We were engaged to audit the accompanying statements of net assets available for benefits of Consolidated Restaurant Operations, Inc. Savings Plan (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental schedule, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by John Hancock Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information provided to the Plan Administration by the custodian as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Updated 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans,* as of December 31, 2010, which clarified how loans to participants should be classified and measure by defined contribution pension plans. This update was retrospectively applied to December 31, 2009.

Note 1. Description of the Plan

The following description of the Consolidated Restaurant Operations, Inc. Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan whereby eligible employees of Consolidated Restaurant Operations, Inc. (the Company) are permitted to make contributions that are tax deferred under Section 401(k) of the Internal Revenue Code (the Code). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

On April 27, 2010, the Plan was restated, effective January 1, 2002, to reflect all Plan amendments since inception.

Eligibility

Employees of the Company become eligible for participation at the age of twenty-one and upon completing one year of service as defined by the Plan. Eligible employees may enter the Plan on the first day of the quarter coinciding with or next following the date on which eligibility requirements are met.

Vesting

Employees who became eligible to participate in the Plan on or prior to September 1, 2000, are 100% vested in all existing and future employer contribution accounts. Employees who became eligible to participate in the Plan after September 1, 2000, are immediately 100% vested in their employee contributions and vest in Employer contribution accounts based on the following schedule:

Years of Service	Vesting Percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

Contributions

Each year, participants may elect to contribute up to 100% of pretax compensation subject to certain maximum limitations imposed by the Code ($16,500 for 2010). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Code ($5,500 for 2010). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Employer matching contributions (Employer Match) to the Plan are discretionary. To be eligible to receive the Employer Match, a participant must be actively employed on the last day of the Plan year. No Employer Match was made during 2010. The Employer also has the option of contributing additional amounts at its discretion. There were no additional discretionary Employer contributions for the year ended December 31, 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching and discretionary contributions, and an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Company. Participants may change their investment options any time throughout the year via internet or direct phone access to John Hancock Life Insurance Company (John Hancock). The Plan currently offers three guaranteed interest accounts and one hundred thirty-three options in pooled separate accounts as investment options for participants.

Forfeitures

Forfeitures by terminated employees of nonvested Employer matching and discretionary contributions are retained by the Plan and are used to pay Plan expenses. There were no forfeitures in 2010 and 2009.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or designated beneficiary may elect to receive a lump-sum payment equal to the value of his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows participants to make hardship withdrawals, subject to certain limitations, as defined. Participants are entitled to the value of the vested portion of their accounts.

Notes Receivable from Participants

Loans are available to all participants at an interest rate comparable to rates offered by commercial lending institutions, with periodic repayment through payroll deductions over a period not generally extending beyond five years unless the loan is used to purchase a principal residence. Participants may borrow from their participant accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50% of their vested account balance. Only one loan may be outstanding at a time. The loans are secured by the balance in the participants' account and currently bear interest rates ranging from 4.25% to 9.25%.

Reclassification

Certain reclassifications have been made to the prior year statement of net assets available for benefits to conform to current year presentation. These reclassifications had no effect on the ending net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments in insurance company pooled separate accounts are reported at the value reported to the Plan by the insurance company, which represents approximate fair value. Investments in non-benefit responsive guaranteed interest accounts are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has guaranteed interest accounts with John Hancock. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Withdrawals are not permitted at any time without a penalty and the contract therefore has been determined to be non-benefit-responsive. In addition, programmed, frequent or large exchanges, including, but not limited to, speculation and arbitrage opportunities may be disruptive to the investment options and will cause John Hancock to reject or restrict any inter-account transfers. All withdrawals from the guaranteed account are made on a last-in, first-out basis and are made at either book value, the lesser of book or market value, or market value depending upon the withdrawal type as outlined in the contract. Book value equals the sum of all contributions made to the participant account plus interest owed less all asset charges, fees and any previous withdrawals. The market value is determined by a formula as determined by John Hancock, which uses the composite rate for the distinct account, the present new money interest rate, the number of months remaining until maturity, and the withdrawal type. The contract is therefore included in the financial statements at fair value as reported to the Plan by John Hancock.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment is not materially different from its fair value. The contract and average yield rates were between 0.30% and 1.25% during 2010 (between 0.15% and 1.40% during 2009).

Notes Receivable from Participants

Notes receivable from participants are carried at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon to terms of the plan document.

Payment of Benefits

Benefit payments are recorded when paid.

Income Taxes

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Subsequent Events

The Plan Administrator has evaluated subsequent events through September 28, 2011, the date on which the financial statements were available to be issued.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This amendment requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010. The Plan does not expect the adoption of the guidance related to Level 3 measurements to have a material effect on the Plan's financial statements. With respect to matters other than Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2009, and the adoption of these provisions of ASU 2010-06 did not have a material impact on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting — Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $629,488 and $610,662 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, Fair Value Measurements and Disclosures, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (John Hancock)

The following is a summary of the asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by John Hancock, the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from John Hancock that information provided to the Plan Administrator by John Hancock related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and the supplemental schedule related to the following assets:

	2010	2009
Cash	**$ 2,198**	$ 2,448
Investments, at fair value:		
Pooled separate accounts	**9,243,013**	8,001,560
Guaranteed investment contracts	**199,600**	201,117
Notes receivable from participants	**629,488**	610,662
	$ 10,074,299	$ 8,815,787

John Hancock also certified to the completeness and accuracy of $1,153,245 of net appreciation in fair value of the pooled separate accounts, $4,346 of interest on the guaranteed investments, and $31,720 of interest on participant loans for the year ended December 31, 2010.

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a valuation hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Guaranteed Investment Accounts

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Accordingly, the fair value of these assets is established using Level 2 inputs.

Pooled Separate Accounts

Pooled separate accounts invest in mutual funds and are valued at the net asset value (NAV) of the pool of investments owned by the mutual funds held by the Plan at year end. Accordingly, the fair value of these assets is established using Level 2 inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009. The following table presents separately those assets that represent 5% or more of the Plan's net assets:

* Represents 5% or more of the Plan's net assets.

Note 5. Administration Expenses

Certain administrative functions are performed by officers or employees of the Company. However, such officers and employees receive no compensation from the Plan. Administrative expenses are paid by the Plan.

Note 6. Income Tax Status

The Plan operates under a Prototype Plan, which obtained its latest determination letter on March 31, 2008. The Internal Revenue Service stated that, as then designed, the Plan was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Note 7. Party-In-Interest Transactions

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, employees and certain others. As such, transactions conducted by or with John Hancock, the Plan's custodian, the Plan's third party record keeper, and the Employer, qualify as party-in-interest transactions.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

Note 9. Plan Termination

While it has expressed no intention to do so, the Company has the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their entire account and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:
