Midwest Transit Equipment, Inc.
Profit Sharing 401(k) Plan
Notes to Financial Statements
April 30, 2016 and 2015

Note 1 - Description of Plan

Midwest Transit Equipment, Inc., a corporation, formed the above named plan on June 1, 1991. The plan was amended on May 1, 2014 and received a favorable determination letter dated September 28, 2015. Since then the Plan has been amended as required by the Internal Revenue Code.

All employees who have one year of service, greater than 1000 hours of employment in the year and are at least 19 years of age are eligible for the Plan.

Employees may make elective deferrals after three months of service up to the amount allowed by the Internal Revenue Code. They are eligible for the profit sharing portion of the Plan after one year of service. The Company may contribute to the plan up to the maximum amount allowed as deductible in accordance with the Internal Revenue Code and regulations. The Company's contribution and any available forfeiture are allocated to all participants who are employed on the last day of the plan year in proportion to the participant's eligible compensation to total eligible compensation. All investment accounts are directed by the participants.

Vesting is as follows:

Year 1	0%
Year 2	20%
Year 3	40%
Year 4	60%
Year 5	80%
Year 6	100%

Employees who are terminated before being fully vested forfeit the non-vested portion of the account. Forfeitures are maintained in an unallocated account at the investment company. When the employee has a five year break in service, the forfeited amount is either used to reduce the Company's contribution or allocated to the remaining participants. As of April 30, 2016 and 2015, unallocated forfeitures totaled $53,958 and $36,498, respectively.

Certain administrative operating expenses of the Plan are paid by the Company, as provided in the Plan agreement.

Note 2 - Accounting Policies

Investments
All investments are stated at market value as of the last business day of the fiscal year.

Revenue Recognition
Income is recognized on the accrual basis, that is, income is reported in the period it applies, even if received in a later period.

Notes to Financial Statements
April 30, 2016 and 2015

Participant Loans Receivable
Loans receivable from the participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans receivable from participants are treated as distributions based on the terms of the Plan. Interest is calculated based on a reasonable rate of interest, considering all relevant factors, including current bank interest rates.

Matching Contribution
Each year the company has chosen to contribute the lower of 4% of compensation or the amount that a participant contributes to the Plan.

Profit Sharing Contribution
The Company may contribute to the plan a discretionary percentage of compensation as defined in the Plan within limits established by ERISA. The Company has contributed 7% and 9% of compensation for April 30, 2016 and 2015, respectively.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in assets and liabilities. Actual results could differ from those estimates.

Distributions to Participants
Distributions are recorded when paid.

Note 3 - Custodian Certification

The custodian, Voya Retirement Insurance and Annuity Company, in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, has certified that the investments and related investment income included in the accompanying financial statements and supplemental schedule is complete and accurate.

Note 4 - Investments

Note 5 - Fair Value Measurements

The Plan's investments are reported at fair value. Fair value measurement accounting establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted price for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- If the asset or liability has a specified(contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at April 30, 2016 and 2015.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts and Insurance Company General Account: Valued using the fair values of the mutual funds, stocks, and bonds that the pooled separate accounts invest in, which are publically quoted (Level 1) inputs. Some of the pooled separate accounts are not publically quoted, which is why they are considered to have used Level 2 inputs in determining fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement.

Although the Plan may have been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The Plan is not subject to income tax examinations for any tax years before 2012.
