To the Plan Administrator of the
Diamond Paper Box Company, Inc. Profit-Sharing Plan:

We have conducted a DOL limited-scope audit of the financial statements of Diamond Paper Box Company, Inc. Profit-Sharing Plan for the year ended December 31, 2009 and have issued our report thereon dated September 29, 2011. As permitted by 29 CR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedules taken as a whole. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 29, 2011. Professional standards also require that we communicate to you the following information related to our audit.

SIGNIFICANT AUDIT FINDINGS

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Genesee & Wyoming, Inc. 401(k) Savings Plan are described in Note 2 to the financial statements. The Plan adopted the provisions of Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which requires participant loans to be classified as notes receivable from participants and recorded at their unpaid principal balance plus any accrued but unpaid interest. The adoption of ASU 2010-25 was not significant to the financial statements as a whole as the unpaid principal balance plus accrued interest on loans to participants generally approximated fair value. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no estimates that we consider particularly significant to the financial statements.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There are no financial statement disclosures that we consider particularly sensitive.

SIGNIFICANT AUDIT FINDINGS (Continued)

Difficulties Encountered in Performing the Audit
We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements
Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no corrected or uncorrected misstatements

Disagreements with Management
For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations
We have requested certain representations from management that are included in the management representation letter dated September 29, 2011

Management Consultations with Other Independent Accountants
In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues
We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Administrator of the
Diamond Paper Box Company, Inc. Profit-Sharing Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of the Diamond Paper Box Company, Inc. Profit-Sharing Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING Life Insurance and Annuity Company (ING), the trustee and custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that ING holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from ING as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by ING is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by ING Life Insurance and Annuity Company, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Diamond Paper Box Company, Inc. Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan containing both profit-sharing and 401(k) components. Unless otherwise indicated, the Plan provisions are the same for both components. The Plan covers substantially all of the employees of Diamond Paper Box Company, Inc. Profit-Sharing Plan (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Company is the administrator of the Plan. The trustee and custodian of the Plan is ING Life Insurance and Annuity Company (ING). The Company pays a portion of the Plan's administrative expenses.

Eligibility

Employees are eligible to participate in the employee contribution portion of the 401(k) component of the Plan upon completion of ninety days of service and the attainment of age twenty-one. Participants are eligible for Company matching and profit-sharing contributions upon completion of one year of service and attainment of age twenty-one or completion of three years of service.

Contributions

Participants may make tax deferred contributions to the Plan, subject to certain limitations under the terms of the Plan and the Internal Revenue Code (IRC). The Company may elect to make matching contributions equal to 55% of each participant's contribution, up to a maximum of 4% of his or her compensation. For the period February 2009 through March 2010, the Company suspended matching contributions. Commencing April 2010, the Company resumed its matching contribution. The Company may also elect to make profit-sharing contributions on a discretionary basis. For 2010 and 2009, the Company declared profit-sharing contributions of $323,708 and $109,322, respectively.

Participant Accounts

Each participant's account is credited with his or her contributions, Company matching contributions and actual earnings (losses) thereon. Profit-sharing contributions, profit-sharing earnings (losses), plan expenses and forfeitures of non-vested account balances are allocated to each participant's account based on his or her compensation or account balance. Benefit payments are deducted directly from each participant's account.

1. DESCRIPTION OF PLAN (Continued)

Vesting
Participants are immediately vested in their contributions and Company matching contributions and actual earnings and losses thereon. Profit-sharing contributions vest 20% per year beginning upon completion of one year of service. Participants are fully vested upon completion of six years of service.

Benefit Payments
Upon termination of service, a participant may elect to receive his or her vested account balance as a lump-sum payment, an annual annuity, or a direct rollover into an individual retirement account or another qualified retirement plan.

Notes Receivable from Participants
Participants may borrow up to the lesser of $50,000 or one-half of their vested account balance. Unless used to purchase a principal residence, participant loans are generally repaid over a period not to exceed five years. Participant loans bear interest at the prime rate on the date of the loan plus one percent.

Forfeitures
Forfeitures of non-vested account balances are allocated to the remaining participants at the end of the Plan year. Forfeitures totaled $20,497 and $7,319 during 2010 and 2009, respectively.

Plan Termination
While the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States.

As described in generally accepted accounting principles (GAAP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan participates in a guaranteed general account contract. As required by GAAP, the statement of net assets available for benefits presents the fair value of the investment in the guaranteed general account contract as well as the adjustment of the investment in the guaranteed interest account trust from fair value to contract value relating to the investment contracts. At December 31, 2010 and 2009, the fair value of the guaranteed investment contract was equal to the contract value. As such, an adjustment from fair value to contract value was not required. The statement of changes in net assets available for benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Change in Accounting Principle

In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. The Plan adopted ASU 2010-25 in the 2010 financial statements, and has retrospectively applied it to the financial statements and notes. The adoption of ASU 2010-25 was not significant to the financial statements as a whole as the unpaid principal balance plus accrued interest on loans to participants generally approximated fair value.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as reported by ING. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. The net appreciation (depreciation) in fair value of investments consists of both realized and unrealized gains and losses on the Plan's investments.

Fair Value Measurements

FASB Accounting Standards Code 820 (ASC 820) establishes a hierarchy for information and valuations used in measuring fair value that is broken down into three levels based on reliability. Level 1 valuations are based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 valuations are based on inputs, other than quoted prices included within Level 1 that are observable, either directly or indirectly. Level 3 valuations are based on information that is unobservable and significant to the overall fair value measurement. A description of where the Company's assets fall within the ASC 820 hierarchy is provided in Note 4.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the accompanying financial statements.

Benefit Payments

Benefit payments are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to the 2009 financial statements to conform to the current year presentation.

4. FAIR VALUE MEASUREMENTS (Continued)

Level 3 Gains and Losses
The fair value of the Plan's level 3 assets changed as follows:

Balance at December 31, 2008	$ 2,270,615
Purchases, interest, and withdrawals (net)	581,225
Balance at December 31, 2009	2,851,840
Purchases, interest, and withdrawals (net)	246,414
Balance at December 31, 2010	$ 3,098,254

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2010 and 2009.

Pooled Separate Accounts: valued at fair value based on the value of the underlying investments.

The Plan's investments in pooled separate accounts are invested in global and domestic equity and fixed income based investments. The net asset value of these investments is derived from the market value of the underlying investments. The net asset value of the funds are then calculated each day and posted by ING.

There are no restrictions on the number of transactions a participant can conduct. These accounts do not have any unfunded commitments.

The investment strategies of these accounts is to invest in global and domestic equity and fixed income investments with the goal of producing favorable long-term returns primarily through appreciation of assets, dividends, and interest.

Mutual Funds: valued at fair value based on quoted market prices.

Guaranteed investment contract: valued at fair value, by discounting the related cash flows based on crediting rates of interest included in the funding agreement.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into an investment contract with ING under a guaranteed general account contract, which is generally benefit-responsive. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The contract is included in the financial statements at fair value as reported to the Plan by ING. Fair value, which equals contract value, represents contributions made, plus investment income, less funds used to pay retirement benefits and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate, was approximately 3.0% at 2010 and 2009. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5%. Such interest rates are reviewed twice per year for resetting.

6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan assets are invested in shares of mutual funds and general accounts managed by ING and, therefore, transactions involving these securities qualify as party-in-interest transactions. In addition, transactions involving notes receivable from participant loans qualify as party-in-interest transactions.

7. INCOME TAX STATUS

The Plan obtained its latest determination letter on March 25, 2003, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving that determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

For employee benefit plans, their tax-qualified status itself is deemed to be an uncertainty, since events could potentially occur to jeopardize their tax-qualified status. As of December 31, 2010 and 2009, the Plan does not have a liability for unrecognized tax benefits. The Plan files form 5500 with the Internal Revenue Service. The Plan is no longer subject to IRS examinations for years before 2007.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets available for benefits per Form 5500 at December 31:

	2010	2009
