Compensation Deferral Thrift Plan
Notes to Financial Statements

(1) DESCRIPTION OF PLAN

The following brief description of the Compensation Deferral Thrift Plan for the Employees of S & B Metal Products, Inc. and Affiliates is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

a.) General -

The Plan is a defined contribution pension plan covering the employees of S & B Metal Products, Inc., S & B Metal Products of South Florida, Inc., S & B Metal Products of East Florida, Inc., National Powdercoating of Florida, Inc., National Powdercoating of Ohio, Inc., and Group One LLC. The plan was instituted effective January 1, 1982. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b.) Contributions -

Each year participants may contribute up to 100% of the their annual pretax compensation, as defined in the Plan, subject to the annual limitation imposed by the IRC. The deferral limitation for 2010 was $16,500. Certain highly compensated employees are limited below this maximum. Participants may also contribute amounts which represent distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan allows for the Company to match a percentage of compensation that a participant contributes to the Plan. During 2010, the Company contributed 25% of the first 6% of base contribution that a participant contributes to the plan.

c.) Participant Accounts -

Each participant's account is credited with both their deferral contribution and the Company's discretionary percentage contribution match. It is further allocated with a share of earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d.) Vesting -

Participants are immediately vested in their contributions together with the actual earnings thereon. Vesting in employer's contribution is based on years of continuous service. A participant is 100% vested after six years of credited service.

e.) Participant Loans -

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

f.) Payment of Benefits -

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount.

g.) Forfeited Accounts -

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $2,863 and $2,832, respectively. These amounts are allocated annually to all participants when the plan allows those funds to be used.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

a.) Basis of Accounting -

The accompanying financial statements are prepared on the accrual basis of accounting.

b.) Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c.) Investment Valuation and Income Recognition -

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participant, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. All investments are managed by Principal Financial Group which has determined all market values.

d.) Payment of Benefits -

Benefit payments are recorded upon distribution.

e.) Date of Management Review -

Subsequent events were evaluated through August 15, 2011, which is the date the financial statements were available to be issued.

(3) FAIR VALUE MEASUREMENTS:

The Plan has adopted the provisions of ASC 820, *Fair Value Measurements and Disclosure*, which defines fair values as the price that would be received to sell an asset or paid to transfer a a liability in an orderly transaction between market participants at the measurement date and establishes a framework for measuring fair values. The pronouncement establishes a three-level hierarchy for fair value measurements based on the transparency of inputs to the valuation of an asset or liability as of the measurement date. It also expands disclosures about instruments measured at fair value which includes the disclosure of the three levels of inputs that may be used to measure fair value. These include:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010

(5) PLAN TERMINATION:

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(6) TAX STATUS:

The Company has adopted a prototype plan through Principal Financial Group. In a letter dated August 7, 2001, the Internal Revenue Service has determined that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

(7) RELATED PARTY TRANSACTIONS:

Certain Plan investments are shares of funds managed by Principal Financial Group. Principal

Financial Group is the Contract Administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services to Principal Financial Group totaled $15,851 for the year ended December 31, 2010.

(8) RISKS AND UNCERTAINTIES:

The Plan and its participants invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
