Independent Auditors' Report

The Board of Directors
BCS Financial Corporation:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of BCS Financial Corporation Tax-Favored Savings Program (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in notes 3 and 4 to the financial statements, which was certified by Fidelity Management Trust Company (Fidelity), the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from Fidelity as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

KPMG LLP is a Delaware limited liability partnership, the U.S. member firm of KPMG International Cooperative ("KPMG International"), a Swiss entity.

Other Matter

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of the Plan

The following description of the BCS Financial Corporation Tax-Favored Savings Program (the Plan) provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions.

(a) General

The Plan is sponsored by BCS Financial Corporation (the Company). The Plan is a defined-contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participation in the Plan is limited to employees of the Company on the later of the date of hire or age 21.

As of January 1, 2007, the Plan adopted a "Safe Harbor" matching contribution formula as defined by the Internal Revenue Service (IRS). Under the formula, the Company will provide a Safe Harbor matching contribution based on the amount of employee pre-tax contribution, and will make a true-up contribution at the end of the year to ensure that the total Safe Harbor matching contributions made equal dollar for dollar what participants contributed on a pre-tax basis up to the first 4.5% of compensation for the year. As part of this Safe Harbor formula, employee and employer contributions are 100% vested. As of January 1, 2007, any pre-2007 employer matching contributions are 100% vested for all active employees. This formula and other requirements allow the Plan to automatically satisfy the 401(k) nondiscrimination tests required by the IRS.

(b) Contributions

Participant contributions are made by means of regular payroll deductions. Participants may elect to make contributions from 1% to 30% of their compensation, as defined by the Plan. Participant contributions are limited to the maximum amount allowed by the Internal Revenue Code (IRC) (the Code). The maximum allowable contribution was $18,000 and $17,500 in 2015 and 2014, respectively. Participants age 50 or older can make additional catch-up contributions up to $6,000 and $5,500 in 2015 and 2014, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into the various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set a 3% of eligible compensation and their contributions invested in a designated balance fund until changes by the participant.

The Company contributes an amount equal to 100% of the participant's contribution, excluding catch-up contributions, up to the first 4.5% of eligible compensation for the year.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as an allocation of the Company's plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specified participants transactions, as defined.

As of December 31, 2015, the Plan provides participants with 51 fund options and an insurance investment contract from which participants have the option to invest their account balances in one or more of the available investments in multiples of 1%. Of the 51 fund options, 36 funds have participation. Current participation consists of the following: 29 mutual funds (12 are mutual funds of the trustee, Fidelity Management Trust Company (Fidelity) and 7 nonmutual funds, Brokeragelink, Fidelity Low Priced Stock Pool, Fidelity Diversified Institutional Pool, Fidelity Growth Company Pool, Fidelity U.S. Equity Index Class 2, and Wells Fargo Stable Value Fund, are a commingled pool of the Fidelity Group Trust for Employee Benefit Plans and TCW MetWest Total Return Bond Fund is a collective investment trust nonmutual fund.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are always fully vested in their contributions and any employer matching contributions plus actual earnings thereon.

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts. The loans are secured by the balance in the participant's account. Loan payments (principal and interest) are made by payroll deductions or directly to the Plan's trustee, who records the repayment of outstanding loans.

Loan terms cannot exceed five years except for residential loans, which cannot exceed 30 years. The loan shall not exceed the lesser of $50,000, reduced by the excess, if any, of the highest outstanding balance during the one-year period ending the day before the date on which such loan is made, over the outstanding balance of loans on the date on which such loan is made, or 50% of the sum of the participant's total vested balances at the time the loan is made.

Each employee who is a "party in interest," as defined in Section 3(14) of ERISA, is eligible to borrow from the vested portion of their account. In addition, an employee may have no more than three loans outstanding at one time.

Interest rates on participant loans are determined based on the prime rate as stated in the *Wall Street Journal* on the first business day of the month plus 1%. Interest rates on loans outstanding as of December 31, 2015 ranged from 4.25% to 10.00%, with maturity dates from January 2016 to June 2025.

Active employees are required to make loan repayments through payroll deductions. If payment is not received by the end of the calendar quarter following the first calendar quarter in which a scheduled loan repayment is not made, the loan is considered in default. When a loan is in default, the outstanding loan balance will be considered a distribution under tax laws, subject to applicable taxes and penalties, and the loan remains part of the participant's account until the participant is eligible for a complete distribution from the program. The participant must also agree to make loan repayments through payroll deductions for any subsequent loans.

Terminated employees with loans have several options. The first option is that the participant repays the outstanding balance on their loan before the grace period ends. The grace period ends on the last day of the calendar quarter following the calendar quarter in which a scheduled loan repayment is not made.

Terminated employees may also repay their loan through an electronic loan payment service. A loan is considered in default if the scheduled loan payment is not received before the end of the grace period. If the loan is considered to be in default, then the outstanding loan balance will be deducted from their account balance and will reduce any plan benefit that the participant or their beneficiary may be eligible to receive and the outstanding loan balance will be considered a distribution, subject to applicable taxes and penalties.

(f) Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or legal representatives), or otherwise terminates employment with the Company. Participants are eligible to receive the full value of his or her account if you become disabled during active (as determined by the Program Administrator) employment and then terminate employment. Distributions are made only in cash and take the form of a lump-sum cash payment, unless the retiree elects to receive payments in a series of monthly, quarterly, or annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(g) Financial Hardship Withdrawals

The Plan allows for financial hardship withdrawals subject to approval. Participants must have already taken the maximum loan amount available to them under the program and meet specific rules established by the government for financial hardship. Only one hardship loan is permitted during a 12-month period. The amount of the withdrawal is limited to the lesser of the amount necessary to meet their financial need, plus an amount needed to cover taxes or penalties that the participant reasonably expects to incur, or the amount available in the participant's account to withdraw, and the hardship withdrawal must be at least $1,000. Company matching contributions made after January 1, 2007 may not be withdrawn.

(h) Expenses

Certain general administrative expenses are paid by the Plan. All other expenses associated with the Plan are paid by the plan sponsor.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting. In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962-325, *Plan Accounting – Defined Contribution Pensions Plans: Investments – Other,* the statement of net assets available for benefits is required to state all investments at fair value,

including benefit-responsive investment contracts. The method of accounting for benefit-responsive investment contracts is discussed further in note 3.

(b) Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The fair value of the benefit-responsive investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of investments are reflected on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). Under the amendments in the ASU, investments for which fair value is measured at net asset value per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. The amendments are effective for non-public entities for fiscal years beginning after December 15, 2016 and should be applied retrospectively. The Plan did not elect to early adopt this guidance and therefore, any investment for which fair value is measured using the net asset value per share practical expedient has not been removed from the fair value hierarchy.

In July 2015, FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure fair value of fully-benefit responsive investment contracts and provide certain disclosures. Contract value is the only required valuation measure for fully benefit-responsive contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan did not elect to early adopt Parts I and II of ASU 2015-12 and therefore, the notes to the financial statements have not been restated to reflect the simplifications permitted by this guidance.

(c) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported

amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the cash basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

(f) Excess Contributions Payable

There were no amounts payable to participants for excess employee contributions in 2015. Due to a payroll vendor change in 2015, five employees were provided with excess employer match. The issue was identified during the annual true up calculation and the overage of $6,767 was removed from employee accounts and returned to the Company during May 2016.

(3) Investments

Other than the fair value of the benefit-responsive investment contract and the related adjustment from fair value to contract value for the benefit-responsive investment contract, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee of the Plan. The contract value of the benefit-responsive investment contract was certified by the Trustee. Expenses incurred associated with the sale of short-term securities are netted with realized appreciation on investment balances.

The measurement basis for the Plan's financial assets is fair value. Financial instruments measured at fair value on a recurring basis include financial assets consisting of shares of mutual funds and a benefit-responsive investment contract. At December 31, 2015 and 2014, the Plan did not have any financial instruments measured at fair value on a nonrecurring basis.

Mutual funds are registered investment companies that pool the funds of multiple investors into a portfolio comprised of stocks, bonds, short-term money market funds, and other investment instruments. The fund offers shares of the portfolio, which an investor may redeem for current value or net asset value of the fund's assets through a public market. In determining fair value, the net asset value of each fund is calculated as of the close of business of the New York Stock Exchange. When calculating a fund's net asset value, portfolio securities for which market quotations are readily available are generally valued at their market value, which typically is the last quoted sales price at the time of valuation. When there is no readily available market quotation for a security, the portfolio security is valued based on its fair value, which typically is the amount which the fund might reasonably expect to receive for the security upon a

current sale. The net asset value is based on a calculation of the value of the underlying securities less liabilities divided by the number of shares outstanding.

The fair value of the Plan's benefit-responsive investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The following investments represent 5% or more of the Plan's net assets:

	2015	2014
Fidelity Freedom K 2020 Fund	$ 2,401,456	2,559,171
Fidelity Growth Company Pool Fund	2,289,980	2,322,977
Fidelity Freedom K 2030 Fund	2,002,409	1,591,487
Fidelity U.S. Equity Index Class 2	1,989,978	2,053,182
Wells Fargo Stable Value Fund	1,038,875	1,583,493

During 2015, the Plan's investments (including gains and losses in investments bought and sold, as well as held during the year) appreciated (depreciated) in value by ($349,519) as follows:

Collective trust funds	$ 72,942
Benefit-responsive investment contract	40,104
Mutual funds	(462,565)
	$ (349,519)

(4) Fair Value Measurements

FASB ASC 820, *Fair Value Measurement*, established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan recognizes transfers between levels of the hierarchy on the date of transfer.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds – Valued at the net asset value (NAV) of shares held by the Plan at year-end.
- Money market funds – Valued at amortized cost, which approximates fair value.
- Benefit-responsive funds – Benefit-responsive contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).
- Interest-bearing cash – Valued at amortized cost, which approximates fair value.
- Interest in registered investment companies – Valued on the open market on a daily basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present (for each of the fair value hierarchy levels) the Plan's assets at fair value as of December 31, 2015 and 2014.

The Plan had no transfers into or out of Levels 1, 2, or 3 during 2015 or 2014.

The Plan did not hold any Level 3 securities as of or for the years ended December 31, 2015 and 2014. The Plan would classify financial instruments in Level 3 when there is a reliance on at least one significant unobservable input to the valuation model. In addition to these unobservable inputs, the valuation models for Level 3 financial instruments would typically also rely on a number of inputs that are readily observable either directly or indirectly.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2015 and 2014, respectively.

The Plan has a benefit-responsive investment contract with Fidelity. Fidelity maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value, with a corresponding adjustment to contract value, as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the benefit-responsive investment contract was $1,038,875 and $1,583,493 for December 31, 2015 and 2014, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the benefit-responsive investment contract was $1,044,027 and $1,605,842 at December 31, 2015 and 2014, respectively.

The difference between net assets reflecting all investments at fair value and net assets available for benefits is presented on the face of the statements of net assets available for benefits as a single amount, calculated as the sum of the amounts necessary to adjust the portion of net assets attributed to each fully benefit responsive investment contract from fair value to contract value. Fair value exceeded contract value for the Plan's benefit-responsive investment contract by $5,152 and $22,349 as of December 31, 2015 and 2014, respectively. The crediting interest rates were 1.79% and 1.64% at December 31, 2015 and 2014, respectively.

(Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Fidelity (the plan administrator) does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The benefit-responsive investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the benefit-responsive investment contract are as follows:

	2015	2014
Average yields:		
Based on actual earnings	1.83%	1.40%
Based on interest rate credited to participants	1.79%	1.64%

(5) Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are fully vested in their accounts, including employer contributions.

(7) Tax Status

The Plan has adopted a Non-Standardized Prototype Plan Document sponsored by the Company. The underlying nonstandardized prototype plan has received an opinion letter from the IRS dated January 15, 2015, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(8) Related-Party Transactions and Party in Interest Transactions

Certain of the Plan's investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan's trustee is a party in interest to the Plan as defined by ERISA and is noted in the Schedule H, Line 4i – Schedule of Assets. KPMG LLP, the auditors of the Plan's financial statements, is also a party in interest. There were no fees paid by the Plan for the investment management services for the year ended December 31, 2015.

Effective January 1, 2014, the Plan restated its Recordkeeping Agreement with Fidelity. The new agreement provides for a fixed cost model with a per-participant recordkeeping fee, offset by revenue credits.

Revenue credits are generated based on participants' investment choices and the underlying investments and whether the particular investments have revenue sharing. The Plan may generate more Recordkeeping revenue than their fixed pricing tier for a quarter. The excess amount will be deposited into a suspense account, from which the excess revenue can either be credited back to the participants or used to pay ERISA eligible expenses.

Fee credits are also generated by the use of Fidelity Actively Managed Assets. The fee credits that each Plan receives will be deposited into a suspense account at the end of each quarter and can be used to pay ERISA eligible expenses or to offset ERISA eligible expenses related to the administration of the 401(k) Plan.

The new agreement generated Recordkeeping recovery of administrative expenses of $8,667.

(9) Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits and net increase in net assets available for benefits at December 31, 2015 per the financial statements to Form 5500:

Adjustment from contract value to fair value for fully benefit-responsive investment contracts		9,443
Net increase in net assets available for benefits per Form 5500	$	31,323

(10) Subsequent Events

The Company has evaluated subsequent events through August 24, 2016, the date the accompanying financial statements were available to be issued. On January 28, 2016, the Company amended the 401k plan to reduce the number of outstanding loans from a maximum of 3 to 2 and the automatic enrollment percentage increased from 3% to 5%.

Schedule H, Line 4(l) – Has the plan failed to provide any benefit when due under the plan?

No. For administrative purposes, we do not consider delays in payment of a participant's benefit (including administrative mistakes and delayed payments) as a failure to pay a benefit when due. Further, in reliance on an IRS clarification of the intent of this question, we do not consider benefits payable to missing participants to be a failure to pay a benefit when due because of the diligence of our efforts to locate missing participants.
