Each year, participants may contribute a portion of their pre-tax and/or post-tax annual compensation up to the maximum deferral limit. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company will make safe harbor matching contributions in an amount equal to 100% of participant's contributions that are not in excess of 4% of their compensation to participants that have completed a minimum of one hour of service. The Company may elect to make voluntary matching contributions to the Plan in addition to the safe harbor matching contribution. Participants are eligible to receive an allocable share of the non-safe harbor matching contribution if they have completed a minimum of 500 hours of service in a six-month period. Participants may also be eligible to receive an allocation of forfeitures and any gains on Company contributions based on the eligibility requirements previously mentioned. Participants may direct the manner in which employer contributions are invested beginning in 2016 but could not do so in 2015. During the years ended December 31, 2016 and 2015, the Company elected to contribute $155,564 and $405,517, respectively, to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions if applicable and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's deferrals for matching contributions and account balances or specific participant transactions for administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A — DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are vested immediately in their contributions and employer safe harbor matching contributions plus earnings thereon. Participants become vested in employer non-safe harbor matching contributions plus earnings thereon for each full year of service, which consists of a minimum of 500 hours of service according to the following schedule: less than one year is 0%; one year but less than two years is 50%; two years or more is 100%. Service is calculated using all years of service after the first year.

Funding Policy

The Plan is funded through employee and employer contributions made to the trust accounts.

Payment of Benefits

On termination of service due to resignation, discharge, death, disability, or retirement, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. At December 31, 2016 and 2015, the vested account balances of employees who terminated services but had not received a distribution from the Plan totaled $537,102 and $328,817, respectively.

Participant Loans

The Plan allows participants to request loans from their accounts as of November 1, 2016. Participants may borrow from their accounts a minimum of $1,000 and a maximum amount of 50% of their account balance. Participants may only have one loan outstanding at any time and cannot refinance their loans. The loans are secured by the balance in the participant's account. Loans bear a rate of interest, which is determined at the original date of the loan. Principal and interest is paid ratably through biweekly payroll deductions.

Forfeitures

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $0 and $0, respectively. If these accounts have balances, they may be used to offset plan expenses, restore forfeitures, or to reduce or supplement future employer contributions. The Plan allocated $0 and $68,711 of non-vested forfeited amounts in 2016 and 2015, respectively. At December 31, 2016 and 2015, $80 and $195,439 in non-vested amounts may be forfeited in future Plan years.

Administration of Plan Assets

The Plan's assets were held in trust by State Farm Bank ("SFB"), State Farm Mutual Funds ("SFMF"), Wells Fargo Advisors ("Wells Fargo"), and Voya Retirement Insurance and Annuity Company ("Voya") through various dates in 2016. The Plan's assets were transferred from the aforementioned companies to LT Trust Company ("LT") at various dates in 2016. The Plan utilized the services of a third-party administrator to assist in the record keeping of the Plan in 2015 and then began using LT as its third-party administrator in 2016.

NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided at year end by SFB, SFMF, Wells Fargo, Voya, and LT. Please see Note G for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Investment interest and dividends are recorded as income when credited by SFB, SFMF, Wells Fargo, Voya, and LT.

The unallocated contract was held with Voya thru June 16, 2016. It was stated at contract value, which was equal to its fair value, as determined by Voya. The contract was not considered fully benefit-responsive.

The Plan has implemented *FASB Update 2015-12,* which eliminates the requirements to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or (depreciation) for investments disaggregated by general type. In addition, fully benefit-responsive investment contracts should be measured, presented and disclosed only at contract value. The amendment also eliminates the requirement to disclose various fair value measurements and other contract specific information for fully benefit-responsive investment contracts. The Plan has applied the change in accounting principle retrospectively, therefore; the disclosure of individual investment concentrations and net appreciation (depreciation) in fair value of investments by general type are not disclosed in the financial statements.

Payment of Benefits

Benefits are recorded when paid or approved for payment.

Administrative and Investment Expenses

Certain expenses of maintaining the Plan paid directly by the Company are excluded from these financial statements. Fees related to specific participant transactions are charged directly to the participant's account and are included in administrative expenses. Fees related to third-party administration and audit services are allocated among participants' accounts and are included in administrative expenses. Investment related expenses are allocated among participants' accounts and are included in net appreciation (depreciation) of fair value of investments.

NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Plan has evaluated subsequent events through April 26, 2018, the date the financial statements were available to be issued.

NOTE C — INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE D — PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE E — INVESTMENT CONCENTRATIONS

The Plan maintained its cash in money market accounts held with SFB and Wells Fargo through early 2016. The balances of the money market accounts, at times, may have exceeded federally insured limits.

NOTE F — INFORMATION PREPARED AND CERTIFIED BY TRUSTEES

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2016 and 2015, and net appreciation (depreciation) in fair value of investments for the year ended December 31, 2016, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by SFB, Voya, and LT, trustees of the Plan. The trustees prepared and certified the below information.

NOTE F — INFORMATION PREPARED AND CERTIFIED BY TRUSTEES (CONTINUED)

	2016	2015
Investments at fair value		
Money markets	$ 24,582	$ 76,797
Pooled separate accounts	-	1,263,088

Stocks	58,025	-
Unallocated contract	-	264,893
Net appreciation (depreciation) of investments	11,675	(13,707)

NOTE G — FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under *FASB ASC 820 Fair Value Measurements* are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation of other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

Money Markets: Valued at $1 per share as reported by SFB, Wells Fargo, and LT.

Mutual Funds: Valued at the daily closing price as reported on the stock exchange and as provided by SFMF, Wells Fargo, and LT.

Stocks: Valued at the daily closing price as reported on the stock exchange and as provided by LT.

NOTE G — FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate accounts: Valued at the NAV of units of the separate accounts. The NAV, as provided by Voya, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, the fund's dividends and separate account charges. Transactions (purchases and sales) may occur daily. Please see Note H for discussion on NAV.

Unallocated contract: Valued at contract value, which is equal to its fair value, as determined by Voya. The contract value is based on the fair value of the underlying investments held in the general account of Voya. The contract value reflects the approximate amount that would be paid if the contract had been terminated as of the last day of the reporting period and potential surrender charges and market value adjustments were applied as of such date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value as of December 31, 2016:

	Level 1	Level 2	Total

	$ 1,308,117	$ 1,527,981	$ 2,836,098

NOTE H — FAIR VALUE OF INVESTMENTS THAT USE NAV

The following summarizes investments measured at fair value based on NAV per share as of December 31, 2015:

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Nonparticipant-directed pooled separate accounts	$808,892	$ -	Daily	1 Day
Participant-directed pooled separate accounts	$454,196	$ -	Daily	1 Day

NOTE I — TERMINATION CLAUSES

The Plan had assets that were invested in unallocated contracts through June 16, 2016. The unallocated contracts may have been subject to either a market value adjustment or paid in installments as elected by the contract holder at time of surrender.

NOTE J — RECLASSIFICATIONS

Certain 2015 amounts may have been reclassified to conform to 2016 classifications. Such reclassifications had no effect on reported changes in net assets.

NOTE K — OTHER EMPLOYER RECEIVABLE

The Plan had a receivable from the Company in addition to the amount included on the statement of net assets available for benefits at December 31, 2015. The additional receivable was approximately $43,857. The receivable is included on the statement of net assets available for benefits at December 31, 2016. Distributions for employee funds were distributed from employer funds. The receivable was not included on the statement of net assets available for benefits because the funds were still reflected in investments held in the Plan at December 31, 2015. The funds were reflected in investments held under employee funds but the funds should have been reflected in investments held under employer funds.

NOTE L — RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of stocks and mutual funds managed by SFMF, Wells Fargo, Voya, and LT, which are trustees. Therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note B, the Plan made direct payments to the third-party administrator and the auditor for services rendered. The Company pays directly any other fees related to the Plan's operations.

NOTE M — RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
