Profit Sharing Plan
Notes to the Financial Statements
December 31, 2016 & 2015

NOTE A: Plan Description

The following description of Sunshine Sachs & Associates Profit Sharing Plan provides only general information. Further detailed information regarding the plan can be found in the published plan document provided by the plan.

The plan is a defined contribution plan. It is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).The plan was established to provide retirement benefits for those employees of Sunshine Sachs & Assoc. and related companies who are eligible to participate.

Employees are eligible to participate upon completion of one year of service consisting of a minimum of 1000 hours during such period. The plan is funded through an employee salary deferral arrangement, employer discretionary contributions, and an employer safe harbor arrangement. Employer safe harbor and discretionary contributions were provided for the years 2016 and 2015 in accordance with plan document rules.

The plan is fully participant directed. Participants are provided with various investment alternatives. Separate accounts are maintained for each participant. Participants direct the investment of their contributions into various investment options offered by the plan. Each participant's account is credited with the participant's contribution, the earnings on his investments (which include realized and unrealized gains or losses), employer contributions, and any rollover from another qualified plan or IRA. Each participant's account is charged for investment advisory fees, management fees, administration fees, and fees charged by the underlying investment; all either allocated proportionally or directly charged to the participant's account.

The benefit, to which one is entitled, is the benefit that can be provided from the participant's vested portion of their account balance. Vesting in the account is immediate for the employee contribution, for the employer safe harbor contribution, and any rollover contributions, and the earnings thereon. The employer discretionary contributions vest in the individual's accounts under a six year vesting schedule.

Separated participants with deferred vested benefits totaled $ 457,018 at December 31, 2016 and $ 451,061 at December 31, 2015.

Any distribution taken by an individual will immediately cause the unvested amount to be forfeited. A forfeiture account is maintained for that purpose. The funds can be used to reduce future employer contributions or as a reduction of expenses. The balance in the account was $ 610 at December 31, 2015. (The $610 was used in 2016).

Detailed information regarding vesting, age and employment requirements, employee and employer contribution and distribution limits, are all detailed in the published document.

All expenses of maintaining the plan are paid by the plan sponsor. This includes mandatory plan fiduciary insurance, audit fees, and other operating costs. However, the sponsor can elect in the future not to pay these costs and let the plan pay them. This would affect the participant's net return on investment.

In general, the sponsor has the right to amend the plan, except that no amendment may reduce any benefit accrued to the account of, or earned by a participant. Similarly, the plan may be terminated by the sponsor but only in compliance with provisions of ERISA.

NOTE B: Significant Accounting Policies

1) Date of Management's review

Subsequent events were evaluated through October 14, 2017, the date the financial statements were available to be issued.

2) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan administration to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, as well as the disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

3) Basis of Accounting and Income Recognition

The accompanying financial statements are prepared on the accrual basis of accounting. Interest income is recorded on the accrual basis and dividend income is recorded on the ex-dividend date; both shown as investment income receivable on the statements of net assets available for benefits if applicable.

4) Investments

The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to buy an asset (or to transfer a liability) in an orderly transaction between market participants at the measurement date.

The investment alternatives mentioned in Note A are held and administered by Mass Mutual Life Insurance Co., the sole provider of the options. The options are all publicly traded mutual funds. They are valued daily based on the publicly available market price using a unit of value method. Transaction are recorded as purchased or sold based on that day's market price. Values are adjusted as of the date the underlying publicly traded investment adjusts its value for dividends, interest, gains & losses, etc. The unit of account concept allows fees and adjustments to be allocated to the individual accounts.

5) Fair Value Measurement

In accordance with authoritative guidance on fair value measurement the accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 input consists of unadjusted quoted prices in active markets for identical assets and has the highest priority.

Level 2 inputs consist of observable inputs other than quoted prices for identical assets.

Level 3 inputs have the lowest priority. They consist of unobservable inputs. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Although the investments reported use a unit of value concept for valuation, they were all valued at level 1 in the hierarchy.

The accompanying schedules on pages 11 & 12 show detailed information.

NOTE C: Information Prepared and Certified by the Custodian

The following financial summary information was certified as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and disclosure under ERISA, by Massachusetts Mutual Life Insurance Co., the trustee, transaction administrator, and custodian of the plan assets. The certified information included is outlined as follows:

Investment balances included in the Statement of Net Assets Available for Benefits as of December 31, 2016 and 2015:

	2016	2015
Mutual Funds	$ 782,383	$ 676,057

Investment activities included in the Statement of Changes in Net assets Available for Benefits for the years ended December 31, 2016 & 2015:

	2016	2015
Dividends & Interest	$148,331	$ 275,264
Gains & Losses	$ 46,710	$(379,024)

NOTE D: Party-in-Interest Transactions

The investment options offered are all managed by Massachusetts Mutual Life Insurance Co. who serves as the as custodian of the plan assets and as a Third Party Administrator. As such, they are considered parties in interest but are exempt from the prohibited transactions rules of ERISA.

NOTE E: Plan Amendments and Tax Status

The plan was formed by Thomson Reuters Services Inc. as a defined contribution volume submitter plan for the sponsor, effective January 1, 1992. There is on file an IRS approval letter dated March 31, 2014 stating that the plan and related trust are designed in accordance with applicable sections of the code and are tax exempt and can operate as a benefit plan. The plan has been amended over the years and has been restated to include language for changes in applicable laws and regulations required by the IRS. The most recent restatement is dated effective January 1, 2016. As a volume submitter a new determination letter is not necessary for any future amendments.

Plan management has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2016 there are no uncertain positions taken or expected to be taken that would require recognition of an asset, liability, or disclosure in the financial statements.

NOTE F: Risks and Uncertainties

The plan invests in various investment securities. These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
In addition, although plan management believes that their valuations of the investments are appropriate, the use of different methodologies to value those assets may result in a different valuation.

NOTE G: Form 5500

The plan, per government regulations, is required to file an annual report for employee benefit plans (Form 5500). The report is filed on a cash basis. However, the financial statements presented above are required to be on an accrual basis. The only difference between the two reports in 2016 was rounding differences too small to adjust.

NOTE H: Related Financial Schedules

The following schedule and all subsequent pages present information regarding the investments and are an integral part of the notes.
