INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
CSAA Insurance Services, Inc.
Walnut Creek, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of CSAA Insurance Group Health and Welfare Plan (f/k/a CSAA Insurance Exchange Health and Welfare Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company and The Bank of New York Mellon / BNY Mellon, N.A., the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that The Northern Trust Company held the Plan's investment assets and executed investment transactions from February 1, 2015 to December 31, 2015, and that The Bank of New York Mellon / BNY Mellon, N.A. held the Plan's investment assets and executed investment transactions as of and for the year ended December 31, 2014, and for the period January 1, 2015 to January 31, 2015. The plan administrator has obtained certifications from the trustees as of December 31, 2015 and 2014 and for the years then ended that the information provided to the plan administrator by the trustees is complete and accurate.

(Continued)

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following is a brief description of the CSAA Insurance Group Health and Welfare Plan (the Plan) formerly named the CSAA Insurance Exchange Health and Welfare Plan prior to January 1, 2015 and is provided for general information purposes only. The Plan was amended and restated in its entirety effective January 1, 2015, and its sponsor changed from CSAA Insurance Exchange (CSAA IE) and its subsidiaries to CSAA Insurance Services, Inc. (herein after referred to as the Company). The Company was originally organized as a California limited liability company but converted to a California corporation on August 10, 2015. Participants should refer to the Plan document for more complete information.

General

The Plan provides group health benefits (medical, prescription drug, hospital, surgical, major medical, dental, vision, health care spending account, dependent care spending account, limited purpose reimbursement account, short-term disability, long-term disability, life and accidental death and dismemberment insurance, business travel accident insurance and employee assistance program) to eligible employees, retirees and their covered dependents. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's trustee (the Trustee) changed from The Bank of New York Mellon/BNY Mellon, N.A. to The Northern Trust Company on February 1, 2015. The Company is the sponsor and administrator of the Plan. The Company has reserved the right to amend or terminate the Plan at any time subject to the provisions of ERISA. If the Plan is terminated, amounts will not revert to the Company but will be used to provide benefits or funds toward an alternative plan for employees.

Plan Changes

Effective January 1, 2015, the Plan was amended to provide that a certificate of creditable coverage would be provided upon request to the applicable Health Insurance Portability and Accountability Act (HIPAA) program, instead of being automatically generated.

On January 1, 2014, the Plan was amended and restated as follows:

- Retiree group health coverage was limited to pre-65 retirees and pre-65 dependents only (representing those retirees not eligible for Medicare). Employees terminating on or after January 1, 2014 will be eligible for coverage under the retiree benefit programs if they meet all of the following requirements at the time of termination:
    1. employee possesses at least 10 years of service,
    2. employee is age 55 – 64, and
    3. employee is enrolled in one or more of the medical, dental and vision benefit programs available under the Plan.
- Group medical, dental and vision plan coverage for current and future Medicare-eligible retirees and dependents was terminated for employees hired prior to July 1, 2007. A separate retiree-only Health Reimbursement Arrangement (HRA) for Medicare-eligible retirees and qualified spouses was established outside of the Plan.

Effective December 31, 2014, the Voluntary Employees' Beneficiary Association Trust (VEBA) was terminated, and was fully liquidated on January 15, 2015. As a result, the 401(h) account became the sole funding vehicle for retiree medical reimbursements.

Effective for the plan year ended on December 31, 2014, if a Participant had funds in the Participant's Health Care Spending Account or Limited Purpose Health Care Spending Account, up to $500 of unused funds were carried over to the next calendar year, provided that the Participant was an eligible participant in the Plan on the last day of the calendar year. Funds in excess of $500 were forfeited. Any

carryover would not affect the Participant's ability to contribute up to the maximum amount permitted under IRS rules for Health Care Spending Accounts. If a Participant enrolled in a Health Care Spending Account elected a medical plan option with a Health Savings Account during open enrollment, up to $500 of unused funds would automatically be carried over into a Limited Purpose Health Care Spending Account.

Eligibility and Contributions
Eligibility in the Plan commences on the first day of the month following the participant's date of hire with the Company, with a minimum of twenty-four hours per week of service. Retiree eligibility is effective upon qualification for early retirement under the CSAA Insurance Group Cash Balance Retirement Plan (Pension Plan) for retirees and their dependents.

Employees and retirees make contributions for a portion of their own and their dependents' coverage. Participant contributions are determined annually based on a survey of comparable plans for similar industries and the projected cost of benefits. The remaining contributions for dependent and retiree coverage are made by the Company.

A participant may elect to contribute a portion of his or her compensation to a health care, dependent care or limited purpose spending account (flexible spending) on a pre-tax basis. The amounts contributed are then used to reimburse the participant for medical care or dependent care expenses.

The flexible spending account is intended to be self-insured and the maximum a participant may elect to contribute is determined by the Company, but in any event may not exceed $2,500 for medical care and $5,000 for dependent care in accordance with Internal Revenue Code (IRC) Sections 213 and 129, respectively.

Plan Benefits
Medical benefits are provided through Kaiser Permanente, United Healthcare (UHC) Medicare Supplement Plan, and a self-insured plan. The Company has contracted with UHC to act as a third party administrator for the self-insured medical plan. Under the self-insured plan, the Company pays an administration fee and is responsible for all claims up to $500,000 per employee. Any claims in excess of this cap are absorbed by a stop loss policy. Dental and vision benefits are self-insured and administered by Delta Dental and Vision Service Plan (VSP), respectively.

Short and long-term disability program costs are 100% employer-paid. Short-term disability is self-insured and long-term disability is fully insured. Life and accidental death and dismemberment insurance costs are shared and are fully insured. Business travel accident insurance is 100% employer-paid and is fully insured.

401(h) Account – The Company's Pension Plan includes a health benefit component in addition to normal retirement benefits to fund a portion of the postretirement obligations for retirees and their dependents in accordance with Section 401(h) of the IRC. In accordance with IRC Section 401(h), investments in a 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. The related obligations for health benefits are not in the Company's Pension Plan obligations but are obligations of the Plan. Company contributions made to the 401(h) account during the years ended December 31, 2015 and 2014 were $0 and $1,000,000, respectively.

Claims Paid
Claim payments are made at the direction of the Company, following the provisions of the Plan for which benefits are paid.

Administrative and Investment Management Expenses
The Plan's trustee fees are paid by the Plan and are reflected in the Plan's financial statements as administrative expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

The Plan pays a fee based on participant counts to UHC, Delta Dental and VSP to administer participant claims and make payments to providers. All other expenses of the Plan are paid by the Company.

Forfeitures
For participants utilizing flexible spending accounts, claims received after March 31 in any year following the close of the prior Plan year will not be eligible for reimbursement under the Plan. Unused balances will be forfeited. Unused balances will be allocated at the sole discretion of the Company to a) pay for reasonable expenses of maintaining and administering the Plan for the Plan year in which the forfeiture occurs, or b) the subsequent Plan year's flexible spending accounts to reimburse claims incurred. Amounts forfeited for the years ended December 31, 2015 and 2014 were $61,023 and $18,638, respectively. Claims submitted for payment after December 31, 2015 and 2014, which have not been reflected in the accompanying financial statements totaled $249,150 and $228,010, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates and Assumptions
The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term to the estimates of the actuarial present value of benefit obligations.

Investment Valuation and Income Recognition
Under a trust arrangement, investments are held under a 401(h) account. The Plan's investments are reported at fair value. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties
Investments are exposed to various risks such as interest rate, market, liquidity, and credit risk. Due to the level of risk associated with certain Plan investments, as well as the sensitivity of fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of certain Plan investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of benefit obligations are reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payment of Benefits
Benefits are recorded when paid.

Recent Accounting Pronouncements
In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2015-12: Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965), I. Fully Benefit Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. Part I designates contract values as the only required measurement for fully benefit-responsive investment contracts. Part II eliminates certain disclosures such as individual investments that represent 5 percent or more of net assets available for benefit and net appreciation for investments by general type, and it simplifies required classes of assets in fair value disclosures. Part III addresses plans that have a fiscal year-end that does not coincide with a month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis for fiscal years beginning after December 15, 2015. The three topic amendment was issued to reduce complexity and increase effectiveness of plan investment disclosure requirements for employee benefit plans.

The guidance in ASU 2015-12, Topic 965, is applicable while Topics 960 and 962 are not applicable to the Plan. ASU 2015-12 Part II Plan Investment Disclosures guidance eliminates requirements to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. ASU 2015-12, Topic 965 Parts I and III are not applicable to the Plan. Early adoption is permitted and should be applied retrospectively. The Plan has elected to early adopt this guidance for the years ended December 31, 2015 and 2014, respectively. The adoption of this update impacted certain disclosures included in the Plan's financial statements, but had no effect on the Plan's net assets available for benefits and the changes therein.

In May 2015, the FASB issued ASU 2015-7: Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This amendment removes the requirement to categorize certain investments within the fair value hierarchy table at fair value but rather at net asset value per share (NAV) as practical expedient. The amendment also limits the disclosures to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance is effective for business entities with annual periods beginning after December 15, 2016 and is applied retrospectively. Early adoption is permitted. The Plan has elected to early adopt this guidance for the years ended December 31, 2015 and 2014, respectively. The adoption of this update impacted certain disclosures included in the Plan's financial statements**,** but had no effect on the Plan's net assets available for benefits and the changes therein.

3. Benefit Obligations

Postretirement Benefits
Postretirement benefit obligations as of December 31, 2015 and 2014 represent the actuarial present value of the estimated future benefits that are attributed to employee service rendered as of January 1, 2016 and 2015, respectively. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the Company. Prior to an active employee's retirement eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligations is the amount that results from applying actuarial assumptions to historical claim cost data to estimate future annual incurred claim costs per participant with adjustments for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. These estimates reflect the portion of those costs expected to be borne by Medicare, the retired participant, and other providers.

For measurement purposes at December 31, 2014, the assumed annual percentage rate of increase in the per capita cost of covered health care benefits ranged from 5.0% to 8.0%. At December 31, 2015 the actuary did not assume a trend rate as the Plan now offers a fixed subsidy effective January 1, 2016 through the HRA for the retiree to choose their own plan (see Subsequent Events note).

The significant actuarial assumptions used in the calculation of the actuarial present value of the postretirement benefit obligations as of December 31, 2015 and 2014 were as follows:

- Benefit eligibility - age plus years of credited service under the Pension Plan must equal 60 with a minimum of five years of service for employees hired prior to January 1, 2005; age 55 and ten years of service for employees hired on or after January 1, 2005; and, those employees hired on or after July 1, 2007 are not eligible for subsidized benefits
- Discount rate – 4.24% in 2015 and 4.0% in 2014. For 2015, a yield curve was used rather than a single-weighted discount rate
- Mortality – the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006 and projected with the Buck modified 2015 improvement scale was used at December 31, 2015. The RP-2014 Healthy Annuitant and Employee tables for males and females with generational projections from 2014 using projection scale MP-2014 with modifications was used at December 31, 2014
- Medicare benefits - Medicare reimbursement is considered in the Plan premiums
- Enrollment pattern - the health plan enrollment pattern of the future retirees was 25% electing UHC Preferred Provider Organization (PPO) and 75% electing to enroll in Kaiser Health Maintenance Organization (HMO)
- Plan participation – participation in the Plan for future retirees is based on years of service at retirement. The participation rate ranges from 25% for up to 9 years of service to 90% for 30 or more years of service

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligations.

Claims Incurred but not Reported
Benefit obligations for medical and dental claims incurred but not reported are estimated based on claim run-off experience and are subject to uncertainty.

Health claims incurred by retired participants but not reported at year end are included in the postretirement benefit obligations. Differences between estimates and actual payments for claims are recognized in the period in which claims are paid.

The Plan's benefit obligations at December 31, 2015 and 2014 are as follows:

	2015	2014
Amounts currently payable:		
Claims payable and claims incurred but not reported	$ 3,177,000	$ 2,614,000
Postretirement benefit obligations:		
Retired participants fully eligible for benefits	-	3,106,503
Other participants not yet fully eligible for benefits	-	2,731,404
Other participants fully eligible for benefits	-	1,307,058
	-	7,144,965

Balance at end of year	-	7,144,965
Total benefit obligations, end of year	$ 3,177,000	$ 9,758,965

On December 18, 2015, the Plan adopted an amendment to transfer the pre-65 retirees to the HRA effective January 1, 2016. As a result, the Plan no longer has postretirement benefit obligations as of December 31, 2015. The effect of the amendment reduces the actuarial plan benefit obligations for December 31, 2015 by $6,138,692. See subsequent events note for more information.

Note 1 details Plan amendments limiting the retirees' group health coverage effective January 1, 2014. The decrease in the actuarial valuation postretirement benefit obligation for December 31, 2014 of $24,805,493 is the result of the transfer of those postretirement benefit obligations to the HRA.

The health care cost-trend rate assumption does not have a significant effect on the amounts reported due to the cap on the Company's subsidy toward retiree medical costs. If the assumed rates increased by one percentage point in each year, there would be no impact to the total benefit obligations as of December 31, 2015 and no impact to the total benefit obligations as of December 31, 2014.

In December 2003, the United States enacted into law the Medicare Prescription Drug Improvement and Modernization Act of 2003 (the Act). The Act established a prescription drug benefit under Medicare, known as "Medicare Part D," and a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. The Plan's postretirement benefit obligation and the changes in the Plan's postretirement benefit obligation do not reflect any amount associated with the Medicare Part D subsidy because the Plan is not directly entitled to it. The accumulated postretirement benefit obligations disclosed by the Company in its financial statements differs from that disclosed in the Plan's financial statements because the Company's obligations are net of the Medicare subsidy.

4. Unaudited Information – Certified Investments

The trustee of the Plan holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments, including net assets held in the 401(h) account, included in the financial statements have been certified by them. This information has not been audited by independent accountants.

5. Fair Value Measurements

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan, including investment held in the 401(h) account.

Mutual Funds, Other Fixed Income Securities and Common Stocks: The fair values of mutual funds and common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges. Private mutual fund investments classified as other fixed income securities are carried at estimated fair value provided by management of the fund and are valued on the participation owned by the Plan as determined by the net asset value (NAV).

Corporate Bonds: Corporate bonds are valued based upon recent bid prices or the average of recent bid and asked prices when available and, if not available, they are valued through matrix pricing models developed by sources considered by the Company to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities.

U.S. Government Securities: U.S. government securities are valued at the closing price reported in the active market in which the individual securities are traded. Agency securities are valued based upon spreads off an appropriate U.S. Treasury issue.

Partnerships/Joint Ventures, 103-12 Investment Entities and Collective Trust Funds: Partnerships/ joint ventures, 103-12 investment entities and collective trust funds (alternative investments) are carried at estimated fair value provided by the management of the trust or entity. They are valued on the participation owned by the Plan as determined by the NAV (or its equivalent). The alternative investments utilize various valuation techniques which may rely on inputs such as private and public company comparables, third party appraisals, discounted cash flow models and fund manager estimates and analysis. A partnership/joint venture, 103-12 investment entity and collective trust fund are investment vehicles similar to a mutual fund, but without the same level of regulation. These funds generally invest in marketable securities and the fund fair values are based on audited financial statements. Because alternative investments are not readily marketable, the estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for the investment existed. The Company estimates the fair value of the alternative investments using the NAV and reviews the audited financial statements of the alternative investments to determine the reasonableness of the fair values as of year-end. Company management evaluates the valuation methods and inputs based on each fund's valuation policy and NAV in the fund's audited financial statements, and meets quarterly to review fund performance.

There have been no changes in the valuation techniques used during 2015 and 2014. The Plan's policy is to recognize transfers into Level 2 and 3 at the end of a reporting period, for securities that were held at the beginning of a reporting period. For securities transferred out of Level 2 and 3 and still held at the end of a reporting period, the Plan recognizes the transfers as of the beginning of the reporting period. There were no recurring assets transferred in or out of levels 1, 2 or 3 during the year ended December 31, 2015.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Cash and cash equivalents' investments measured at fair value on a recurring basis, which are held directly by the Plan, had Level 1 balances of $0 and $479 at December 31, 2015 and 2014, respectively.

The following tables present information with respect to the Plan's 401(h) assets carried at fair value as of December 31, 2015 and 2014.

7. Party-In-Interest Transactions

Parties-in-interest are defined under the Department of Labor's regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. In 2014, certain plan investments were managed by the Dreyfus Corporation (a subsidiary of the former Trustee) and therefore qualify as party-in-interest transactions. Amounts paid by the Plan to parties-in-interest included fees paid for investment management and actuarial services. Certain professional fees for the administration and audit of the Plan were paid by the Company. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

8. Tax Status

The tax filings for the VEBA's final year ended December 31, 2014, were submitted in November 2015. The California Form 199 and Federal Form 990 for the VEBA were timely filed with the California State Franchise Tax Board and IRS, respectively.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2015	2014
Net assets available for benefits per financial statements	$ 20,207,609	$ 23,781,995

The following is a reconciliation of total additions per the financial statements to the Form 5500:

	2015	2014
Total additions per financial statements	$ 43,455,874	$ 43,855,946
Less: Net increase (decrease) in 401(h) account	3,871,693	(86,351)
Net additions per Form 5500	$ 47,327,567	$ 43,769,595

10. Subsequent Events

Effective January 1, 2016, the Plan was amended to eliminate group health coverage to pre-65 retirees and pre-65 dependents and will no longer receive funds from the 401(h) for the 2016 plan year. With the elimination of the health coverage to all retirees and dependents, the 401(h) account is no longer used for funding purposes other than for claims that had been incurred but not paid as of December 31, 2015. The retiree-only HRA Plan was amended to include pre-65 retirees and qualified dependents. The retirees are reimbursed a fixed dollar portion of the premium based on year of retirement, years of service and other factors and they choose a health plan through an exchange. The amount of the fixed annual contribution under the HRA plan for the pre-65 retirees was designed to generally match the subsidy cap that was in place prior to 2016.

Subsequent events have been evaluated through September 14, 2016, the date the financial statements were available to be issued.
