INDEPENDENT AUDITORS' REPORT

Plan Administrator
International American Ceramics, Inc. 401(k) Retirement Plan
Miami, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of the International American Ceramics, Inc. 401(k) Retirement Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes of net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2010 and the schedule of delinquent participant contributions for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of plan

The following description of the International American Ceramics, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Laufen International, Inc. (the "Company") for the benefit of its full-time employees who have 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan amendment - Effective April 1, 2009, The Plan was amended eliminating all company matches and reducing the eligibility period from one year to 90 days.

Contributions - Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

Prior to April 1, 2009 the Company contributed 100% of the first 2% and 50% of the next 2% of base compensation that a participant contributed to the Plan. In addition, the Company offered a discretionary match as determined by the Company's Board of Directors. The Company made no such discretionary contributions during 2010 or 2009. Contributions are subject to certain limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various guaranteed interest accounts and pooled separate accounts as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is ratably vested and is 100% vested after five years of credited service.

If an active participant dies or becomes disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

(1) Description of plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service a participant may elect to receive either a lump sum amount equal to the value of the vested interest in his or her account or to receive periodic payments or defer payment of the benefit until any date on or before the participant reaches age 70 ½.

Under certain circumstances, the Plan permits withdrawals while participants are still employed. To qualify for such a withdrawal, the participant must face a severe financial hardship, as defined in the Plan agreement, or reach 59 ½ years of age. All or any part of an account resulting from rollover contributions may also be withdrawn at any time. The maximum withdrawal is the total of the vested value of the participant's account.

Forfeited accounts - At December 31, 2010 and 2009, forfeited nonvested accounts totaled $41,110 and $28,357, respectively. These accounts will be used to pay plan expenses or reduce future employer contributions. Also, for the years ended December 31, 2010 and 2009, employer contributions were not reduced by the forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, when applicable. The statements of changes in net assets available for benefits are prepared on a fair value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(2) Summary of significant accounting policies (continued)

New accounting pronouncements - The following new accounting pronouncements were adopted during year ended December 31, 2010:

Fair Value Disclosures - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of Plan were not affected by the adoption of the new guidance.

Notes Receivable from Participants - In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. Participant loans are required to be classified as notes receivable from participants (rather than investments) and measured at their unpaid principal balance, plus any accrued but unpaid interest. The guidance, which must be applied retrospectively, is effective for fiscal years ending after December 15, 2010 with early adoption permitted. The Plan adopted this guidance in its December 31, 2010 financial statements and has reclassified participant loans at December 31, 2009 from investments to notes receivable from participants. Additionally, interest income on notes receivable from participants has been reclassified to be separately reported from interest income for the year ended December 31, 2009. Net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(2) Summary of significant accounting policies (continued)

Unit Values - Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2010	2009
Principal Life Insurance Company		
Guaranteed Interest Account		
maturing Dec. 31, 2010	$ 232,318	$ 255,860
Pooled Separate Accounts:

Diversified Int'l Separate Account	259,267	286,791
MidCap Value I Separate Account	161,744	N/A

During 2010 and 2009, the Plan's investments (including gains on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Years Ended December 31,	
	2010	2009
Pooled separate accounts	$ 303,711	$ 344,311
Guaranteed interest accounts	(2,496)	-
	$ 301,215	$ 344,311

(4) Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company ("Principal"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule of assets (held at end of year) are complete and accurate:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

(5) Fair value measurements

FASB ASC 820*, Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(5) Fair value measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at estimated fair value as determined by the issuer of the pooled separate account based on fair market value of the underlying investments.

Guaranteed interest accounts: Valued at fair value by discounting the contract value by contractually determined contract termination changes. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest accounts are not considered benefit-responsive and are valued at estimated fair value as determined by Principal. The crediting interest rates at December 31, 2010 ranged from 0.015% to 3.65% with maturities ranging from December 31, 2010 through December 31, 2014. At December 31, 2009, crediting interest rates ranged from 1.8% to 3.7% with maturities that ranged from December 31, 2009 through December 31, 2013. The crediting interest rates are based on rates specified by the issuer and are reviewed on an annual basis for resetting.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

Balance, end of year	$ 57,163	$ 474,727	$ 531,890

(6) Related party transactions

Certain plan investments are in pooled separate accounts and guaranteed interest accounts managed by Principal. Principal is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management and recordkeeping services amounted to $2,151 and $1,877 for the years ended December 31, 2010 and 2009, respectively.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(8) Tax status

The Internal Revenue Service has determined that the prototype 401(k) profit sharing plan adopted by the Company is designed in accordance with the applicable sections of the Internal Revenue Code (the "IRC") and informed the custodian of such in an opinion letter dated July 22, 2003. Although the Plan has been amended since receiving the letter, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Services. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

Due to the state of the real estate market, Principal took action to protect participants' interest in the Principal U.S. Property Separate Account (U.S. Property). Effective, September 26, 2008, Principal implemented a pre-existing contractual limitation in the group annuity contract to delay payment of most requests for withdrawal from the Separate Account. This allows Principal to manage the Separate Account and satisfy withdrawal requests over time and fairly among all those who request a withdrawal.

(9) Risks and uncertainties (continued)

The withdrawal requests are honored proportionately as sufficient cash becomes available for distribution, in accordance with the terms of the group annuity contract. Death, disability and qualified retirement benefits and hardship withdrawals are not affected by this limitation and will be processed as usual. Transfers and contributions into this Separate Account are also being accepted as usual.

Participants are able to view their pending U.S. Property transactions via the participant website, as well as cancel pending investment transfer or rebalance requests from the U.S. Property. A list of all pending activity related to the U.S. Property for a specific retirement plan can be obtained from the plan's Client Service Associate/Manager upon request. As of October 21, 2010, all pending requests for withdrawals effective prior to that date have been fully satisfied. However, the limitation for withdrawal still remains for future requests.

This limitation applies only to U.S. Property and does not apply to other retirement plan separate accounts.

(10) Nonexempt transactions and subsequent events

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions of $9,752 were not remitted within the required time period for the year ended December 31, 2007. The Company contributed the lost earnings to the Plan for the late contributions from 2007 in February 2011.

(11) Reconciliation of financial statements to Schedule H of Form 5500

The difference between the information reported in the financial statements and the information reported in the Form 5500 arise primarily from classification of notes receivable from participants and the related earnings.

(12) Subsequent events

The Plan has evaluated subsequent events through September 7, 2011, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation other than that described in Note 10.
