INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Forney Industries, Inc. 401(k) Profit Sharing Plan
Fort Collins, Colorado

REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of Forney Industries, Inc. 401(k) Profit Sharing Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules of assets (held at end of year). We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedules as of December 31, 2015, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Forney Industries, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan of Forney Industries, Inc. (the "Company"), was established January 1, 1955, and subsequently was amended November 16, 2015. The Plan is available to substantially all employees of the Company. Participants may enter the Plan on the first day of the month after completing one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees are automatically enrolled in the Plan at a deferral rate equal to 6% of eligible compensation unless the employee opts out of participation or elects a different deferral percentage.

The Company administers the Plan. Fidelity Management Trust Company ("Fidelity") serves as trustee, manages Plan assets, and maintains the Plan's records. Fidelity offers Plan participants a variety of investment options through various mutual funds, a money market fund, and a common/collective trust. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions up to 90% of their annual eligible compensation, not to exceed IRS limitations, which are adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be adjusted by the Plan administrator in certain circumstances. Participants who are 50 years of age or older during the Plan year are eligible to make catch-up contributions based on IRS limitations. The Plan also permits Roth elective contributions and rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

The Company may make a discretionary matching contribution. For the year ended December 31, 2015, the Company made a discretionary matching contribution of 25% of elective deferrals up to 6% of eligible compensation for active participants. The discretionary matching contribution is funded on an annual basis. Catch-up contributions are not eligible for discretionary matching contributions. For the year ended December 31, 2015, the Company contributed $119,358 in discretionary matching contributions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

The Company may also make a discretionary profit-sharing contribution in an amount to be determined at each Plan year-end by the Company's Board of Directors. Participants must be employed by the Company for one year with 1,000 hours of service and employed on the last day of the Plan year to become eligible to receive a discretionary profit-sharing contribution. Discretionary profit-sharing contributions are allocated to participants in the ratio that each participant's eligible compensation bears to the total eligible compensation paid to all eligible participants. The Company has the right to designate all or a portion of the discretionary profit-sharing contribution for a Plan year as a qualified non-elective contribution and allocate it to non-highly compensated employees to enable the Plan to pass one or more annually required Internal Revenue Code ("IRC") non-discrimination test(s). For the year ended December 31, 2015, the Company contributed $79,214 in discretionary profit-sharing contributions.

Participants' Accounts

Each participant's account is credited or charged with the participant's deferral and catch-up contributions, rollover contributions, the Company's discretionary matching and discretionary profit-sharing contributions, investment earnings or losses, expenses, and forfeitures. The investment earnings or losses are allocated daily to each participant's account in the proportion that each participant's balance bears to the total balance of all participants' accounts in each investment. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are always 100% vested in their rollover contributions, qualified non-elective contributions, deferral contributions, and any earnings or losses thereon.

Any employer discretionary matching contributions and employer discretionary profit-sharing contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 62 or, if later, the fifth anniversary of the participant's employment commencement date up to the age of 65), retirement due to disability, or if the Plan is terminated.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits

Upon termination of service, death, disability, or attaining normal retirement age, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or installment payments. Benefits are paid in the form of a lump-sum payment if less than $5,000. Accounts less than $1,000 may be immediately distributed upon a distribution event. In the event of a distribution in which the participant's balance is greater than $1,000 and less than $5,000 and the participant has not elected a distribution, Fidelity will pay the account balance as a distribution to an individual retirement account established for the participant and maintained by Fidelity. Required minimum distributions are mandatory beginning April 1 of the year following the calendar year in which a participant reaches the age of 70 1/2.

In-service withdrawals are allowed with notice of hardship, subject to certain restrictions. Participants receiving a hardship withdrawal will be suspended from making elective deferral contributions for a period of six months beginning after receipt of the hardship withdrawal.

Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses, reduce employer contributions, or allocated to participants in the same manner as the employer's contribution. Forfeitures of $33,892 were used to offset Plan expenses during the year ended December 31, 2015. The balance of this account at December 31, 2015 and 2014 was $34,670 and $14,202, respectively.

Valuation of Investments and Income Recognition

Plan investments are comprised of mutual funds, a money market fund, and a common/collective trust. Investments are recorded at fair value or net asset value ("NAV") as reported to the Plan by Fidelity. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 3).

Mutual funds and the money market fund are reported at fair value based on quoted prices in active markets for identical assets that the Plan had the ability to access at the measurement date.

The common/collective trust invests in a variety of fully benefit-responsive investments and is reported at NAV by the fund manager as a practical expedient to estimating fair value, as the investment does not have a readily determinable fair value. Due to the nature of the investments held by this account, changes in market condition and economic environment may significantly impact the NAV and, consequently, the fair value of the account's interest in the fund. The fair value of this investment has been measured using the NAV per share of the Plan's ownership interest in the account on an equivalent measure, where it is not probable that the fund or trust will sell at a price other than NAV.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

As of December 31, 2015 and 2014, the Plan's Level 2 investments with a reported NAV had no unfunded commitments, immediate redemptions, no redemption restrictions, and a redemption notice period of one day.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan may be invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

As of December 31, 2015 and 2014, three investments accounted for 36% and 32% of total investments, respectively.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendment applies to reporting entities that elect to measure the fair value of an investment using the NAV per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practicable expedient, upon adoption of ASU No. 2015-07, the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, Part III - Measurement Date Practical Expedient.* The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks; under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt FASB issued ASU No. 2015-07 and all three parts of FASB issued ASU No. 2015-12 during the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented. The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Note 2 - Investments Certified by the Trustee

Fidelity has certified in writing to the Plan administrator that the stated amounts for investments at fair value and contract value as of December 31, 2015 and 2014 and the income earned or losses incurred on the investments for the year ended December 31, 2015, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Fidelity, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosures about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Note 3 - Fair Value Accounting (continued)

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis.

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Money market fund	$ 397,589	$ -	$ -	$ 397,589
Mutual funds	10,017,642	-	-	10,017,642
Subtotal	$ 10,415,231	$ -	$ -	10,415,231
Investments measured at NAV				349,008
Total investments, at fair value				$ 21,179,470

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Money market fund	$ 364,814	$ -	$ -	$ 364,814
Mutual funds	9,846,524	-	-	9,846,524
Subtotal	$ 10,211,338	$ -	$ -	10,211,338
Investments measured at NAV				352,233
Total investments, at fair value				$ 20,774,909

In accordance with ASC Topic 820, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amount presented in this table is intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan adopted a prototype plan document, which has obtained an opinion letter dated March 31, 2014, in which the IRS stated that the prototype plan document was in compliance with applicable requirements of the IRC. The Plan has since been amended since this date; however, the Plan administrator believes that the Plan is currently being operated in accordance with the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan. The Plan pays for direct expenses such as outside advisory and compliance.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds, a money market fund, and a common/collective trust, which are managed by Fidelity. Fidelity is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits and investment income per the accompanying financial statements to the Form 5500:

	December 31, 2015	December 31, 2014
Net assets available for benefits per the financial statements	$ 10,973,532	$ 10,955,725
Less contributions receivable recorded for financial reporting purposes	(209,293)	(392,154)
	$ 10,764,239	$ 10,563,571

The following is a reconciliation of the increase in net assets available for benefits per the financial statements for the year ended December 31, 2015 to the Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 17,807
Less 2015 contributions receivable recorded for financial reporting purposes	(209,293)
Add 2014 contributions receivable recorded for financial reporting purposes	392,154
Add 2015 adjustment from fair value to NAV for common/collective trust	3,446
Less 2014 adjustment from fair value to NAV for common/collective trust	(6,252)
Net increase in net assets available for benefits per the Form 5500	$ 197,862
