Report of Independent Auditors

The Trustee and Plan Administrator
Moore Capital Management, LP
401(k) and Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for plan benefits of Moore Capital Management, LP 401(k) and Profit Sharing Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for plan benefits for the years then ended, and the supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Moore Capital Management, LP
401(k) and Profit Sharing Plan

Notes to Financial Statements

December 31, 2010

1. Plan Description

The following description of the Moore Capital Management, LP 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of Moore Capital Management, LP the "Company" or "Plan Administrator", Belvedere Property Management, LLC and Moore Charitable Foundation, Inc. Prior to July 15, 2006, employees who had reached the age of 19 were eligible for participation after three months of service. Beginning July 15, 2006, all employees regardless of age are immediately eligible to participate in the Plan. The Plan was established on January 1, 1993. On November 1, 2008, Moore Capital Management, LLC effectuated an internal restructuring whereby Moore Capital Management, LLC was replaced by a Delaware entity called Moore Capital Management, LP. Prior to November 1, 2008, the Plan covered all employees of Moore Capital Management, LLC. Charles Schwab Trust Company the "Trustee" is the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participants may elect to make a pre-tax salary deferral contribution by payroll deduction of 1% to 50% of their compensation. Provisions of Section 401(a) of the Internal Revenue Code provide that earnings of the Plan are not taxable to the participants until withdrawn. The Internal Revenue Code of 1986, as amended the (Tax Code), imposes a limitation (adjusted annually for cost-of-living increases) on participants' pre-tax contributions under Section 401(k) plans and other tax favored plans. The Tax Code imposed a limit of $16,500 for 2010 which remained unchanged from 2009. In addition, employees over 50 years old may elect to contribute an additional $5,500 for 2010, also unchanged from 2009.

Beginning January 1, 2006, the Plan included a Roth elective deferral option based on the requirements provided by Code Section 402A, as enacted by the Economic Growth and Tax Relief Reconciliation Act of 2001. The Roth elective deferral option permits participants to make post-tax salary deferral contributions by payroll deduction of 1% to 50% of their compensation. In addition, participants are allowed to make additional post-tax contributions from 1% up to 50% of compensation, subject to certain limitations.

Rollover contributions arise from qualified contributions to the Plan of certain assets previously held on behalf of participants by other qualified plans.

1. Plan Description (continued)

The Company may contribute 100% of the first $2,000 of the qualified compensation that a participant contributes to the Plan. The matching Company contribution is invested based on the existing allocation of the respective employee. Only employees earning less than $300,000 are eligible for this match. Additional profit sharing amounts may be contributed at the option of the Company's board of directors not to exceed the lesser of $44,000 or 100% of annual compensation. Employer contributions are transferred to the participants account during the first quarter of the next fiscal year.

Vesting of employer contributions occurs immediately if the participant's employment is terminated as a result of attaining the normal retirement age of 65, early retirement, disability, or death. Otherwise, the vesting of benefits is in accordance with the schedule set forth below:

Years of Service	Nonforfeitable Percentage
Less than 1	-
2	33.3%
3	66.7%
4	100%

Forfeitures, which arise when a participant's employment terminates prior to becoming 100% vested, may be used to reduce future Company contributions to the Plan. During 2010 and 2009, forfeitures amounted to $34,314 and $31,945, respectively, and were used to reduce employer contributions for the respective years. Participants vest immediately in their own contributions and investment earnings thereon and, consequently, these contributions are nonforfeitable.

A participant may elect, after attaining the age of 59½, to withdraw all or any portion of the value of his or her account. Withdrawals by participants before the age of 59½ are permitted only after meeting specified financial hardship criteria and approval of the Plan Administrator. If a participant receives a hardship distribution, the participant will be prohibited from making pre-tax salary deferral contributions (or post-tax contributions) to the Plan for a six month period beginning on the date the participant received the hardship distribution. Any taxable withdrawals

1. Plan Description (continued)

from this Plan prior to the attainment of age 59½ which are not rolled over into an Individual Retirement Account or other qualified plan may be subject to a 10% penalty by the Internal Revenue Service (IRS).

Distributions are paid as defined in the plan documents.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and are presented on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

The loan must be repaid within a maximum of a five-year period unless the loan is for the sole purpose of buying a principal residence. The total outstanding loan amount per participant cannot exceed the lesser of $50,000 or 50% of the participant's vested interest in the Plan and a reasonable rate of interest will be charged. During 2010, new loans and loan repayments, including interest, amounted to $245,642 and $232,142, respectively, and during 2009, new loans and loan repayments, including interest, amounted to $265,960 and $217,373, respectively. Loan and interest payments are applied to fund balances from which the proceeds were drawn unless otherwise specified by the participant. Interest on loans collected during the year amounted to $28,843 and $30,344 in 2010 and 2009, respectively, and is included in interest income on notes receivable from participants.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Funding Policy

The Company's funding policy for the employer annual contribution to the Plan is at the Company's discretion. Employee voluntary contributions are made through payroll deductions on a current basis.

Administrative Expenses and Other Fees

Plan expenses are paid from the Trustee, or if the Company elects to do so, by the Company. Miscellaneous fees represent fees charged to participants for loan processing and other services.

2. Summary of Significant Accounting Policies (continued)

Valuation of Participant Accounts

Separate accounts are maintained for each participant whereby the participant's account is credited for contributions and the gains on the participant's investments. The participant's account will be reduced by its share of Plan expenses and investment losses.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements, (ASU 2010-06). ASU 2010-06 amended Accounting Standards Codification Topic 820 (ASC 820) to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued Accounting Standards Update 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

2. Summary of Significant Accounting Policies (continued)

Reclassification

Participant loans and the related interest income have been reclassified to notes receivable from participants and interest income on notes receivable from participants, respectively, as of and for the year ended December 31, 2009 to conform to current year presentation.

Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service "IRS" dated May 23, 2008, stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2010-6 and 2005-16, the Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Plan Termination

While it has not expressed any intent to do so, the Company has the right to discontinue paying the administrative expenses of the Plan and to terminate the Plan at any time subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies (continued)

In the event of Plan termination, participants' accounts will become fully vested and nonforfeitable. Further, Plan assets will be distributed to each participant in accordance with the participant's account balance.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

3. Investments and Income Recognition

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2010 and 2009, and net appreciation/(depreciation) in fair value of investments, interest, dividends and interest income on notes receivable from participants for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Participants can direct their contributions to any of the investment funds in increments of 1%. Participants can elect to change their contribution rate, investment direction of new contributions and transfer existing fund balances among the investment funds on a daily basis. Investments in mutual funds are stated at fair value, based upon the closing net asset value of the investment funds on the last business day of the Plan year. Common/collective trusts are also valued at net asset value per share/unit. Money market funds and interest bearing cash are valued at cost, which approximates fair value. Self-directed accounts are made up of mutual funds, interest bearing cash, and non-interest bearing cash. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

3. Investments and Income Recognition (continued)

The following is a schedule of investments held by the Plan in excess of 5% of the net assets available for plan benefits as of December 31, 2010 and 2009:

4. Fair Value Measurements

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

4. Fair Value Measurements (continued)

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals); or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. As clarified by ASU 2010-06, for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3), ASC 820 requires a description of the valuation technique (or multiple techniques) used, such as the market approach, income approach or the cost approach and the inputs used in determining the fair values of each class of assets or liabilities. If there has been a change in the valuation technique(s), ASC 820 requires disclosure of that change and the reason for making it. These disclosures should be specific to the particular valuation techniques and inputs used by the entity for each class of assets held. The use of valuation techniques may differ by entity, but all

4. Fair Value Measurements (continued)

valuation techniques should maximize the use of relevant observable inputs and minimize the use of unobservable inputs in estimating an exit price in the current market.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	**Level 2**	**Level 3**	**Total**
Money market funds	$ 5,182,360	$ -	$ -	$ 5,182,360
Mutual funds	36,286,585	-	-	36,286,585
Self directed accounts	5,348,804	-	-	5,348,804
Common/collective trusts	-	4,974,373	-	4,974,373
Total assets at fair value	$ 46,817,749	$ 4,974,373	$ -	$ 51,792,122

	Assets at Fair Value as of December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Money market funds	$ 5,208,670	$ -	$ -	$ 5,208,670
Mutual funds	34,412,827	-	-	34,412,827
Self directed accounts	3,991,387	-	-	3,991,387
Total assets at fair value	$ 43,612,884	$ -	$ -	$ 43,612,884

The Plan recognizes transfers between levels in the fair value hierarchy using the beginning of the period method, which assumes the investment would be transferred in or out of a level at the fair value at the beginning of the reporting period. For the year ended December 31, 2010, there were no transfers between levels.

5. Related Party Transactions

Certain Plan investments are shares of mutual funds or money market funds managed by the Trustee or its affiliates. The Trustee is the custodian as defined by the Plan and, therefore, these transactions qualify as permitted party-in-interest transactions.

Certain officers and employee of the Plan Administrator (who may also be participants in the Plan) perform administrative services related to the Plan's operations, record-keeping and financial reporting. The Plan Administrator pays these individuals' salaries and also pays all other administrative expenses on the Plan's behalf.

The foregoing transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Tax Code and ERISA's rules on prohibited transactions.

6. Subsequent Events

The Plan has evaluated the impact of events that have occurred subsequent to December 31, 2010 through September 28, 2011 the date the financial statements were available for issuance. Based on this evaluation, the Plan has determined no events were required to be recognized or disclosed in the financial statements.
