1. PLAN DESCRIPTION

The following description of the Hydro Resources 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan was formed on November 1, 1975 and was most recently amended and restated on January 1, 2010. Hydro Resources Holdings, Inc. is herein collectively referred to as the "Company," the "Employer," or the "Plan Sponsor."

General and Eligibility

The Plan is a defined contribution benefit plan covering substantially all employees of the Company who have completed six months of service with the Company and are age 21 or older. Entry dates are the first day of January, April, July and October. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration

John Hancock Life Insurance Company U.S.A. ("John Hancock") serves as Custodian and Recordkeeper of the Plan. Duties of the Custodian include, among others, receiving contributions, collecting income, reinvesting the trust fund and making payments from the trust fund as directed. The term "trust fund" refers to all assets of whatever kind of nature held from time to time by the Custodian under the trust without distinction between contributions and income.

Contributions

Participants may contribute to the Plan an amount not to exceed 100% of their compensation. Participants may elect voluntary salary deferral contributions withheld from their salary based on an elected percentage, subject to annual individual deferral limitations of $18,000 for 2016 under the Internal Revenue Code ("IRC"). Participants that reach age 50 by the end of the calendar year are permitted to make catch-up contributions of $6,000. The Company may make Employer discretionary matching contributions up to a maximum of 5% of employee's compensation. For the year ended December 31, 2016, the Employer contributed $92,002 to the Plan. Additional profit sharing contributions may be made at the Company's discretion. No Employer discretionary profit sharing contributions were made by the Company for the years ended December 31, 2016 and 2015. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In certain situations, the Company may be required to make additional contributions to the Plan. If the Plan is top-heavy or if highly compensated employees ("HCEs") contribute to the Plan at a greater contribution rate than that of non-highly compensated employees ("NHCEs"), than what is allowable under the IRC, the Company may have to take corrective action.

1. PLAN DESCRIPTION (continued)

This action could result in either a reduction in the contributions for the HCEs or additional employer contributions, in the form of a Qualified Non-Elective Contribution to selected NHCEs under the Plan. Participant's salary deferral and Employer matching contributions are self-directed in the investment funds of the Plan.

Corrective Distributions Payable

The Plan failed the discrimination test for the year ended December 31, 2016 and 2015. Corrective distributions of $7,888 and $14,811 as of December 31, 2016 and 2015 are reflected as a liability in the accompanying statements of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Employer's discretionary matching and/or discretionary profit sharing contributions, if any, and an allocation of Plan earnings thereon, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions and the Employer's discretionary matching contributions plus actual earnings thereon. Vesting in the Employer's discretionary profit sharing contributions plus actual earnings thereon is based on years of credited service. The Employer discretionary profit sharing contribution vests at a rate of 20% per year commencing after the first full year of credited service and becomes fully vested after six years of credited service or when the participant attains age 65 and five years of participation in the Plan or upon death or permanent disability. A participant also becomes fully vested at early retirement, which is attainment of age 55 and six years of service.

Forfeited Accounts

At December 31, 2016 and 2015, forfeited non-vested accounts totaled $0, respectively. Forfeitures are first used to reduce the Plan's administrative expenses then to reduce Employer discretionary matching contributions.

1. PLAN DESCRIPTION (continued)

Notes Receivable from Participants

In the event of hardship or financial necessity, participants may borrow from their vested account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through monthly payroll deductions for current employees, and remitted directly to the Custodian. Loan balances for terminated employees are payable upon termination of employment. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Benefit Payments

Upon termination of service due to or prior to retirement, on death, disability, resignation, discharge, or proven hardship, a participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested account balance. A participant may elect to receive either a lump-sum amount equal to their vested account balance or as a rollover to another qualified plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the accounts of all participants would become fully vested.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") as codified by the Financial Accounting Standards Board ("FASB") in its Accounting Standards Codification ("ASC").

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the accompanying statements of net assets available for benefits and changes therein. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Benefits Payable

Benefits are recorded when paid. Accordingly, benefits payable to participants who have elected to withdraw from the Plan but not yet been paid are not accrued. At December 31, 2016 and 2015, there were no amounts payable to participants.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Administrative Expenses

Expenses incurred in the administration of the Plan, to the extent not paid by the Employer, are charged to and paid from the Plan's assets. Expenses that are paid directly by the Employer are excluded from these financial statements. Expenses related to the administration of notes receivable from participants, and other participant-directed expenses, are charged directly to participant's accounts and are included in administrative expenses of the Plan on the statement of changes in net assets available for benefits. Investment related expenses are included in net appreciation or depreciation of the fair value of investments. For the year ended December 31, 2016, approximately $13,000 was paid on behalf of the Plan by the Company.

Risks and Uncertainties

The Plan provides for investments that are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, and therefore could affect participants' account balances.

3. GUARANTEED INTEREST ACCOUNTS

The Plan holds guaranteed interest accounts with the Custodian. The guaranteed interest accounts are credited with earning on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when the funds are withdrawn prior to their maturity. Thus the guaranteed interest account is considered non-benefit responsive. Fair market value is the amount that would be received were the funds to be withdrawn or transferred with the Plan prior to maturity. This fair market value represents guaranteed interest account contract value adjusted to reflect current market interest rates only to the extent such market rates exceed credited rates. This value represents contributions allocated to guaranteed interest accounts, plus interest at the contractually guaranteed rate, less funds used to pay benefits and administrative expenses. Therefore, the guaranteed interest accounts are reported on the statements of net assets available for benefits at fair value. The average composite rates earned by the guaranteed interest accounts as of December 31, 2016 and 2015 were 1.16% and 1.26%, respectively. The average current rates earned by the guaranteed interest accounts as of December 31, 2016 and 2015 were 0.97% and 1.14%, respectively.

4. INFORMATION CERTIFIED AND PROVIDED BY JOHN HANCOCK

The following is a summary of the Plan's asset information included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the Custodian and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from John Hancock that information provided to the Plan Administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	DECEMBER 31,	
	2016	2015
INVESTMENTS AT FAIR VALUE:		
Pooled separate accounts	$ 5,723,681	$ 5,449,796
Registered investment companies	2,044,198	1,822,998
Money market fund	851,557	785,265
Guaranteed interest accounts	152,587	139,703
	8,772,023	8,197,762
NOTES FROM PARTICIPANTS	96,801	99,263
	$ 8,868,824	$ 8,297,025

The Custodian also certified the completeness and accuracy of $514,695 of net appreciation in fair value of investments, $1,156 of net appreciation of interest on guaranteed interest accounts, and $4,214 of interest related to notes receivable from participants for the year ended December 31, 2016. Additionally, all information included in the supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Custodian.

5. FAIR VALUE MEASUREMENTS

The Plan follows ASC 820, *Fair Value Measurements and Disclosures,* for its financial assets and liabilities carried at fair value on a recurring basis in the financial statements. ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset or liability's classification within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under the ASC are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts:	Stated at fair value as determined by the issuer of the pooled separate accounts based on the fair market of the underlying investments. Such investments are classified as Level 2.
Registered investment companies:	Valued at the net asset value of shares based on quoted market prices held by the Plan at year end. Such investments are classified as Level 1.
Money market fund:	Valued at cost, which approximates fair value based on quoted market prices held by the Plan at year end. Such investment is classified as Level 1.
Guaranteed interest accounts:	Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Such investments are classified as Level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured on a recurring basis at fair value as follows:

	INVESTMENTS AT FAIR VALUE AS OF DECEMBER 31, 2016			
	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
Pooled separate accounts	$ –	$ 5,723,681	$ –	$ 5,723,681

Total investments at fair value	$ 2,895,755	$ 5,876,268	$ –	$ 8,772,023

	INVESTMENTS AT FAIR VALUE AS OF DECEMBER 31, 2015			
	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL

Total assets at fair value	$ 2,608,263	$ 5,589,499	$ –	$ 8,197,762

6. PLAN TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a determination letter, dated July 7, 2010 that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since the receiving the determination letter, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no tax uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan Administrator believes it is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years prior to 2012.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following table reconciles net assets available for benefits, at fair value in the financial statements to the Form 5500, as of December 31, 2016 and 2015:

Uninvested non-interest bearing cash	5,268	4,181
Net assets available for benefits per the Form 5500	$ 8,874,092	$ 8,301,206

The following is a reconciliation of the net change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2016:

Net increase in net assets available for benefits per the financial statements	$ 578,722
Add: Excess contributions payable at December 31, 2016	7,888
Less: Excess contributions payable at December 31, 2015	(14,811)
Add: Uninvested non-interest bearing cash	1,086
Change in net assets available for benefits per the Form 5500	$ 572,885

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in pooled separate accounts, guaranteed interest accounts and a money market fund managed by John Hancock and notes receivable from participants. These transactions qualify as party-in-interest transactions as defined by ERISA. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

9. SUBSEQUENT EVENTS

The Plan Sponsor considered subsequent events through October 13, 2017, the date on which the Plan's financial statements were available for issuance.
