401(k) AND PROFIT SHARING PLAN**

**NOTES TO THE FINANCIAL STATEMENTS**

**Year Ended December 31, 2009**

**NOTE 1 - DESCRIPTION OF THE PLAN:**

The following description of the Berlin Packaging L.L.C. 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan established effective January 6, 1988, and most recently amended July 1, 2002. Employees of Berlin Packaging L.L.C. and Berlin Enterprises Inc. (collectively the "Company") become eligible to make elective deferrals immediately. Participants become eligible to receive employer matching contributions upon completing six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute an amount equal to not less than 1 percent nor more than 100 percent of their compensation for the contribution period. Through March 20, 2009, the Company made a matching contribution for each participant for each plan year, in an amount equal to  $66\frac{2}{3}$  percent of each month's elective deferrals on up to 6 percent of earnings (for a maximum 4 percent matching payment). From March 21, 2009 to the end of the year, the Company matched  $33\frac{1}{3}$  percent of each month's elective deferrals, on up to the same 6 percent of earnings. The Company may also make a discretionary profit-sharing contribution. Employee rollover contributions are also accepted.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The balance of vesting in the participants' accounts is based on years of service. A participant becomes 25 percent vested after two years of service, 50 percent vested after three years of service, 75 percent vested after four years of service and 100 percent vested after five years of service. However, if an active participant dies prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

**NOTES TO THE FINANCIAL STATEMENTS (CONT'D)**

**Year Ended December 31, 2009**

**NOTE 1 - DESCRIPTION OF THE PLAN (CONT'D):**

Forfeitures

Forfeitures of terminating participants will be used to reduce the Company's subsequent contributions to the Plan. At December 31, 2009 and December 31, 2008, forfeited non-vested accounts totaled \$26,853 and \$22,236 respectively.

Investment Options

Upon enrollment in the Plan, a participant may currently direct contributions among twenty different investment options offered by FMTC. Those investment options fall within four different fund categories as follows:

Income Funds

Invest primarily in debt securities, which seek income and capital appreciation, and money market instruments, which seek income and preservation of capital.

Asset Allocation Funds

Invest across various asset classes, including stocks, bonds, and short-term instruments. These funds seek to maximize returns and minimize risk.

Domestic Equity Funds

Invest primarily in common stocks and seek capital appreciation. They provide potentially greater return but also tend to carry higher risk than income funds.

International Equity Funds

Invest primarily in stocks outside of the U.S. and seek capital appreciation. Foreign investments incur greater risk than U.S. investments, including political and economic risks and the risk of currency fluctuation, all of which are magnified in emerging markets.

Participants may change their investment options at any time.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, a distribution in the form of an annuity, or a combination of both. All distributions are subject to the applicable provisions of the Plan agreement.

**NOTE 1 – DESCRIPTION OF THE PLAN (CONT'D):**

Participant Notes Receivable

Under the terms of the Plan, participants may borrow from their accounts up to the lesser of \$50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to/from the investment fund from/to the Participant Notes Receivable Fund. A loan is secured by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans, as defined.

**NOTE 2 – SUMMARY OF ACCOUNTING POLICIES:**

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Participant notes receivable are valued at cost which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Contributions

Employee contributions, including rollover contributions, are recorded in the period during which the Company makes payroll deductions from the participants' earnings. Matching Company contributions are recorded in the same period. Company nonelective contributions, if any, are made annually.

**NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONT'D):**

Benefits

Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

Date of Management's Review

Subsequent events were evaluated through July 8, 2010, which is the date the financial statements were available to be issued.

**NOTE 5 – PLAN TERMINATION:**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

**NOTE 6 – INCOME TAXES:**

The Internal Revenue Service has determined and informed the Company by a letter dated April 3, 1995, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan's administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

**NOTE 7 – RISKS AND UNCERTAINTIES:**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:**

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

Net Assets available for benefits per the financial statement	\$18,371,153

**NOTES TO THE FINANCIAL STATEMENTS (CONT'D)**

**Year Ended December 31, 2009**

**NOTE 9 – FAIR VALUE MEASUREMENTS:**

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were used only when Level 1 inputs were not available.

Level 1 Fair Value Measurements

The fair values of common stock, certain corporate bonds, and U.S. government securities are based on quoted market prices from active markets.

Level 2 Fair Value Measurements

The fair values of certain corporate bonds for which quoted market prices are not available are based on yields currently available on comparable securities of issuers with similar credit ratings.
