401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
February 28, 2016 and 2015

NOTE 1- DESCRIPTION OF PLAN

The following description of the Wholesale Electric Supply Company, Inc. ("Company") 401 (k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. ***General*** – The Plan is a defined contribution plan covering eligible employees of the Company. Established March 1, 2012 to provide deferred tax benefits and savings to participants, it is subject to the Employee Retirement Income Security Act of 1974 (ERISA). Employees began making contributions to the Plan on June 1, 2012.

B. ***Prototype Plan*** – The governing Plan document is a non-standardized prototype plan in which the Plan sponsor has chosen certain features of the Plan from a limited set of options. The dual eligibility option was customized for the Plan to allow all employees of the Company at March 1, 2012 the opportunity to participate in the Plan without the service eligibility requirement.

C. ***Eligibility*** – Under the Plan, employees who have reached age 21 are eligible to participate in the Plan on the next plan entry date. The entry dates are the first day of Plan year and the first day of the seventh month in the Plan year.

D. ***Contributions*** – Each year eligible participants may contribute up to the maximum dollar set by the Internal Revenue Service each year. The maximum dollar amount was $18,000 and $17,500 in calendar years 2015 and 2014, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The maximum dollar amount for catch-up contributions was $6,000 and $5,500 in calendar years 2015 and 2014, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan allows for matching Company contributions as employer contributions. In 2016 and 2015, the Company did not make any matching Company contributions. In addition, for the Plan year, the Company may, at its discretion, contribute out of its current accumulated earnings and profits, an additional amount. In 2016 and 2015, the Company did not make a discretionary contribution.

E. ***Participant Accounts*** - Each participant's account is credited with the participant's contribution, and allocations of Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on account balances or charged equally to each participant. In addition, some types of expenses may be charged to only some participants based upon their use of a Plan feature or receipt of a distribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

F. ***Vesting*** - Participants are immediately vested in contributions they make to the Plan plus earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts is based on years of continuous service to the Company. Participants generally shall have a non-forfeitable right in earnings when they become vested 100% in their account balance.

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, the participant will vest in the employer contributions in the following manner.

Less than 2 years of Service	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

G. ***Participant Loans*** - The Plan does not allow for loans to participants from their accounts.

H. ***Payment of Benefits*** – On termination of service due to normal retirement age, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. For termination of service due to death, disability or other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Terminated participants with account balances that do not exceed $5,000 receive a distribution of the vested portion of their account balance as soon as administratively feasible following termination of employment. Terminated participants with account balances exceeding $5,000 may elect to postpone distributions.

I. ***Forfeited Accounts*** – At February 28, 2016, there were no forfeited nonvested accounts. In the event that participants forfeit their nonvested account balances, the forfeitures will be used to reduce any employer matching contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. ***Estimates*** – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

B. ***Basis of Accounting*** – The financial statements of the Plan are prepared on the accrual basis of accounting and present the net assets available for benefits and the changes in the net assets available for benefits.

C. ***Valuation of Investments*** – Investments are reported at fair value. Fair value is the price that would be received to sell and asset or paid to transfer in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities underlying the pooled separate accounts are recorded on a trade-date basis. Income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions and earnings on those contributions. The Plan distributed the 2015 excess contributions to the applicable participants in May 2016. The Plan distributed the 2014 excess contributions to the applicable participants in December 2015.

E. Payment of Benefits – Benefits are recorded when paid.

F. Operating Expenses – Some of the expenses of maintaining the Plan are paid by the Company.

NOTE 3 – FAIR VALUE MEASURMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature provides a fair value hierarchy that prioritizes the inputs in valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; Level 3 inputs are unobservable and have the lowest priority. The Plan uses the appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 or Level 3 inputs were available to the Plan.

Level 2 Fair Value Measurements

The pooled separate accounts are valued at the net asset value ("NAV") of units of pooled accounts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the report NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate full redemption of the pooled separate accounts, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of February 28, 2016 and 2015:

NOTE 13 – SUBSEQUENT PRONOUNCEMENTS

The Financial Accounting Standards Board recently issued the following statements which will be applicable to the Company for future reporting periods. The statements which might impact the Company are as follows:

Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)* issued in May 2015, will be effective for the Plan for the year ending February 28, 2018. Under the amendments in this Update, investments for which fair value is measured at net asset value per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at net asset value per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy.

Update No. 2015-10, *Technical Corrections ad Improvements* issued in June 2015, will be effective for the Plan for the year ending February 28, 2017. The amendments in this Update represent changes to clarify the Codification, correct unintended application of the guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. Additionally, some of the amendments will make the

Codification easier to understand and easier to apply by eliminating inconsistencies, providing needed clarifications, and improving the presentation of guidance in the Codification.

Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – Part II: Plan Investment Disclosures* issued in July 2015, will be effective for the Plan for the year ending February 28, 2017. GAAP requires plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. The amendments in this Update will eliminate those requirements for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period still will be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type.

Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – Part III: Measurement Date Practical Expedient* issued in July 2015, will be effective for the Plan for the year ending February 28, 2017. The amendments in this Update provide a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with a month-end. If a plan applies the practical expedient and a contribution, distribution, and/or significant event occurs between the alternative measurement date and the plan's fiscal year-end, the plan should disclose the amount of the contribution, distribution, and/or significant event. The plan should also disclose the accounting policy election and the date used to measure investments and investment-related accounts.

NOTE 14 – SUBSEQUENT EVENT

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through December 7, 2016, the date the financial statements were available for issue.

The Plan was amended and restated effective March 1, 2016 to bring the Plan into compliance with the Pension Protection Act of 2006 and other legislative and regulatory changes.
