INDEPENDENT AUDITOR'S REPORT

To the 401(k) Committee of the
Tealium Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Tealium Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2016 and 2015, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 and 2015 financial statements. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule of Assets (Held at End of Year), is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2016 and 2015 financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Change in Accounting Principle – Adjustments to Prior Period Financial Statements

As discussed in Note 3 and 4 to the financial statements, the Plan had adjusted its 2015 financial statements to retrospectively apply a change in accounting principle resulting from its adoption of a new accounting standard. Our opinion is not modified for 2015 with respect to this matter.

Note 1. Description of Plan

The following description of the Tealium Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a qualified retirement plan which permits contributions by participants as defined under Section 401(k) of the Internal Revenue Code ("Tax Code"). The Plan is a defined contribution plan covering all employees of Tealium Inc. (the "Company" or "Plan Sponsor") who have attained age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Trustee and Custodian of Assets: The Trustee of the Plan and Custodian of the Plan's assets is Fidelity Management Trust Company.

Employee Contributions: Each year, participants may contribute up to 100% of their total wages to the Plan, up to an annual Internal Revenue Service limit of $18,000 for 2016 and 2015. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in the amount of $6,000 for 2016 and 2015. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a common/collective fund and twenty-three mutual funds as investment options for participants.

Employer Contributions: At its discretion, the Company is allowed to make two types of contributions to the Plan. The Company may make a contribution of matching employee deferrals up to 100% of the first 1% of covered compensation and then up to 50% of the next 5% of covered compensation deferred. In 2016 and 2015, the Company matched deferrals at this level. In addition, the Company may make discretionary nonelective contributions in any amount determined by the Board of Directors for each Plan year. No discretionary nonelective contributions were declared or paid during the years ended December 31, 2016 and 2015.

Participant Accounts: An account is maintained for each participant. Each participant's account is credited with the participant's elective deferral, the employer's matching contribution, and an allocation of the Company's discretionary nonelective contributions, if applicable. Allocation of the discretionary nonelective contribution is based on participant annual gross compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Company may designate all or a portion of any nonelective contributions as "qualified nonelective contributions," which will be fully vested.

Vesting: Participants are fully vested immediately in their salary deferral contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. The following two-year graded vesting schedule applies to employer matching contributions to the Plan: 1 year – 50%; 2 years – 100%. For discretionary nonelective contributions made by the Company to the Plan, participants become fully vested after two years of service. Vesting is based on the elapsed time method. A period of service is determined based on the time worked for the Company.

Participant Loans: Participants may borrow from their accounts a minimum of $1,000, up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at various rates, which are commensurate with local prevailing rates as determined by the Plan Custodian. Principal and interest are paid ratably through payroll deductions on at least a quarterly basis.

Note 1. Description of Plan (Continued)

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a direct rollover distribution into another eligible retirement plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when applied for by the Plan participant. At December 31, 2016 and 2015, there were no benefits applied for but not yet paid.

Forfeited Accounts: Participants are always fully vested in their deferral and rollover contributions to the Plan and the earnings thereon. If a participant terminates service prior to becoming fully vested in employer matching or discretionary nonelective contributions, any account balance that is not vested is subject to forfeiture. Forfeitures are used either to pay administrative expenses or to reduce employer contributions. During 2016, forfeitures of $9,892 and $7,467 were used to pay a portion of administrative expenses and employer contributions, respectively. During 2015, forfeitures of $2,930 and $11,154 were used to pay a portion of administrative expenses and employer contributions, respectively.

Plan Amendments: Effective January 1, 2016, the Company's Board of Directors amended the Plan to update forms of distributions pertaining to 'cash outs' and implementation of the required rollover rule. Prior to the amendment, if the vested account balance payable to an individual was less than or equal to the $1,000 cash out limit utilized for such individual, such account would be distributed in accordance with the Basic Plan Document. As of January 1, 2016, the cash out limit changed to the dollar amount specified in Code Section 411(a)(11)(A) ($5,000 as of January 1, 2013). Any distribution greater than $1,000 that is made to a Participant without the Participant's consent before the Participant's Normal Retirement Age (or age 62, if later) will be rolled over to an individual retirement plan designated by the Plan Administrator.

Plan management does not believe the amendment has a significant effect on current year net assets available for benefits either individually or in the aggregate.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Accordingly, employee deferrals, employer matching, and employer discretionary nonelective contributions are recorded in the period in which they are earned, and benefit payments and Plan expenses are recorded in the period in which they are incurred.

Adopted Accounting Pronouncements: The Plan has implemented all applicable accounting pronouncements within the Accounting Standards Codification ("ASC") that are in effect as of December 31, 2016. The Plan does not believe that there are any other new accounting standards updates issued by the Financial Accounting Standards Board ("FASB") that might have a material impact on its net assets available for benefits.

Use of Estimates: The preparation of financial statements in accordance with U.S. GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties: The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Tax Status: The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Tax Code, and, therefore, exempt from federal income taxes. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor and the Plan's tax advisors believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Tax Code.

Uncertain Tax Positions: U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and determine whether such positions would more likely than not be sustained upon examination by the IRS. The Plan records a liability for uncertain tax positions when it is probable that a loss has been incurred and the amount can be reasonably estimated. Plan management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law, and new authoritative rulings. The Plan recognizes any interest and penalties related to uncertain tax positions when identified in income tax expense. Management has determined that the Plan does not have any unrecognized uncertain income tax positions as of December 31, 2016 and 2015.

Notes Receivable from Participants: Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. The loans are secured by the balance in the participant's account and bear interest at rates determined by the Plan Custodian. Any interest earned on each loan is allocated to that participant's account. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Investment Valuation: The Plan's investments held in mutual funds are stated at fair value. The fair value is based on the closing price on the last business day of the Plan year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Any net realized appreciation or depreciation for the year is reflected in the statements of changes in net assets available for benefits.

The Plan's investment in the common/collective fund is valued at contract value using a discounted cash flow based on current yields of similar investments with comparable durations considering the creditworthiness of the issuer. Contract value is considered to approximate fair value (see Note 3). In determining the reasonableness of the methodology, the Custodian evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Income Recognition: Realized gains and losses from the sale of investments and the difference in fair value of assets held from one period to the next is recognized and included in change in appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits. Interest income on participant loans is recorded when earned.

Administrative Expenses: Plan administration fees are either paid by the Company, directly or through the nonvested forfeitures account, or passed through to the participants in the Plan. Transaction based fees associated with optional services offered under the Plan, such as loan fees, and are charged directly to the respective Plan participant's account. In 2016, administrative expenses totaled $11,354, of which $9,892 was paid out of the nonvested forfeitures account. In 2015, administrative expenses totaled $3,224, of which $2,930 was paid out of the nonvested forfeitures account. Loan related fees charged to individual participant accounts totaled $1,462 and $294 for 2016 and 2015, respectively.

Note 2. Summary of Significant Accounting Policies (Continued)

Evaluation of Subsequent Events: The Plan evaluated subsequent events through the date these financial statements were available to be issued. There were no subsequent events that required recognition or disclosure in the financial statements.

Note 3. Recently Adopted Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965: Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has adopted Parts I and II. Part III is not applicable to the Plan as the Plan's fiscal year-end coincides with a month-end and therefore not adopted.

Adoption of FASB ASU 2015-12 Parts I and II results in a change in accounting principle requiring retrospective application to all prior periods presented. The adoption of Part I eliminates the requirement to report fully benefit-responsive investment contracts (i.e. common/collective funds) at fair value. As such, fully benefit-responsive investment contracts will be measured at contract value for the years ended December 31, 2016 and 2015. The Plan has removed its common/collective fund investment from Note 8, Fair Value Measurements, as the Plan is no longer required to report this investment at fair value. The adoption of Part II eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits, eliminates the requirement to separate investments by nature, risks, and characteristics, and eliminates the requirement to disclose investment strategies for investments in funds measured using the net asset value practical expedient and who file a U.S. Department of Labor Form 5500. The Plan is no longer including these disclosures in the footnotes to the financial statements.

In August 2014, FASB issued ASU 2014-15, *Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern.* ASU 2014-15 defines management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The guidance in ASU 2014-15 is effective for annual reporting periods ending after December 15, 2016. These financial statements reflect the adoption of ASU 2014-15; however, management has assessed that there is no uncertainty about the Plan's ability to continue as a going concern as of the date these financial statements were available to be issued.

Note 4. Change in Accounting Principle

Effective January 1, 2016, the Plan adopted a recent accounting pronouncement, FASB ASU 2015-12, *Plan Accounting*, which required a change in accounting principle to conform to the new standard. The Plan historically reported its investment in fully benefit-responsive investment contracts ("FBRICs") (i.e. common/collective fund) at fair value. Upon adoption of FASB ASU 2015-12, the Plan is required to report investments in FBRICs at contract value rather than fair value with retrospective application to all periods presented. The cumulative effect of applying the new accounting principle retrospectively resulted in a $1,793 reduction in investments in the statement of net assets available for benefits as of December 31, 2015. The effect of the change correspondingly decreased investment income in the statement of changes in net assets available for benefits for the year ended December 31, 2015 (see Note 3).

Note 5. Plan Terminations

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts, which includes employer contributions.

Note 6. Analysis of Investments

During 2016 and 2015, all Plan assets were held exclusively in participant directed accounts. Investments at December 31 were as follows:

Investments	2016	2015
JPMorgan SmartRetirement 2045 Fund Class R2	**$ 918,351**	$ 651,905
JPMorgan SmartRetirement 2040 Fund Class R2	**764,740**	503,547
JPMorgan SmartRetirement 2050 Fund Class R2	**697,941**	397,726

Note 7. Investment in Common/Collective Fund

The Plan's investment in the common/collective fund is measured at contract value as this is the value participants would receive if they were to initiate permitted transactions under the terms of the Plan. According to FASB ASU No. 2015-12, (Part I) *Fully Benefit-Responsive Investment Contracts*, guaranteed investment contracts are measured at contract value, eliminating the fair value measurement requirement. At December 31, 2016 and 2015, total contract value is $205,671 and $187,285, respectively.

Note 7. Investment in Common/Collective Fund (Continued)

The objective of the fund is to preserve capital and achieve a competitive level of income over time. To achieve its investment objective, the fund invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements), enters into "wrap" contracts issued by third-parties, and invests in cash equivalents represented by shares in money market funds. The fund seeks to minimize the exposure of the portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The portfolio's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations.

The investment contract in the common/collective fund provides for benefit responsive withdrawals and investment exchanges at contract value; however, withdrawals or investment exchanges prompted by an employer-initiated event, such as withdrawals resulting from the sale of a division of the Plan Sponsor, a corporate layoff or early retirement program, change(s) in the investment options of a Plan, or termination or partial termination of the Plan, may be paid at the contract's market value, which may be less than contract value, or may be subject to a contract charge or penalty. Such events are not probable of occurring as the Plan transacts according to the Basic Plan Document, is regulated by the Department of Labor's Employee Benefits Security Administration, and must comply with the Employee Retirement Income Security Act (ERISA).

The issuer of the common/collective fund could terminate the contract if unusual events affecting the Plan occur. Examples of such events include bankruptcy or debt default by the Plan Sponsor, complete or partial termination of the Plan, material changes to the Plan without approval of the issuer, loss of the Plan's tax-qualification status, suspension or substantial reduction of Plan Sponsor contributions to the Plan, or bankruptcy of the Plan Custodian. These events are unlikely, but if one or more occur, book value loss could occur. As such, the issuer could settle at an amount different from contract value.

Note 8. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements,* defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The provisions of FASB ASC 820 establish a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs by requiring that observable inputs be used when available. The three level hierarchy for fair value measurements is defined as follows:

> Level 1 - quoted prices for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
>
> Level 2 - observable market-based inputs or unobservable inputs that are corroborated by market data. May include quoted prices in a market that is not active.
>
> Level 3 - unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Investments are reported at fair value and assigned a hierarchy based on inputs of valuation techniques used to measure fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015. All investments are held in registered investment companies.

Mutual Funds – These investments are held at Fidelity Management Trust Company. These funds are valued based on the published value of the underlying mutual fund.

Note 9. Information Certified by Trustee

The Plan's investments were brokered and maintained by Fidelity Management Trust Company ("Fidelity" or "Trustee") for the Plan years ended December 31, 2016 and 2015. The following unaudited information in the financial statements was certified to be complete and accurate by the Plan's Trustee within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- All amounts relating to investments as enumerated in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015.
- All amounts relating to net investment gain or loss from mutual funds and common/collective fund, as enumerated in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2016 and 2015.
- All amounts enumerated in the Supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016 and 2015.

During the years ended December 31, 2016 and 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $253,775 and ($238,416), respectively.

Note 11. Related Party Transactions

Premiums on the Plan's fidelity bond were paid by the Plan Sponsor on behalf of the Plan. The Plan Sponsor paid premiums of $843, $952, and $971 for $1,000,000 of coverage for the periods of August 29, 2014 through August 29, 2015, August 29, 2015 through August 29, 2016, and August 29, 2016 through August 29, 2017, respectively.

Note 12. Employer Under-Funding

In 2016, the Company incorrectly calculated employee contributions and employer matching contributions on various bonuses and commissions resulting from isolated errors involving manual payroll updates. As such, employee contributions and employer matching contributions were under-funded by $11,648 and $14,270, respectively. The Plan Sponsor assumed responsibility for correcting this matter and properly distributed the under-funded amount, including earnings thereon, to each active participant during 2017.

In 2015, the Company incorrectly calculated the employer matching contributions during a period of transition between payroll providers resulting in an under-funding of employer matching contributions. As such, employer contributions and participant account balances were understated in 2015 by $3,873. The Plan Sponsor assumed

Note 12. Employer Under-Funding (Continued)

responsibility for correcting this matter and properly distributed the under-funded amount, including earnings thereon, to each active participant during 2016.

Note 13. Vested Forfeiture Balance

In 2016, one Plan participant withdrew their entire account balance from the Plan, forfeiting their nonvested portions of their account balance. The vesting rate was improperly calculated resulting in an additional $1,041 contributed to the forfeitures account which should have been distributed to the respective participant. The Plan Sponsor has assumed responsibility for correcting this matter and will properly distribute the amounts due, including earnings thereon, to the participant during 2017. This amount has been properly accrued for in the Plan's financial statements as a benefit payments expense and a corrective distribution payable for the year ended December 31, 2016.

In 2015, two Plan participants withdrew their entire account balance from the Plan, forfeiting their nonvested portions of their account balance. The vesting rates were improperly calculated resulting in an additional $4,320 contributed to the forfeitures account which should have been distributed to the respective participants. The Plan Sponsor has assumed responsibility for correcting this matter and properly distributed the amounts due, including earnings thereon, to the participants during 2016.

INDEPENDENT AUDITOR'S REPORT

To the 401(k) Committee of the
Tealium Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Tealium Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2016 and 2015, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 and 2015 financial statements. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule of Assets (Held at End of Year), is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2016 and 2015 financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Change in Accounting Principle – Adjustments to Prior Period Financial Statements

As discussed in Note 3 and 4 to the financial statements, the Plan had adjusted its 2015 financial statements to retrospectively apply a change in accounting principle resulting from its adoption of a new accounting standard. Our opinion is not modified for 2015 with respect to this matter.

Note 1. Description of Plan

The following description of the Tealium Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a qualified retirement plan which permits contributions by participants as defined under Section 401(k) of the Internal Revenue Code ("Tax Code"). The Plan is a defined contribution plan covering all employees of Tealium Inc. (the "Company" or "Plan Sponsor") who have attained age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Trustee and Custodian of Assets: The Trustee of the Plan and Custodian of the Plan's assets is Fidelity Management Trust Company.

Employee Contributions: Each year, participants may contribute up to 100% of their total wages to the Plan, up to an annual Internal Revenue Service limit of $18,000 for 2016 and 2015. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in the amount of $6,000 for 2016 and 2015. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a common/collective fund and twenty-three mutual funds as investment options for participants.

Employer Contributions: At its discretion, the Company is allowed to make two types of contributions to the Plan. The Company may make a contribution of matching employee deferrals up to 100% of the first 1% of covered compensation and then up to 50% of the next 5% of covered compensation deferred. In 2016 and 2015, the Company matched deferrals at this level. In addition, the Company may make discretionary nonelective contributions in any amount determined by the Board of Directors for each Plan year. No discretionary nonelective contributions were declared or paid during the years ended December 31, 2016 and 2015.

Participant Accounts: An account is maintained for each participant. Each participant's account is credited with the participant's elective deferral, the employer's matching contribution, and an allocation of the Company's discretionary nonelective contributions, if applicable. Allocation of the discretionary nonelective contribution is based on participant annual gross compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Company may designate all or a portion of any nonelective contributions as "qualified nonelective contributions," which will be fully vested.

Vesting: Participants are fully vested immediately in their salary deferral contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. The following two-year graded vesting schedule applies to employer matching contributions to the Plan: 1 year – 50%; 2 years – 100%. For discretionary nonelective contributions made by the Company to the Plan, participants become fully vested after two years of service. Vesting is based on the elapsed time method. A period of service is determined based on the time worked for the Company.

Participant Loans: Participants may borrow from their accounts a minimum of $1,000, up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at various rates, which are commensurate with local prevailing rates as determined by the Plan Custodian. Principal and interest are paid ratably through payroll deductions on at least a quarterly basis.

Note 1. Description of Plan (Continued)

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a direct rollover distribution into another eligible retirement plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when applied for by the Plan participant. At December 31, 2016 and 2015, there were no benefits applied for but not yet paid.

Forfeited Accounts: Participants are always fully vested in their deferral and rollover contributions to the Plan and the earnings thereon. If a participant terminates service prior to becoming fully vested in employer matching or discretionary nonelective contributions, any account balance that is not vested is subject to forfeiture. Forfeitures are used either to pay administrative expenses or to reduce employer contributions. During 2016, forfeitures of $9,892 and $7,467 were used to pay a portion of administrative expenses and employer contributions, respectively. During 2015, forfeitures of $2,930 and $11,154 were used to pay a portion of administrative expenses and employer contributions, respectively.

Plan Amendments: Effective January 1, 2016, the Company's Board of Directors amended the Plan to update forms of distributions pertaining to 'cash outs' and implementation of the required rollover rule. Prior to the amendment, if the vested account balance payable to an individual was less than or equal to the $1,000 cash out limit utilized for such individual, such account would be distributed in accordance with the Basic Plan Document. As of January 1, 2016, the cash out limit changed to the dollar amount specified in Code Section 411(a)(11)(A) ($5,000 as of January 1, 2013). Any distribution greater than $1,000 that is made to a Participant without the Participant's consent before the Participant's Normal Retirement Age (or age 62, if later) will be rolled over to an individual retirement plan designated by the Plan Administrator.

Plan management does not believe the amendment has a significant effect on current year net assets available for benefits either individually or in the aggregate.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Accordingly, employee deferrals, employer matching, and employer discretionary nonelective contributions are recorded in the period in which they are earned, and benefit payments and Plan expenses are recorded in the period in which they are incurred.

Adopted Accounting Pronouncements: The Plan has implemented all applicable accounting pronouncements within the Accounting Standards Codification ("ASC") that are in effect as of December 31, 2016. The Plan does not believe that there are any other new accounting standards updates issued by the Financial Accounting Standards Board ("FASB") that might have a material impact on its net assets available for benefits.

Use of Estimates: The preparation of financial statements in accordance with U.S. GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties: The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Tax Status: The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Tax Code, and, therefore, exempt from federal income taxes. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor and the Plan's tax advisors believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Tax Code.

Uncertain Tax Positions: U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and determine whether such positions would more likely than not be sustained upon examination by the IRS. The Plan records a liability for uncertain tax positions when it is probable that a loss has been incurred and the amount can be reasonably estimated. Plan management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law, and new authoritative rulings. The Plan recognizes any interest and penalties related to uncertain tax positions when identified in income tax expense. Management has determined that the Plan does not have any unrecognized uncertain income tax positions as of December 31, 2016 and 2015.

Notes Receivable from Participants: Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. The loans are secured by the balance in the participant's account and bear interest at rates determined by the Plan Custodian. Any interest earned on each loan is allocated to that participant's account. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Investment Valuation: The Plan's investments held in mutual funds are stated at fair value. The fair value is based on the closing price on the last business day of the Plan year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Any net realized appreciation or depreciation for the year is reflected in the statements of changes in net assets available for benefits.

The Plan's investment in the common/collective fund is valued at contract value using a discounted cash flow based on current yields of similar investments with comparable durations considering the creditworthiness of the issuer. Contract value is considered to approximate fair value (see Note 3). In determining the reasonableness of the methodology, the Custodian evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Income Recognition: Realized gains and losses from the sale of investments and the difference in fair value of assets held from one period to the next is recognized and included in change in appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits. Interest income on participant loans is recorded when earned.

Administrative Expenses: Plan administration fees are either paid by the Company, directly or through the nonvested forfeitures account, or passed through to the participants in the Plan. Transaction based fees associated with optional services offered under the Plan, such as loan fees, and are charged directly to the respective Plan participant's account. In 2016, administrative expenses totaled $11,354, of which $9,892 was paid out of the nonvested forfeitures account. In 2015, administrative expenses totaled $3,224, of which $2,930 was paid out of the nonvested forfeitures account. Loan related fees charged to individual participant accounts totaled $1,462 and $294 for 2016 and 2015, respectively.

Note 2. Summary of Significant Accounting Policies (Continued)

Evaluation of Subsequent Events: The Plan evaluated subsequent events through the date these financial statements were available to be issued. There were no subsequent events that required recognition or disclosure in the financial statements.

Note 3. Recently Adopted Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965: Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has adopted Parts I and II. Part III is not applicable to the Plan as the Plan's fiscal year-end coincides with a month-end and therefore not adopted.

Adoption of FASB ASU 2015-12 Parts I and II results in a change in accounting principle requiring retrospective application to all prior periods presented. The adoption of Part I eliminates the requirement to report fully benefit-responsive investment contracts (i.e. common/collective funds) at fair value. As such, fully benefit-responsive investment contracts will be measured at contract value for the years ended December 31, 2016 and 2015. The Plan has removed its common/collective fund investment from Note 8, Fair Value Measurements, as the Plan is no longer required to report this investment at fair value. The adoption of Part II eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits, eliminates the requirement to separate investments by nature, risks, and characteristics, and eliminates the requirement to disclose investment strategies for investments in funds measured using the net asset value practical expedient and who file a U.S. Department of Labor Form 5500. The Plan is no longer including these disclosures in the footnotes to the financial statements.

In August 2014, FASB issued ASU 2014-15, *Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern.* ASU 2014-15 defines management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The guidance in ASU 2014-15 is effective for annual reporting periods ending after December 15, 2016. These financial statements reflect the adoption of ASU 2014-15; however, management has assessed that there is no uncertainty about the Plan's ability to continue as a going concern as of the date these financial statements were available to be issued.

Note 4. Change in Accounting Principle

Effective January 1, 2016, the Plan adopted a recent accounting pronouncement, FASB ASU 2015-12, *Plan Accounting*, which required a change in accounting principle to conform to the new standard. The Plan historically reported its investment in fully benefit-responsive investment contracts ("FBRICs") (i.e. common/collective fund) at fair value. Upon adoption of FASB ASU 2015-12, the Plan is required to report investments in FBRICs at contract value rather than fair value with retrospective application to all periods presented. The cumulative effect of applying the new accounting principle retrospectively resulted in a $1,793 reduction in investments in the statement of net assets available for benefits as of December 31, 2015. The effect of the change correspondingly decreased investment income in the statement of changes in net assets available for benefits for the year ended December 31, 2015 (see Note 3).

Note 5. Plan Terminations

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts, which includes employer contributions.

Note 6. Analysis of Investments

During 2016 and 2015, all Plan assets were held exclusively in participant directed accounts. Investments at December 31 were as follows:

Note 7. Investment in Common/Collective Fund

The Plan's investment in the common/collective fund is measured at contract value as this is the value participants would receive if they were to initiate permitted transactions under the terms of the Plan. According to FASB ASU No. 2015-12, (Part I) *Fully Benefit-Responsive Investment Contracts*, guaranteed investment contracts are measured at contract value, eliminating the fair value measurement requirement. At December 31, 2016 and 2015, total contract value is $205,671 and $187,285, respectively.

Note 7. Investment in Common/Collective Fund (Continued)

The objective of the fund is to preserve capital and achieve a competitive level of income over time. To achieve its investment objective, the fund invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements), enters into "wrap" contracts issued by third-parties, and invests in cash equivalents represented by shares in money market funds. The fund seeks to minimize the exposure of the portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The portfolio's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations.

The investment contract in the common/collective fund provides for benefit responsive withdrawals and investment exchanges at contract value; however, withdrawals or investment exchanges prompted by an employer-initiated event, such as withdrawals resulting from the sale of a division of the Plan Sponsor, a corporate layoff or early retirement program, change(s) in the investment options of a Plan, or termination or partial termination of the Plan, may be paid at the contract's market value, which may be less than contract value, or may be subject to a contract charge or penalty. Such events are not probable of occurring as the Plan transacts according to the Basic Plan Document, is regulated by the Department of Labor's Employee Benefits Security Administration, and must comply with the Employee Retirement Income Security Act (ERISA).

The issuer of the common/collective fund could terminate the contract if unusual events affecting the Plan occur. Examples of such events include bankruptcy or debt default by the Plan Sponsor, complete or partial termination of the Plan, material changes to the Plan without approval of the issuer, loss of the Plan's tax-qualification status, suspension or substantial reduction of Plan Sponsor contributions to the Plan, or bankruptcy of the Plan Custodian. These events are unlikely, but if one or more occur, book value loss could occur. As such, the issuer could settle at an amount different from contract value.

Note 8. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements,* defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The provisions of FASB ASC 820 establish a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs by requiring that observable inputs be used when available. The three level hierarchy for fair value measurements is defined as follows:

> Level 1 - quoted prices for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
>
> Level 2 - observable market-based inputs or unobservable inputs that are corroborated by market data. May include quoted prices in a market that is not active.
>
> Level 3 - unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Investments are reported at fair value and assigned a hierarchy based on inputs of valuation techniques used to measure fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015. All investments are held in registered investment companies.

Mutual Funds – These investments are held at Fidelity Management Trust Company. These funds are valued based on the published value of the underlying mutual fund.

Note 8. Fair Value Measurements (Continued)

The following table summarizes the Plan's assets carried at fair value within the FASB ASC 820 fair value hierarchy levels as of December 31, 2016:

Note 9. Information Certified by Trustee

The Plan's investments were brokered and maintained by Fidelity Management Trust Company ("Fidelity" or "Trustee") for the Plan years ended December 31, 2016 and 2015. The following unaudited information in the financial statements was certified to be complete and accurate by the Plan's Trustee within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- All amounts relating to investments as enumerated in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015.
- All amounts relating to net investment gain or loss from mutual funds and common/collective fund, as enumerated in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2016 and 2015.
- All amounts enumerated in the Supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016 and 2015.

During the years ended December 31, 2016 and 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $253,775 and ($238,416), respectively.

Note 10. Reconciliation to Form 5500

The following table is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 to Form 5500:

	2016
Net Assets Available for Benefits per Financial Statements	**$ 6,723,831**
Investments: Fair market value adjustment on common/collective fund	**927**
Contributions receivable	**(102,078)**

Employee	42,518	42,518
Employer	14,831	14,831
Corrective distributions	8,193	8,193
Increase in Net Assets Available for Benefits per Form 5500	$ 2,271,549	$ 2,271,549

Note 11. Related Party Transactions

Premiums on the Plan's fidelity bond were paid by the Plan Sponsor on behalf of the Plan. The Plan Sponsor paid premiums of $843, $952, and $971 for $1,000,000 of coverage for the periods of August 29, 2014 through August 29, 2015, August 29, 2015 through August 29, 2016, and August 29, 2016 through August 29, 2017, respectively.

Note 12. Employer Under-Funding

In 2016, the Company incorrectly calculated employee contributions and employer matching contributions on various bonuses and commissions resulting from isolated errors involving manual payroll updates. As such, employee contributions and employer matching contributions were under-funded by $11,648 and $14,270, respectively. The Plan Sponsor assumed responsibility for correcting this matter and properly distributed the under-funded amount, including earnings thereon, to each active participant during 2017.

In 2015, the Company incorrectly calculated the employer matching contributions during a period of transition between payroll providers resulting in an under-funding of employer matching contributions. As such, employer contributions and participant account balances were understated in 2015 by $3,873. The Plan Sponsor assumed

Note 12. Employer Under-Funding (Continued)

responsibility for correcting this matter and properly distributed the under-funded amount, including earnings thereon, to each active participant during 2016.

Note 13. Vested Forfeiture Balance

In 2016, one Plan participant withdrew their entire account balance from the Plan, forfeiting their nonvested portions of their account balance. The vesting rate was improperly calculated resulting in an additional $1,041 contributed to the forfeitures account which should have been distributed to the respective participant. The Plan Sponsor has assumed responsibility for correcting this matter and will properly distribute the amounts due, including earnings thereon, to the participant during 2017. This amount has been properly accrued for in the Plan's financial statements as a benefit payments expense and a corrective distribution payable for the year ended December 31, 2016.

In 2015, two Plan participants withdrew their entire account balance from the Plan, forfeiting their nonvested portions of their account balance. The vesting rates were improperly calculated resulting in an additional $4,320 contributed to the forfeitures account which should have been distributed to the respective participants. The Plan Sponsor has assumed responsibility for correcting this matter and properly distributed the amounts due, including earnings thereon, to the participants during 2016.
