formula based on an amount (or additional amount) equal to a matching percentage of the eligible contributions for those participants who qualify under the general provisions of the Plan. For the year ended December 31, 2015, the Company matched 100% of the participants' contributions up to 4% of their salary.
   d) **Total Contributions**- Under IRC section 415(c) the total of all contributions made for a participant cannot exceed the lesser of 100% of the employee's compensation or $53,000 and $53,000 for the years ended December 31, 2015 and 2016, respectively.

3) Participant Accounts. Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of the Company's profit sharing contribution (if any), Plan earnings, and forfeitures of terminated participants' nonvested balances. Each participant's account is charged with an allocation of administrative expenses and Plan losses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Any nonvested balances in an employee account are subject to forfeiture (see Note D). Forfeitures are reallocated among the remaining eligible participants using the same formula as used for the current year's employers' contributions.

A. DESCRIPTION OF PLAN (Continued)

4) Payment of Administrative Costs. Through December 31, 2015, the Company has absorbed a significant part of the administrative costs for the Plan. Included in the administrative costs are professional fees for accounting, auditing and Plan administration, contract charges and servicing fees. Contract charges are those amounts paid under the terms of the investment contract with Morgan Stanley and Company, Inc.

5) Vesting.
   a) **Profit sharing contributions**. Vesting in the Company's profit sharing contributions (if any) and matching contributions is immediate at 100%.
   b) **Participants' contributions**. Participants are immediately vested in their voluntary contributions plus actual earnings thereon.
   c) **Top heavy status**. The Plan has been determined not to be top heavy as of December 31, 2015.

6) Payment of Benefits. The participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or, if the participant's account balance is in excess of $5,000, in annual installments over a reasonable period not to exceed the participant's life expectancy. If a participant fails to make a timely election and their vested interest is between $1,000 and $5,000, the benefits will be paid as a direct rollover to an individual retirement account. However, in the case of termination of the Plan, all benefits will be paid in a lump-sum amount. At December 31, 2015 there were 104 previously terminated participants with a total balance of approximately $2,345,000.

7) Participant Loans. Participants may borrow from their Plan accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The $50,000 amount the preceding sentence is reduced by the highest outstanding loan balance in the participant's account during the previous twelve month period. Note transactions are treated as a transfer to (from) the investment accounts from (to) the participants' loan account. Note terms range from 1-5 years or longer for the purchase of a primary residence. The notes are secured by the vested balance in the participant's account and bear interest at a rate commensurate with the prime rate as printed in the Wall Street Journal at the time the loan is taken. Principal and interest are paid according to the note agreements through payroll deductions. Upon termination of service or termination of the Plan where benefits are paid in a lump-sum amount, the unpaid balance of the note is deducted from the participants vested balance prior to the issuance of the benefit check. Participants may have no more than three loans outstanding at any one time.

8) Hardship Withdrawals- As a general rule, participants are not allowed to withdraw your elective deferrals from the Plan while they are still employed until they reach the age of 59 1/2. Participants may withdraw any or all of their rollover contributions (amounts rolled over from a prior employer, and any after tax contributions at any age.

   In addition, participants may qualify for a hardship withdrawal if the funds are used for the purpose outlined below:
   - Costs directly related to the purchase of the participant's principal residence
   - Tuition and related educational expenses for the next twelve months for the participant or a family member
   - Amounts necessary to prevent your eviction from or foreclosure of the participant's principal residence

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1) Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

2) Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

3) Investment Valuation and Income Recognition. As of the Plan year ending December 31, 2015, the Plan's investments are held under an investment contract with a national brokerage firm and are valued at fair market value as computed by that firm. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note G for discussion of fair value measurements.

   Participant notes receivable held by the brokerage firm have been separately stated and adjusted to include payments made by or payroll deductions from the wages of the participant but not yet transferred (if any) to the brokerage firm.

   Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4) Payment of Benefits.
   Benefits are recorded when paid.

5) Notes Receivable from Participants
   Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

6) Date of Management Review
   In preparing the financial statements, the Plan Administrator has evaluated events and transactions for potential recognition or disclosure through August 12, 2016 the date that the financial statements were available to be issued.

C. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

D. FORFEITED ACCOUNTS

As of December 31, 2015 and 2014, there were 104 and 108 withdrawn participants, respectively, with either forfeited or vested balances. The following table presents transactions for the forfeited and vested amounts of withdrawn participants for the years ended December 31, 2015 and 2014:

E. TAX STATUS

The Internal Revenue Service has determined and informed the Contract Administrator that the Plan prototype and any subsequent amendments are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the prototype determination letter, the Plan and Contract administrators believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator does not believe that the Plan has taken any uncertain tax positions. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan is subject to audit for its tax years ending December 2013, 2014 and 2015.

F. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 to Form 5500:

Net assets available for benefits per the financial statements	$	6,543,174
Audit adjustments for Contributions Receivable		(25,213)
Deemed Distribution of Participant Loans		(41,747)
Net assets available for benefits per the Form 5500	$	6,476,214

G. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets; 2) quoted prices for identical or similar assets or liabilities in inactive markets; 3) inputs other than quoted prices that are observable for the asset or liability.

Level 2 – Inputs other than quoted prices that are observable for the asset or liability; i.e. inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Substantially all Plan assets (except participant loans and receivables from the Plan sponsor for the final payroll of 2015) are mutual funds, which are valued at the net asset value (NAV) of shares held by the Plan at year end. These mutual funds, since they are purchased and sold in active markets on a daily basis, are treated as level 1 assets (see Table below).

G. FAIR VALUE MEASUREMENTS (continued)

Assets at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Income Funds	$ 871,531	$ -	$ -	$ 871,531
Growth & Income Funds	1,061,166	-	-	1,061,166
Growth Funds	2,033,998	-	-	2,033,998
Aggressive Growth Funds	2,383,120	-	-	2,383,120
Total mutual funds	$ 6,349,815	$ -	$ -	$ 6,349,815

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
