Plan Administrator and Participants
Texstars, Inc. 401(k) Savings Plan

We were engaged to audit the financial statements and supplemental schedule of the Texstars, Inc. 401(k) Savings Plan (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the financial information certified by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian of the Plan, except for comparing that information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Texstars, Inc. 401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Texstars, Inc. 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established by Texstars, Inc. (the “Company”) under the provision of Section 401(a) of the Internal Revenue Code (“IRC”), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company.

All employees of the Company are eligible to participate on the first day of employment, provided they are at least 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan is administered by a group of trustees appointed by the Board of Directors of the Company. The duties of the trustees are to oversee the operations of the Plan and to provide for prudent investment of Plan assets. Accordingly, the trustees have been granted discretionary authority concerning investment and management activities. Plan investments held with Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (the “Custodian”) are invested in a combination of pooled separate accounts, participant loans and common/collective trusts. The Custodian is responsible for the custody and management of the Plan’s assets.

Management has evaluated subsequent events through July 26, 2010, the date the financial statements were available to be issued.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation as defined in the Plan, subject to the dollar limitation under §402(g) of the IRC. The Plan provides for an automatic election to have pre-tax elective deferral contributions made. The automatic election applies when a participant first becomes eligible to make elective deferral contributions. Unless the participant elects otherwise, they are deemed to have elected to make an automatic pre-tax contribution of 3% to the Plan. Effective January 1, 2008, the Plan was amended to allow participants to designate all or a portion of their elective deferral contributions as Roth elective deferred contributions instead of pre-tax elective deferral contributions. Such designation must be made before the deferral is made and cannot be changed except for future contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

For salaried employees, the Company makes a matching contribution equal to one hundred percent (100%) of the participant’s elective deferral contributions. Elective deferrals over six percent (6%) are not matched. For union employees, the Company makes a matching contribution equal to twenty-five percent (25%) of the participant’s elective deferral contributions. Elective deferrals over two percent (2%) are not matched. The Company may make additional contributions to the Plan each year at the sole discretion of the Company, within the limits of Internal Revenue Service Regulations.

Participant Accounts

Individual accounts are maintained for each of the Plan’s participants to reflect the participant’s contributions and related employer matching and other contributions, as well as the participant’s share of investment income, appreciation (depreciation) and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of vesting service, as defined in the Plan. A participant is 100 percent vested after three years of credited service. Full and immediate vesting will also occur upon normal retirement age (age 65), death, or totally disabled, as defined in the Plan. Participants who leave the Company before they are vested in the Company’s contributions forfeit their nonvested portion.

Texstars, Inc. 401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment alternatives maintained by the Custodian, determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Participant Loans

Participants may borrow from their accounts the lesser of \$50,000 or 50% of their vested account balance, but not less than \$1,000. All loans are secured by the balance of the participant's account and bear interest at a fixed rate commensurate with local prevailing rates. Interest rates range from 4.25 percent to 9.25 percent at December 31, 2009 and 2008. Any loan must be repaid within five years, unless such loan is for the purchase of a participant's primary residence in which case the repayment period may not exceed fifteen years. Principal and interest are paid ratably through payroll deductions at a frequency determined when the loan is made, but no less frequently than quarterly. If any amount remains unpaid more than ninety days the loan is in default. Upon default the entire principal balance and interest is immediately due and payable. The amount of the outstanding loan in default will be treated as a deemed distribution and will be taxable to the participant.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive: (a) a lump-sum distribution equal to the participant's vested account balance, (b) a series of substantially equal payments over a fixed period of whole years, or (c) a specified dollar amount each year. In addition, in-service and hardship distributions are permitted if certain criteria are met. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2009 and 2008, unallocated forfeitures were \$9,154 and \$79, respectively. These accounts will be used to pay Plan expenses or reduce future employer contributions. For the years ended December 31, 2009 and 2008, employer contributions were reduced by \$7,369 and \$23,736, respectively, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Method of Accounting

The accounting records of the Plan are maintained on the accrual basis. Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles ("ASC"). The purpose of the ASC is to provide a single source of authoritative generally accepted accounting principles. As the ASC was not intended to alter existing accounting principles, the adoption did not have a material impact on the Plan.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements (Continued)

In April 2009, the FASB issued an update to the guidance under the ASC, Fair Value Measurements and Disclosures Topic for determining fair value when the volume and level of activity for an asset or liability has significantly decreased and identifying circumstances that indicate a transaction is not orderly. The adoption did not have a material impact on the Plan.

In May 2009, the FASB issued the Subsequent Events Topic of the ASC to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, the Subsequent Events Topic sets forth: (i) the period after the balance sheet date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (ii) the circumstances under which an entity shall recognize events or transactions occurring after the balance sheet date in its financial statements; and (iii) the disclosures that an entity shall make about events or transactions that occurred after the balance sheet date. The adoption did not have a material impact on the Plan.

In September 2009, the FASB issued guidance that expands the required disclosures for certain investments with a reported net asset value. This guidance provides a practical expedient for measuring the fair values of Plan investments in a limited number of entities that calculate a net asset value per share (such as hedge funds, private equity funds, real estate funds, venture capital funds, funds of funds, and certain collective trusts, and pooled separate accounts). The adoption of the guidance had no material impact on the Plan.

Investment Valuation and Income Recognition

Investments are stated at fair value. Changes in market value are reflected in operations. Pooled separate accounts and common/collective trust funds are valued at the net asset value of units held by the Plan at year end. The net asset value is based on the market value of the underlying investments. Participant loans are valued at their outstanding principal balances, which approximates fair value. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) of investments, including realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year-end, is presented in the statement of changes in net assets available for benefits.

The objective of the Principal Stable Value Fund ("Stable Value Fund") is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay plan benefits and high credit quality. The Stable Value Fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks, and other financial institutions. For liquidity purposes, the Fund may have all or a portion of its assets invested in high-quality money market instruments, investment companies and collective investment trusts that meet the investment objectives. The Stable Value Fund provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

The Stable Value Fund is considered to be fully benefit-responsive. In determining the net assets available for benefits, the Stable Value Fund is included in the accompanying financial statement at contract value, which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common / collective trust. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS

3. INVESTMENT CONTRACT WITH INSURANCE COMPANY

Pooled Separate Accounts

The Plan has entered into an investment contract with Principal Life Insurance Company ("Principal"). Principal maintains certain investments in a pooled separate account. Assets of this contract are invested in a shares of the specific funds elected in the contract application. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Principal.

4. RELATED PARTIES

Certain Plan investments are units of pooled separate accounts managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian and record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. Fees paid by the Plan to the Custodian for recordkeeping services totaled \$14,548 and \$13,155 for the years ended December 31, 2009 and 2008, respectively.

5. INVESTMENTS

The following investments represent 5% or more of the Plan's net assets available for benefits.

	2009	2008
Principal LargeCap S&P 500 Index (a)	\$ 622,685	\$ 651,905
Principal LargeCap Value (a)	544,575	398,518
Principal MidCap S&P Index (a)	660,206	473,513
Principal SmallCap S&P 600 Index (a)	488,125	423,468

Principal LifeTime 2020 (a)	342,284	-
Principal Stable Value Fund (a) (b)	879,859	786,873

The net appreciation (depreciation) in the fair value of Plan investments of \$1,011,368 and \$(2,087,079) for the years ended December 31, 2009 and 2008, respectively, is attributable to the investment in pooled separate accounts and common/collective trusts.

(a) - Party-in-interest

(b) - The schedule reflects the fair value. The contract value of the investments at December 31, 2009 and 2008 were \$873,954 and \$825,409, respectively.

6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan Administrator has elected the method of annual reporting compliance permitted by Section 2520.103-8 of the United States Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

	December 31, 2009	2008
Investments:		
Pooled separate accounts	\$ 5,302,053	\$ 3,871,448

Total investment income (loss)	<u>\$ 1,027,172</u>	<u>\$ (2,076,487)</u>

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. REPORTABLE TRANSACTIONS

During the years ended December 31, 2009 and 2008, there were no reportable transactions, no investments both acquired and disposed of within the Plan year, no loans or leases in default or uncollectible or non-exempt transactions with parties-in-interest which would require presentation under the United States Department of Labor's Rules and Regulations.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the IRC. In the event of Plan termination, Participants will become 100% vested in their accounts.

9. TAX STATUS

The Company has adopted the Chicago Trust Company Prototype Profit Sharing Plan. The Internal Revenue Service has issued an opinion letter dated August 30, 2001 stating that the plan is acceptable under Section 401(a) of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

11. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value ("NAV") of units held by the Plan at year end. The NAV of these accounts is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. The NAV is not a publicly-quoted price in an active market. The fair values of certain pooled separate accounts operating under withdrawal restrictions are classified within level 3 of the valuation hierarchy as participants may not be able take distributions equal to the NAV of the fund.

Common/collective trusts- Stable Value Fund: Valued at the NAV of units held by the Plan at year end. The fair value of units in the fund are based on the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interest in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The fund provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
