NOTE A – DESCRIPTION OF PLAN

The following description of the BSN Medical, Inc. Cash Balance Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan that covers substantially all employees of BSN Medical, Inc. and participating affiliates (the "Company"), who have completed at least one year and 1,000 hours of service prior to December 31, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Status

As described in Note F, the Company decided to terminate the Plan effective December 31, 2007. Final distribution will be determined based on all participants being 100% vested in all contributions. In accordance with accounting principles generally accepted in the United States of America, the Plan's financial statements are presented on the liquidation basis of accounting.

Employer's Allocation

Prior to Plan termination, for each calendar quarter during a plan year, the Company made an employer allocation to the Plan in an amount based upon each active employee's age, compensation, and years of service as of the last day of the calendar quarter. For the Plan years ending December 31, 2009 and 2008, interest was credited based on the greater of (i) the applicable interest rate under Section 417(e)(3) of the Internal Revenue Code ("IRC") determined in the month before the beginning of each subsequent plan year and (ii) three percent (3%).

Pension Benefits

Prior to Plan termination, eligible employees were entitled to a monthly pension benefit beginning at the normal retirement age (65) in the form of an actuarial equivalent straight life annuity based on the employee's estimated life expectancy and balance of the employee's account, unless an optional payment method is elected as otherwise provided for in the Plan.

As a result of Plan termination, participants will receive account distributions in the form of a rollover to the BSN Medical, Inc. Savings and Investment Plan, rollover to an Individual Retirement Account ("IRA"), or a lump sum payment.

NOTE A – DESCRIPTION OF PLAN (Continued)

Forfeitures

Prior to Plan termination, the nonvested portion of an employee's account was deemed to be a forfeiture upon the last valuation date of the Plan year in which occurs the earlier of (a) the distribution to the employee of such employee's vested accrued benefit or the deemed distribution of such nonvested employee's accrued benefit, or (b) the date the employee incurs five consecutive breaks in service. Forfeitures were applied to reduce employer contributions.

Vesting

Effective December 31, 2007 all participants became 100% vested in all contributions made into the Plan.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The 2009 and 2008 financial statements of the Plan are prepared under the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at their fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Employer Contributions

Contributions are made in amounts as deemed necessary by the plan administrator, subject to minimum amounts required to meet ERISA funding standards. The Company did not make any contributions during the Plan years ended December 31, 2009 and 2008.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan. Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the actuarial equivalent of the balance of the participant's account as of the end of the month before the participant's termination of service. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included in accumulated benefits, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial value of accumulated plan benefits is determined by the Plan's actuary.

As discussed in Note F, the Company elected to terminate the Plan effective December 31, 2007. For the years ended December 31, 2009 and 2008, an actuarial valuation of the present value of accumulated plan benefits was deemed not necessary by the Plan's actuary. As of December 31, 2009 and 2008, the accumulated plan benefits are $17,969,366 and $19,430,328, respectively. A final contribution will be made by the Company to the Plan prior to distribution of Plan assets.

Payment of Benefits

Benefit payments are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan agreement. Certain administrative functions are performed by employees of the Company. No employee receives compensation from the Plan.

NOTE C – INVESTMENTS

The following information presents investments that represent five percent or more of the Plan's net assets:

	2009	2008
Evergreen Money Market Fund CL I	$ 14,528,143	$ 16,840,144

NOTE D – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") issued a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liabilities has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Money Market Funds

These investments are public investment vehicles valued using $1 for the Net Asset Value. The money market funds are classified within level 2 of the valuation hierarchy. As of December 31, 2009 and 2008, $14,528,143 and $16,840,144 was invested in money market funds, respectively.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – UNAUDITED INFORMATION CERTIFIED BY TRUSTEE

The accompanying financial statements and supplemental schedule include the following unaudited information as of December 31, 2009 and 2008 and for the years then ended that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	2009	2008
Investments and cash	$ 14,528,417	$ 16,865,719
Interest income	$ 61,540	$ 535,946

NOTE F – PLAN TERMINATION

The Plan was terminated effective December 31, 2007 by consent of the Board of Directors of the Company. The Plan was amended to provide for such termination and to be liquidated in accordance with the terms and conditions of the Plan and any rules and regulations promulgated by the Pension Benefit Guaranty Corporation ("PBGC") and the Internal Revenue Service ("IRS"). The standard termination notice was filed with the PBGC and signed by the Plan Administrator on June 27, 2008. Plan assets have not been distributed as of June 30, 2010.

NOTE G – TAX STATUS

The Internal Revenue Service has ruled in a determination letter dated January 9, 2004, that the Plan qualifies under Section 401(b) of the IRC and is, therefore, not subject to tax under present income tax laws. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

NOTE H – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Wachovia Bank, N.A. Wachovia Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in a money market fund. The money market fund is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the money market fund, it is a least reasonably possible that changes in the values of the money market fund will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE J – SUBSEQUENT EVENTS

The Company has evaluated the effects subsequent events would have on the financial statements through June 30, 2010, which is the date the financial statements were available to be issued.
