1. Description of plan

The following description of John's Incredible Pizza Company (JIPC) Savings Plan (the Plan) provides only general information. Plan participants and other interested parties should refer to the Plan agreement, as well as any Plan amendments, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of JIPC Management, Inc., Johns Incredible Pizza Company Inc., Incredible Entertainment, Inc., Incredible Concepts, Inc., JIPC Ventures, Inc., JIPC Newark LLC, JIPC Las Vegas LLC and JIPC Beaverton, LLC (collectively, the Company) who are at least 21 years old. Employees of the Company are automatically enrolled in the Plan as participants with a 3% deferral rate. Automatic enrollment dates are January 1, April 1, July 1 and October 1 once an employee has completed 6 months of employment. The Plan includes a deferred compensation arrangement as described in Section 401(k) of the Internal Revenue Code (the Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Contributions may not exceed the limits and maximum amounts deductible under the regulations of the Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides an employer matching contribution. The Company will match 50% of participant deferrals up to 6% of compensation. In order for participants to share in matching contributions, they must be actively employed on the last day of the plan year and have completed 1,000 hours of service.

The Company may make discretionary profit sharing contributions to the Plan. During the year ended December 31, 2016, there were no discretionary contributions made.

Forfeited accounts

Forfeitures are created when participants terminate employment before being entitled to their full benefits under the Plan. The forfeited amounts may be used to reduce plan expenses or reduce future employer contributions. Total forfeitures were $6,410 and $19,819 for the years ended December 31, 2016 and 2015, respectively.

1. Description of plan (continued)

Participant accounts

Each participant's account is credited with the participant's contribution and an allocation of Plan earnings and Company's contributions, if any, and charged with an allocation of administrative expenses. Allocations are based on participant's eligible compensation, participant contributions, investment elections, participant transactions, participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Vesting percentages, with respect to employer profit sharing contributions as well as employer matching contributions, is based on the following years of service:

Years of Service	Percentage
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Notes receivable from participants

Participants may borrow from their account balances a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with interest rates that a commercial lender would charge for loans made under similar circumstances. The notes receivable must be paid back within five years unless the notes receivable are for the purchase of a principal residence.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Notes receivable bear interest at 4.25% to 4.50%.

Plan administration

The assets of the Plan are held under a trust agreement with Mutual of America Life Insurance Company (MALIC). The trust agreement requires that MALIC holds, administers, and distributes the funds of the Plan pursuant to the trust agreement and in accordance with the provisions of the Plan.

1. Description of plan (continued)

Payment of benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the vested interest in his or her account. Upon financial hardship, a participant may receive all or a portion of the vested interest in his or her account, subject to certain restrictions.

The Plan allows automatic rollover to an Individual Retirement Account (IRA) if the terminated participant's account balance exceeds $1,000 but does not exceed $5,000. Unless the terminated participant elects to rollover the account balance or to receive the distribution directly, the plan administrator can distribute the entire balance to an IRA designated by the plan administrator.

Withdrawals due to terminated participants are recorded on the date distributions are made.

Investment Options

Participants direct the investments of their accounts to the investment options available under the Plan. The Plan's investments include shares of registered investment companies and an insurance company general account.

The Plan's investment in fully benefit-responsive investment contracts represents investments in traditional investment contracts.

Operating expenses

Certain operating expenses may be paid by the Company or by the Plan at the Company's discretion and certain transactions are charged to the participants.

Change in third party administrator (TPA) and trustee/custodian

The Plan changed its trustee/custodian and TPA to MALIC effective November 2016.

During the transition, all participant balances were transferred to the new trustee of the Plan. The governing body of the Plan provided an investment portfolio that was equitable to the previous investment portfolio and participant account balances were transferred in-kind.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are presented at fair value based on the quoted market prices of the underlying securities within each fund. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Company invests in guaranteed investment contracts. These investment contracts are fully benefit-responsive and are presented at contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Contract value represents the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. These investments are excluded from the fair value hierarchy table presented in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recently adopted authoritative standards

In May 2015, the Financial Accounting Standards Boards (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent). This ASU exempts investments measured using the net asset value (NAV) practical expedient from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years beginning after December 31, 2015. Management has adopted this update.

2. Summary of significant accounting policies (continued)

Recently adopted authoritative standards (continued)

On July 31, 2015, the FASB issued ASU No. 2015-12: Part I – Fully Benefit-Responsive Investment Contracts, Part II – Plan Investment Disclosures, and Part III – Measurement Date Practical Expedient. The amendments (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient. The amendments are effective for fiscal years beginning after December 31, 2015; early adoption is permitted. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Entities are required to apply the amendments retrospectively for parts I and II and prospectively for part III. Management has adopted this standard.

Date of management's review

Subsequent events have been evaluated through October 13, 2017, which is the date the financial statements were available to be issued.

3. Investments

During the year ended December 31, 2016, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by approximately $120,000, not including interest income of approximately $3,000.

4. Fair value measurements

The Plan defines fair value in accordance with Accounting Standards Codification No. 820, Fair Value Measurements and Disclosures (ASC 820). ASC 820 defines fair value as the price that the Plan would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability.

Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances.

4. Fair value measurements (continued)

The Plan's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-level hierarchy of inputs is summarized below.

Level 1	Inputs are quoted prices in active markets.
Level 2	Inputs are observable, directly or indirectly.
Level 3	Inputs are unobservable and reflect assumptions on the part of the reporting entity.

The Plan invests mainly in registered investment companies which are the underlying assets in the investment portfolio valued based on actual quoted prices in active markets for identical securities. The investment portfolio provided by the custodian is carried at the NAV at which the mutual fund shares are actively traded. All underlying assets are mutual funds and therefore, they are classified within level 1 of the hierarchy.

The following tables summarize the valuation of the Plan's investments by the ASC 820 fair value hierarchy levels as of December 31, 2016 and 2015:

December 31, 2016

Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 2,448,844	$ -	$ -	$ 2,448,844
Total investments at fair value	$ 2,448,844	$ -	$ -	$ 2,448,844

December 31, 2015

Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 2,174,046	$ -	$ -	$ 2,174,046
Total investments at fair value	$ 2,174,046	$ -	$ -	$ 2,174,046

5. Guaranteed investment contract

For the year ended December 31, 2016, The Plan invested in a guaranteed investment contract with MALIC. The investment is fully benefit-responsive. MALIC maintains the contributions in an account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by MALIC as required by accounting standards generally accepted in the U.S. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

MALIC is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on an agreed upon formula but may not be less than 1.00%. The Plan does not distinguish between average yields and crediting rates and, as such, the average yield is the crediting rate.

6. Party-in-interest transactions

Certain Plan investments are managed by MALIC, the custodian of the Plan. MALIC is the Plan's trustee and custodian, and, therefore, these transactions qualify as party-in-interest. Participant loans are also considered related-party transactions.

7. Financial information certified by the trustee/custodian

The plan administrator obtained certification from MALIC as of and for the year ended December 31, 2016, that the following plan information, which was furnished by MALIC, is complete and accurate:

- The value of investments in shares of registered investment companies and notes receivable from participants as of December 31, 2016.
- The value of investments in guaranteed investment contracts (general accounts) as of December 31, 2016.
- Investment income for the year ended December 31, 2016.

8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. Tax status

The Company adopted a Volume Submitter Profit Sharing Plan with Cash or Deferred Arrangement which received a favorable opinion letter from the Internal Revenue Service (the IRS) on May 7, 2015 which stated the Plan was in accordance with the applicable sections of the Code.

The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the U.S. require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has reviewed the tax positions taken by the Plan, and has concluded there are no uncertain tax positions that would require recognition in the financial statements or disclosure in the notes to the financial statements as of and for the year ended December 31, 2016 and 2015.

10. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Reconciliation of financial statements to Form 5500

The following is a reconciliation of classification differences in the statement of net assets available for benefits at December 31, 2016 and in the statement of changes in net assets available for benefits for the year ended December 31, 2016 per the financial statements to Form 5500:
